REX ENERGY OPERATING CORP. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2018 AND 2017

1. DESCRIPTION OF PLAN

The following description of Rex Energy Operating Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, effective June 1, 2005, was a defined contribution plan covering all employees (except "excluded employees") of Rex Energy Operating Corp. (the "corporation" and "employer"). Employees were eligible to participate in the Plan on the first day of the month following their "employment commencement date" as defined by the Plan. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974 ("ERISA")*. Management is responsible for the oversight of the Plan. The benefits committee determined the appropriateness of the Plan's investment offerings, monitored investment performance, and reported to management.

In September 2018, management of the Plan approved a decision to terminate the Plan, effective October 19, 2018. The Plan was amended to incorporate this election and the Plan was fully liquidated on January 11, 2019.

Contributions

Each year, participants could contribute up to the maximum amount permitted under the Internal Revenue Code ("IRC") of annual compensation in the form of pre-tax or Roth deferrals, as defined in the Plan. Participants who attained age fifty before the end of the plan year were eligible to make catch-up contributions. Participants could contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants directed the investment of all contributions into various investment options offered by the Plan. The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan, unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 2.0 percent of eligible compensation and their contributions were invested in the appropriate target date fund until changed by the participant. The automatic deferral rate had scheduled increases of 1.0 percent each year beginning in the third year through year five. Matching and profit sharing amounts could be contributed at the option of the corporation's board of directors and were invested in a portfolio of investments as directed by the participants. Contributions were subject to certain Internal Revenue Service ("IRS") limitations. For the years ended December 31, 2018 and 2017, the corporation matched participants' deferrals at 50.0 percent of the first 5.0 percent of compensation. There were no discretionary profit sharing contributions made during each of the years ended December 31, 2018 and 2017.

Participant Accounts

Each participant's account was credited with the participant's contributions and allocations of the employer's contributions, as well as the Plan's earnings. Participants were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled is the benefit that could be provided from the participant's vested account.

REX ENERGY OPERATING CORP. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2018 AND 2017

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the employer's contributions portion of their accounts plus actual earnings thereon was based on years of continuous service. A participant was 100.0 percent vested after five years of credited service.

<u>Years of Service With the Employer</u>	<u>Percent of Non-Forfeitable Accrued Benefits</u>
1	20.0%
2	40.0%
3	60.0%
4	80.0%
5	100.0%

Active participants became fully vested in the employer's contributions portion of their account in October 2018 when the corporation terminated the Plan.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$0 and \$186, respectively. The corporation applied forfeitures to non-elective employer's contributions made, reduce employer's contributions, and then pay administrative expenses of the Plan. Employer contributions were reduced by \$8,003 and \$31,322 from forfeited non-vested accounts for the years ended December 31, 2018 and 2017, respectively. The corporation allocated \$24,878 and \$137,886 of the forfeiture balance to participant accounts during the 2018 and 2017, respectively. The corporation applied \$6,764 and \$6,800 of forfeitures to pay administrative expenses during 2018 and 2017, respectively.

Notes Receivable from Participants

Notes receivable from participants were not allowed by the Plan.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant could elect a distribution. Vested account balances of less than \$5,000 were distributed in a lump sum amount. Vested account balances in excess of \$5,000 were distributed in either a lump sum distribution of the entire vested account balance or a distribution of a portion of the vested account balance.

Payment of Benefits

The Plan adopted the automatic rollover provision to the rules governing qualified retirement plans as stated by the Economic Growth and Tax Relief Reconciliation Act (EGTRRA). These rules state that distributions in excess of \$1,000 and not more than \$5,000 could be made from the Plan without a participant's consent and were required to be rolled over into an IRA selected by the Plan's fiduciary. Terminated employees with a vested account balance greater than \$5,000 could continue to participate in the Plan's investments and received the benefits upon retirement or death.

REX ENERGY OPERATING CORP. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 AND 2017

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

In September 2018, management of the Plan approved a decision to terminate the Plan, effective October 19, 2018. As of January 11, 2019, the Plan was liquidated. In accordance with accounting principles generally accepted in the United States of America, the accompanying Statement of Net Assets Available for Benefits in Liquidation as of December 31, 2018 and the Statement of Changes in Net Assets Available for Benefits in Liquidation for the year ended December 31, 2018 are presented on that basis.

