Report of Independent Auditor

To,
The Participants and the Plan Administrator,
Rane Precision Die Casting Union Retirement Plan

Report on Financial Statements

We were engaged to audit the accompanying financials statements of Rane Precision Die Casting Union Retirement Plan ("the Plan") which comprise the statements of net assets available for benefits as of June 30, 2018 and June 30, 2017, the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Charles Schwab Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of June 30, 2018 and June 30, 2017 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do

not express an opinion on these financial statements.

Other Matter

The supplemental information in Schedule H as of and for the year ended June 30, 2018, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements for the years ended June 30, 2018 and June 30, 2017 and supplemental information for the year ended June 30, 2018, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1: DESCRIPTION OF PLAN

The following description of the Rane Precision Die Casting Union Retirement Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

General

The Plan was established effective from October 31, 2014 vide executed agreement dated May 15, 2015. The Plan is a defined benefit pension plan covering eligible employees of Rane Precision Die Casting, Inc. ("RPDC"/"the Company"/ "Plan Sponsor"). The Plan is sponsored and administered by RPDC, a corporation, with its principal office located in Russellville, Kentucky.

Change of Plan and Plan Sponsor name

The Plan states that effective September 01, 2016, the Plan was amended and restated to change the name of the Plan from "Precision Die Casting Union Retirement Plan" to "Rane Precision Die Casting Union Retirement Plan" and also change the name of the sponsoring employer from "Precision Die Casting, Inc." to "Rane Precision Die Casting, Inc.", with effect from the aforementioned date.

Spin off

Rane (Madras) Limited, a company listed in stock exchanges in India, acquired RPDC vide share purchase agreement dated February 17, 2016. The employees of RPDC were covered under Sensus USA Inc. Union Retirement Plan ("SUP"/ "Old Plan"). As part of the transaction, RPDC agreed to replicate the benefit programs maintained by SUP for those employees being hired by RPDC ("Transferred Employees"), including the defined benefit plan benefits. The assets of \$2,963,947 were transferred to Charles Schwab on June 03, 2015

Pension benefits

All employees of the Company with a date of hire before October 11, 2010, except for the employees in the categories as defined under section 2.2 (2) of the Plan document, are eligible to participate in the Plan upon meeting the following eligibility requirement: completion of one hour of service with the Company and provided that he/ she was a union employee covered by the collective bargaining agreement between the Company and local No. 2407 of United Auto Workers (UAW).

No employee scheduled to participate on or after October 11, 2010 shall participate in the Plan. An employee who is rehired following a termination of employment and who formerly participated under the Plan shall re-participate but only for the purpose of being credited with additional years of vesting service as defined by the Plan.

Normal retirement benefits

A participant is eligible for his normal retirement pension after the participant has attained age of 62 and terminates employment. The normal retirement pension is payable monthly as long as the participant lives, with the payment ceasing upon the participant's death. If a participant in a pay status returns to employment the retirement benefits will

Financial Statements

June 30, 2018 and June 30, 2017

not be suspended. With respect to a participant, no distribution will be made before the date the participant could receive a distribution if he is terminated from the employment.

Normal retirement pension formula

A participant shall receive a monthly benefit payable at normal retirement age equal to:

- \$23.00 multiplied by years of benefit service from December 2003 to October 10, 2005; plus
- \$24.00 multiplied by years of benefit service from October 2005 to October 9, 2006; plus
- \$25.00 multiplied by years of benefit service from October 9, 2006, to October 8, 2007; plus
- \$26.00 multiplied by years of benefit service from October 5, 2007 to December 16, 2010; plus
- \$16.00 multiplied by benefit service after December 16, 2010.

“Year of benefit service” is explained under the Service Rules below. Years of benefit service are limited to the most recent 35 years.

Service rules

Vesting service rules

A participant is credited with the year of vesting service for each 12-month period. Vesting service is determined using the elapsed time method. Fractional years of vesting service will be credited to the completed day.

Benefit service rules

A participant is credited with the year of benefit service for each 12-month period he is employed by the employer. Fractional years of benefits service will be credited to the completed day.

For the purpose of determining years of benefit service, the Plan will not count the following service:

- Years of services disregarded under the vesting break in service rules
- Service before employee participated in the plan
- Service before December 18, 2003
- Service after re-employment if reemployed after October 11, 2010

Service with Sensus Precision Die Casting, Inc. will be considered for benefit purposes, provided a participant was employed by that business as of October 31, 2014.

