Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Transdev North America Phoenix (the Plan), which comprise the statements of net assets available for benefits as of March 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified or provided by State Street Bank & Trust Company, the current trustee of the Plan, and Fidelity Management Trust Company, the former trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the current and former trustees hold/held the Plan's assets and execute/executed transactions. The Plan Administrator has obtained certifications from the current trustee as of March 31, 2018 and March 31, 2017 and for the year ended March 31, 2018 and for the period February 1, 2017 through March 31, 2017, and from the former trustee for the period April 1, 2016 through January 31, 2017, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental information as listed in the table of contents, as of and for the year ended March 31, 2018, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental information is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental information.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental information, other than that derived from the information certified or provided by the current and former trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Retirement Plan for Employees of Transdev North America Phoenix (the "Plan") provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

1. General

The Plan is a defined benefit pension plan covering eligible employees of Transdev North America, Inc. (the "Company"), the Plan Sponsor. Eligible employees include certain salaried employees, mechanic union employees represented by the International Union of Operating Engineers Local 428, and operator union employees represented by the Amalgamated Transit Union-Local 1433 meeting certain service requirements as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective April 1, 2004, the Plan was amended to cease future participant contributions and benefit accruals for salaried employees participating in the Plan. These participants continue to accrue years of service for vesting and are currently receiving or awaiting eligibility to receive benefits.

Effective August 15, 2005, the Plan was amended to cease future participant contributions and benefit accruals for mechanic union employees participating in the Plan. These participants continue to accrue years of service for vesting and are currently receiving or awaiting eligibility to receive benefits.

Effective November 14, 2005, the Plan became frozen and was amended to cease future participant contributions and benefit accruals for operator union employees participating in the Plan. These participants continue to accrue years of service for vesting and are currently receiving or awaiting eligibility to receive benefits.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

2. Pension Benefits

Normal, early, and late retirement and deferred vested benefits are provided as follows:

a. Normal retirement benefits

Normal retirement is the first day of the month coincident with or following the participant's attainment of age 65. The monthly retirement benefit is based upon specified percentages of the participant's compensation during certain credited years of service, as defined by the Plan. Participating salaried employees accrued benefits at rates ranging from 0.25% to 4.40% through April 1, 2004. Participating mechanic union employees accrued benefits at rates ranging from 0.75% to 2.50% through August 15, 2005. Participating operator union employees accrued benefits at rates ranging from 0.25% to 3.75% through November 14, 2005. The calculation is defined in detail in the plan document.

b. Early retirement

Early retirement is the first day of any month after attainment of age 55 and the completion of ten years of service. A participant who retires on an early retirement date is entitled to receive a monthly retirement benefit commencing at the normal retirement date determined as for normal retirement based upon specified percentages of the participant's compensation during certain credited years of service (as determined above in Note A-2-a). Benefit payments may commence prior to the normal retirement date and would be reduced by 1/12th of 5.00% from age 55 to 62 and 1/12th of 6.67% from age 62 to 65 for each month the early retirement date precedes the normal retirement date, as defined in the plan document.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

2. Pension Benefits (Continued)

c. Late retirement and deferred vested benefits

If a participant terminates employment other than by death or retirement, the participant will be entitled to a monthly retirement benefit commencing on the earlier of the participant's actual retirement date, or upon attainment of age 70½. Such deferred benefit is determined as the greater of the retirement benefit calculated as if the participant had retired at the normal retirement date if certain criteria are met, or a retirement benefit calculated as of the participant's late retirement date using actuarial equivalents with specified assumptions, as defined in the plan document. Participants may continue to accrue benefits after the late retirement date, as defined in the plan document.

3. Disability and Death Benefits

a. Disability benefits

Disability benefits are available on the date in which the participant has become totally disabled and the completion of ten years of service. The amount of the monthly benefit payable on disability retirement is determined in the same manner as for normal retirement, reduced by specified percentages if prior to the normal retirement date, and further reduced by an actuarial equivalent if prior to attainment of age 50, as defined in the plan document. Disability benefits are payable until the participant's normal retirement date or until recovery from said disability, if recovery occurs prior to the participant's normal retirement date.

b. Death benefits

If a participant who has been married for at least 1 year should die prior to retirement and had any vested interest in employer contributions, the surviving spouse, having in effect a joint and 50% contingent option naming the spouse as contingent beneficiary, will receive a lifetime pension of a specified percentage of the benefit to which the participant would have been entitled had normal or early retirement occurred immediately preceding the date of death, as defined in the plan document.

