Note 1. Plan Description

The following description of the KeHE Distributors, Inc. 401(k) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for all eligible employees of KeHE Distributors, Inc. (Company) who are at least age 18 and have been employed 30 days. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) Investment Committee oversees governance of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Merger

On October 1, 2017, the Plan was amended and restated and the Board of Directors of the Company approved the enrollment of the acquired employees of Monterrey Provision Co. Inc. As a result, effective November 1, 2017, the fully vested retirement accounts of Monterrey Provision Co. Inc. acquired employees, totaling $445,391 were transferred into the Plan.

Contributions

Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans and certain Individual Retirement Accounts. Lastly, participants may make after-tax contributions up to 10% of compensation. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 3% of eligible compensation. Contributions are automatically invested in a designated default fund until changed by the participant. The Company may make matching contributions each year based on participant salary deferral contributions. Additional amounts may be contributed by the Company at the discretion of the Company's Board of Directors. The Company did not make any matching or discretionary contributions to the Plan during the years ended April 30, 2018 or 2017. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, discretionary Company matching contributions, if any, and allocations of (a) the Company's discretionary profit sharing contribution, if any, and (b) Plan earnings or losses and expenses. Allocations are based on participant earnings, account balances, compensation, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. Participant vesting is based on a schedule which provides 33% vesting after one year of service, increasing 33% annually reaching 100% after three years of credited service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Note 1. Plan Description (Continued)

Other Income
Pursuant to an agreement to provide elective and professional and administrative services between the Company and Prudential Retirement Insurance and Annuity Company, the latter agreed to make revenue sharing payments to the Plan for Plan administrative expenses. This agreement terminated in 2017. For the years ended April 30, 2018 and 2017, the Plan received revenue sharing payments amounting to $0 and $7,500 respectively. As of April 30, 2018 and 2017, the balance in the plan expense account which holds these revenue sharing payments amounted to $14 and $26,681, respectively. During 2018 and 2017, $27,121 and $29,865, respectively, of this plan expense account was used to pay Plan Administrative expenses.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
On termination of service, a participant may receive the value of the vested interest in his or her account as a lump sum distribution, substantially equal installments over a period not to exceed life expectancy, partial withdrawals or a joint and 100% survivor annuity. The Plan allows for in-service distributions in case of hardship and the participant attaining age 59 ½.

Forfeitures
At April 30, 2018 and April 30, 2017, forfeited non-vested accounts totaled $4,736 and $39,952, respectively. These accounts are used to pay Plan expenses or to reduce Company contributions. For the years ended April 30, 2018 and 2017, approximately $87,000 and $29,000, respectively, were used to reduce corrective contributions made into the Plan.

Note 2. Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is reported on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of April 30, 2018 and April 30, 2017, no allowance for credit losses have been recorded. If a participant does not make loan payments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Note 2. Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Participants are charged for Plan administration, fiduciary, recordkeeping and certain transactions, such as the processing of a loan or distributions. Investment related expenses are included in net appreciation in fair value of investments. Other Plan administrative expenses are generally paid by the Company.

Note 3. Information Certified and Provided by Prudential Bank and Trust, F.S.B. (Prudential Bank and Trust, the trustee) and Prudential Retirement Insurance and Annuity Company (Prudential, the custodian)

The following is a summary of the Plan's asset and income information as of April 30, 2018 and 2017, and for the years ended April 30, 2018 and 2017, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that information provided to the Plan Administrator by the trustee and custodian related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

The following information has been certified or provided by Prudential:

	2018	2017
Units of pooled separate accounts, at fair value	$ 6,883,435	$ 6,612,052

Net appreciation in fair value of investments	844,754	1,001,730

Note 3. Information Certified and Provided by Prudential Bank and Trust, F.S.B. (Prudential Bank and Trust, the trustee) and Prudential Retirement Insurance and Annuity Company (Prudential, the custodian) (Continued)

The following information has been certified or provided by Prudential Bank and Trust:

Notes receivable from participants	4,887,061	4,536,738
Net appreciation in fair value of investments	6,141,058	10,634,094
Interest and dividends	5,800,902	2,204,873
Interest income on notes receivable from participants	252,744	227,759

Note 4. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodologies are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodologies include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodologies are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2018 and April 30, 2017.

Units of pooled separate accounts: Valued at net asset value (NAV) of the units of the pooled separate accounts. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments comprising the pooled separate accounts. This practical expedient is not used when it is determined to be probable that the fund will sell for an amount different than the reported NAV.