Other retirement benefits

If a participant continues working after his normal retirement date, his pension will not commence until he/ she actually retires. A participant is eligible for early retirement after attainment of age 55 and completion of 10 years of vesting service.

Disability benefit

The participant is entitled to receive a disability benefit if he/ she meets all of the following requirements

- He/ she is actively employed
- Becomes disabled and remains so for six months.

Rane Precision Die Casting Union Retirement Plan

Financial Statements

June 30, 2018 and June 30, 2017

- Not eligible for long term disability through the employer

The benefit will be payable in the form of a lifetime pension until the earliest of: recovery, death or normal retirement date. The participant's monthly disability benefit will be equal to his normal retirement pension accrued as of the date the disability occurred.

If the participant is eligible for the long-term disability through the employer, the participant will continue to accrue as if the participant were an active participant until the normal retirement age.

Death benefit

If a participant dies after he/ she has become vested under the Plan but before he/ she begins to receive a retirement pension benefit, his/ her spouse will receive a 50% survivor benefit if he/ she has been married at least one year. Payment will begin on the date on which he first would have been eligible for retirement. The amount of his/ her surviving spouse's benefit is equal to 50% survivor benefit payable under the joint and 50% survivor pension option, based upon his/ her accrued pension at the date of death and reduced for early commencement of benefits, if applicable. If the participant is not married or has been married for a full year at the time of death, no benefit will be paid by the plan.

Vesting

If the employment terminated other than by retirement or disability, the amount payable from the plan is based upon the following vesting schedule:

Years of service	Vesting percentage
0-4 years	0%
5 or more years	100%

Forfeiture and restoration

Forfeiture occurs when the participant terminates the employment before being vested. The forfeited amount is used to reduce any employer contribution otherwise due under the plan. If the participant returns to employment with the employer during the restoration period, the employer will restore the forfeited accrued pension upon completion of one year of service. The restoration period ends on the date the participant has breaks in service in accordance with the vesting service rules equaling the greater of 5 or his/ her total years of vesting service. If a participant terminates employment after he/ she is 100% vested and receives a distribution of his/ her accrued pension, he/ she cannot return his distribution. During the years ended June 30, 2018 and June 30, 2017 there were \$NIL forfeitures.

Contributions

The employer shall make due and timely payment to the trust fund of such amounts as may be necessary from time to time according to the certification of the plan actuary to provide the benefits to which participants are entitled under the plan.

Contributions to the plan are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the plan year. No voluntary and mandatory employee contributions shall be permitted under the plan.

Administration

Brett Stevenson serves as the plan administrator. The plan administrator has the responsibility to administer the Plan for the exclusive benefit of the participants and their beneficiaries. These duties include, but are not limited to, making determinations regarding questions relating to eligibility of employees to become participants, determine and certify the amount and kind of benefits payable, authorizing disbursement from the fund.

Charles Schwab Bank serves as trustee of the Plan. The duties and powers of the trustee are set forth in a trust agreement executed by the company. The trustee receives all contributions made under the Plan, holds plan assets and pays benefits to participants as directed by the Plan Sponsor.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Date of management's review

Subsequent events were evaluated through April 11, 2019 which is the date the financial statements were available to be issued. Based on the evaluation no subsequent events are to be reported.

Use of estimates in financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the dates of the financial statements and the reported amounts of additions and deductions during the respective reporting periods. Actual amounts could differ from those estimates and assumptions.

Risks and uncertainties

The Plan invests in various investment options. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. The Plan's exposure to credit losses in the event of nonperformance of investments is limited to the carrying value of such investments. During the years ended June 30, 2018 and June 30, 2017, net gains in the fair values of investments totaled \$68,559 and \$176,060, respectively.

Payment of benefits

Benefits payments are recorded when paid.

Administrative expenses

Expenses incurred in the administration of the plan are paid out of plan assets. During the year ended June 30, 2018 and for the year ended June 30, 2017, the Plan incurred \$142,168 and \$111,356, respectively, towards plan administration.

Investment valuation and income recognition

Investments in registered investment companies (“mutual funds”) are valued at quoted market prices or contract value, wherever applicable, as provided by the trustee. Net appreciation in the value of mutual funds represent the change in fair value or contract value wherever applicable, during the year, including realized and unrealized gains and losses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Basis of fair value measurements

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurements date for identical, unrestricted assets or liabilities.

