Independent Auditor's Report

To the Plan Administrator of Standex International Corporation Pension Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Standex International Corporation Pension Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of June 30, 2018 and 2017, and the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of June 30, 2018 and 2017, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental Schedule of Assets (Held at End of Year) as of June 30, 2018 and Schedule of Reportable Transactions for the year then ended are required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

A. PLAN DESCRIPTION:

The following brief description of the Standex International Corporation Pension Plan (formerly Standex International Corporation Hourly Pension Plan) (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a defined benefit pension plan covering employees of Standex International Corporation and its subsidiaries (the “Company”) who have completed one year of service and are not employees of recent acquisitions or covered by pension plans established under collective bargaining agreements and administered by the union. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (the “Code”).

On July 1, 1989 the Pension and Employee Stock Ownership Committee of the Company merged 11 separate hourly pension plans into the Standard Publishing Hourly Pension Plan, at which time it was renamed the Standex International Corporation Hourly Pension Plans.

Effective June 30, 2008 the Standex International Corporation Retirement Plan (the “Salaried Plan”) was merged with and into the Standex International Corporation Hourly Pension Plan. As of that date the surviving plan was renamed the Standex International Corporation Pension Plans.

Prior to the merger, the investments of the Plan were combined with and managed in conjunction with the assets of the Salaried Plan in the Standex International Corporation Pension Plans Master Trust (the "Master Trust"). Upon the merger, the Master Trust ceased to be a master trust as it now holds only the assets of the Plan.

Plan Administration

The Plan is administered by the Company's Administrative Committee for Pension Plans, whose members are appointed by the Board of Directors. State Street Bank and Trust Company ("State Street") acts as trustee for the Plan.

Funding Policy

Contributions to provide benefits under the Plan are made by the Company based upon amounts determined by the consulting actuary. It is the Company’s policy to comply with the minimum funding requirements of ERISA, and such policy has been complied with for the years ended June 30, 2018 and 2017.

Benefits

Normal retirement benefits are based upon a formula taking into account a participant’s compensation level or benefit rate, as defined, and the number of years of credited service of that participant. If a participant elects early retirement, benefits may be actuarially reduced by a formula based on the number of months between the normal retirement age and a participant’s age at early retirement.

The normal form of a benefit payment is an annual benefit, payable in monthly amounts, for life. If the participant is married the form of payment will be an actuarially equivalent 50% qualified joint and survivor annuity. Actuarially equivalent optional forms of payment, such as annuities, lump-sum payments, and period certain options may be elected by participants in lieu of the normal form of payment.

If an active participant dies after becoming vested, the surviving spouse will be paid the minimum death benefit in the form of an annuity.

All Plan benefits are subject to the limitations prescribed by the Code which includes provisions that limit the amount of retirement income which may be paid to an individual participant.

Effective December 31, 2007, future benefit accruals were frozen for all current and future salaried employees.

Effective July 31, 2013, future benefit accruals were frozen for all current and future hourly employees in the Standex International Corporation Hourly Plan, Master-Bilt Hourly Pension Plan, and The Standex Commercial Hourly Pension Plan.

Effective September 30, 2015, future benefit accruals were frozen for all current and future employees in the Custom Hoists Hourly Pension Plan.

Retirement Dates

An employee's normal retirement age is 65. The Plan permits early retirement at age 55 provided the participant has been credited with 10 or more years of service. There is no mandatory retirement age.

Vesting

Participants are 100% vested in their benefits upon completion of 5 years of service.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan is invested in various securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all expenses of the Plan are paid by the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations used in the valuation as of July 1, 2017 are as follows:

Discount rate	-	7.00% (previously 7.10%)
Mortality basis	-	RP-2014 base tables, with a modified MP-2016 improvement scale (updated annually)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

At July 1, 2017, the actuarial present value of accumulated plan benefits under the Plan were:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	$ 137,251,034
Participants with deferred benefits	31,648,812
Other participants	21,198,388
Total vested benefits	190,098,234
Nonvested benefits	90,354
Total actuarial present value of accumulated plan benefits	$ 190,188,588

