Notes to Financial Statements

1. Description of the Plan

The following description of the Medical Service Company 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a profit sharing retirement plan established February 28, 1980 to provide deferred compensation benefits to eligible employees of Medical Service Company (the Company) as allowed under Section 401(k) of the Internal Revenue Code (IRC). An employee becomes eligible to enter the Plan after three months of service in which they attain 250 hours of service and the attainment of age 20½. Employees may enter the Plan on the earlier of the first March 1, June 1, September 1, or December 1, on or after eligibility is met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 1, 2018, the Plan was amended to include an auto-enrollment deferral percentage increase from 2% to 3% for eligible employees (as defined). Eligible employees will be automatically enrolled in the Plan at an elective deferral rate of 3% of eligible compensation and their contributions will be invested in a designated target date fund until changed by the participant.

Contributions

Subject to limitations contained in the Plan and under the Internal Revenue Code, participants may elect to have from 1% to 100% of their compensation deferred to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. All employee contributions are made through payroll deductions. The Company makes a matching contribution of 25% of the first 6% of wages, if deferred by the participant, for a maximum contribution of 1.5% of wages.

The Company, at its discretion, may also contribute an additional amount to the participants' accounts. In order to be eligible for the profit sharing contribution, the participant must be employed by the Company on the last day of the Plan year, and have completed one year of service. There were no profit sharing contributions for the year ended February 28, 2018.

Participant Accounts

Each participant's account increases or decreases accordingly with the participant's contributions and allocations of the Company's matching and profit sharing contributions, withdrawals, and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are vested in the Company matching and discretionary contributions plus actual earnings thereon ratably over a six-year period with 20% being vested upon two years of service, 20% for each year of service thereafter, and full vesting after the sixth year of service. For vesting purposes, a Plan year during which a participant has completed 1,000 hours of service is a year of service.

Notes to Financial Statements

Benefit Payments

Funds are not permitted to be withdrawn from the Plan except in the event of death, disability, termination, normal retirement, or financial hardship. Payments are made in a lump-sum amount.

Financial hardship withdrawals of participants' voluntary deferral contributions are permitted in specialized circumstances of immediate and heavy financial need. A participant who receives a hardship distribution of voluntary contributions shall be prohibited from making elective deferrals for six months after receipt of distribution.

The Plan includes an automatic rollover provision as defined by the IRC with respect to distributions. If the vested balance is \$1,000 or less and the participant does not make an election to receive or to roll over the distribution, the vested balance must be distributed as a single lump-sum payment.

Notes Receivable from Participants

Loans are permitted to be made to active participants. The notes receivable documenting the loans are secured by the participant's vested interest in the Plan and must be for a minimum of \$1,000 up to the lesser of one half of the participant's account balance or \$50,000 reduced by the highest outstanding loan balance for reasons defined by the Plan document. The loans are secured by the balance in the participant's account and currently bear interest at a range from 5.25% to 6.50%, which is commensurate with local prevailing rates at the origination of the loan as determined by the Plan administrator. The loan repayment period may not be less than one year and may not exceed five years unless the loan is used to purchase a participant's principal residence for which the period may not exceed ten years. Interest is charged at a reasonable rate determined by the administrative committee. Principal and interest are paid ratably through bi-weekly payroll deductions. If a participant is married, their spouse must consent to any loan received from the Plan. Upon termination of employment, loans are immediately due and payable.

Forfeitures

Forfeited non-vested accounts are used to offset Company matching contributions and to pay administrative expenses. The balance of forfeited non-vested accounts, if any, shall be held in suspense and used to reduce future matching contributions in the next Plan year, and each succeeding Plan year, if necessary. The Company used \$5,465 in forfeitures to reduce employer matching contributions during the year ended February 28, 2018. At February 28, 2018 and 2017, the balance of unused forfeitures was approximately \$22,400 and \$15,500, respectively.

