NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED MARCH 31, 2018 AND 2017

1. DESCRIPTION OF THE PLAN

The following description of The Restated Ag Processing Inc Retirement Plan (Participating Employer—AGP Grain Marketing, LLC, Group 527) (the “Plan”) is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General—The Plan is a noncontributory defined benefit plan administered by Associated Benefits Corporation (the “Plan Administrator”) that covers substantially all full-time employees of AGP Grain Marketing, LLC. Employees who work 1,000 hours or more per year are eligible on the first day of the first or the seventh month of the Plan year following the attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Prior to October 18, 2016, the Plan invested in The Retirement Trust for Cooperatives (the “Prior Trust”). The Plan’s funds were commingled with other plans participating in the Prior Trust. The investments held in the Prior Trust and related net investment income reported prior to October 18, 2016 represent the Plan’s allocable portion of such investments and net investment income. On October 18, 2016, the investments in the Prior Trust were allocated and transferred or sold with the proceeds allocated to individual trusts for each participating plan. Subsequent to the allocation and transfer of assets on October 18, 2016, the Plan’s investments were held in its own trust.

Pension Benefits—Participants can retire with their full pension on the first day of the month coincident with or immediately following their 65th birthday (normal retirement), attainment of age 62 with at least 5 years of service, or upon satisfying the Rule of 85 by reaching a combined total of age and years of service of 85 total years.

The monthly pension benefit under the Plan is equal to 1.15% of average monthly earnings, as defined, up to \$833.33 plus 1.65% of average monthly earnings in excess of \$833.33 multiplied by years of credited service. The normal form is a pension payable for the participant’s lifetime. However, an actuarially reduced joint and 50% survivorship basis with 120 guaranteed monthly payments is the automatic form for married participants unless both the participant and spouse elect another form.

Participants become vested in the employer contributions and earnings thereon at the rate of 20% after completion of two years of service and 20% for each year of service thereafter. Participants become fully vested after six years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan utilizes various investment securities including cash and money market funds, and equity funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition—Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Expenses—Investment expenses consisting of trustee fees and investment management fees are paid from Plan assets. Trustee fees and investment management fees are deducted from investment income or loss.

Administrative Expenses—Administrative expenses consisting of actuarial fees and payments to the Pension Benefit Guarantee Corporation (PBGC) are paid from Plan assets. Other administrative expenses, including expenses of the Plan Administrator, are paid by the Participating Employer.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Subsequent Events—Subsequent events have been evaluated through August 31, 2018, the date the financial statements were available to be issued. The Plan has determined that there are no material events that require adjustment to or disclosure in these financial statements.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of and for the year ended March 31, 2018, included in the Plan's financial statements and supplemental schedules, that was prepared by Wells Fargo Bank, N.A., the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that such information is complete and accurate.

2018

Statements of net assets available for benefits:

Investments—at fair value	\$ 20,301,796
Accrued income	276

Statements of changes in net assets available for benefits:

Investment income	232,990
Net appreciation in fair value of investments	1,421,212

Supplemental schedules: All investment balances and information included in the schedules.

Note 6: All investment balances and investment information, except for the classification of investments into levels within the fair value hierarchy.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Participating Employer. The Participating Employer's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Participating Employer met the minimum funding requirements of ERISA for the years ended March 31, 2018 and 2017. For financial statement purposes, all employer contributions made to meet the minimum funding requirements of ERISA are considered attributable to the current plan year and are accrued in the financial statements if not paid by year end. For PBGC funding purposes, all employer contributions made to the Plan prior to the filing of the Form 5500 are considered attributable to the previous year.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' compensation and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent actuaries. Accumulated plan benefits are presented using beginning of the year benefit information date. The actuarial present value of accumulated plan benefits below is measured as of April 1, 2017, which is a proxy for March 31, 2017. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the valuations as of April 1, 2017 and 2016 were as follows:

	April 1, 2017	April 1, 2016
Interest rate	6.84%	7.50%
Mortality	RP2014 separate annuitant/non-annuitant mortality tables projected with improvement based on Scale MP2017	RP2014 separate annuitant/non-annuitant mortality tables projected with improvement based on Scale MP2015
Salaries	Will increase according to an age-related table ranging from 7.50% down to 2.75%	Will increase according to an age-related table ranging from 7.50% down to 2.75%

In addition, eligible employees will retire according to the following schedule—employees eligible for the special rule of 85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to rule of 85 retirements after the first year since becoming eligible and regular retirements. The first year rates will not start before age 55 even if the rule of 85 applies earlier, nor will they ever fall below the ultimate rate for that age.

As of April 1, 2017 and 2016, the rates of retirement assumed were as follows:

Age	First Year	Ultimate
55–60	6 %	3 %
61		10
62		30
63		25
64		25
65		40
66		25
67		25
68		25
69		25
70 and over		100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The actuarial present value of accumulated plan benefits as of April 1, 2017, using the aggregate cost method, is as follows:

Vested:	
Active participants	\$ 6,014,667
Beneficiaries and retirees	5,548,710
Term vested participants	<u>2,301,723</u>
	13,865,100
Nonvested active participants	<u>60,054</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 13,925,154</u>

The changes in the actuarial present value of accumulated plan benefits from April 1, 2016 to April 1, 2017 are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 11,455,443</u>
Increase (decrease) during the year attributable to:	
Benefit accumulations	704,512
Increase for change in actuarial assumption and actuarial gains and losses	1,536,586
Increase for interest due to the decrease in the discount period	859,158
Benefits paid	(630,545)
Net change	<u>2,469,711</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 13,925,154</u>

6. FAIR VALUE MEASUREMENTS

In accordance with GAAP, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at March 31, 2018 and 2017.

