MAI Systems Corporation Retirement Benefit Plan

Notes to Financial Statements

1. Description of Plan

The following description of the MAI Systems Corporation Retirement Benefit Plan (the Plan), formerly the MAI Basic Four, Inc. Retirement Benefit Plan, provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined benefit plan designed for the purpose of providing retirement benefits for all eligible employees of MAI Systems Corporation (MAI). SoftBrands, Inc. (SoftBrands) acquired MAI effective August 14, 2006. SoftBrands was subsequently acquired by Infor, Inc. (the Company or Sponsor) in 2009. The Plan became effective January 15, 1988, and was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The operations of the Plan were directed by a plan administrator, appointed by the Board of Directors or Benefits Committee of the Company. The contract holder of the Plan assets was Metropolitan Life Insurance Company (MetLife).

Plan Termination

The Board of Directors approved termination of the Plan effective February 28, 2017, in accordance with the Pension Benefit Guaranty Corporation ("PBGC") provisions and reporting requirements. Effective February 28, 2017, the Plan was also amended to allow a voluntary lump sum cash-out payment for eligible participants who elect to do so between October 2, 2017 and November 16, 2017. The net assets of the Plan were allocated, as prescribed by ERISA and its regulations. As of the effective date of the termination, participants were 100% vested in plan benefits. Until the termination of the Plan was complete, the Plan continued to operate as usual. Options were given to participants to receive a lump sum payment or have an immediate or deferred annuity purchased on their behalf from an insurance company.

On January 25, 2018, the Plan entered into an agreement to purchase an annuity contract with an insurance company for \$2,608,343 to satisfy the remaining obligations to participants who did not elect to receive a lump sum payment. On March 1, 2018, the Plan paid lump-sum distributions aggregating of \$350,246 to those participants who elected to receive a lump sum payment. All ongoing benefit payments beginning April 5, 2018 will be satisfied by the insurance company under the terms of the contract.

The following is a description of the Plan prior to termination.

Eligibility and Vesting

In 1988, MAI purchased Sorbus, which had an existing defined benefit plan (the Sorbus Plan). Each employee who was a participant in the Sorbus Plan on or before January 14, 1988, and became an employee of MAI on January 15, 1988, became a participant in the Plan as of January 15, 1988. Employees who were not previously enrolled in the Sorbus Plan became eligible in the first year after they had attained 21 years of age during or after the first year of service and completed 1,000 hours of service, provided they were employed by Sorbus prior to the acquisition of MAI. The Plan was frozen to new enrollment.

MAI Systems Corporation Retirement Benefit Plan

Notes to Financial Statements

The Plan's management and Sponsor's Board of Directors elected to freeze the accrual of plan benefits as of April 30, 1992. Therefore, no further benefits accrued after April 30, 1992. All participants continued to vest in their benefits subsequent to the plan benefit freeze. As of September 30, 1995, all participants were 100 percent vested. Although the accrual of benefits was frozen, the Sponsor remained responsible for future funding obligations as required by ERISA. The amount of funding depended upon the value of the Plan's assets in relation to its obligations.

Funding

The Company voluntarily established the Plan and agreed to make annual contributions to the Plan that was sufficient to provide pension benefits to participants. The Company's funding policy was to make quarterly contributions and a final adjusting contribution to the Plan each year as necessary to meet the funding requirements of ERISA. The Company's annual contributions to the Plan were calculated by applying actuarial assumptions to adjust the accumulated plan benefits for the time value of money and the probability of payment. These actuarial assumptions were anticipated to reflect actual future experience and were reviewed periodically and adjusted as necessary. The actuarial cost method and significant assumptions underlying this estimate are set forth in Note 4. The Company's contributions for 2018 (\$142,027) and 2017 (\$208,343) met the minimum funding requirements of ERISA.

Payment of Benefits

Upon retirement on or after the normal retirement date (the participant's 65th birthday), a participant was entitled to receive a lifetime annual pension, payable monthly or distributed as a lump-sum if the lump-sum did not exceed \$5,000, where the annual pension amount was equal to the greater of:

- (i) One percent of the participant's total career income while an employee of MAI, or
- (ii) One hundred dollars multiplied by the number of years in the participant's period of service accumulated while an employee of MAI.

If an employee was eligible for and elected early retirement (the participant's 55th birthday with 10 years of vesting), the employee's benefit was reduced to account for the change in retirement date.

If a married participant who was vested in any portion of their accrued benefit should die prior to the retirement pension starting date, the spouse was entitled to receive a pre-retirement survivor annuity. The annuity was distributed to the spouse as a lump-sum distribution if the amount of such distribution did not exceed \$5,000. The spouse could elect to receive a lump-sum distribution rather than monthly annuity payments if the distribution was over \$5,000.

If a married participant should die subsequent to the retirement pension starting date, the spouse was entitled to receive a survivor annuity in either a lump-sum distribution or monthly annuity payments.