For periods before the decision to terminate the Plan was made, the financial statements were prepared using the ongoing plan basis of accounting. The accompanying Statement of Net Assets Available for Benefits as of December 31, 2017 and the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017 are presented on that basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's benefits committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gain (loss) on investments bought and sold, as well as held during the years.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The majority of expenses to maintain the Plan were paid by the corporation. Expenses that are paid by the corporation are excluded from these financial statements. Forfeitures can be used to pay expenses of the Plan. The corporation applied \$6,764 and \$6,800 of forfeitures to pay administrative expenses during 2018 and 2017, respectively. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

REX ENERGY OPERATING CORP. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2018 AND 2017

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through March 21, 2019, which is the date the financial statements were available to be issued. Assets held in the Plan by the custodian and requested for rollover by participants as of December 31, 2018 were distributed to participants as of January 11, 2019.

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's *Rules and Regulations for Reporting and Disclosure* under ERISA as of and for the years ended December 31, 2018 and 2017. Accordingly, Capital Bank and Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2018, and the related investment activity reported on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2018 and 2017.

4. ADMINISTRATION OF PLAN ASSETS

The Plan's assets were administered under a contract with Capital Bank and Trust Company, the trustee of the Plan. The trustee invested funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

- * **Level 1:** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- * **Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as
 - * quoted prices for similar assets or liabilities in active markets;
 - * quoted prices for identical or similar assets or liabilities in inactive markets;
 - * inputs other than quoted prices that are observable for the asset or liability; and

REX ENERGY OPERATING CORP. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 AND 2017

5. FAIR VALUE MEASUREMENTS (Continued)

- * inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If an asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

- * **Level 3:** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- * **Mutual Funds:** Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds, which are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31:

Investments	2018			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 492,680	\$ 0	\$ 0	\$ 492,680

Investments	2017			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 8,587,519	\$ 0	\$ 0	\$ 8,587,519

During each of the years ended December 31, 2018 and 2017, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

7. PLAN TERMINATION

Rex Energy Corp. (the "company") is the parent company of Rex Energy Operating Corp., the Plan's sponsor. During May 2018, the company filed for protection under Chapter 11 of the U.S. Bankruptcy Code because they did not have sufficient liquidity to repay obligations as they became due and were unsuccessful in negotiating an alternative restructuring with its various stakeholders outside of a voluntary prearranged Chapter 11 bankruptcy filing. Chapter 11 gave the company protection from creditors for a limited period of time while it reorganized. The company continued to operate the Plan and fund employer's contributions during the bankruptcy proceedings. The company held a public auction to sell its assets in August 2018. In September 2018, management of the Plan made a decision to terminate the Plan effective October 19, 2018. Upon termination, all assets remaining in the Plan were distributed to the participants subject to the applicable requirements of ERISA and in accordance with the provisions of the Plan.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 AND 2017

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are shares of mutual funds managed by Capital Bank and Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The corporation pays directly any other fees related to the Plan's operations. Transactions resulting in the Plan's assets being transferred to, or used by, a related party, are prohibited under *ERISA*, unless a specific exemption exists. Investing the Plan's assets in American Funds Group of mutual funds are exempt under Section 408(b)(8) and are not prohibited by *ERISA*.

Certain administrative functions of the Plan are performed by officers or employees of the corporation. No such officer or employee receives compensation from the Plan.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balance and the amounts reported on the Statements of Net Assets Available for Benefits.

At December 31, 2018 and 2017, the Plan had investments of \$376,148 and \$3,236,168, respectively, which were concentrated in four and three funds, respectively.

10. TAX STATUS

The IRS has determined and informed the trustee by a letter, dated March 31, 2014, that the prototype plan document used by the Plan is designed in accordance with applicable sections of the IRC. Although the prototype plan document has been amended since receiving the opinion letter, the plan sponsor believes that the Plan was designed, and is operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan qualified and tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability, if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities, however, there are currently no audits for any tax periods in progress.
