NOTE A - DESCRIPTION OF THE PLAN

The following description of the Meissner Filtration Products, Inc. Profit Sharing Plan (the "Plan"), provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a contributory profit sharing plan under sections 401(a) and 401(k) of the Internal Revenue Code (IRC) covering eligible employees of Meissner Filtration Products, Inc. (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Eligibility

An employee is eligible to participate in the Plan upon completion of one year of service (1,000 hours) and attainment of age 18, subject to semi-annual entry dates of January 1 and July 1. Employees covered under a collective bargaining agreement, non-resident aliens, and leased employees, if any, are excluded from participation in the Plan.

3. Contributions

Participants may elect to contribute, on a tax-deferred basis, up to the maximum deferral per Section 402(g)(1) of the IRC. Participants who attain age 50 before the end of the plan year are eligible to make additional catch-up contributions.

The Employer may make a discretionary Employer contribution for participants who have completed 1,000 hours during the plan year and are employed at the end of the plan year.

4. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Employer contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Investment Options

Participants may direct employee contributions, as desired, in any of a variety of investment options held by Transamerica Life Insurance Company ("Transamerica"), a custodian, as selected by the Employer. Participants may change their investment options daily. The discretionary Employer contribution is invested in a portfolio of investments as directed by the Employer.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

6. Forfeitures

Forfeitures of terminated participants' non-vested accounts may be used to reduce Employer contributions or to pay reasonable Plan expenses at the Employer's discretion. There were no outstanding forfeiture balances at December 31, 2017 and forfeiture balances at December 31, 2016, were minimal and included in net assets available for benefits.

7. Benefit Payments

Upon termination of employment, a participant may receive a lump-sum amount equal to the value of his or her vested account balance. When a participant attains normal retirement or dies or becomes disabled while employed with the Employer, the participant or beneficiary is entitled to 100% of the participant's account balance.

8. Vesting

Participant contributions and actual earnings thereon are fully vested at all times. Vesting of the Employer discretionary contribution portion of participant accounts, plus actual earnings thereon, are based upon the participant's years of service with the Employer as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

9. Plan Termination

Although it has not expressed such intent, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all participants would become fully vested in their Employer contributions and the assets of the Plan would be distributed to the participants based on each individual participant's interest in the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

2. Plan Administration

The Employer is the plan sponsor and the plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

4. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note D for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation/depreciation includes gains and losses on investments bought and sold as well as held during the year.

5. Payment of Benefits

Benefits are recorded when paid.

6. Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Investment related expenses are included in the net appreciation in fair value of investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Subsequent Events

Plan management has evaluated subsequent events through January 14, 2019, the date the financial statements were available to be issued.

NOTE C - INFORMATION CERTIFIED BY A CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Transamerica, a custodian, as complete and accurate, except for comparing such information certified by Transamerica to information included in the Plan's financial statements and supplemental schedule:

- Investments of $3,594,428 and $2,745,737 reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017 (audited) and 2016 (compiled), respectively.
- Net investment income of $515,570 reflected in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017.
- Investments of $3,594,428 reflected in the Schedule of Assets (Held at End of Year).

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Mutual Funds: Valued at daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The NAV for mutual funds is a publicly available quoted price in an active market.

Pooled Separate Accounts: Valued on a net unit value basis as determined by Transamerica. The net unit value is based on the quoted market price of the underlying investments held in the accounts, adjusted for any plan or participant expenses. The net unit value is not a publicly quoted price in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017

	Level 1	*Level 2*	*Level 3*	*Total*
Assets in the fair value hierarchy:				
Mutual Funds	$ 3,390,717	$ -	$ -	$ 3,390,717
Investments measured at net asset value [(a)]				3,368,431
Investments at fair value				$ 6,759,148

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

	Assets at Fair Value as of December 31, 2016 (Compiled)			
	Level 1	*Level 2*	*Level 3*	*Total*
Assets in the fair value hierarchy				
Mutual Funds	$ 2,936,689	$ -	$ -	$ 2,936,689
Investments measured at net asset value [(a)]				2,637,263
Investments at fair value				$ 5,573,952

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016, respectively. There are no participant redemption restrictions for these investments. The redemption period is applicable only to the Plan.

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 3,368,431	None	Daily	Daily

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 2,637,263	None	Daily	Daily

NOTE E - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds an investment that meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus credited interest, less participant withdrawals, and administrative expenses. The following represents the traditional investment contract held by the Plan:

NOTE E - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (Continued)

	December 31, 2017	2016 (Compiled)
Transamerica Stable Value Option	$ 225,997	$ 108,474

The traditional investment contract is a stable value fund backed by the general account of Transamerica. On a monthly basis Transamerica establishes a guaranteed crediting rate for the month and interest is credited daily. There is no minimum guaranteed interest rate. Although plan participants generally may withdraw assets from the stable value fund without restrictions, Transamerica may impose a 90 day hold period, at the contract level in the event of a full contract discontinuance or partial contract discontinuance initiated by the Plan. Transamerica may effect a total discontinuance of the contract under certain circumstances such as: the contract can no longer be treated as a pension plan contract, the Plan is terminated, or if the account value at any time equals or is less than $20,000.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

NOTE F - NONPARTICIPANT-DIRECTED INVESTMENTS

Information about the net assets and significant components of the changes in net assets relating to the nonparticipant-directed investments as of December 31, 2017 and 2016 and for the year ended December 31, 2017 is as follows:

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Transamerica is a custodian and recordkeeper with respect to certain assets of the plan and Scottrade is a custodian and Actuaries Unlimited, Inc. is the recordkeeper with respect to certain assets of the plan. As a result, transactions with these entities qualify as party-in-interest transactions.

NOTE H - TAX STATUS

The Employer adopted a volume submitter 401(k) profit sharing plan (volume submitter plan) which received its opinion letter dated March 31, 2014, in which the Internal Revenue Service (IRS) stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator and the Plan's advisors believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Administration errors, if any, which are insignificant or operational in nature, are handled by the plan administrator in accordance with applicable IRS correction policies. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2014.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Certain investments in the Plan might include investments in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.
