1. PLAN DESCRIPTION

The following description of the Mike's Camera, Inc. 401(k) Profit Sharing Plan (the "Plan"), as amended, provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was adopted by Mike's Camera, Inc. and related adopting employers (the "Company") effective April 1, 1997, and most recently amended and restated effective July 14, 2014. The Plan was established under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Administration of the Plan

The administrator of the Plan is the Company. Great-West Life & Annuity Insurance Company ("Great-West Life") is the issuer of the fixed group annuity contract and pooled separate accounts offered through a variable group annuity contract held by the Plan. The Company and investment advisor determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Eligibility

Each employee is eligible to participate in the Plan on the first day of each quarter after attainment of one year of service (defined as 1,000 hours) and age 21. Employees are eligible for the non-elective discretionary employer contributions if they are employed on the last day of the Plan year and have at least 1,000 hours of service during the year, as defined in the Plan Document.

Contributions

Eligible participants can contribute to the Plan on a pre-tax basis up to 100% of their qualifying annual compensation (as defined) into the Plan, subject to certain IRC limitations. The Plan also allows catch-up contributions for participants age 50 or older and is subject to IRC limitations. Participants can terminate or change their salary deferral agreements according to procedures and limitations as determined by the Plan Document.

The Company may also make a non-elective discretionary employer contribution. There were no non-elective discretionary employer contributions for the year ended March 31, 2018.

Rollover contributions to the Plan can also be made from other qualified plans if certain criteria are met.

Participants' Accounts

Participants' accounts are credited with employee salary deferral (pre-tax and catch-up) contributions, rollover contributions, discretionary non-elective employer contributions (if any), and an allocation of plan earnings or losses. Participants can direct the investment of their account balances into various investment options in the fixed group annuity contract and various pooled separate accounts currently offered by the Plan. Earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option. The benefit to which participants are entitled is the vested portion of their accounts.

Vesting and Forfeitures

Participants are 100% vested in their employee salary deferral contributions, rollover contributions, non-elective discretionary employer contributions, and the allocated earnings thereon. Forfeitures may be used to pay administrative expenses or offset employer contributions. During the year ended March 31, 2018, no forfeitures were used to pay administrative expenses. The balance in the forfeiture account was $0 at March 31, 2018 and 2017.

Payment of Benefits

Upon termination or separation of service, death, attainment of normal retirement age (60), or disability, as defined, participants can elect to receive their benefit payment in the form of a lump sum amount or installments equal to the vested portion of the participant's account, remain in the Plan if their vested account balance has a minimum of $1,000, or can roll over the amount to another qualified retirement plan or individual retirement account. Mandatory distributions of balances below $1,000 are distributed to participants in a lump sum. These mandatory distributions apply only to participants who have separated from service and do not affirmatively elect a distribution of their accounts.

Hardship withdrawals and certain other in-service withdrawals at age 59½ are also allowed by the Plan if certain criteria are met.

Notes Receivable from Participants

Participants are permitted to borrow from their vested account balance a minimum of $1,000 up to a maximum of the lesser of $50,000, reduced by the highest outstanding note balance during the previous 12 months, or 50% of their vested interest in the Plan. Participants may have two outstanding notes at any given time. Notes bear a reasonable rate of interest set by the Plan Administrator at prime rate plus 1% and are fixed for the term of the note. The notes are subject to certain restrictions, as defined by the Plan Document, and applicable restrictions under the IRC. The participant notes held by the Plan bear an interest rate between 4.50% and 5.50% at March 31, 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to use estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Accounting for Investment Contracts with Insurance Companies

Investments in the pooled separate accounts are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments in the fixed group annuity contract issued by Great-West Life are valued at contract value as this contract meets the fully benefit-responsive investment contract criteria. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract issuer is contractually obligated to pay the principal and specified interest rates guaranteed. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The effective annual interest rate can never be less than 0% and interest earned is compounded daily to the effective annual interest rate. The interest crediting rate is reset quarterly. The method for calculating the interest crediting rate is based on earnings of the underlying assets in the portfolio compared to the minimum crediting rate, as stated in the contract, and prevailing market conditions. Certain events could limit the ability of the Plan to transact at contract value. The contract issuer can delay liquidation of the entire contract up to 12 months and apply a market value adjustment; however, the plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and the issuer of the fixed group annuity contract and pooled separate accounts.