Transdev North America Phoenix**
NOTES TO FINANCIAL STATEMENTS
March 31, 2018 and 2017

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Vesting and Forfeitable Benefits

Participants can no longer contribute to the Plan (as described in Note A-1). Participants are immediately fully vested in participant contributions previously made plus interest at a rate specified in the plan document. The portion of the participants' benefits attributable to the Company's contributions became 100% vested after five years of service.

An active participant has a non-forfeitable interest in their retirement benefit upon attainment of the normal retirement age. A participant who terminates service prior to the normal retirement date will forfeit any unvested portion of benefits attributable to the Company's contributions. Upon termination of service prior to the normal retirement date, a participant may elect to withdraw their benefits attributable to participant contributions.

5. Administrative Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

**Retirement Plan for Employees of
Transdev North America Phoenix**
NOTES TO FINANCIAL STATEMENTS
March 31, 2018 and 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

- * Quoted prices for similar assets or liabilities in active markets;
- * Quoted prices for identical or similar assets or liabilities in inactive markets;
- * Inputs other than quoted prices that are observable for the asset or liability;
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the Plan's assets measured at fair value. There have been no changes in the methodology used as of March 31, 2018 and 2017.

Pooled separate accounts: Valued at net asset value (NAV) per unit as determined by the insurance company or contract administrator. Such NAV is based on the value of the underlying assets and liabilities of the account.

Transdev North America Phoenix**
NOTES TO FINANCIAL STATEMENTS
March 31, 2018 and 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of March 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Plan Investments at Fair Value as of March 31, 2018				
	Level 1	Level 2	Level 3	Total
Investments measured at NAV*	\$ -	\$ -	\$ -	\$ 61,532,745
Investments, at fair value				\$ 61,532,745
Plan Investments at Fair Value as of March 31, 2017				
	Level 1	Level 2	Level 3	Total
Investments measured at NAV*	\$ -	\$ -	\$ -	\$ 63,133,544
Investments, at fair value				\$ 63,133,544

- * Certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments, at fair value line item presented in the statements of net assets available for benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient as of March 31, 2018 and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

March 31, 2018				
	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Pooled separate accounts	\$ <u>61,532,745</u>	\$ <u>-</u>	0 - 100 days	1 - 100 days
March 31, 2017

Pooled separate account	\$ <u>63,133,544</u>	\$ <u>-</u>	0 - 100 days	1 - 100 days

3. Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

**Retirement Plan for Employees of
Transdev North America Phoenix**
NOTES TO FINANCIAL STATEMENTS
March 31, 2018 and 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have provided. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an actuary from CBIZ Savitz as of April 1, 2017 and 2016, and it is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of April 1, 2017 are as follows:

Actuarial cost method	Target Normal Cost Method
Discount rate	5% per annum
Normal retirement age	Age 65
Asset valuation	Estimated fair value as defined in Note B-2
Mortality rates	IRS 2017 Static Mortality Table for Annuitants and Non-Annuitants

**Retirement Plan for Employees of
Transdev North America Phoenix**
NOTES TO FINANCIAL STATEMENTS
March 31, 2018 and 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions used in the valuations as of April 1, 2016 are as follows:

Actuarial cost method	Target Normal Cost Method
Discount rate	5% per annum
Normal retirement age	Age 65
Asset valuation	Estimated fair value as defined in Note B-2
Mortality rates	IRS 2016 Static Mortality Table for Annuitants and Non-Annuitants

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement and Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note B-2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

6. Payment of Benefits

Benefits are recorded when paid.

**Retirement Plan for Employees of
Transdev North America Phoenix**
NOTES TO FINANCIAL STATEMENTS
March 31, 2018 and 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

NOTE C - FUNDING POLICY

The Company's funding policy is to make contributions to the Plan in amounts necessary to provide for employees' benefits by the time they retire. The Company made no contributions for the year ended March 31, 2018 and \$1,200,000 for the year ended March 31, 2017. As a result of the Plan being frozen, as described further in Note A-1, participant contributions are no longer allowed by the Plan.