Note 4. Fair Value Measurement (Continued)

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. Those funds are required to publish their daily NAV and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of April 30, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 113,093,185	$ -	$ -	$ 113,093,185
Total assets in fair value hierarchy	$ 113,093,185	$ -	$ -	113,093,185
Investment measured at NAV (a)				6,883,435
Investments at fair value				$ 119,976,620

	2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 103,795,468	$ -	$ -	$ 103,795,468
Total assets in fair value hierarchy	$ 103,795,468	$ -	$ -	103,795,468
Investment measured at NAV (a)				6,612,052
Investments at fair value				$ 110,407,520

(a) In accordance with Subtopic 920-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified within the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on the NAV per share as of April 30, 2018 and 2017:

	2018 Fair Value	2017 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Units of pooled separate accounts	$ 6,883,435	$ 6,612,052	$ -	Immediate	Daily

Note 4. Fair Value Measurement (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended April 30, 2018 and 2017, there were no significant transfers in or out of Level 3.

Note 5. Guaranteed Income Fund

The Plan entered into a benefit-responsive investment contract with Prudential. Prudential maintains the contributions in a general account. The account is credited with deposits made to the contract, plus earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.50%. The crediting interest rates as of April 30, 2018 and 2017 were 3.0% and 2.08%, respectively. Such interest rates are reviewed in a semi-annual basis for resetting.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6. Related Party Transactions

Certain Plan investments are managed by Prudential, the custodian, and Prudential Bank and Trust, the trustee. These transactions qualify as party-in-interest. Fees paid by the Plan to the trustee and custodian were $515,134 and $265,967 for the years ended April 30, 2018 and 2017, respectively. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Certain employees of the Company provide administrative and trustee services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

Effective January 1, 2016, the Plan has adopted a nonstandardized prototype plan of The Prudential Insurance Company of America. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions. On July 28, 2017, the Plan received notification from the Department of Labor that it would review the Plan for the periods beginning January 1, 2014 through the present. On December 28, 2018, the Plan received a notification from the DOL that the review had concluded without any further action required.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through February 15, 2019, the date that the financial statements were available to be issued.

Note 1. Plan Description

The following description of the KeHE Distributors, Inc. 401(k) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for all eligible employees of KeHE Distributors, Inc. (Company) who are at least age 18 and have been employed 30 days. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) Investment Committee oversees governance of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Merger

On October 1, 2017, the Plan was amended and restated and the Board of Directors of the Company approved the enrollment of the acquired employees of Monterrey Provision Co. Inc. As a result, effective November 1, 2017, the fully vested retirement accounts of Monterrey Provision Co. Inc. acquired employees, totaling $445,391 were transferred into the Plan.

Contributions

Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans and certain Individual Retirement Accounts. Lastly, participants may make after-tax contributions up to 10% of compensation. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 3% of eligible compensation. Contributions are automatically invested in a designated default fund until changed by the participant. The Company may make matching contributions each year based on participant salary deferral contributions. Additional amounts may be contributed by the Company at the discretion of the Company's Board of Directors. The Company did not make any matching or discretionary contributions to the Plan during the years ended April 30, 2018 or 2017. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, discretionary Company matching contributions, if any, and allocations of (a) the Company's discretionary profit sharing contribution, if any, and (b) Plan earnings or losses and expenses. Allocations are based on participant earnings, account balances, compensation, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. Participant vesting is based on a schedule which provides 33% vesting after one year of service, increasing 33% annually reaching 100% after three years of credited service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Note 1. Plan Description (Continued)

Other Income
Pursuant to an agreement to provide elective and professional and administrative services between the Company and Prudential Retirement Insurance and Annuity Company, the latter agreed to make revenue sharing payments to the Plan for Plan administrative expenses. This agreement terminated in 2017. For the years ended April 30, 2018 and 2017, the Plan received revenue sharing payments amounting to $0 and $7,500 respectively. As of April 30, 2018 and 2017, the balance in the plan expense account which holds these revenue sharing payments amounted to $14 and $26,681, respectively. During 2018 and 2017, $27,121 and $29,865, respectively, of this plan expense account was used to pay Plan Administrative expenses.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
On termination of service, a participant may receive the value of the vested interest in his or her account as a lump sum distribution, substantially equal installments over a period not to exceed life expectancy, partial withdrawals or a joint and 100% survivor annuity. The Plan allows for in-service distributions in case of hardship and the participant attaining age 59 ½.

Forfeitures
At April 30, 2018 and April 30, 2017, forfeited non-vested accounts totaled $4,736 and $39,952, respectively. These accounts are used to pay Plan expenses or to reduce Company contributions. For the years ended April 30, 2018 and 2017, approximately $87,000 and $29,000, respectively, were used to reduce corrective contributions made into the Plan.

Note 2. Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is reported on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of April 30, 2018 and April 30, 2017, no allowance for credit losses have been recorded. If a participant does not make loan payments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Note 2. Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Participants are charged for Plan administration, fiduciary, recordkeeping and certain transactions, such as the processing of a loan or distributions. Investment related expenses are included in net appreciation in fair value of investments. Other Plan administrative expenses are generally paid by the Company.