Income Recognition

Interest income is recorded as earned on the accrual basis. Dividend income (and capital gains) is recorded on the ex-dividend date. Purchases and sales are recorded on a trade-date basis. The net appreciation (depreciation) in the fair value of investments represents the realized and unrealized gains and losses on the investments.

Contributions

Participant contributions are recognized in the period during which the Company made the respective payroll deduction from the participant's compensation.

Payment of Benefits

Benefit payments to participants are recorded when paid to participants.

Expenses of the Plan

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Participants pay certain loan fees which are charged directly to the participant's account. Certain investment fees are netted with investment earnings or losses of the investments in the form of an expense ratio.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Any accrued but unpaid interest was de minimus. Delinquent notes receivable are reclassified as deemed distributions based upon the terms of the loan policy. No allowance for credit losses has been recorded as of March 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Plan Termination

Although the Company has not expressed any intent to discontinue the Plan, it may do so at any time. In the event of termination of the Plan, participants become fully vested in all accounts and the assets of the Plan shall be distributed to the participants in proportion to their respective account balances.

3. FAIR VALUE MEASUREMENTS AND DISCLOSURES

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets for

identical assets and liabilities. Level 2 inputs are inputs for quoted prices for similar assets or liabilities in active markets; inputs for quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability. The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Insurance Company Pooled Separate Accounts (PSAs): Are valued based on the publicly quoted pricing input which is used in determining the net asset value ("NAV") of the PSA, which is not publicly quoted. The value of each PSA is determined at the close of each business day based on fair value of the underlying assets, which can consist of a single mutual fund or multiple securities. The value of the account is expressed in units ("unit value"), which represents NAV. The NAV, as provided by the custodian is used as a practical expedient to estimate fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured on a recurring basis:

As of March 31, 2018	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	**$ -**	**$ -**	**$ -**	**$ -**
Investments measured at net asset value (a)	**-**	**-**	**-**	**1,003,138**
Total investments at fair value				**$ 1,003,138**

As of March 31, 2017	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at net asset value (a)	-	-	-	872,678
Total investments at fair value				$ 872,678

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV as a practical expedient per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for plan benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of March 31, 2018 and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are in pooled separate accounts and a fixed group annuity contract issued by Great-West Life. Great-West receives certain asset-based and loan and distribution fees as outlined in the various fee disclosures to the Company. Notes receivable from participants are also party-in-interest transactions. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN AND ISSUER

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian and issuer have certified that the following information included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants as shown in the Statements of Net Assets Available for Plan Benefits as of March 31, 2018 and 2017;

- Interest and dividend income, net appreciation in the fair value of investments and interest earned on notes receivable from participants as shown in the Statement of Changes in Net Assets Available for Plan Benefits for the year ended March 31, 2018;

- All investment information included in Note 3 and the Supplemental Schedule, Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) – As of March 31, 2018.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. INCOME TAX STATUS

The Plan adopted a Volume Submitter plan document for which an opinion letter was obtained from the Internal Revenue Service ("IRS") dated March 31, 2014 indicating the Volume Submitter plan document and trust are designed in accordance with applicable sections of the IRC. The Company and Plan administrator believe the Plan is being operated in compliance with the applicable requirements of the IRC and the Plan and related trust were tax-exempt. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of March 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2015/2016, the Company failed to timely remit participant contributions to the Plan. The Company corrected the late remittances for lost earnings in November of 2017. See accompanying supplemental schedule of Delinquent Participant Contributions for the year ended March 31, 2018.

8. CONCENTRATIONS, RISKS AND UNCERTAINTIES

The Plan provides for investments in pooled separate accounts and a fixed group annuity contract. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Additionally, the value, liquidity and related income of the investments are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investments and the level of uncertainty related to the changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits. As of March 31, 2018 and 2017, there were two investments, respectively, which individually represented more than 10% of assets held by the Plan. Refer to the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at March 31, 2018.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Participant loans are reported as notes receivable from participants in the accompanying financial statements as required by current authoritative guidance; however, for Form 5500 purposes and reporting on the supplemental Schedule of Assets (Held at End of Year) they are shown as investments, as required.

10. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through January 3, 2019 which is the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that require recognition or disclosure in the financial statements.
