SPRINGFIELD, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description Of The Plan

The following brief description of the Springfield, Inc. 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan that covers all employees of Springfield, Inc. (the "Company") who have six months of service and are age twenty-one or older. Entry into the Plan occurs semi-annually on the first day of the Plan year and the first day of the seventh month of the Plan year following the date an employee meets the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 100 percent of pretax annual compensation, subject to limits established by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). There were rollover contributions of $103,271 for the Plan year ended September 30, 2018. Effective October 1, 2016, the Plan amended and restated the plan document by adopting the Fifth Third Bank Defined Contribution Volume Submitter Plan and Trust. The Plan sponsor adopted a safe harbor nonelective contribution of 3 percent of a participant's compensation. The Plan sponsor may make discretionary matching contributions of up to 4 percent of a participant's compensation. There were no matching contributions made for the year ended September 30, 2018.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (1) the Company's contribution, and (2) Plan earnings. Allocations are based on participant earnings or account balances, as defined. Participants are charged with an allocation of administrative expenses as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portions of their accounts plus actual earnings thereon occurs at the rate of 20% for each year of service after one year of service. A participant is 100 percent vested after six years of credited service. Vesting of 100 percent of a participant's employer contributions and earnings thereon also occurs upon death, disability of the participant or attainment of age 65 (normal retirement).

Payment Of Benefits

Upon termination of service due to retirement, death, disability, or separation from service, participants may receive benefits in a lump sum or installments, in accordance with the Plan. Also, upon retirement, disability, or separation from service, participants may elect to continue their account as permitted by the Internal Revenue Code. Participants are also allowed to make hardship withdrawals in certain circumstances.

Forfeitures

Forfeitures may be used to pay plan expenses or reduce employer matching contributions. At September 30, 2018 and 2017, there was a balance of forfeited non-vested accounts of approximately $9,000 and $7,000, respectively. In the year ended September 30, 2018, forfeitures were used to pay plan expenses of approximately $16,000.

2. Summary Of Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use Of Estimates

Management uses estimates and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities and the reported additions and deductions. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment Of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through January 29, 2019 the date the financial statements were available to be issued.

3. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at September 30, 2018 and 2017 and dividends and net appreciation in fair value of investments for the year ended September 30, 2018, was obtained or derived from information supplied by the plan administrator and certified as complete and accurate by the trustee of the Plan.

4. Fair Value Measurements

ASC Topic 820 establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; and • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2018 and 2017.

Registered Investment Companies: Valued at the daily closing price as reported by the fund. Registered Investment Companies held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The Registered Investment Companies held by the Plan are deemed to be actively traded.

Common/Collective Trust: Valued at the NAV of units of the trust. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay the withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value:

	September 30, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered Investment Companies	$ 8,700,076	$ —	$ —	$ 8,700,076
Investments measured at net asset value (a)				455,004
Total Assets At Fair Value				$ 9,155,080

	September 30, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered Investment Companies	$ 7,423,568	$ —	$ —	$ 7,423,568
Investments measured at net asset value (a)				423,003
Total Assets At Fair Value				$ 7,846,571

(a) In accordance with ASC Topic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

5. Related-Party Transactions

Fifth Third Institutional Services is the custodian, trustee, and record keeper as defined by the Plan and transactions with Fifth Third qualify as party-in-interest transactions. Fifth Third receives revenue from mutual fund service providers that is credited back to the Plan. This revenue is used to offset plan expenses.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

7. Tax Status

The Plan has adopted a volume submitter profit-sharing plan sponsored by Fifth Third Bank. The volume submitter plan received a favorable opinion letter effective March 2014 from the Internal Revenue Service ("IRS") regarding the volume submitter plan's qualified status. Therefore, no provision for income tax has been included in the Plan's financial statements.

Management has determined that the Plan does not have any uncertain tax positions and associated unrecognized benefits that materially impact the financial statements and related disclosures.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