Administration

The Plan is administered by Rehmann Retirement Builders. Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC d/b/a Empower Retirement (Empower) receives and holds Plan assets and makes distributions to participants in accordance with the Plan document.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements are prepared on the accrual basis of accounting.

Medical Service Company 401(k) Plan and Trust

Notes to Financial Statements

Valuation of Investments and Income Recognition

Investments are reported at fair value, except for the guaranteed interest fund, which is reported at contract value. See Note 4 for discussion of the guaranteed interest fund. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan.

Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefit payments to participants are recorded when paid.

Expenses

All reasonable expenses of administration of the Plan may be paid out of the Plan's assets unless paid by the Plan Sponsor.

Subsequent Events

The Plan has evaluated subsequent events through March 12, 2019, which is the date the financial statements were available to be issued.

3. Certified Information

Certain information related to investments and notes receivable from participants described in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at February 28, 2018 and 2017, and net appreciation in fair value of investments and interest and dividend income for the year ended February 28, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Empower (the custodian of the Plan).

4. Guaranteed Interest Fund

In March 2016, the Plan entered into a benefit-responsive guaranteed interest fund with Empower, who maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed interest fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest fund. The guaranteed interest fund is presented in the statement of net assets available for benefits at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include certain amendments to the plan document, such as a complete plan termination. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The average yield based on actual earnings and the average yield based on the interest rate credited to participants was 1.35% for the year ended February 28, 2018.

Participants may transfer their account balance to any other investment option offered under the Plan at any time with no restrictions or penalties. If a participant transfers out of the Guaranteed Interest Fund, Empower reserves the right to restrict transfers for 30 days. These transactions are processed after the resolution of closed or disrupted financial exchanges or markets.

5. Fair Value Measurements

The Accounting Standards Codification (ASC) Topic on Fair Value Measurements and Disclosures defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. Fair Value Measurements and Disclosures does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Medical Service Company 401(k) Plan and Trust

Notes to Financial Statements

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 28, 2018 and 2017.

Mutual funds: The shares of mutual funds are valued at quoted net asset value (NAV) of shares held by the Plan at year end. There are no redemption restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

<i>February 28, 2018</i>	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 5,239,123	\$ -	\$ -	\$ 5,239,123

<i>February 28, 2017</i>	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,385,227	\$ -	\$ -	\$ 4,385,227

Notes to Financial Statements

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any point and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants become fully vested in the employer match and discretionary contribution portions of their accounts.

7. Tax Status

The Plan uses a prototype plan document sponsored by Ulmer & Berne, LLP (Ulmer). Ulmer obtained a determination letter from the Internal Revenue Service (IRS) dated March 31, 2008, which stated the prototype document satisfies the applicable requirements of the IRC. The Plan itself, as amended, received a determination letter from the IRS dated September 7, 2010, stating that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of February 28, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Transactions with Parties-in-Interest

Certain investments held by the Plan are managed by the custodian. Transactions that qualify as parties-in-interest consist of purchases and sales of Empower funds managed by the Plan's custodian and notes receivable from participants.

During the year ended February 28, 2018, administrative fees of \$36,822 were paid by the Plan to the custodian and third party administrator. These fees qualify as party-in-interest transactions.

9. Delinquent Participant Contributions

The Department of Labor's Regulation 29 CFR 2510.3-102 requires defined contribution plans to remit plan assets as of the earliest date on which such contributions or repayments can reasonably be segregated from the Company's general assets, but in no event, later than the 15th business day of the month following the month in which the participant contribution or loan repayment amounts are withheld. For the year ended December 31, 2018, the Company failed to remit certain participant contributions to the Plan in a timely manner, thus constituting non-exempt transactions between the Plan and the Company, as reported on Schedule H, line 4(a), Schedule of Delinquent Participant Contributions.

Delinquent contributions in the amount of \$7,081 related to various plan years were corrected in March 2019, in addition to lost earnings totaling \$833.