For the year ended July 1, 2017, the estimated changes in actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	$ 191,144,701
Increase (decrease) during the year attributable to:	
Benefits accumulated	1,245
Benefits paid	(15,744,686)
Increase in interest due to decrease in discount period	13,012,426
Change in assumptions	1,711,009
Actuarial losses	63,893
Net decrease in actuarial present value of accumulated plan benefits	(956,113)
Actuarial present value of accumulated plan benefits at end of year	$ 190,188,588

C. FAIR VALUE MEASUREMENTS:

Accounting standards establish a framework for measuring fair value. That framework sets forth a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at June 30, 2018 and 2017.

Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trusts – Valued at the net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Mutual funds – Valued at the net asset value of the shares held by the Plan at year end as determined by quoted market prices.

Short-term investments – Valued at net asset value based on the fund's underlying assets, as reported by the trustee. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30:

	2018			
Description	Total	Level 1	Level 2	Level 3
Common stocks	$ 13,903,979	$ 13,903,979	$ -	$ -
Mutual funds	28,640,505	28,640,505	-	-
Total investments in the fair value hierarchy	42,544,484	$ 42,544,484	$ -	$ -
Investments measured at net asset value(1):				
Common collective trusts	145,361,785			
Short-term investments	3,254,169			
Total investments measured at net asset value	148,615,954			
Total investments at fair value	$ 191,160,438			

	2017			
Description	Total	Level 1	Level 2	Level 3
Common stocks	$ 13,464,380	$ 13,464,380	$ -	$ -
Mutual funds	31,100,473	31,100,473	-	-
Total investments in the fair value hierarchy	44,564,853	$ 44,564,853	$ -	$ -
Investments measured at net asset value(1):				
Common collective trusts	147,037,861			
Short-term investments	3,685,515			
Total investments measured at net asset value	150,723,376			
Total investments at fair value	$ 195,288,229			

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for plan benefits.

The State Street and BlackRock collective trusts can be redeemed daily, have a two day redemption notice period, and have no unfunded commitments. The Mellon EB US Long Duration fund can be redeemed semi-monthly, has a 2 day notice period and has no unfunded commitments. The Loomis Sayles fund can be redeemed semi-monthly, has a 30 day notice period and has no unfunded commitments. The Mondrian collective fund can be deemed daily, has no redemption notice period and no unfunded commitments. The Wellington collective trusts can be redeemed monthly and have no unfunded commitments. The Wellington Diversified fund has a 30 day notice period. Withdrawal requests for the Wellington Opportunistic fund must be made by the 22nd of the previous month.

The short term investment funds can be redeemed daily, have daily redemption notice periods, and have no unfunded commitments. The funds seek to provide safety of principal and liquidity.

D. TAX STATUS:

The Plan obtained a favorable determination letter, dated March 22, 2016, in which the Internal Revenue Service ("IRS") stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

During the 2018 audit, it was discovered that the Plan's written provisions with regard to the benefit payment calculation for Roehlen participants were not consistent with its operation. To correct the defect, the Plan has entered the IRS' Employees Plans Compliance Resolution System ("EPCRS"). The Plan's management believes that under EPCRS Voluntary Correction Program ("VCP"), the identified defect will be corrected, and that the IRS will issue a compliance statement preserving the tax-exempt status of the Plan, and that no corrective contribution will be required to be funded to the Plan.

E. TERMINATION:

In the event the Plan terminates, the Plan's assets will be allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

1. Costs for participants who have been receiving benefits or who have been eligible to receive benefits upon normal or late retirement for three or more years as of the date of termination.
2. Costs for participants who have been receiving benefits or who have been eligible to receive benefits upon normal or late retirement for less than three years as of the date of termination.
3. Costs for all other benefits insured by the Pension Benefit Guaranty Corporation ("PBGC").
4. Costs for all other non-forfeitable benefits under the Plan.
5. Costs for any other remaining benefits.