NOTE D - INFORMATION CERTIFIED BY STATE STREET BANK & TRUST COMPANY
(CURRENT TRUSTEE) AND FIDELITY MANAGEMENT TRUST COMPANY (FORMER
TRUSTEE)

The following is a summary of the Plan's asset information as of March 31, 2018 and 2017, and for the years ended March 31, 2018 and 2017, included throughout the Plan's financial statements and supplemental information, that was prepared by or derived from information provided by the current and former trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the current trustee that information provided to the Plan Administrator by the current trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental information related to the following assets:

	<u>2018</u>	<u>2017</u>

The current trustee also certified the completeness and accuracy of \$4,577,617 of net appreciation in fair value of investments for the year ended March 31, 2018.

The former and current trustees certified the completeness and accuracy of \$4,632,935 of net appreciation in fair value of investments for the year ended March 31, 2017.

NOTE E - PLAN TERMINATION

In the event that the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

1. Benefits attributable to participant contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the PBGC, a U.S. government agency, up to the applicable limitations (discussed below).
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Benefits to be provided via contracts under which the custodian is obligated to pay the benefits would be excluded for allocation purposes.

**Retirement Plan for Employees of
Transdev North America Phoenix**
NOTES TO FINANCIAL STATEMENTS
March 31, 2018 and 2017

NOTE E - PLAN TERMINATION (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2018, that ceiling was \$5,420 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

The provisions of the Plan provide that, if the Plan terminated, participants will receive an amount equal to the sum of their accumulated participant contributions, if any, which are in excess of any retirement income previously paid. Participants will become fully vested to the extent then funded, in the order of priority specified by the Plan.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE F - ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits as of April 1, 2017 and 2016 and changes in the present value of accumulated plan benefits for the year ended April 1, 2017 are as follows:

Changes in the present value of accumulated plan benefits due to:		
Benefits paid		(7,628,813)
Assumption changes		(205,316)
Interest		3,726,476
Other changes		<u>763,684</u>
Present value of accumulated plan benefits as of April 1, 2017		<u>\$ 74,999,953</u>

Prior to the Plan being frozen, as described in Note A-1, the Plan allowed for employee contributions. Accumulated participant contributions amounted to approximately \$7,200,000 and \$7,700,000 as of April 1, 2017 and 2016, respectively. This includes interest credited at a rate of 5.00%.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect account balances and the amounts reported in the statements of net assets available for benefits.

Transdev North America Phoenix**
NOTES TO FINANCIAL STATEMENTS
March 31, 2018 and 2017

NOTE H - INCOME TAX STATUS

The Plan obtained its latest determination letter on June 24, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE I - PARTY-IN-INTEREST TRANSACTIONS

Plan investments are and were managed by State Street Bank & Trust Company, as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. In addition, certain plan administrative expenses paid to State Street Bank & Trust Company, CBIZ Savitz (the Plan's actuary), and Mercer Investment Management (the Plan's investment advisor), qualify as party-in-interest transactions.

NOTE K - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through January 15, 2019, the date that these financial statements were available to be issued. Plan management has determined that no events or transactions have occurred subsequent to the statement of net assets available for benefits date that require disclosure in the financial statements.

ACTUARIAL ASSUMPTIONS AND METHODS

Expenses	The normal cost is increased by the administrative expenses expected to be paid from the trust during the year. For 2017 this amount is \$1,150,000.
Marital Status	90% of males and 60% of females are assumed to be married. Males are assumed to be three years older than their spouses.
Form of Payment	<p>Active and vested terminated participants are assumed to elect a single life annuity.</p> <p>For active participants, 75% of future vested terminated participants and 40% of future retirees are assumed to receive a return of employee contributions with interest.</p>
Actuarial Cost Method	The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of the benefit accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments made within five years of the valuation date are discounted using the first segment rate, payments made at least five but within 20 years of the valuation date are discounted using the second segment rate, and payments made at least 20 years from the valuation date are discounted using the third discount rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.
Asset Valuation Method	Market value.

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Effective Date: Effective January 1, 1975 and most recently amended April 1, 2016.

Eligibility: All full-time operator, salaried or mechanic employees who work 1,000 hours a year or more will participate in the plan following completion of three months of service. Leased employees are not eligible to participate. Part-time salaried employees may elect to participate. As of April 1, 2004, benefit accruals and employee contributions ceased for salaried employees, and therefore, no new salaried employees will enter the plan. As of August 15, 2005 and November 14, 2005, benefit accruals and employee contributions ceased for mechanics and operators, respectively, and therefore, no new mechanics or operators will enter the plan.

Service: A year of service is credited for each plan year in which an employee works 1,000 hours.

