US MANUFACTURING CORPORATION 401(K) UNION PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the *US Manufacturing Corporation 401(k) Union Plan* (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Description of the Plan

General

The Plan was a defined contribution plan covering all employees of *US Manufacturing Corporation* (the “Company”) who are represented by UAW Local 155 and completed 90 days of service. Employees entered the Plan on the first day of the calendar quarter coinciding with or next following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective March 1, 2017 the Company was sold to Dana, an unrelated third-party, and the Company name was changed to Warren Manufacturing, LLC. As a result of the change in ownership, the Plan was subsequently merged into the Dana Hourly Bargained Retirement and Savings Plan (the “Bargained Plan”) effective April 2, 2018, and participants in the Plan became participants in the Bargained Plan at that time. Assets of \$12,388,629 were transferred to the Bargained Plan in April 2018 at which time the Plan ceased operations.

Contributions

Each year participants could contribute any amount up to the maximum amount allowed by law, as defined in the Plan agreement. Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants, whose contributions were invested in a designated balanced fund until changed by the participant, made contributions in accordance with the following schedule:

Years of Service	Percentage
Less than three	3%
Three but less than four	4%
Four but less than five	5%
Five or more	6%

The Company made safe harbor matching contributions equal to 100% of each participant’s contributions up to 1% of eligible compensation, plus 50% of each participant’s contributions between 1% and 6% of the participant’s compensation. The Company, at its discretion, could also make an additional profit sharing contribution to the Plan. Participants were required to be employed on the last day of the Plan year to receive profit sharing contributions. No such profit sharing contributions were made in

US MANUFACTURING CORPORATION 401(K) UNION PLAN

NOTES TO FINANCIAL STATEMENTS

2018, 2017, or 2016. Participants directed the investment of contributions into various investment options offered by the Plan. The Plan offered mutual funds and a stable value common collective trust. Contributions were subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account was credited with the participant's contributions and the Company's safe harbor matching contributions and an allocation of (a) the Company's profit sharing contribution (when made), (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses, if any. Participants who initiated a loan or benefit payment were charged a fee for that transaction. Allocations were based on participant compensation, account balances or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their 401(k) voluntary and employer safe harbor matching contributions plus actual earnings thereon. Vesting in the Company profit sharing contributions was based on years of continuous service. A participant vested 20% in each of the first five years of credited service, becoming 100% vested after five years of credited service.

Notes Receivable from Participants

Participants could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The \$50,000 maximum was reduced by the excess of the highest outstanding loan balance during the one year period preceding the loan date over the outstanding loan balance on the date of the loan. No more than one loan could be outstanding at a time. Loans were required to be repaid within five years, unless the loan was used to purchase a primary residence, in which case the maximum term was 15 years. The notes receivable were secured by the balance in the participant's account and bore interest at rates ranging from 4.25% to 5.50%, which was equal to 1% over the prime rate at the time of loan origination. Principal and interest was paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installment payments, as defined by the Plan agreement. If the participant's account balance was \$5,000 or less, payment would be made in an immediate lump-sum without the participant's consent.

In-service withdrawals of vested balances could be elected by participants who had reached 59 ½ years of age. The Plan also permitted withdrawals of active participants' vested balances, only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

US MANUFACTURING CORPORATION 401(K) UNION PLAN

NOTES TO FINANCIAL STATEMENTS

Forfeited Accounts

Forfeited nonvested accounts were first allocated to Plan expenses and then allocated among the accounts of participants in the same manner as Company profit sharing contributions. Forfeitures and related account balances were immaterial as of and for the years ended December 31, 2017 and 2016 and for the period from January 1, 2018 to April 2, 2018.

Administrative Expenses

The Plan's administrative expenses were paid either by the Plan or the Company, as provided by the Plan agreement. Certain administrative expenses, including an allocation of salaries related to Plan administration, and audit and legal costs, were paid by the Company and qualified as party-in-interest transactions which were exempt from prohibited transaction rules. Expenses that were paid directly by the Company were excluded from these financial statements. Fees for custodial, record keeping, and investment advisory services were paid by the Plan. Participants were also charged directly for loan fees and fees related to certain distribution types.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds, and the stable value common collective trust are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of net appreciation in the aggregate fair value of such investments.

NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of April 2, 2018, December 31, 2017 or 2016. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a deemed distribution is recorded.

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become the obligations of the Company.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to April 2, 2018, the most recent statement of net assets available for benefits presented herein, through January 11, 2019, the date these financial statements were available to be issued. No such significant events or transactions were identified.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Newport Trust Company ("Newport") as trustee, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of April 2, 2018 and December 31, 2017 and 2016 (2) the December 31, 2017 schedule of assets (held at end of year) and (3) the related investment activity reflected in the statements of changes in net assets available for benefits during the period from January 1, 2018 to April 2, 2018 and the years ended December 31, 2017 and 2016. Newport has also certified the completeness and accuracy of notes receivable from participants and the related interest income as of December 31, 2017 and 2016 and for the period January 1, 2018 to April 2, 2018 and the years ended December 31, 2017 and 2016.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Shares held in mutual funds are valued at quoted market prices that represent the net asset value ("NAV") of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded.

Stable value common collective trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the bank collective trust is classified as "other" and is not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require a 12 month notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTES TO FINANCIAL STATEMENTS

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's Investment Committee believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value at December 31:

2017	Level 1	Level 2	Level 3	Other (1)	Total
Mutual funds	\$ 8,407,924	\$ -	\$ -	\$ -	\$ 8,407,924
Stable value common collective trust	-	-	-	2,817,603	2,817,603
Total investments at fair value	<u>\$ 8,407,924</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,817,603</u>	<u>\$ 11,225,527</u>

2016	Level 1	Level 2	Level 3	Other (1)	Total
Mutual funds	\$ 6,618,729	\$ -	\$ -	\$ -	\$ 6,618,729
Stable value common collective trust	-	-	-	2,293,056	2,293,056
Total investments at fair value	<u>\$ 6,618,729</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,293,056</u>	<u>\$ 8,911,785</u>

(1) Certain investments are measured at NAV per share (or its equivalent) on a market that is not active and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers of assets between levels for the years ended December 31, 2017 and 2016.

4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Newport was the trustee and Retirement Funding Advisors, Inc. was the investment advisor of the Plan and, therefore, related transactions with these entities qualify as party-in-interest. Fees paid by the Plan for the custodial, record keeping, and investment advisory services amounted to \$6,264, \$40,637, and \$36,870 for 2018, 2017, and 2016, respectively. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investments, as they were paid through revenue sharing, rather than a direct payment.

5. TAX STATUS

The Company's Board of Directors adopted the Newport Retirement Services, Inc. Defined Contribution Volume Submitter Plan and Trust document. The prototype plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of April 2, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

7. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2017, the Company was untimely in remitting certain participant contributions, including repayments of participant notes receivable, in the amount of \$244,585. Late remittances of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company remitted the delinquent participant contributions, as well as the related Company matching contributions of \$112,283, and reimbursed the Plan for any lost earnings in 2017.
