INDEPENDENT AUDITORS' REPORT

To the Participants and the Board of Trustees
Plumbers & Pipefitters Local No. 189 Pension Plan
Columbus, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the Plumbers & Pipefitters Local No. 189 Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of March 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plumbers & Pipefitters Local No. 189 Pension Plan as of March 31, 2018 and 2017, and the changes in its financial status for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules as listed in the accompanying table of contents, are presented for the purpose of additional analysis and is not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. DESCRIPTION OF PLAN:

The following brief description of Plumbers & Pipefitters Local No. 189 Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering employees of those employers who have agreed to make the required employer contributions to the Plan in accordance with a collective bargaining agreement with the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of the United States and Canada Local Union No. 189. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The contributing employers are primarily located in Central Ohio. Therefore, the Plan is affected by the economic conditions of the region.

Contributions

In accordance with the collective bargaining agreement, employers are required to make monthly contributions at a fixed dollar amount for each "paid" hour worked by participants. No participant contributions to the Plan are permitted.

Vesting

Participants are 100% vested in their accrued benefits after five years of beneficial service or upon reaching retirement age. A year of beneficial service shall accrue for each plan year in which a participant was credited with at least 150 credited pension hours of service or more. Pension benefits are calculated based on the number of credited hours of service multiplied by accrual rates in effect at various periods during a participant's work history.

Pension benefits

A retiree will receive a monthly benefit equal to the product of the number of hours worked each year times a dollar factor. The sum of the computations for each year worked is the amount of the monthly pension for life. A participant's normal retirement date is the first day of the month coincident with or next following the date he or she attains age 57 (attainment of age 62 effective on or after April 1, 2009, for Participants who have not attained age 62 by such date). The Plan also provides early retirement benefits at age 55 with ten years of beneficial service. Early retirement benefits are reduced by .5% for each month of age less than 57.

A \$750 per month temporary bridge payment is available for participants completing at least 25 years of beneficial services. The benefit is payable from age 57 to age 62. No bridge gap benefit is available if the member is receiving any kind of Social Security benefit, including disability.

Disability benefits

The Plan provides a monthly disability benefit to eligible employees with ten years of beneficial service. The benefit is equal to the accrued monthly pension on a single life annuity basis, or \$200 per month, whichever is greater, beginning on the first day of the month after the 91st day following disability. The benefit ceases at age 57 when the normal pension becomes payable.

Death benefits

The amount of the death benefit paid on behalf of participants is based on years and hours worked for union employers and whether the participant is eligible for retirement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments

Benefit payments to participants are recorded upon distribution.

Reciprocity contributions

Participants of the Plan and participants of the benefit plans of other affiliated local unions may have temporary employment assignments outside the jurisdiction of their local union. Therefore, the Plan has entered into reciprocity agreements with other affiliated locals to ensure that employer contributions are forwarded to the benefit plans of the participants' local union. Reciprocal contributions received and reciprocal contributions paid are classified with employer contributions on the statement of changes in net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date on which the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at March 31, 2018 and 2017.

- *Registered investment companies:* Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common/collective trusts:* Collective investment trust funds are valued at the net asset value (NAV) per share or unit. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported NAV. Were the Plan to initiate a full redemption of the collective trusts, the issuer reserves the right to temporarily withhold a portion of the withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. All common collective trusts are direct filing entities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's Trustees believe that the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in

Plumbers & Pipefitters Local No. 189 Pension Plan
Notes to Financial Statements
Years Ended March 31, 2018 and 2017

different fair value measurements at the reporting date. Investment securities, in general, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of March 31, 2018 and 2017:

<u>March 31, 2018</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

4. ACCUMULATED PLAN BENEFITS:

The actuarial present value of accumulated plan benefits as of March 31, 2017 is as follows:

Vested benefits:	
Participant currently receiving benefits	\$ 85,586,759
Other participants	<u>67,965,840</u>
	153,552,599
Nonvested benefits	<u>6,199,477</u>
	\$ <u><u>159,752,076</u></u>

