Notes to Financial Statements

As of and for the Years Ended March 31, 2018 and 2017

1. Description of the Plan

The following description of The Restated Noncontributory Retirement Plan for Cooperatives (Participating Employer – Mid Iowa Coop, Group 324) (“Plan”) is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General – The Plan is a noncontributory defined benefit plan administered by Associated Benefits Corporation (“Plan Administrator”) that covers substantially all full-time employees of Farmers Cooperative Company. Employees who work 1,000 hours or more per year are eligible on the first day of the first or the seventh month of the Plan year following the attainment of age 21 and 4 months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Funding Policy – Contributions to provide benefits under the Plan are made solely by the participating employer. The participating employer’s funding policy is to make cash contributions to the Plan in amounts as determined by the Plan’s independent actuary. The participating employer met the minimum funding requirements of ERISA for the years ended March 31, 2018 and 2017. For financial statement purposes, all employer contributions made to meet the minimum funding requirements of ERISA are considered attributable to the current plan year and are accrued in the financial statements if not paid by year end. For PBGC funding purposes, all employer contributions made to the Plan prior to the filing of the Form 5500 are considered attributable to the previous year.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits – Participants can retire with their full pension on the first day of the month coincident with or immediately following the latter of their 65th birthday (normal retirement), attainment of age 62 with at least 5 years of service, or upon satisfying the Rule of 85 by reaching a combined total age and years of service of 85 total years.

The monthly pension benefit under the Plan is equal to 1.1 percent of average monthly earnings, as defined, multiplied by years of credited service. The normal form is a pension payable for the participant’s lifetime. However, an actuarially reduced joint and 50 percent survivorship basis with 120 guaranteed monthly payments is the automatic form for married participants unless both the participant and spouse elect another form.

The computations of the actuarial present value of accumulated Plan benefits were made as of April 1, 2017 and 2016. Had the valuations been prepared as of March 31, 2017 and 2016, there would be no material difference.

Participants become 100% vested in employer contributions and earning thereon after completion of five years of service.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses – Administrative expenses consisting of Trustee fees, investment management fees, actuarial fees, and payments to the Pension Benefit Guarantee Corporation (PBGC) are paid from Plan assets. Other administrative expenses, including expenses of the Plan Administrator, are paid by the participating employer. Trustee fees and investment management fees are deducted from investment income or loss.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

3. **Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' contributions, compensation, and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by independent actuaries. The amount results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the valuations as of April 1, 2017 was as follows:

Interest Rate	4.2% - 6.5% per annum
Mortality	RP 2000, 2017 Annuitant and Non-Annuitant static separate tables as set forth in Proposed Regulation 1.430(h)(3)-1
Turnover	Based on selected rates of turnover for the first four years of service and on termination rates from Table T-5 of the Actuary's Pension Handbook
Spouse's benefit	80% of employees are assumed to be married with male spouses 2 years older
Salaries	Will increase according to age-related table ranging from 7.5% to 2.8%
Expenses	Investment related expenses and administration expenses will be paid from investment income in excess of assumed rates of return
Contingency fund charge	Contingency funds were allocated to the appropriate group and are no longer funded by a charge

In addition, eligible employees will retire according to the following schedule – employees eligible for the special rule of 85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to rule of 85 retirements after the first year since becoming eligible and regular retirements. The first-year rates will not start before age 55 even if the rule of 85 applies earlier, nor will they ever fall below the ultimate rate for that age.

As of April 1, 2017, the rates of retirement assumed were as follows:

Age	As determined on April 1, 2017	
	First Year	Ultimate
55	6 %	3 %
56	6	3
57	6	3
58	6	3
59	6	3
60	6	3
61		10
62		30
63		25
64		25
65		40
66		25
67		25
68		25
69		25
70 and over		100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The actuarial present value of accumulated Plan benefits, using the aggregate cost method, is determined as follows on April 1, 2017:

Vested:	
Active Participants	\$ 2,295,354
Beneficiaries and retirees	2,176,800
Other Participants (including participants active at other groups)	532,091
	<u>5,004,245</u>
Nonvested Active Participants	78,856
Total Actuarial Present Value of Accumulated Plan Benefits	<u><u>\$ 5,083,101</u></u>

The changes in the actuarial present value of the Plan's accumulated benefits from April 1, 2016 to April 1, 2017 are as follows:

Actuarial Present Value of Accumulated Plan Benefits at Beginning of Year	<u>\$ 3,917,338</u>
Increase (Decrease) During the Year Attributable to:	
Benefit Accumulations/Actuarial Gains and Losses	299,620
Increase for Change in Actuarial Assumption	741,473
Increase for Interest Due to the Decrease in the Discount Period	293,800
Benefits Paid	<u>(169,130)</u>
Net Increase	<u>1,165,763</u>
Actuarial Present Value of Accumulated Plan Benefits at End of Year	<u><u>\$ 5,083,101</u></u>

4. Plan Termination

Although, it has not expressed any intention to do so, the participating employer has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

5. Certification

The Company has obtained certification from Wells Fargo Bank n.a. that the following information is complete and accurate:

Earnings from Investments
Investment Valuations

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). This hierarchy consists of three broad levels:

Level 1 – Quoted prices in active markets for identical financial instruments that are accessible at the measurement date.

Level 2 – Quoted prices in active markets for similar financial instruments, quoted prices for identical or similar financial instruments in markets that are not active, and models and other valuation methodologies using inputs other than quoted prices that are observable.

Level 3 – Models and other valuation methodologies using significant inputs that are unobservable for financial instruments.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of March 31, 2018 and 2017.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common and Collective Trust Funds: Valued at the net asset value of the units of the trust.