Certain investments in mutual funds are valued based upon quoted prices from active markets. These investments in mutual funds are categorized as Level 1.

Money market funds held are primarily short-term money market commingled funds that are categorized as Level 2. They are valued at cost plus accrued interest, which approximates fair value.

Certain funds are valued at the net asset value of units of a bank collective trust. The net asset value (NAV) as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the bank collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As the practical expedient is utilized, these certain funds are not included in the fair value leveling table, but are included as a reconciling line item to the statements of net assets.

The following table set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at March 31, 2018 and 2017, respectively.

	Fair Value Measurements at March 31, 2018, Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	\$ 7,716,119	\$ -	\$ -	\$ 7,716,119
Money market funds	<u> </u>	<u>211,039</u>	<u> </u>	<u>211,039</u>
	<u>\$ 7,716,119</u>	<u>\$ 211,039</u>	<u>\$ -</u>	7,927,158
Funds valued at NAV				<u>12,374,638</u>
Total				<u>\$ 20,301,796</u>

Fair Value Measurements at March 31, 2017, Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
			Total
Mutual funds	\$ 6,582,711	\$ -	\$ 6,582,711
Money market funds		187,667	187,667
	<u>\$ 6,582,711</u>	<u>\$ 187,667</u>	<u>6,770,378</u>
Funds valued at NAV			<u>11,701,178</u>
Total			<u>\$ 18,471,556</u>

Transfers Between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the years ended March 31, 2018 and 2017.

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Asset Value (NAV) per Share—The Plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV as of March 31, 2018 and 2017. The following tables set forth a summary of the Plan's investments with a reported NAV as of March 31, 2018 and 2017, respectively.

Fair Value Estimated Using Net Asset Value per Share March 31, 2018					
Investment	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period

International fixed income funds	(c)	<u>367,511</u>	<u> </u>	Immediate	None	None
Total		<u>\$ 11,701,178</u>	<u>\$ -</u>			

* The fair values of the investments have been estimated using the NAV of the investment.

- (a) The domestic stock funds seek to provide long-term growth of capital by investing primarily in equity securities and to achieve above average results over a market cycle. The funds employ a "multi-style, multi-manager" approach whereby portions of the domestic stock funds are allocated to different money managers who employ distinct investment styles. The funds use three principal investment styles intended to complement one another:

Growth: Emphasizes investments in equity securities of companies with above-average earnings growth prospects.

Value: Emphasizes investments in equity securities of companies that appear to the money manager to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures.

Market-Oriented: Emphasizes investments in companies from the broad equity market rather than focusing on the growth or value segments of the market.

- (b) The international stock funds provide participation in financial markets outside of the United States. The international stock funds invest in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. These funds invest primarily in equity securities issued by foreign corporations, but may invest in other securities perceived as offering attractive investment return opportunities. As with the domestic equity funds, the international equity funds combine Growth, Value, and Market-Oriented Advisers to ensure style diversification.
- (c) The fixed income funds strategies seek to invest at least 80% of their net assets plus any borrowing for investment purposes in a diversified portfolio of bonds, including corporate bonds of domestic and foreign issuers payable in U.S. dollars, short-term debt instruments, mortgage-related securities, and U.S. Treasury securities and other debt securities issued or guaranteed by the U.S. Government (including its agencies and instrumentalities). Although the strategies seek to invest primarily in investment-grade debt securities (i.e., those rated in the four highest rating categories by S&P or Moody's), they may include investing a portion of their net assets in bonds rated below investment grade.

7. INVESTMENTS AND INTEREST IN THE RETIREMENT TRUST FOR COOPERATIVES

Prior to October 18, 2016, the Plan was invested and a participant in the Prior Trust, managed by Wells Fargo Bank, N.A., as trustee, and on behalf of the Plan under the terms of the trust agreement between Wells Fargo Bank, N.A. and the Plan. The authority to invest was vested in the appointed money managers, subject to the funding policy and investment objectives established by the Plan Administrator. The changes in investments of the Prior Trust were reported to the Plan by the trustee and determined through the use of fair values. Since the Plan's funds were commingled with other plans participating in the Prior Trust, the net investment income reported from April 1, 2016 through October 17, 2016 reflect only the Plan's allocable portion based on the relationships of the interest of each plan to the total interests of the participating plans. From October 18, 2016 and subsequent, the Plan's investments are held in its own trust, managed by Wells Fargo Bank, N.A., as trustee.

The changes in net assets of the Prior Trust for the year ended March 31, 2017, is summarized below:

	2017
NET ASSETS AVAILABLE FOR BENEFITS—	
Beginning of year	<u>\$ 721,699,785</u>
Investment income:	
Interest and dividend income	973,805
Net appreciation	38,163,948
Investment expenses	<u>(631,438)</u>
Net investment income	38,506,315
Expenses	451,342
Transfer of assets:	
To Prior Trust (contributions)	19,910,308
From Prior Trust (benefit payments, disbursements, and transfers)	<u>(779,665,066)</u>
Net change	<u><u>\$ (721,699,785)</u></u>
NET ASSETS AVAILABLE FOR BENEFITS—	
End of year	<u>\$ -</u>
Plan's allocable portion of net investment income of The Retirement Trust for Cooperatives	<u><u>\$ 859,272</u></u>

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds which are managed by the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Participating Employer and the Plan Administrator by a letter dated July 23, 2014, that the Plan and related trust were designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Participating Employer and the Plan Administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Participating Employer and the Plan Administrator believe it is no longer subject to income tax examinations for years prior to 2015.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Participating Employer has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Groups 216, 323, 326, and 415, do not have a pre-retirement withdrawal assumption.

Groups 509, 510, 513, 514, and 516 use the ultimate rates of termination for all years.
