Northeast Great Dane Employees' 401(k) Plan and Trust

Notes to Financial Statements
March 31, 2018

1. Plan Description

The following description of the Northeast Great Dane Employees' 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Termination

The Company was acquired by Trudell Holdings, Inc. on December 2, 2017. Related to the acquisition, the Plan was terminated on December 1, 2017. As a result of the termination, all participants' accounts become 100% vested. All participant balances were transferred from the Plan by March 31, 2018 to a new plan with the same name.

General

The Plan is a participant directed defined contribution plan which covers all nonunion employees of Leuner, Inc. (d.b.a. Northeast Great Dane or the "Company"). The Plan is administered by a third party and qualifies under Section 401(k) of the Internal Revenue Code ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

An employee of the Company became an eligible participant in the Plan as of the first entry date following the date of employment, and the attainment of 21 years of age. There was no minimum service requirement to participate under the Plan. Once the participant satisfies the eligibility conditions, they were eligible to participate under the Plan on the participant's entry date.

Contributions

An employee participating in the Plan may annually contribute through payroll deductions, amount up to a maximum as determined by the Internal Revenue Service ("IRS"), and may contribute amounts representing distributions from other qualified plans. Additionally, participants age 50 or over may make an additional "catch-up" contribution as determined by the IRS. Participants direct the investment of their contributions into various investment options offered by the Plan. A participant could suspend contributions at any time, or could increase or decrease their level of participation on the first day of each quarter of the Plan year.

The Company could make discretionary profit-sharing contributions as a uniform percentage of compensation or as a uniform dollar amount to the Plan to be allocated to all eligible participants. The allocation was based upon the ratio of the participant's compensation for the Plan year to the total compensation for the Plan year of all participants entitled to share in the contribution.

1. Plan Description (*continued*)

Participant Accounts

Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings and (c) was charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The participant's account was reduced by withdrawals, losses on investments, and any forfeiture. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Due to the plan termination, all participants became 100% vested. Prior to the Plan Termination, the participants' vesting in the Company's matching contribution will be determined in accordance to the following schedule:

<u>Years of Service</u>	<u>Vested Interest</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Investment Options

Upon enrollment in the Plan, participants may direct their elective contribution and Company contribution into various investment options offered by the Plan. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants could borrow from their accounts a minimum amount of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loans to participants are secured by the balance in the participant's account and bears an interest rate at commensurate with market rates for similar loans, as determined by the Plan administrator. Loans had various repayment terms generally limited to 5 years, unless that loan was used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time. Principal and interest are paid ratably through biweekly payroll deduction.

1. Plan Description (*continued*)

Payment of Benefits

On termination of service for any reason, a participant shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or the vested amount will be automatically rolled over to an individual retirement account provider selected by the Plan Administrator if the vested balance is \$5,000 or less. If the participant's vested interest is over \$5,000, the participant may receive payment in a lump-sum amount or the balance will remain in the plan if the participant does not consent to a distribution.

Forfeitures

The forfeited, non-vested portion of a participant's account is lost upon termination of employment. Forfeited amounts are retained by the Plan and will first be used to pay any administrative expenses and any remaining forfeitures will be used to reduce future Company contributions. As of March 31, 2018, forfeited non-vested accounts distributed totaled \$1,253. In 2018, administrative expenses and employer contributions were reduced by \$9,555 from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

As a result of the termination of the Plan (see Note 1), the Plan changed its basis of accounting to liquidation basis. There were no material changes to the financial statements as a result of this change in basis of accounting.

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Plan follows U.S. GAAP guidance on *Fair Value Measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based on the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist. At December 31, 2017, all of the Plan's investments that were valued at fair value were valued using level 1 input. The Key Guaranteed Portfolio Fund was valued using level 2 input.

Investment Valuation and Income Recognition

The Plan's investments that were valued at fair value were estimated by the Plan's custodian, Great-West Trust Company, LLC ("Great-West"), based on quoted market values of the underlying assets at the Plan's year end.

Mutual funds held by the Plan are valued at fair value based on the daily closing price as reported by the funds. All of the mutual funds are open-ended and are registered with the Securities and Exchange Commission. These mutual funds are required to publish their daily net asset value and to transact at that price.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of the Plan were paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment-related expenses were included in net depreciation in fair value of investments.

Accounting for Uncertainty in Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The Plan is no longer subject to examinations by the applicable taxing jurisdictions for years prior to December 31, 2014.

Subsequent Events

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through January 9, 2019, the date which the financial statements were available for issue.

3. Information Certified *(Unaudited)*

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West, the custodian of the Plan, has certified the completeness and accuracy of all the investments reflected in the accompanying statements of net assets available for benefits as of March 31, 2018 (liquidation basis) and December 31, 2017 (liquidation basis), and the related investment activity reflected in the statement of changes in net assets available for benefits for the period from January 1, 2018 to March 31, 2018 (liquidation basis).

4. Key Guaranteed Portfolio Fund

The key guaranteed portfolio fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

5. Tax Status

The Company has adopted a volume submitter prototype plan document which received an opinion letter from the IRS dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

6. Party-In-Interest Transactions

Participants who are active employees of the Plan could borrow from their accounts and such loans qualify as party-in-interest transactions under ERISA. These loans are recorded as notes receivable from participants on the statements of net assets available for benefits.