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable. Either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurements, and unobservable.

A financial instrument's level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements.

The Company evaluates its financial assets and liabilities subject to fair value measurements on a recurring basis to determine the appropriate level of classification as of each reporting period.

The following is a description of the valuation methods used for Plan assets measured at fair value at June 30, 2018 and 2017. There were no changes in the methods used at June 30, 2018 and 2017.

Mutual funds: Valued at quoted prices from an active market which represents the net asset value (“NAV”) of shares held by the Plan at year-end.

NOTE 3: INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental information.

Changes in fair value levels: The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets available for benefits. For the years ended June 30, 2018 and June 30, 2017, there were no transfers in or out of levels 1, 2 or 3.

NOTE 7: ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or former employees and their beneficiaries, (b) beneficiaries of employees who have died, and (c) active employees and their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date

At July 01, 2018 and July 01, 2017, the actuarial present value of accumulated plan benefits was determined using the unit credit actuarial method by the Plan's independent actuaries. The amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected dates of payment. The actuarial present value of accumulated plan benefits and the changes in the actuarial present value of accumulated pension benefits as of and for the year ended June 30, 2018 and June 30, 2017, were as follow:

Actuarial Present Value of Accumulated Plan benefits	July 01, 2017 to June 30, 2018	July 01, 2016 to June 30, 2017
Vested benefits		
Active members	1,230,299	1,327,670

Changes in the actuarial present value of accumulated pension benefits:	
Accumulated plan benefits at the beginning of the year	3,570,614
Changes in actuarial assumptions	(20,535)
Benefits paid	(148,266)
Benefits accumulated	90,386
Increase of interest	244,321
Accumulated pension benefits — end of year	3,736,520

The significant actuarial assumptions used in the valuations as of July 01, 2017 and July 01, 2016 were as follows:

Interest rates used to discount future obligations to present value	7.00%
Retirement rates	Various rates ranging from 25% at age 62 to 100% at age 70 and above
Mortality rates	Based on adjusted RP-2014 Blue Collar Mortality Table

The adjusted RP-2014 Blue Collar Mortality Table was updated in accordance with Internal Revenue Code Section 430. These changes received automatic approval from the Internal Revenue Service. There were no changes to the asset valuation method for the 2017-2018 plan year. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 9: FUNDING POLICY

Company contributions that meet the funding requirements of ERISA are determined by actuarial valuations and are made to the Plan in amounts expected to be sufficient to provide the Plan with assets to pay estimated pension benefits to Plan participants. Contributions to the Plan are determined based upon calculations made by the actuary and are designed to annually fund current normal cost and to amortize the unfunded liability, which results in annual contributions equal to or in excess of the minimum funding requirements for Plan years.

NOTE 10: INCOME TAX STATUS

The Plan Sponsor entered into a non-standardized adoption agreement of *the Conrad M Siegal Inc. DBA Conrad Siegal Actuaries* Volume Submitter Defined Benefit Plan (the prototype plan). The prototype plan received a favorable opinion letter from the Internal Revenue Service (IRS) on *March 31, 2008*, which stated that the prototype plan and related trust were designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified, and the related trust is tax exempt.

United States generally accepted accounting principles require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2018, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 11: PARTY-IN-INTEREST TRANSACTIONS

Brett Stevenson, employee of the Company, serves as the Plan administrator, for which no fee is charged to the Plan. Charles Schwab and Conrad Siegal have been identified as parties-in-interest and thus transactions are exempt from prohibited transaction rules. During the years ended June 30, 2018 and June 30, 2017, fees paid by the Plan to Charles Schwab in its capacity as Plan trustee for the plan years was \$3,347 and \$3,427, respectively. Fees paid to Conrad Siegal as third-party administrator as well as for actuarial valuation for the years ended June 30, 2018 and June 30, 2017 was \$58,103 and \$34,441, respectively.