MAI Systems Corporation Retirement Benefit Plan

Notes to Financial Statements

Administrative Expenses

The Plan's administrative and investment fees were paid from plan assets and all other expenses of the Plan were paid by the Sponsor.

2. Summary Of Significant Accounting Policies

Basis of Accounting

As discussed in Note 1 to the financial statements, the Plan Sponsor terminated the Plan effective February 28, 2017. As a result, the Plan changed its basis of accounting for the periods subsequent to September 30, 2016 from the ongoing basis of accounting in accordance with U.S. GAAP to the liquidation basis of accounting in accordance with U.S. GAAP.

This basis of accounting is considered appropriate when, among other things, liquidation of an entity is probable and the net realizable value of assets reasonably determinable. Under the liquidation basis of accounting, assets are stated at their estimated net realizable cash value and liabilities are stated at their anticipated settlement amounts. The estimated net realizable cash value for investments at April 5, 2018 and September 30, 2017 would have been fair value.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of plan assets and the actuarial present value of accumulated plan benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets available for benefits and accumulated benefits. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities could have materially affected the amounts reported in the statements of net assets available for benefits.

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions could have occurred in the near term and that such changes could have materially affected the financial statements.

MAI Systems Corporation Retirement Benefit Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments were reported at fair value. The Plan's investments were comprised entirely of investments whose fair value is estimated using the net asset value (the NAV) as a practical expedient. See Note 3 for summary of the Plan's investments by investment type measured at fair value based on the NAV.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis and dividends were recorded on the ex-dividend date. Realized gains and losses related to sales of investments were recorded on a trade-date basis and unrealized gains and losses were recorded based on the fair values at the end of the reporting periods.

Net Appreciation (Depreciation) in Fair Value of Investments

The statements of changes in net assets available for benefits include the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses on investments sold and the change in unrealized appreciation (depreciation) on held investments.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

3. Net Asset Value Per Share

Pooled separate accounts are valued at the net asset value ("NAV") of the underlying securities held by the Plan at year end less its liabilities. The fair value of the units held in pooled separate accounts is based on quoted market prices of the underlying investments in the account. The NAV, as provided by the contract holder, is used as a practical expedient to estimate fair value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation method was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

Due to the Plan termination, there were no investments at April 5, 2018.

MAI Systems Corporation Retirement Benefit Plan

Notes to Financial Statements

The following tables set forth a summary of the Plan's investments measured at fair value based on the NAV:

September 30, 2017

Pooled Separate Account Investments	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equity ⁽¹⁾	\$ 1,604,922	None	Monthly	31 days
Bonds ⁽²⁾	749,435	None	Monthly	31 days

Bonds ⁽²⁾	855,055	None	Monthly	31 days
	\$ 2,357,877			

(1) The equity pooled separate account's objective is to outperform the S&P 500 Index and the median manager in an appropriate universe of equity managers.

(2) The bond pooled separate account's objective is to outperform the Barclays ® U.S. Aggregate Bond Index, net of fees, over a full market cycle.

4. Actuarial Present Value Of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died.

The actuarial present value of accumulated plan benefits is determined by Aon Hewitt (the Actuary) and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death or retirement) between the valuation date and the expected date of payment. As discussed in Note 6, the PBGC approved the Plan termination in 2017 and the Plan was fully settled during 2018.

5. Investments

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by MetLife, except for comparing such information certified by MetLife to information included in the Plan's financial statements.

MetLife has provided the Plan Administrator with a certification as to the completeness and accuracy of the investments aggregating \$0, \$2,354,357 and \$2,357,877 at April 5, 2018 (Liquidation Basis), September 30, 2017 (Liquidation Basis) and 2016 (Ongoing), respectively, and the related net appreciation (depreciation) in fair value of investments of \$186,697 with interest and dividends of \$17,191 for the period ended April 5, 2018, and \$189,613 with interest and dividends of \$50,183 for the year ended September 30, 2017. Such amounts are included in the accompanying financial statements based on the certification from MetLife.

Pooled separate accounts	\$ 186,697	\$ 189,613	\$ 189,188

6. Tax Status

The Plan obtained its latest determination letter on August 7, 2017 (previously December 28, 2015), in which the Internal Revenue Service (IRS) stated that the Plan and the trust established under the Plan is tax exempt, under the applicable requirements of the Internal Revenue Code. The Plan has not been amended since receiving the determination letter.

The Plan received approval from the PBGC for the Plan's termination effective August 7, 2017.

7. Parties-In-Interest And Related Party Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain plan investments are shares of funds managed by MetLife. MetLife is the contract holder; therefore, these transactions qualified as parties-in-interest transactions. However, such transactions are exempt from the prohibited transaction rules of ERISA.

8. Subsequent Events

Plan management has evaluated all other subsequent events, for potential recognition or disclosure in the financial statements, through February 8, 2019, the date the financial statements were available to be issued.