Certain Investments in equity funds are valued based upon quoted prices from active markets. These investments in equity funds are categorized as Level 1.

Cash and money market funds held are primarily short-term money market commingled funds that are categorized as Level 2. They are valued at cost plus accrued interest, which approximates fair value.

Certain equity funds are valued at the net asset value of units of a bank collective trust. The net asset value (NAV) as provided by the trustee, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner. As the practical expedient is utilized, these certain equity funds are not included in the fair value leveling table, but are included as a reconciling line item to the statements of net assets available for benefits.

The following tables set forth, by level within the fair value hierarchy, a summary of the Plan's investments measured at fair value on a recurring basis at March 31, 2018 and 2017:

	Fair Value Measurements at March 31, 2018, Using			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Cash Equivalents	\$ --	112,214	--	112,214
Mutual Funds	2,728,462	--	--	2,728,462
Total Assets in the Fair Value Hierarchy	<u>\$ 2,728,462</u>	<u>112,214</u>	<u>--</u>	2,840,676
Common and Collective Trusts Valued at NAV				4,424,770
Total				<u>\$ 7,265,446</u>

	Fair Value Measurements at March 31, 2017, Using			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Cash Equivalents	\$ --	64,019	--	64,019
Mutual Funds	2,291,175	--	--	2,291,175
Total Assets in the Fair Value Hierarchy	<u>\$ 2,291,175</u>	<u>64,019</u>	<u>--</u>	2,355,194
Common and Collective Trusts Valued at NAV				4,076,703
Total				<u>\$ 6,431,897</u>

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers Between Levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the years ended March 31, 2018 and 2017.

Net Asset Value (NAV) per Share – The Plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of March 31, 2018 and 2017. The following tables set forth a summary of the Plan and Master Trust's investment with a reported NAV:

Fair Value Estimated Using Net Asset Value per Share March 31, 2018					
Investment	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemptic Notice Period
Common and Collective Trusts	<u>\$ 4,424,770</u>	<u>--</u>	Immediate	None	0-1 days

Fair Value Estimated Using Net Asset Value per Share March 31, 2017					
Investment	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemptic Notice Period
Common and Collective Trusts (a)	<u>\$ 4,076,703</u>	<u>--</u>	Immediate	None	0-1 days

*The fair values of the investments have been estimated using the net asset value of the investment.

7. Investments

During 2018 and 2017, the Plan's investments and interest in The Retirement Trust for Cooperatives (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2018	2017
Plans Allocable Portion of Net Investment Income of The Retirement Trust for Cooperatives	\$ --	292,127
Interest and Dividends	--	31,522
Net Appreciation of Investments	--	309,036
Net Investment Income	\$ -	\$ 632,685

8. Investments and Interest in the Retirement Trust for Cooperatives

Until October 2016, Wells Fargo Bank, n.a. managed the Trust on behalf of the Plan under the terms of the trust agreement between the Wells Fargo Bank, n.a. and the Plan. The Plan was a participant in the Trust. The authority to invest is vested in the appointed money managers, subject to the funding policy and investment objectives established by the Plan Administrator. The investments and changes therein of the Trust had been reported to the Plan by Wells Fargo Bank, n.a. ("Trustee") as having been determined through the use of fair values. Since the Plans' funds were commingled with other plans participating in the Trust, the investments reported in these financial statements for the Plan year ending March 31, 2016, reflect only the Plan's allocable portion of the individual investments. Although assets of all plans were commingled in the Trust, the Plan Administrator maintained supporting records for the purpose of allocating the net investment income to the participating plans. The net investment income was allocated by the Plan Administrator to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

During the years ended March 31, 2018 and 2017, the Trust's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2018	2017
Interest and Dividend Income	\$ --	973,805

9. Risks and Uncertainties

The Plan's investments, including the prior year's interest in the Retirement Trust for Cooperatives (the "Trust"), contain various investment securities including cash and money market funds, and equity funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with the certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated Plan Benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

10. **Federal Income Tax Status**

The Internal Revenue Service has determined and informed the Plan Administrator by a letter dated April 30, 2012, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

11. **Exempt Party-In-Interest Transactions**

Certain Trust investments are shares of mutual funds which are managed by Wells Fargo Bank, n.a. Wells Fargo Bank, n.a. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Trust for the investment management services are included as a reduction of the return on each fund. These transactions are exempt from the prohibited transactions rules of ERISA.

12. **Subsequent Events**

The Plan has evaluated events and transactions occurring after March 31, 2018 for potential items required to be recognized or disclosed in the financial statements. Subsequent events were evaluated through December 12, 2018, the date the financial statements were available to be issued.

Segment 2 – 5.72%

Segment 3 – 6.48%

Prior Year: Segment Rates

Segment 1 – 4.43%

Prior Year:

RP 2000 (Separate Male and Female Tables). 2016 Annuitant and Non-Annuitant static separate tables as set forth in Proposed Regulation 1.430(h)(3)-1.

Turnover

Based on select rates of turnover for the first four years of service and on the ultimate rates of turnover thereafter shown in the table below. Please note that Groups 4 and 527 use the same select rates of turnover but have different ultimate rates in a separate column. Sample rates are shown below.

Groups 216, 323, 326, and 415, do not have a pre-retirement withdrawal assumption.

Groups 509, 510, 513, 514, and 516 use the ultimate rates of termination for all years.

Incidence of Retirement

Employees eligible for the Rule of 85 benefit are assumed to retire according to the select rate shown below for the initial year after becoming eligible. The ultimate rates apply to Rule of 85 retirements after the initial year since becoming eligible and regular retirements.

Groups 216 and 326 do not have a retirement age probability table; all retirements are assumed to occur at age 62. For Group 415 all retirements are assumed to occur at age 65.