NOTE 12: PLAN TERMINATION

Although it has not expressed any intent to do so, RPDC has retained the right to amend, terminate, or otherwise modify the Plan, including the right to discontinue the contributions thereto, at any time, solely at the discretion of PDC. In the event of the termination of the Plan, the assets thereof shall be distributed in accordance with the Section 4044 of ERISA. The Plan is covered plan under the plan termination insurance provisions of ERISA, and the Pension Benefit Guaranty Corporation ("PBGC") guarantees the payments of certain benefits thereunder. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participant's benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

NOTE 13: SUBSEQUENT EVENTS

Subsequent events were evaluated through April 11, 2019 which is the date the financial statements were available to be issued. Based on the evaluations:

Cash contributions

During the period July 01, 2018 to April 11, 2019, the Company contributed \$268,324 of cash to the Plan, \$113,960 of which were applied to the year ended June 30, 2018 and \$154,364 of which will be completely applied to the Plan year ending June 30, 2019.

Weighted average retirement age: 64

The weighted average retirement age is computed by first determining, for each possible retirement age, the probability that an eligible employee would retire at that age, given survival to the earliest possible retirement age. Then these probabilities at each age are multiplied (or weighted) by the age and summed. This sum, rounded to the nearest integral age, is the weighted average retirement age.

Preretirement Survivor Death Benefit

Liabilities computed on the assumption that 75% of participants will have spouses of the same age at the date of eligibility for the benefit.

Expenses

Plan-related expenses expected to be paid from plan assets during the plan year.

Actuarial Value of Assets

Average of the Adjusted Market Values as of the valuation date and the 2 preceding valuation dates. The averaging is adjusted for contributions, distributions and expected earnings, using an assumed interest rate of 7.00% (but not in excess of the applicable third segment rate for that year). The resulting value may not be less than 90% nor more than 110% of the Adjusted Market Value of Assets.

Rane Precision Die Casting Union Retirement Plan
EIN: 61-1154640
Plan Number: 002

Precision Die Casting Union Retirement Plan
Actuarial Valuation as of July 1, 2017
Summary of Plan Provisions

Precision Die Casting Union Retirement Plan is a defined benefit pension plan that was established October 31, 2014. The first plan year begins October 31, 2014, and ends June 30, 2015. Subsequent plan years begin July 1 and end June 30.

ELIGIBILITY TO PARTICIPATE

No employees with a date of hire on or after October 11, 2010, will participate in the Plan.

Previously, an employee became a participant in the Plan on the first day he meets the following requirement:

- Completes one hour of service.

Provided he was:

- A union employee covered by the Local No. 2407 of the United Auto Workers (UAW).

NORMAL RETIREMENT BENEFIT

Normal Retirement Date

A participant is eligible for his normal retirement pension after the participant satisfies the following conditions:

- Attainment of age 62.
- Terminates employment.

Normal Retirement Benefit

The normal retirement pension is payable monthly as long as the participant lives, with payments ceasing upon the participant's death.

Normal Retirement Pension Formula

A participant shall receive a monthly benefit payable at normal retirement age equal to:

\$23.00 multiplied by years of benefit service from December 18, 2003 to October 10, 2005; plus

\$24.00 multiplied by benefit service from October 10, 2005, to October 9, 2006; plus

\$25.00 multiplied by benefit service from October 9, 2006, to October 8, 2007; plus

\$26.00 multiplied by benefit service from October 5, 2007, to December 16, 2010; plus

\$16.00 multiplied by benefit service after December 16, 2010.

"Year of benefit service" is explained under Service Rules. Years of benefit service are limited to the most recent 35 years.

Accrued Benefit

The accrued benefit on any date other than the normal retirement date is determined according to the normal retirement pension formula, but based upon benefit service to date.

Precision Die Casting Union Retirement Plan
Actuarial Valuation as of July 1, 2017
Summary of Plan Provisions

Retirement Payment Options

A participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Lifetime Pension with Guaranteed Period** with guaranteed payments for 60, or 120.
- **Joint and Survivor Pension** with 100%, 75%, or 50% survivor pension.

If the present value of the vested benefit does not exceed \$5,000, lump sum is the only payment option.

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension.

Employment after Retirement. If a participant in pay status returns to employment, retirement benefits will not be suspended.

Distributions under Qualified Domestic Relations Order. With respect to a participant, no distribution will be made before the date the participant could receive a distribution if he terminated employment.

OTHER RETIREMENT BENEFITS

Late Retirement

If a participant continues working after his normal retirement date, his pension will not commence until he actually retires. The late retirement benefit is the normal retirement benefit determined under the pension formula using current service.