A break in service occurs at the start of any plan year in which the employee works 500 hours or less for the employer in such year. Service will not be interrupted by:

- 1) A leave of absence not in excess of one year granted by the employer.
- 2) A period of service in the Armed Forces of the United States under which employment rights are granted.
- 3) A period of disability during which the participant is being paid directly or indirectly by the employer.
- 4) A period of maternity or paternity leave not in excess of one year.
- 5) Transfer of employment from one participating employer to another.

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Service: An employee will be given credit for his pre-break service if either of the following occurs:

- 1) The employee had a vested interest in his accrued benefit at the time of his break in service; or
- 2) The employee's period of absence was less than the greater of five years or his pre-break service.

Credited service shall mean all years of service.

Normal Retirement Date: Normal retirement date is the first day of the month coincident with or next following the attainment of age 65.

Employee Contributions: Employee contributions are calculated as follows:

- 1) Operators: 4.00% of total earnings each month before November 14, 2005; 0% thereafter.
- 2) Salaried: 3.75% of total earnings each month before April 1, 2000; 4.85% from April 1, 2000 through March 31, 2004; 0% thereafter.
- 3) Mechanics: 2.00% of total earnings each month through August 15, 2005; 0% thereafter.

Interest was credited as follows:

Effective April 1, 2002, benefit credits were increased retroactively for the April 1, 2001 - March 31, 2002 plan year as follows:

Operators

<u>Old Benefit Credit</u>	<u>Amended Benefit Credit</u>
The greater of 2.66% of earnings accumulated between April 1, 2001 and May 31, 2001 or 0.80% of total plan year earnings	2.66% of earnings

<u>Old Benefit Credit</u>	<u>Amended Benefit Credit</u>
The greater of 4.00% of earnings accumulated between April 1, 2001 and May 31, 2001 or 1.20% of total plan year earnings	4.00% of earnings

Normal Form of Benefit:

The normal benefit is the benefit accrued to retirement and reduced for early retirement as defined below. Each married participant who does not elect otherwise shall receive a reduced joint and one-half survivor benefit.

Early Retirement:

Upon the completion of 10 years of credited service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced 6 2/3% for each of the first three years and 5% for each of the next seven years by which the payment date precedes the normal retirement date.

Effective August 1, 2015, a one-time voluntary early retirement window was offered to eligible ATU operators age 50 or older by December 1, 2015 who had 10 or more years of service. Retirement dates for the eligible participants accepting the offer occurred on October 1, November 1 or December 1, 2015. The incentive offered three enhancements to an eligible participant's pension benefit as follows:

1. Unreduced early retirement at age 62.
2. A full lump sum payout of the eligible participant's accrued benefit (at the participant's election).
3. Early retirement eligibility at age 50. Early retirement reduction factors for this purpose are extended at 5% per year for ages 50 to 55.

Late Retirement:

A participant may continue in the employment of the employer after his normal retirement date. In this case, he will receive at actual retirement the greater of the actuarial equivalent of his normal retirement benefit or his accrued benefit calculated using contributions and compensation as of his actual retirement date.

Disability Retirement:

A participant who becomes totally and permanently disabled before his normal retirement date and has 10 years of credited service may retire and receive a disability benefit which shall commence immediately. The benefit will be calculated based on his accrued benefit to date of disability, reduced actuarially.

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Deferred Vested Retirement: A participant who terminates employment and has attained five or more years of service shall have a vested interest in his accrued benefit, which will be payable at normal retirement date. In the event that the participant had met the service requirement at date of termination, he may elect to receive his benefit at age 55. Such a benefit will be reduced as described under Early Retirement.

***Pre-Retirement
Spouse's Benefit:***

In the event of death of a vested married participant, it will be assumed that the participant had separated from service on the date of death, survived to the earliest retirement age, began receiving a joint and one-half survivor benefit based on the participant's vested accrued benefit, and died on the day after the earliest retirement date if this benefit is greater than the return of employee contributions with interest.

***Optional Forms
of Payment:***

All optional forms of payment are actuarially equivalent to the normal form of annuity. If a married participant does not elect one of the optional forms of payment described below, then the participant's retirement benefit shall automatically be paid under option 1 below. The options are:

- 1) 50%, 66 2/3%, 75%, or 100% Joint and Survivor Annuities.
- 2) 10-Year Certain and Life Annuity
- 3) If the amount of benefit payable is less than \$75 per month or \$5,000 total present value, a lump sum payment will be made. If the present value of the payment is greater than \$1,000, payment must have the consent of the payee.