Certain benefits under the Plan are insured by the PBGC upon termination of the Plan. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, the PBGC does not guarantee all types of benefits under the plan and the amount of benefit protection is subject to certain limitations. Also, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether or not all participants will receive their benefits in whole or in part upon plan termination will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

F. COMPLIANCE AND ERISA:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, no auditing procedures were performed by the independent auditors with respect to the information certified by State Street Bank and Trust Company ("State Street"), the trustee of the Plan, except for comparing the information to the financial statements and supplemental schedules. The trustee has certified as to the completeness and accuracy of the investments held by the Plan as of June 30, 2018 and 2017 and the investment earnings and other investment-related transactions of the Plan for the years then ended, and the information continued in the schedule of assets (held at end of year).

G. RELATED PARTY TRANSACTIONS:

Certain investments are shares of registered investment companies managed by State Street Global Advisors ("SSGA"). State Street Bank and Trust Company, a related entity to SSGA, is the trustee of the Plan and therefore, transactions with these investments qualify as party-in-interest.

H. SUBSEQUENT EVENTS:

The Company has evaluated all subsequent events through April 10, 2019, the date the financial statements were available to be issued.

Former participants of the Standex International Corporation Retirement Plan are assumed to elect the life only if single and joint & 50% contingent if married.

All other participants are assumed to elect the normal form.

Percent married

85% of active participants are assumed to be married.

Spouse age

Husbands are assumed to be three years older than the wife.

Covered pay

Compensation paid in the current fiscal year beginning on the valuation date is the current annual rate of pay.

It excludes compensation for those employees whose age on the valuation date equals or exceeds the ultimate assumed retirement age.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Under this method, valuation assets are equal to the market value of assets as of the valuation date plus the discounted present value of contributions expected to be made after the valuation date at the prior plan year effective PPA interest rate.
Benefits not valued	None.

Data Sources

Standex International Corporation furnished participant data as of January 1, 2017. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative Expenses	Expected Administrative expenses for the plan are based on the expected PBGC Variable Rate Premium (VRP) plus an estimated amount for non-VRP expenses based on historical actual administrative expenses for the plan.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430.
Termination, Retirement, and Disability Decrements	Termination, retirement, and disability rates are based on the results of plan experience studies conducted in past years and Standex's expectation for future behavior. Plan experience is monitored annually to ensure that the plan does not incur significant gains or losses as a result of this assumption. We are not aware of any change in conditions that would warrant a change to these assumptions.
Benefit commencement date for deferred benefits	Assumptions represent an estimate of future experience.
Form of payment	Assumptions were chosen based on past experience and represent a reasonable expectation of the future.
Marital assumptions:	The assumed percentage married and the assumed age difference for spouses are based on general population statistics on the martial status of individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

SCHEDULE SB ATTACHMENTS

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of March 2016 to March 2017. The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality. The assumed plan-related expenses added to the target normal cost were updated from $1,958,500 for 2016 to $1,978,918 for 2017.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Compensation paid in the current fiscal year beginning on the valuation date is the current annual rate of pay.

It excludes compensation for those employees whose age on the valuation date equals or exceeds the ultimate assumed retirement age.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Under this method, valuation assets are equal to the market value of assets as of the valuation date plus the discounted present value of contributions expected to be made after the valuation date at the prior plan year effective PPA interest rate.
Benefits not valued	None.

Data Sources

Standex International Corporation furnished participant data as of January 1, 2017. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative Expenses	Expected Administrative expenses for the plan are based on the expected PBGC Variable Rate Premium (VRP) plus an estimated amount for non-VRP expenses based on historical actual administrative expenses for the plan.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430.
Termination, Retirement, and Disability Decrements	Termination, retirement, and disability rates are based on the results of plan experience studies conducted in past years and Standex's expectation for future behavior. Plan experience is monitored annually to ensure that the plan does not incur significant gains or losses as a result of this assumption. We are not aware of any change in conditions that would warrant a change to these assumptions.
Benefit commencement date for deferred benefits	Assumptions represent an estimate of future experience.
Form of payment	Assumptions were chosen based on past experience and represent a reasonable expectation of the future.
Marital assumptions:	The assumed percentage married and the assumed age difference for spouses are based on general population statistics on the martial status of individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