Changes in actuarial present value of accumulated plan benefits during the year ended March 31, 2017 are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ <u>158,842,031</u>
Increase during the year attributable to:	
Benefits accumulated	1,352,799
Interest	11,466,553
Benefits paid	(11,909,307)
Changes in actuarial assumptions	<u>-</u>
Net increase	<u>910,045</u>
Actuarial present value of accumulated plan benefits at end of year	\$ <u><u>159,752,076</u></u>

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or beneficiaries, (b) beneficiaries of participants who have died, (c) present participants or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an actuary from The Segal Company and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were as follows as of March 31, 2018:

- *Mortality* –
 - o Healthy: RP-2000 Combined Healthy Blue Collar Mortality Table, projected generationally using Scale AA from 2003.
 - o Disabled: RP-2000 Disabled Retiree Mortality Table, projected generationally using Scale AA from 2003.
- *Form of benefit payment* – all inactive vested participants are assumed to receive the vested deferred pension at retirement. 30% of future eligible retirements will be paid under the partial lump sum option. Married participants are assumed to elect the 100% joint and survivor form of payment and non-married participants are assumed to elect the life only form of payment.
- *Percent married and spousal age relationship* – 85% married for participants, husbands four years older than their wives.
- *Investment return rate* – 7.50%
- *Retirement Age* – At various rates between ages 55 to 70.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

As of April 1, 2018, the Plan was classified in the green zone under the provisions of the Pension Protection Act of 2006.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

Certain plan investments are units of mutual funds and collective investment trust managed by SEI Private Trust Company, the custodian of the Plan as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the plan for the investment management services are included in investment income in the accompanying statement of changes in net assets available for benefits.

Contractors remit one payment for all fringe benefit contributions and dues deductions payable under the collective bargaining agreements. These are remitted to a lockbox controlled by the Administrator's Account, which is included in the financial statements of Plumbers & Steamfitters Local No. 189 Health & Welfare Plan ("Welfare Plan"). The Administrator's Account determines the allocation of the funds and disburses them to the appropriate entities. At March 31, 2018 and 2017, contributions receivable included \$597,656 and \$692,169 held by the related Administrator's Account, respectively.

The Plan is operated independently from the Plumbers & Pipefitters Local No. 189 Retirement Savings Plan and Welfare Plan, related benefit plans that utilize the same administrative personnel and office space. The Administrator's Account of the Welfare Plan generally pays any joint administrative costs and allocates such costs ratably among the plans unless it can be determined that such costs directly benefit one plan. During the years ended March 31, 2018 and 2017, the Plan recognized \$165,923 and \$167,067, respectively, for its portion of joint administrative expenses. At March 31, 2018 and 2017, \$110,654 and \$44,807, respectively, was receivable from the Administrator's Account. In addition, \$16,354 was a payable to the Retirement Savings Plan at March 31, 2018 and \$1,964 was a receivable from the Retirement Savings Plan at March 31, 2017 related to allocation of certain costs applicable to the two related pension plans.

6. PLAN TERMINATION:

In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit. Whether all participants receive their benefits should the Plan terminate at some future time will depend of the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

7. CREDIT RISK:

The Plan's cash balance is maintained in a financial institution through a concentration account held by the Administrator's Account, which in total held \$4,279,840, of which \$1,019,603 was allocated to the Plan and is classified as cash in the statement of net assets available for benefits as of March 31, 2018. In addition, the Administrator's Account maintains a separate depository cash account with the same financial institution, which is used to receive employer contributions and distribute the money received to the various benefit plans and funds sponsored by Plumbers and Pipefitters Local Union No. 189. At March 31, 2018, the Administrator's Account held \$2,918,116 in the depository account of which \$597,656 is classified by the Plan as part of employer contributions receivable. Cash balances are insured by the Federal Deposit Insurance Corporation up to \$250,000 per institution. As of March 31, 2018 and 2017, the Plan has not experienced any losses related to uninsured balances.

8. TAX STATUS:

The IRS has determined and informed the Plan by a letter dated November 18, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS

(SCHEDULE MB, LINE 6)

Mortality Rates

Healthy: RP-2000 Combined Healthy Blue Collar Mortality Table, projected generationally using Scale AA from 2003

Disabled: RP-2000 Disabled Retiree Mortality Table, projected generationally using Scale AA from 2003

The RP-2000 Combined Healthy Blue Collar Mortality Table and the RP-2000 Disabled Retiree Mortality Table, both projected for 14 years with scale AA, reasonably reflect the mortality experience of the Plan as of the valuation date for the respective group of participants. The mortality tables were then adjusted to future years using generational projections using scale AA to anticipate future mortality improvement.

