Notes to Financial Statements
December 31, 2017

Note A - Description of Plan:

The following description of the Infrastructure Engineering, Inc. 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

Plan Amendment

The Plan was amended and restated in its entirety effective January 1, 2017. All relevant provisions have been updated in the below footnotes.

General

The Plan is a defined contribution profit sharing and salary deferral plan covering all employees of the participating employers, except for employees included in bargaining unit covered by a collective bargaining agreement, who are at least 21 years old and have completed 3 months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Entrance Date

An employee is eligible to enter the Plan on the first day of each month, immediately following completion of the eligibility requirements.

Contributions

Each year, participants may contribute amounts up to 100% of annual compensation, as defined by the Plan. Upon satisfying eligibility requirements, participants are automatically enrolled in the Plan at 6% or participants may elect a different deferral percentage to be taken out of their compensation. Catchup contributions are allowed. Participants may also contribute rollover amounts from other qualified plans. Company contributions consist of a matching contribution equal to 100% of first 3% of compensation deferred, 33.3% of next 3% and a discretionary profit sharing contribution. Any profit sharing contribution is at the discretion of the Company. Matching contributions contributed to the Plan were $245,436 of which $71,472 were funded by forfeitures, and there was no discretionary profit sharing contribution made during the year ended December 31, 2017.

Forfeitures

Forfeited balances from terminated participants' accounts are used to first reduce employer contributions, and, if amounts remain, can be used to reduce Plan expenses. For 2017, $71,472 of forfeitures were used to reduce employer contributions, and $876 of forfeiture were used to reduce Plan expenses. Amounts available for future use as of December 31, 2017, were $0.

Note A - Description of Plan (Continued):

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based upon participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $500 up to an amount that is equal to the lesser of $50,000 or 50% of the present value of the participant's non-forfeitable accrued benefit. Participants may have two loans outstanding at any given time. All loans are to be repaid over a period not to exceed five years, although an extension of the repayment period may be granted if the loan proceeds are used to purchase a participant's principal residence, in which case the loan duration is not to exceed thirty years. Interest is charged at a rate commensurate with prevailing market rates as determined by the Plan administrator. Any loans shall reduce the participant's balance in the individual's account and will be restored as the principal balance when such loan is repaid. All interest paid by the participant shall be credited to his or her own individual account. Loans are valued at the unpaid principal balance plus accrued but unpaid interest.

Vesting

Participants are immediately vested in their voluntary contributions and actual earnings thereon. Vesting in the Company's contributions is based on years of service. A participant is 100% vested after 3 years of credited service. Effective December 1, 2016, participants will be vested using a 5-year graded schedule. Participants employed on November 30, 2016, but not yet fully vested, will vest 20% after year 1, 40% after year 2 and 100% after year 3.

Benefit Payments

Upon termination of service, normal retirement date, disability, age 59 1/2 or hardship, whichever occurs first. A participant will receive vested benefits in a single lump sum. Benefit payments are recorded when paid.

Fair Value Measurements

Accounting Standards Codification (ASC) 820 defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (or exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimizes the use of unobservable inputs.

Note A - Description of Plan (Continued):

Fair Value Measurements (Continued)

Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's assumptions about the inputs that market participants would use in pricing the asset or liability and are developed based on the best information available in the circumstances.

The fair value hierarchy input levels are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Plan Termination

Although they have not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time. In the event of Plan termination, participants will become 100% vested in their account balances.

Note B - Summary of Significant Accounting Policies:

Basis of Accounting

The Plan's policy is to prepare its financial statements on the accrual method of accounting.

Note B - Summary of Significant Accounting Policies (Continued):

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Valuation of Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Income is recorded on the accrual basis.

Note C - Participant Directed Investments:

Participant contributions held in the Plan are participant-directed accounts. That is, individual participants decide how funds held in trust for them are allocated among various investment options.

Note D - Information Prepared and Certified by Trustee:

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified as complete and accurate by the Plan's trustee.

	2017	2016
Investments, at fair value	$ 5,469,813	$ 3,998,776
Notes receivable - participants	54,822	27,621
Investment gains	785,494	
Loan interest income	1,308	

Note E - Tax Status:

The Plan has adopted a prototype non-standardized profit sharing plan with CODA and received a determination letter dated March 31, 2014, stating the prototype plan, as then designed, was acceptable under Section 401 of the Internal Revenue Code. Infrastructure Engineering, Inc. 401(k) Profit Sharing Plan & Trust has not requested a separate determination letter. The Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note E - Tax Status (Continued):

Authoritative accounting standards require the Plan to examine its tax positions for uncertain positions. Management is not aware of any tax positions that are more likely than not to change in the next 12 months or that would not sustain an examination by applicable taxing authorities.

The Plan's policy is to recognize penalties and interest as incurred in its statement of changes, which totaled $0 for the year ended December 31, 2017.

Note F - Party-in-Interest Transactions:

Certain Plan investments are shares of common / collective trusts managed by PNC Bank (PNC). PNC is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest.

Note G - Administrative Expenses:

Administrative expenses paid from the Plan represent asset based fees which amounted to $10,589 for the year ended December 31, 2017.

Note H - Fair Value Measurements:

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2017, compared to December 31, 2016. The Company's policy is to recognize transfers between levels at the end of each reporting period, if applicable. There were no transfers between Level 1, 2 or 3 assets or liabilities during the year ended December 31, 2017.

Registered investment companies: Valued at the daily closing price as reported by the underlying fund, which is traded on a national exchange.

Stable Value Fund: Valued at net asset value ("NAV") based on the fair value of the fund's underlying investments plus the contract value of the fully benefit-responsive wrapper contracts, using information reported by the Administrator. This NAV represents the Plan's fair value since this is the amount at which the Plan transacts with the fund. As a practical expedient, the Plan measures and presents its investment in the PNC Stable Value Fund at NAV as calculated by the Administrator. As a result of applying the practical expedient, the fair value of the PNC Stable Value Fund was determined based upon the Administrator reported NAV as of December 31, 2017 and 2016.

Note H - Fair Value Measurements (Continued):

The PNC Stable Value Fund allows for daily redemption and investments in the PNC Stable Value Fund and does not have a holding period. There are no unfunded commitments for investments in the PNC Stable Value Fund. The PNC Stable Value Fund seeks to preserve principal investment while earning interest income.

Certain events limit the ability of the Plan to transact at contract value with the PNC Stable Value Fund. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) election by the employer to withdraw from a common trust fund in order to switch to a different investment provider, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017

	Level 1	Total
Registered investment companies	$ 4,822,760	$ 4,822,760
Total assets at fair value	$ 4,822,760	4,822,760
Investments measured at NAV:		
Common / collective trusts *		647,053
Total assets at fair value		$ 5,469,813

Note H - Fair Value Measurements (Continued):

Assets at Fair Value as of December 31, 2016

	Level 1	Total
Registered investment companies	$ 3,438,443	$ 3,438,443

Investments measured at NAV:		
Common / collective trusts *		560,333
Total assets at fair value		$ 3,998,776

* Certain investments that are measured at fair value using the net asset value ("NAV") per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented on these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note I - Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note J - Management Evaluation of Subsequent Events:

The Companies have evaluated subsequent events through February 25, 2019, the date on which the financial statements were available to be issued.