Note 3. Information Certified and Provided by Prudential Bank and Trust, F.S.B. (Prudential Bank and Trust, the trustee) and Prudential Retirement Insurance and Annuity Company (Prudential, the custodian)

The following is a summary of the Plan's asset and income information as of April 30, 2018 and 2017, and for the years ended April 30, 2018 and 2017, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that information provided to the Plan Administrator by the trustee and custodian related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

The following information has been certified or provided by Prudential:

	2018	2017
Units of pooled separate accounts, at fair value	$ 6,883,435	$ 6,612,052

Net appreciation in fair value of investments	844,754	1,001,730

Note 3. Information Certified and Provided by Prudential Bank and Trust, F.S.B. (Prudential Bank and Trust, the trustee) and Prudential Retirement Insurance and Annuity Company (Prudential, the custodian) (Continued)

The following information has been certified or provided by Prudential Bank and Trust:

Notes receivable from participants	4,887,061	4,536,738
Net appreciation in fair value of investments	6,141,058	10,634,094
Interest and dividends	5,800,902	2,204,873
Interest income on notes receivable from participants	252,744	227,759

Note 4. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodologies are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodologies include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodologies are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2018 and April 30, 2017.

Units of pooled separate accounts: Valued at net asset value (NAV) of the units of the pooled separate accounts. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments comprising the pooled separate accounts. This practical expedient is not used when it is determined to be probable that the fund will sell for an amount different than the reported NAV.

Note 4. Fair Value Measurement (Continued)

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. Those funds are required to publish their daily NAV and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of April 30, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 113,093,185	$ -	$ -	$ 113,093,185
Total assets in fair value hierarchy	$ 113,093,185	$ -	$ -	113,093,185
Investment measured at NAV (a)				6,883,435
Investments at fair value				$ 119,976,620

	2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 103,795,468	$ -	$ -	$ 103,795,468
Total assets in fair value hierarchy	$ 103,795,468	$ -	$ -	103,795,468
Investment measured at NAV (a)				6,612,052
Investments at fair value				$ 110,407,520

(a) In accordance with Subtopic 920-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified within the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on the NAV per share as of April 30, 2018 and 2017:

	2018 Fair Value	2017 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Units of pooled separate accounts	$ 6,883,435	$ 6,612,052	$ -	Immediate	Daily

Note 4. Fair Value Measurement (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended April 30, 2018 and 2017, there were no significant transfers in or out of Level 3.

Note 5. Guaranteed Income Fund

The Plan entered into a benefit-responsive investment contract with Prudential. Prudential maintains the contributions in a general account. The account is credited with deposits made to the contract, plus earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.50%. The crediting interest rates as of April 30, 2018 and 2017 were 3.0% and 2.08%, respectively. Such interest rates are reviewed in a semi-annual basis for resetting.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6. Related Party Transactions

Certain Plan investments are managed by Prudential, the custodian, and Prudential Bank and Trust, the trustee. These transactions qualify as party-in-interest. Fees paid by the Plan to the trustee and custodian were $515,134 and $265,967 for the years ended April 30, 2018 and 2017, respectively. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Certain employees of the Company provide administrative and trustee services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

Effective January 1, 2016, the Plan has adopted a nonstandardized prototype plan of The Prudential Insurance Company of America. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions. On July 28, 2017, the Plan received notification from the Department of Labor that it would review the Plan for the periods beginning January 1, 2014 through the present. On December 28, 2018, the Plan received a notification from the DOL that the review had concluded without any further action required.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through February 15, 2019, the date that the financial statements were available to be issued.

Note 1. Plan Description

The following description of the KeHE Distributors, Inc. 401(k) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for all eligible employees of KeHE Distributors, Inc. (Company) who are at least age 18 and have been employed 30 days. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) Investment Committee oversees governance of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Merger

On October 1, 2017, the Plan was amended and restated and the Board of Directors of the Company approved the enrollment of the acquired employees of Monterrey Provision Co. Inc. As a result, effective November 1, 2017, the fully vested retirement accounts of Monterrey Provision Co. Inc. acquired employees, totaling $445,391 were transferred into the Plan.

