Note 1 - Description of Plan

The following description of the Bestop, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. The Plan is a restatement due to a spin-off from The Magna Group of Companies Retirement Savings Plan. The Plan was restated effective September 1, 2015. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a qualified defined contribution plan covering eligible employees of Bestop, Inc. and its wholly-owned subsidiaries (collectively referred to as the "Company"). Under the Plan, eligible employees include all non-union employees who have attained the age of eighteen, excluding leased employees, interns, payroll service or agency employees, as defined, residents of Puerto Rico and non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants can elect to contribute up to 50% of their pre-tax eligible compensation as pre-tax or Roth contributions, as defined in the Plan. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans. Additionally, participants who have attained age fifty before the end of the plan year are eligible to make catch-up contributions. Each year, at the discretion of management, the Company may make a matching contribution to each participant who has completed six months of service, as defined, based on their elective deferrals. During the year ended December 31, 2017, the Company matched 50% of each participant's contribution up to 6% of eligible compensation. Employer matching contributions are not made with respect to catch-up contributions. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

The Plan includes an automatic enrollment provision. Under this provision, each employee who has satisfied the eligibility requirements shall be automatically enrolled and shall have an amount equal to 6% of their compensation automatically deferred unless the employee affirmatively elects a different elective deferral contribution percentage (including a zero percent election). Additionally, unless a participant elects to defer otherwise, the percentage will automatically increase each first day of the plan year by 1%, up to a maximum of 10%.

Note 1 - Description of Plan (Continued)

Participant Investment Account Options

Participants direct the investment of all contributions into various investment options offered by the Plan. Additionally, certain participants have investments in Magna International Stock Fund II, which was transferred to the Plan from The Magna Group of Companies Retirement Savings Plan. Participants can transfer all or part of their investment in Magna International Stock Fund II to another investment fund. No participants shall otherwise be entitled to direct their investment to Magna International Stock Fund II.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution, earnings or losses on the account, and a charge for any distributions and direct expenses. The benefit to which a participant in entitled is the participant's vested account balance.

Vesting

Participants are immediately vested in their voluntary contributions, the Company's matching contributions and rollover accounts, plus actual earnings thereon. Certain participants who had balances transferred in from a predecessor plan may have some balances which are not fully vested.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to 50% of their vested account balance subject to a minimum of $1,000 and a maximum of $50,000 (reduced by outstanding loan amounts). The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Loans must be repaid over a period not to exceed five years, except in the case of loans incurred for the purchase of a primary residence, which can be repaid over a period of up to ten years. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

A participant who ceases to be an employee for any reason shall be entitled to receive their vested accrued benefit. On termination of service, if the participant's vested account balance does not exceed $5,000, it will be distributed immediately. All distributions are paid in a single lump sum, except for a participant's employer stock account, which is paid in shares of stock.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses

In accordance with the Plan, all administrative expenses may be paid out of the Plan unless paid by the Company. Certain expenses of the Plan for the year ended December 31, 2017 were paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Note 3 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3 - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. Additionally, there are no unfunded commitments.

Pooled separate accounts: Valued at the NAV of units of the separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner. Additionally, there are no unfunded commitments.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Common stock	$ 2,777,135	$ -	$ -	$ 2,777,135
Mutual funds	217,552	-	-	217,552
Total assets in the fair value hierarchy	$ 2,994,687	$ -	$ -	2,994,687
Investments measured at NAV practical expedient[(a)]				11,477,109
Total investments at fair value				$ 14,471,796

	Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Common stock	$ 2,285,513	$ -	$ -	$ 2,285,513
Mutual funds	128,339	-	-	128,339
Total assets in the fair value hierarchy	$ 2,413,852	$ -	$ -	2,413,852
Investments measured at NAV practical expedient[(a)]				8,830,697
Total investments at fair value				$ 11,244,549

[(a)] In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) using the practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 4 - Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Dividends
- Interest income on notes receivable from participants
- Net appreciation in fair value of investments
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 5 - Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	December 31, 2017	December 31, 2016
Net assets:		
Common/collective trust	$ 1,193	$ -

	Year Ended December 31, 2017
Changes in net assets:	
Forfeitures	$ 1,736
Other income	275
Forfeitures used to reduce employer contributions	(818)
	$ 1,193

Note 6 - Related Party and Party-in-Interest Transactions

Certain plan investments are units of pooled separate accounts and common collective trusts managed by Principal. Principal is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The plan sponsor pays directly any other fees related to the Plan's operations.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

Note 8 - Tax Status

The Internal Revenue Service ("IRS") has determined that the prototype profit sharing plan is designed in accordance with applicable sections of the IRC and informed the trustee of such in a letter dated August 8, 2014. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500 at December 31, 2017:

Net assets available for benefits per the financial statements	$ 14,685,609

Net assets available for benefits per Form 5500	$ 14,670,631

The following is a reconciliation of participant contributions according to the financial statements to Form 5500 for the year ended December 31, 2017:

Participant contributions per the financial statements	$ 1,009,201
Add: Employer contribution credits	818
Less: Prior year excess contributions refundable	(29,648)
Participant contributions per Form 5500	$ 980,371

The following is a reconciliation of employer contributions according to the financial statements to Form 5500 for the year ended December 31, 2017:

Employer contributions per the financial statements	$ 301,225
Less: Employer contribution credits	(818)
Less: Current year employer contributions receivable	(14,978)
Add: Prior year employer contributions receivable	8,452

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500 at December 31, 2016:

Net assets available for benefits per the financial statements	$ 11,368,756
Add: Excess contributions refundable	29,648
Less: Employer contributions receivable	(8,452)
Net assets available for benefits per Form 5500	$ 11,389,952

Note 11 - Transfer In

During the year ended December 31, 2017, the amounts transferred in and out from the Plan are $9,237 and $5,094, respectively. These amounts are related to two loans that were transferred in with incorrect amounts. The $5,094 represents the portion that was incorrect and had to be transferred out. The two loans are from two participants who transferred their loans from their previous plan before the Company bought Bestop Morris LLC on October 1, 2016.

Note 12 - Delinquent Participant Contributions

Defined contribution plans are required to remit employee contributions to the plan as soon as they can be reasonably segregated from the employer's general assets. While the Company remitted all employee contributions to the Plan, contributions of $4,065 were not remitted within the required time period for the year ended December 31, 2017. The Company has remitted these delinquent employee contributions.

Note 13 - Subsequent Events

The Plan has evaluated subsequent events through January 29, 2019, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