The mortality rates were based on historical and current demographic data, and estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of deaths and the projected number based on the prior years' assumption over the most recent five years.

Termination Rates

55	0.32	0.25	1.50	1.49	1.00
60	0.66	0.46	2.27	1.79	1.00

* Rates in effect for the current year.

** Disability rates cut off when the participant is eligible for an unreduced benefit and all disabled participants assumed to qualify for Social Security Disability award.

*** Withdrawal rates cut off when the participant is eligible for an immediate retirement pension.

The withdrawal rates and disability rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of withdrawals and disability retirements and the projected number based on the prior years' assumption over the most recent five years.

Retirement Rates

Age	Eligible for Supplemental Benefit	Not Eligible for Supplemental Benefit
55-56	5%	5%
57	50%	25%
58-60	25%	25%
61	25%	10%
62	N/A	50%
63-64	N/A	30%
65-69	N/A	70%
70	N/A	100%

The retirement rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior years' assumption over the most recent three years.

Description of Weighted Average Retirement Age

Age 59, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the April 1, 2017 actuarial valuation.

Retirement Age for Inactive Vested Participants

57

The retirement age for inactive vested participants was based on historical and current data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual average retirement age and the prior years' assumption over the most recent five years.

Future Benefit Accruals

1,700 hours per active employee per year

The future benefit accruals were based on historical and current data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual benefit accruals over the most recent five years.

Unknown Data for Participants

Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.

Definition of Active Participants	<p>Active participants are defined as those with at least 150 hours in the beneficial service year immediately prior to the valuation date, excluding those who have died or retired as of the valuation date.</p> <p>Service and accrued benefits for active participants are provided as of the end of the beneficial year immediately prior to the valuation date and are adjusted to valuation date.</p>
Percent Married	85%
Age and Gender of Spouse	Spouses are assumed to be 4 years younger than male participants and 4 years older than female participants. If not specified, spouses are assumed to be the opposite gender of the participants.
Benefit Election	<p>All inactive vested participants are assumed to elect to receive the vested deferred pension at retirement. An average of 30% of future eligible retirement benefits will be paid under the partial lump sum option. For the remaining benefits, married participants are assumed to elect the 100% joint and survivor form of payment or the life only form of payment, whichever is more valuable and non-married participants are assumed to elect the life only form of payment.</p> <p>The benefit elections were based on historical and current demographic data, adjusted to reflect the plan design and estimated future experience and professional judgment.</p>
Conversion Factors for Lump Sum	Lump sum amounts are valued at a 5.0% interest rate and the 2015 Lump Sums Unisex table.
Delayed Retirement Factors	Active participants assumed to work enough hours each month to not qualify for delayed retirement adjustment. Inactive vested participants who are assumed to commence receipt of benefits after attaining normal retirement age qualify for delayed retirement increases.
Net Investment Return	<p>7.50%</p> <p>The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes as provided by Segal Marco Advisors, as well as the Plan's target asset allocation.</p>
Annual Administrative Expenses	<p>\$375,000 for the year beginning April 1, 2017 (equivalent to \$360,672 payable at the beginning of the year)</p> <p>The annual administrative expenses were based on historical and current data, adjusted to reflect estimated future experience and professional judgment.</p>
Actuarial Value of Assets	The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected market return, and is recognized over a five-year period (10-year period for unrecognized return in the year ending March 31, 2009). The actuarial value is further adjusted, if necessary, to be within 20% of the market value.
Actuarial Cost Method	Unit Credit Actuarial Cost Method. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis.
Benefits Valued	Unless otherwise indicated, includes all benefits summarized in <i>Exhibit 9</i> .

**Current Liability
Assumptions**

Interest: 3.05%, within the permissible range prescribed under IRC Section 431(c)(6)(E)

Mortality: Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1: RP-2000 tables projected forward to the valuation year plus seven years for annuitants and 15 years for nonannuitants

SUMMARY OF PLAN PROVISIONS

(SCHEDULE MB, LINE 6)