Early Retirement

A participant is eligible for early retirement after attainment of age 55 and completion of 10 years of vesting service. The early retirement pension is the actuarial equivalent of the pension accrued to the date of early retirement.

DISABILITY BENEFIT

The participant is entitled to receive a disability benefit if he meets **all** of the following requirements:

- He is actively employed.
- Becomes disabled and remains so for six months.
- Not eligible for long-term disability through the employer.

The benefit will be payable in the form of a Lifetime Pension until the earliest of: recovery, death, or normal retirement date. The participant's monthly disability benefit will be equal to his normal retirement pension accrued as of the date the disability occurred.

If the participant is eligible for long term disability through the employer, the participant will continue to accrue as if the participant were an active participant until normal retirement age.

Summary of Plan Provisions

DEATH BENEFIT

If a participant dies after he has become vested under the Plan but before he begins to receive a retirement pension benefit, his spouse will receive a 50% survivor benefit if he has been married at least one year. Payment will begin on the date on which he first would have been eligible for retirement. The amount of his surviving spouse's benefit is equal to the 50% survivor benefit payable under the joint and 50% survivor pension option, based upon his accrued pension at the date of death and reduced for early commencement of benefits, if applicable. If the participant is not married or has not been married for a full year at the time of death, no benefit will be paid by the Plan.

TERMINATION OF EMPLOYMENT BENEFITS

Vesting in Accrued Pension

If employment terminates other than by retirement or disability, the amount payable from the Plan is based upon the following vesting schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
0–4 Years	0%
5 or More Years	100%

Time of Payment

The participant may elect payment after his early retirement date, reduced to reflect the early commencement of benefits. No pension payment is available under the Plan prior to early retirement or death, with one exception. If the present value of the vested accrued benefit does not exceed \$5,000, the lump sum value can be paid following termination of employment.

Forfeitures and Restoration

Forfeiture occurs when the participant terminates employment before being vested. The forfeited amount is used to reduce any employer contribution otherwise due under the Plan. If the participant returns to employment with the employer during the restoration period, the employer will restore the forfeited accrued pension upon completion of one year of service. The restoration period ends on the date the participant has breaks in service in accordance with the vesting service rules equaling the greater of 5 or his total years of vesting service. If a participant terminates employment after he is 100% vested and receives a distribution of his accrued pension, he cannot return his distribution to the Plan.

EMPLOYEE CONTRIBUTIONS

Voluntary Employee Contributions

Voluntary nondeductible employee contributions are not permitted.

Mandatory Employee Contributions

Mandatory employee contributions have never been required under the Plan.

Rollover Accounts

Rollover or transfer contributions are not permitted.

SERVICE RULES

Vesting Service Rules

Vesting service is determined using the elapsed time method. Fractional years of vesting service will be credited to the completed day.

Benefit Service Rules

A participant is credited with a year of benefit service for each 12 month period he is employed by the employer. Fractional years of benefits service will be credited to the completed day.

For the purpose of determining years of benefit service, the Plan will not count the following service:

- Service when you do not meet the job description requirements. See Eligibility to Participate.
- Service before you participated in the Plan.
- Service before December 18, 2003.

Service with Sensus Precision Die Casting, Inc. will be counted for benefit purposes, provided you were employed by that business as of October 31, 2014.

ACTUARIAL EQUIVALENCE

Actuarial equivalence is determined as set forth below.

Late Retirement – Increase factor of 1.06.

Early Retirement – The accrued benefit shall be reduced by 5/9 or 1% for each of the first 60 months and 5/18 of 1% for each additional month by which the early retirement date precedes the normal retirement date.

Monthly Pension – Actuarial equivalence will be determined based on the following mortality table and interest assumption:

Mortality table:	1983 Group Annuity Mortality
Interest rate:	7.5%

Lump Sum – Actuarial equivalence will be determined based on the following mortality and interest assumptions:

Mortality table:	The Code section 417 mortality table
Interest rate:	The Code section 417 interest rates

Code Section 417 Mortality Table

The Code section 417 mortality table is the Applicable Mortality Table released annually by the Internal Revenue Service.

Code Section 417 Interest Rates

The Code section 417 interest rates are the Segment Rates for the third month preceding the first day of the plan year that contains the annuity starting date.
