LEEMAH ELECTRONICS PROFIT SHARING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2018 AND 2017

1. Description of Plan

The following description of the LeeMAH Electronics Profit Sharing 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General -- The Plan is a 401(k) defined contribution plan, covering substantially all eligible employees of LeeMAH Electronics, Inc. (the Company) who have completed three consecutive calendar months of employment and have attained the age of 18 as defined in the Plan, and who are not union employees covered by a collective bargaining agreement, non-resident aliens who have no earned income from sources within the United States, and leased employees of Taishan City Li Hua Electronic Factory, Ltd., LeeMAH Far East, Ltd. and LeeMAH Holdings, Ltd.

The Plan was originally adopted on April 1, 1975, and was subsequently amended and restated mainly to comply with regulatory changes. The Plan was most recently amended effective September 1, 2016. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan investment committee has fiduciary responsibility of reviewing and monitoring the Plan and determines the appropriateness of the Plan's investment offerings and monitoring of investment performance.

Contributions -- Participants may elect to contribute a percentage of their eligible pre-tax compensation to the Plan up to the amount allowable under the Plan document, not exceeding the Internal Revenue Code limitations of $18,500 and $18,000 in 2018 and 2017, respectively. Participants, who are at least age fifty 50 or older by the end of the calendar year, may also make additional contributions (catch-up contributions) of up to $6,000 in 2018 and 2017.

Effective September 1, 2016, the Plan allows for employer matching contributions equivalent to 100% of the participant's total contributions or 1% of the participant's eligible pre-tax compensation, whichever is lower. The Company made employer matching contributions amounting to $56,783 and $29,030 during the years ended March 31, 2018 and 2017, respectively.

The Company may make discretionary contributions to be determined annually based on an allocation percentage basis. The Company did not make any discretionary contribution during the years ended March 31, 2018 and 2017.

Participant Accounts -- Each participant account is credited with the participant's contributions and Company matching contributions, as well as allocations of any discretionary contributions by the Company and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -- Participants are vested immediately in their contributions, plus employer matching contributions and actual earnings thereon.

Employer discretionary contributions are vested in accordance with the following schedule:

Years of Service	Percentage Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

For the above purpose, a "year of service" is a twelve-month vesting service period in which the participant completes 1,000 hours of service at any time during a Plan year.

Rollover Contributions -- Participants may rollover part or all of an eligible rollover distribution that participants received from a prior employer's qualified plan. Rollover contributions amounted to $9,109 and zero during the years ended March 31, 2018 and 2017, respectively.

Withdrawals and Benefits Paid to Participants -- In the event of a termination of employment due to death, disability, retirement or for other reasons, a participant will be entitled to receive his or her vested account balance as a lump-sum amount or as elected by the participant. The distribution will be made at the participant's election or will be rolled over either to another qualified retirement plan that agrees to receive the distribution or to an individual retirement account (IRA).

Forfeited Accounts -- These accounts will be used to reduce employer contributions. There were no forfeited nonvested accounts during the years ended March 31, 2018 and 2017.

2. Summary of Significant Accounting Policies

Basis of Accounting -- The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates -- The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition -- Investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the Plan trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits -- Benefits are recorded when paid.

Administrative Expenses -- Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of withdrawals and distributions are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Reclassification -- Certain items in the prior year financial statements have been reclassified to conform to current year presentation. Such reclassification had no effect on the previously reported change in net assets.

Subsequent Events -- The Plan has evaluated subsequent events through January 8, 2019, the date the financial statements were available to be issued. Events occurring after that date have not been evaluated to determine whether a change in the financial statements would be required.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for instruments at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There has been no change in the methodologies used at March 31, 2018 and 2017.

Insurance Company General Account -- The Plan offers an investment in the insurance company general account of the Plan trustee. The trustee maintains the contributions in a general account. The value of the insurance company general account is determined by the daily crediting of interest which is subject to minimum contractual guarantees. Investment transfers to and from the insurance company general account and withdrawals to pay participant benefits are made at contract value. The insurance company general account is a benefit-responsive contract since certain withdrawals and transfers may have restrictions. There are no reserves against contract value for credit risk. The minimum crediting rate under the contract was 2.75% during the years ended March 31, 2018 and 2017. The average yield was 2.9% and 1.9% during the years ended March 31, 2018 and 2017, respectively.

Pooled Separate Accounts -- The value of the units held in pooled separate accounts are based on quoted market prices of the underlying investments and are based on the net asset value (NAV) of the shares held by the Plan at year end. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and administrative expenses, and then divided by the number of shares outstanding. The NAV of pooled separate accounts are classified within Level 2 of the valuation hierarchy. In determining fair value, the market approach is used which utilizes process and other relevant information generated by market transactions involving

identical assets or liabilities. Observable inputs reflect the assumptions market participants would use in valuing a financial instruments based on market data obtained from independent sources.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of March 31, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Insurance company – general account	$ -	$ 3,604,923	$ -	$ 3,604,923
Pooled separate accounts	-	8,615,935	-	8,615,935
Total investments at fair value	$ -	$12,220,858	$ -	$ 12,220,858

	2017			
	Level 1	Level 2	Level 3	Total
Insurance company – general account	$ -	$ 3,608,592	$ -	$ 3,608,592
Pooled separate accounts	-	7,339,794	-	7,339,794
Total investments at fair value	$ -	$10,948,386	$ -	$ 10,948,386

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Changes in Fair Value Levels -- The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. There were no significant transfers in or out of Levels 1, 2 or 3 for the years ended March 31, 2018 and 2017.

4. Certified Information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of March 31, 2018 and 2017.
- Net appreciation (depreciation) in fair value of investments, dividends and interest reflected on the accompanying statements of changes in net assets available for benefits for the years ended March 31, 2018 and 2017.
- Investments reflected on the schedule of assets (held at end of year).

5. Related Party Transactions and Party in Interest Transactions

Plan assets include certain investments being managed by Voya Retirement Insurance and Annuity Company, the Plan's trustee, as of

March 31, 2018 and 2017. As the trustee, Voya Retirement Insurance and Annuity Company performs administrative functions such as handling contributions and benefit payments. In addition, the Company's personnel and facilities are used to perform various administrative functions on behalf of the Plan, with no charge to the Plan. Accordingly, such transactions are considered related party transactions and are exempt from prohibitions under the ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue, amend or modify and terminate the Plan without any liability for such termination subject to the provisions of the ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Plan is based on the standardized Volume Submitter Defined Contribution Plan sponsored by Primark Benefits, a third party administrator of the trustee. The Internal Revenue Service informed Primark Benefits by a determination letter dated March 31, 2014, that the Volume Submitter plan upon which the Plan is based is designed in accordance with the provisions of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state, or local tax

authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to examination by federal and state taxing authorities, generally for three to four years, respectively, after they are filed. Management evaluated the Plan's tax positions and concluded that as of March 31, 2018 and 2017, the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require recognition or disclosure in the financial statements.

8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

9. Actual Deferral Percentage Test

The Plan did not pass the 401(k) Actual Deferral Percentage Test for the year ended March 31, 2018 and 2017. As an acceptable corrective action plan, the Plan reclassified as catch-up contributions the excess contributions amounting to $1,248 and $4,299 in January 2018 and January 2017, respectively.