The interest rates used for determining lump sums are the better of the PBGC rate as of the determination date used for determining the present value of a lump sum distribution, or the 30-year Treasury rate as of the calendar month preceding the determination date.

Lump Sum Window:

For a participant who had a separation from service prior to April 1, 2016 and had not commenced payment of their Accrued Benefit on or before December 1, 2016, a lump sum payment actuarially equivalent to the Accrued Benefit may be elected effective March 1, 2017 if the lump sum payment is greater than \$5,000 and less than \$75,000. After March 1, 2017, this option is no longer available.

ACTUARIAL ASSUMPTIONS AND METHODS

Expenses	The normal cost is increased by the administrative expenses expected to be paid from the trust during the year. For 2017 this amount is \$1,150,000.
Marital Status	90% of males and 60% of females are assumed to be married. Males are assumed to be three years older than their spouses.
Form of Payment	Active and vested terminated participants are assumed to elect a single life annuity. For active participants, 75% of future vested terminated participants and 40% of future retirees are assumed to receive a return of employee contributions with interest.
Actuarial Cost Method	The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of the benefit accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments made within five years of the valuation date are discounted using the first segment rate, payments made at least five but within 20 years of the valuation date are discounted using the second segment rate, and payments made at least 20 years from the valuation date are discounted using the third discount rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.
Asset Valuation Method	Market value.

Early Retirement:

Upon the completion of 10 years of credited service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced 6 2/3% for each of the first three years and 5% for each of the next seven years by which the payment date precedes the normal retirement date.

Effective August 1, 2015, a one-time voluntary early retirement window was offered to eligible ATU operators age 50 or older by December 1, 2015 who had 10 or more years of service. Retirement dates for the eligible participants accepting the offer occurred on October 1, November 1 or December 1, 2015. The incentive offered three enhancements to an eligible participant's pension benefit as follows:

1. Unreduced early retirement at age 62.
2. A full lump sum payout of the eligible participant's accrued benefit (at the participant's election).
3. Early retirement eligibility at age 50. Early retirement reduction factors for this purpose are extended at 5% per year for ages 50 to 55.

Late Retirement:

A participant may continue in the employment of the employer after his normal retirement date. In this case, he will receive at actual retirement the greater of the actuarial equivalent of his normal retirement benefit or his accrued benefit calculated using contributions and compensation as of his actual retirement date.

Disability Retirement:

A participant who becomes totally and permanently disabled before his normal retirement date and has 10 years of credited service may retire and receive a disability benefit which shall commence immediately. The benefit will be calculated based on his accrued benefit to date of disability, reduced actuarially.

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Deferred Vested Retirement: A participant who terminates employment and has attained five or more years of service shall have a vested interest in his accrued benefit, which will be payable at normal retirement date. In the event that the participant had met the service requirement at date of termination, he may elect to receive his benefit at age 55. Such a benefit will be reduced as described under Early Retirement.

***Pre-Retirement
Spouse's Benefit:***

In the event of death of a vested married participant, it will be assumed that the participant had separated from service on the date of death, survived to the earliest retirement age, began receiving a joint and one-half survivor benefit based on the participant's vested accrued benefit, and died on the day after the earliest retirement date if this benefit is greater than the return of employee contributions with interest.

***Optional Forms
of Payment:***

All optional forms of payment are actuarially equivalent to the normal form of annuity. If a married participant does not elect one of the optional forms of payment described below, then the participant's retirement benefit shall automatically be paid under option 1 below. The options are:

- 1) 50%, 66 2/3%, 75%, or 100% Joint and Survivor Annuities.
- 2) 10-Year Certain and Life Annuity
- 3) If the amount of benefit payable is less than \$75 per month or \$5,000 total present value, a lump sum payment will be made. If the present value of the payment is greater than \$1,000, payment must have the consent of the payee.

The interest rates used for determining lump sums are the better of the PBGC rate as of the determination date used for determining the present value of a lump sum distribution, or the 30-year Treasury rate as of the calendar month preceding the determination date.

Lump Sum Window:

For a participant who had a separation from service prior to April 1, 2016 and had not commenced payment of their Accrued Benefit on or before December 1, 2016, a lump sum payment actuarially equivalent to the Accrued Benefit may be elected effective March 1, 2017 if the lump sum payment is greater than \$5,000 and less than \$75,000. After March 1, 2017, this option is no longer available.
