Report on the Financial Statements

We have audited the accompanying financial statements of the Robin Industries, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits of the Plan for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

1 Description of Plan

The following description of Robin Industries, Inc. Employee Stock Ownership Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all eligible employees of Robin Industries, Inc. The Plan's original adoption date was June 15, 2012 and the original effective date was January 1, 2012. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975 (e)(7) and the regulations of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an oversight committee.

The Plan purchased Robin Industries, Inc. (Company) common shares using the proceeds of a loan from the Company (see Note 6) and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of fifteen years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of stock. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2017 and 2016 and for the years then ended present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated stock (Allocated) and
- (b) stock not yet allocated to employees (Unallocated)

Eligibility:

All employees of the Company age eighteen and older who have completed one thousand hours of service and are employed on the last day of the Plan year are eligible to participate in the Plan.

Contributions:

Contributions are made by the Company on a discretionary basis.

The Company's contributions, if any, may be made in cash or common stock of the Company, or both. For the Plan years ending December 31, 2017 and 2016, the Company's contributions were made in cash.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

1 Description of Plan, Continued

Contributions, Continued:

For Plan years 2012-2014 the contribution will be allocated 60% pro-rata to eligible compensation and allocated 40% pro-rata to years of service. For Plan years 2015-2017 the contribution will be allocated 70% pro-rata to eligible compensation and allocated 30% pro-rata to years of service. For year 2018 and beyond, the ratio will be allocated 80% pro-rata to eligible compensation and allocated 20% pro-rata to years of service.

Participants' Account:

Each participant's account is credited with the participant's allocation of (a) the Company's contribution (b) Dividend income and (c) the Plan's earnings and losses. Allocations of Company contributions were based on a specified allocation schedule, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. The Plan's earnings and losses are allocated based on the ratio of the balance of the portion of such account in the Trust as of the preceding valuation date.

Vesting:

Each Participant is credited with one Year of Service for every three continuous years of employment prior to the Effective Date, in which a Participant worked at least 500 hours for the Company.

Vesting in the Participant's account balance, after prior service is taken into account, is based on years of service based on the following:

<u>Years of Service</u>	<u>Vested %</u>
Less than 2	0%
2, but less than 3	20%
3, but less than 4	40%
4, but less than 5	60%
5, but less than 6	80%
6 or more	100%

A participant would become 100% vested upon death, disability, and attainment of normal retirement age (65).

Payment of Benefits:

Upon termination of service due to attainment of normal retirement age, death or disability, the participant may elect to receive an amount equal to the value of the vested balance in shares of stock or cash not later than one year after the event occurs. If the participant leaves for other situations and the vested account balance is less than \$1,000, the balance can be paid in a lump sum. If the participant leaves for other situations and the vested account balance is greater than \$1,000, the balance will be paid after a five year waiting period to be paid in annual installments.

Robin Industries, Inc. Employee Stock Ownership Plan

1 Description of Plan, Continued

Diversification:

Participants who are at least age 55 with at least ten years of participation in the Plan may elect to transfer 25% to 50% of the value of the total number of shares represented by the Employer Stock Fund account to another qualified plan, invest the diversified portion in at least three investment options other than investment in Company securities, or take a distribution in cash. There were no diversifications in Plan years ending December 31, 2017 and 2016.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

The Plan's investments are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. Company common stock is valued by an independent appraiser.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Administration fees are paid by the Company.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

2 Summary of Significant Accounting Policies, Continued

Risks and Uncertainties:

The Plan's investments include investments in the Company's stock and a money market account, with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for Plan benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 28, 2018, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

3 Fair Value Measurements, Continued

Money Market Accounts:

The money market funds are valued at the closing price reported by the fund sponsor from an actively traded exchange. These are classified within Level 2 of the valuation hierarchy.

Common Stock:

The fair value of the Sponsor Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior year. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves the Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP Trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. These instruments are classified within Level 3 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2017

4 Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated January 15, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

5 Party-in-Interest Transactions

Certain professional fees for the administration, trustee, appraisal services and audit of the Plan were paid by the Company. First Bankers Trust Services, Inc. is the Trustee as defined by the Plan and The Principal Financial Group is the Recordkeeper of the Plan. Both of these qualify as parties in interest.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

6 Loan Payable

In 2012, the Plan entered into a \$11,608,222 term loan agreement with Robin Industries, Inc. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over fifteen years. The loan bears interest at 2.23%. The annual principal payment is \$773,882 which could change each year due to principal pre-payments. The loan was paid in full in March 2017.

7 Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the Trustee of the Plan.

The contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan.

8 Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised.

9 Subsequent Event

On June 15, 2018, the Company redeemed the remaining shares held by individual shareholders so that the ESOP is now the sole shareholder of the Company.

Report on the Financial Statements

We have audited the accompanying financial statements of the Robin Industries, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits of the Plan for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

1 Description of Plan

The following description of Robin Industries, Inc. Employee Stock Ownership Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all eligible employees of Robin Industries, Inc. The Plan's original adoption date was June 15, 2012 and the original effective date was January 1, 2012. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975 (e)(7) and the regulations of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an oversight committee.

The Plan purchased Robin Industries, Inc. (Company) common shares using the proceeds of a loan from the Company (see Note 6) and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of fifteen years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of stock. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2017 and 2016 and for the years then ended present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated stock (Allocated) and
- (b) stock not yet allocated to employees (Unallocated)

Eligibility:

All employees of the Company age eighteen and older who have completed one thousand hours of service and are employed on the last day of the Plan year are eligible to participate in the Plan.

Contributions:

Contributions are made by the Company on a discretionary basis.

The Company's contributions, if any, may be made in cash or common stock of the Company, or both. For the Plan years ending December 31, 2017 and 2016, the Company's contributions were made in cash.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

1 Description of Plan, Continued

Contributions, Continued:

For Plan years 2012-2014 the contribution will be allocated 60% pro-rata to eligible compensation and allocated 40% pro-rata to years of service. For Plan years 2015-2017 the contribution will be allocated 70% pro-rata to eligible compensation and allocated 30% pro-rata to years of service. For year 2018 and beyond, the ratio will be allocated 80% pro-rata to eligible compensation and allocated 20% pro-rata to years of service.

Participants' Account:

Each participant's account is credited with the participant's allocation of (a) the Company's contribution (b) Dividend income and (c) the Plan's earnings and losses. Allocations of Company contributions were based on a specified allocation schedule, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. The Plan's earnings and losses are allocated based on the ratio of the balance of the portion of such account in the Trust as of the preceding valuation date.

Vesting:

Each Participant is credited with one Year of Service for every three continuous years of employment prior to the Effective Date, in which a Participant worked at least 500 hours for the Company.

Vesting in the Participant's account balance, after prior service is taken into account, is based on years of service based on the following:

<u>Years of Service</u>	<u>Vested %</u>
Less than 2	0%
2, but less than 3	20%
3, but less than 4	40%
4, but less than 5	60%
5, but less than 6	80%
6 or more	100%

A participant would become 100% vested upon death, disability, and attainment of normal retirement age (65).

Payment of Benefits:

Upon termination of service due to attainment of normal retirement age, death or disability, the participant may elect to receive an amount equal to the value of the vested balance in shares of stock or cash not later than one year after the event occurs. If the participant leaves for other situations and the vested account balance is less than \$1,000, the balance can be paid in a lump sum. If the participant leaves for other situations and the vested account balance is greater than \$1,000, the balance will be paid after a five year waiting period to be paid in annual installments.

1 Description of Plan, Continued

Diversification:

Participants who are at least age 55 with at least ten years of participation in the Plan may elect to transfer 25% to 50% of the value of the total number of shares represented by the Employer Stock Fund account to another qualified plan, invest the diversified portion in at least three investment options other than investment in Company securities, or take a distribution in cash. There were no diversifications in Plan years ending December 31, 2017 and 2016.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

The Plan's investments are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. Company common stock is valued by an independent appraiser.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Administration fees are paid by the Company.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

2 Summary of Significant Accounting Policies, Continued

Risks and Uncertainties:

The Plan's investments include investments in the Company's stock and a money market account, with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for Plan benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 28, 2018, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

NOTES TO FINANCIAL STATEMENTS

Robin Industries, Inc. Employee Stock Ownership Plan

3 Fair Value Measurements, Continued

Money Market Accounts:

The money market funds are valued at the closing price reported by the fund sponsor from an actively traded exchange. These are classified within Level 2 of the valuation hierarchy.

Common Stock:

The fair value of the Sponsor Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior year. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves the Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP Trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. These instruments are classified within Level 3 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Money Market Fund	\$ -	\$ 993,017	\$ -	\$ 993,017

4 Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated January 15, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

5 Party-in-Interest Transactions

Certain professional fees for the administration, trustee, appraisal services and audit of the Plan were paid by the Company. First Bankers Trust Services, Inc. is the Trustee as defined by the Plan and The Principal Financial Group is the Recordkeeper of the Plan. Both of these qualify as parties in interest.