Contributions

Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans and certain Individual Retirement Accounts. Lastly, participants may make after-tax contributions up to 10% of compensation. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 3% of eligible compensation. Contributions are automatically invested in a designated default fund until changed by the participant. The Company may make matching contributions each year based on participant salary deferral contributions. Additional amounts may be contributed by the Company at the discretion of the Company's Board of Directors. The Company did not make any matching or discretionary contributions to the Plan during the years ended April 30, 2018 or 2017. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, discretionary Company matching contributions, if any, and allocations of (a) the Company's discretionary profit sharing contribution, if any, and (b) Plan earnings or losses and expenses. Allocations are based on participant earnings, account balances, compensation, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. Participant vesting is based on a schedule which provides 33% vesting after one year of service, increasing 33% annually reaching 100% after three years of credited service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Note 1. Plan Description (Continued)

Other Income
Pursuant to an agreement to provide elective and professional and administrative services between the Company and Prudential Retirement Insurance and Annuity Company, the latter agreed to make revenue sharing payments to the Plan for Plan administrative expenses. This agreement terminated in 2017. For the years ended April 30, 2018 and 2017, the Plan received revenue sharing payments amounting to $0 and $7,500 respectively. As of April 30, 2018 and 2017, the balance in the plan expense account which holds these revenue sharing payments amounted to $14 and $26,681, respectively. During 2018 and 2017, $27,121 and $29,865, respectively, of this plan expense account was used to pay Plan Administrative expenses.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
On termination of service, a participant may receive the value of the vested interest in his or her account as a lump sum distribution, substantially equal installments over a period not to exceed life expectancy, partial withdrawals or a joint and 100% survivor annuity. The Plan allows for in-service distributions in case of hardship and the participant attaining age 59 ½.

Forfeitures
At April 30, 2018 and April 30, 2017, forfeited non-vested accounts totaled $4,736 and $39,952, respectively. These accounts are used to pay Plan expenses or to reduce Company contributions. For the years ended April 30, 2018 and 2017, approximately $87,000 and $29,000, respectively, were used to reduce corrective contributions made into the Plan.

Note 2. Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is reported on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of April 30, 2018 and April 30, 2017, no allowance for credit losses have been recorded. If a participant does not make loan payments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Note 2. Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Participants are charged for Plan administration, fiduciary, recordkeeping and certain transactions, such as the processing of a loan or distributions. Investment related expenses are included in net appreciation in fair value of investments. Other Plan administrative expenses are generally paid by the Company.

Note 3. Information Certified and Provided by Prudential Bank and Trust, F.S.B. (Prudential Bank and Trust, the trustee) and Prudential Retirement Insurance and Annuity Company (Prudential, the custodian)

The following is a summary of the Plan's asset and income information as of April 30, 2018 and 2017, and for the years ended April 30, 2018 and 2017, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that information provided to the Plan Administrator by the trustee and custodian related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

Interest income on notes receivable from participants	252,744	227,759

Note 4. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodologies are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodologies include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodologies are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2018 and April 30, 2017.

Units of pooled separate accounts: Valued at net asset value (NAV) of the units of the pooled separate accounts. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments comprising the pooled separate accounts. This practical expedient is not used when it is determined to be probable that the fund will sell for an amount different than the reported NAV.

Note 4. Fair Value Measurement (Continued)

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. Those funds are required to publish their daily NAV and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of April 30, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 113,093,185	$ -	$ -	$ 113,093,185
Total assets in fair value hierarchy	$ 113,093,185	$ -	$ -	113,093,185
Investment measured at NAV (a)				6,883,435
Investments at fair value				$ 119,976,620

	2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 103,795,468	$ -	$ -	$ 103,795,468
Total assets in fair value hierarchy	$ 103,795,468	$ -	$ -	103,795,468
Investment measured at NAV (a)				6,612,052
Investments at fair value				$ 110,407,520

(a) In accordance with Subtopic 920-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified within the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on the NAV per share as of April 30, 2018 and 2017:

	2018 Fair Value	2017 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Units of pooled separate accounts	$ 6,883,435	$ 6,612,052	$ -	Immediate	Daily

Note 4. Fair Value Measurement (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended April 30, 2018 and 2017, there were no significant transfers in or out of Level 3.

Note 5. Guaranteed Income Fund

The Plan entered into a benefit-responsive investment contract with Prudential. Prudential maintains the contributions in a general account. The account is credited with deposits made to the contract, plus earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.50%. The crediting interest rates as of April 30, 2018 and 2017 were 3.0% and 2.08%, respectively. Such interest rates are reviewed in a semi-annual basis for resetting.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6. Related Party Transactions

Certain Plan investments are managed by Prudential, the custodian, and Prudential Bank and Trust, the trustee. These transactions qualify as party-in-interest. Fees paid by the Plan to the trustee and custodian were $515,134 and $265,967 for the years ended April 30, 2018 and 2017, respectively. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Certain employees of the Company provide administrative and trustee services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

Effective January 1, 2016, the Plan has adopted a nonstandardized prototype plan of The Prudential Insurance Company of America. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions. On July 28, 2017, the Plan received notification from the Department of Labor that it would review the Plan for the periods beginning January 1, 2014 through the present. On December 28, 2018, the Plan received a notification from the DOL that the review had concluded without any further action required.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through February 15, 2019, the date that the financial statements were available to be issued.
