Report of Independent Auditors

To the Plan Administrator and Participants,
AirBorn, Inc. 401(k) Savings and Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the AirBorn, Inc. 401(k) Savings and Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of June 30, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended June 30, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the AirBorn, Inc. 401(k) Savings and Employee Stock Ownership Plan as of June 30, 2018 and 2017, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, which are composed of the Schedule G, Part III – Schedule of Nonexempt Transactions for the year ended June 30, 2018 and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of June 30, 2018, referred to as “supplemental information,” is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan’s management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018

1. Description of Plan

General

The AirBorn, Inc. 401(k) Savings and Employee Stock Ownership Plan (the Plan) provides retirement, death, and disability benefits for eligible participant employees and their beneficiaries while also allowing them to share in the growth in value of AirBorn, Inc. (the Company/Employer) common stock. The Plan is a defined contribution, deferred compensation, 401(k) and Employee Stock Ownership Plan (ESOP) under Sections 401(k) and 501(a) of the Internal Revenue Code of 1986 (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the plan agreement for complete information.

The Plan purchases Company common shares using proceeds from a loan from the Company (refer to Note 10), and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of 24 years by fully deductible Company contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

Administration

The Plan's 401(k) assets are held by Charles Schwab Bank ("Custodian"). Funds held by the Custodian are invested in a combination of equity and fixed income mutual funds. The Plan is participant directed for participant voluntary contributions, matching contributions, and earnings on those contributions.

Eligibility

All employees are enrolled in the Plan upon the initial date of hire and eligible to participate in employee contributions, with the exception of collective bargaining employees, nonresidents, interns and seasonal employees. All employees who have completed one year of service are eligible to participate in Employer matching 401(k) and discretionary ESOP contributions at the first Plan entry date thereafter (as defined in the plan agreement).

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the ESOP trustee prior to the time that such rights are to be exercised. The ESOP trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The ESOP trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Contributions

Participants may contribute, into the 401(k) Plan, up to 70% of their basic compensation (as defined in the plan agreement), subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. The Company may make discretionary matching contributions. The match is invested in various investment options as directed by the participant. The Company made matching contributions of \$666,099 and \$599,297 for the Plan year ended June 30, 2018, and 2017, respectively.

NOTES TO FINANCIAL STATEMENTS
As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018

1. Description of Plan (continued)

Contributions (continued)

The Company may also make discretionary 401(k) profit sharing and/or ESOP contributions to each active participant's account in an amount determined by the Company. Discretionary Company contributions, if approved by the board of directors, are based on a pay formula defined in the plan agreement. For the Plan years ended June 30, 2018 and 2017, the Company made discretionary non-cash ESOP contributions of \$2,012,085 and \$1,147,299, respectively.

Effective on April 25, 2014, the Plan entered into a Contribution Agreement ("Agreement"), whereby the Company agrees to, no less frequently than once every three (3) years beginning on or before December 1, 2017 (the initial purchase date) and each third anniversary thereafter, to issue and sell to the ESOP for the benefit of active employees of the Company shares of the Company's common stock, par value \$0.20 per share in the manner pursuant in the Agreement. To the extent the Company does not issue and sell to the ESOP pursuant to the preceding provision, the Company agrees that it will contribute common stock in kind to the ESOP (recycled shares), in the manner pursuant in the Agreement. The Company made non-cash ESOP contributions of recycled shares of \$0 and \$1,147,299 during the year ended June 30, 2018 and 2017, respectively.

Vesting

Participants are fully vested in their voluntary contributions and related earnings. All Company contributions to the Plan, as well as all earnings on those contributions, vest according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Upon a participant's termination from the Plan, only the amount in which the participant is vested is distributed to the participant and is subject to any applicable tax reporting requirements. Upon death, full and permanent disability, or attainment of normal retirement age, a participant becomes 100% vested in his or her account balance.

NOTES TO FINANCIAL STATEMENTS

As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018

1. Description of Plan (continued)

Put Option

The Company is an electing S Corporation. Consistent with the terms of the Plan, the Internal Revenue Code and applicable federal tax regulations, so long as an S Corporation election is in effect, Plan participants are not entitled to receive their benefits in the form of Company stock. If the Company ever ceases to be an electing S Corporation, participants would have the right to elect to receive their benefits in the form of Company stock. In such case, the Company stock that is distributed to participants while the Company stock is not readily tradable on an established market would include a put option. The put option would be a right to demand that the Company buy any shares of its stock during a period of at least sixty days following the date of distribution of the Company stock. The put option price would be based on the value of the Company stock, as determined by the Plan Trustee's independent appraisal, as of the Plan year end immediately preceding the applicable put option period. The Company can pay for the purchase incident to the exercise of a put over a period of five years, with interest. The purpose of the put option is to allow the participant to obtain cash, if the participant exercises the put during either of the put option periods.

Retirements and Terminations

In the case of normal retirement (age 65), early retirement (age 55 and 6 years of service), retirement due to full and permanent disability, or termination of employment, participants may elect to receive the value of their accumulated plan benefits, in accordance with the provisions of the Plan, in a lump-sum distribution.

In the event that a participant dies before retirement, the participant's beneficiary will receive the value of the participant's accumulated plan benefits in a lump-sum distribution or in an alternative manner mutually agreed upon by the beneficiary and the plan administrator.

Notes Receivable from Participants

Participants may take 401(k) loans up to the lesser of: (a) one-half of the respective participant's vested 401(k) Accounts, or (b) \$50,000, reduced by their highest loan balance of the sum of all of the respective participant's loans from the Plan during the one year period ending on the day before the loan is funded. The 401(k) loan may not be less than \$500. Interest and principal payments will be credited to the borrower's account. The repayment period for participant 401(k) loans cannot exceed five years unless the proceeds are used to acquire, construct, or rehabilitate a dwelling unit that is used for the participant's personal residence. In that case, the period of repayment can be extended up to 10 years. The notes bear interest at a rate commensurate with local prevailing interest rates as determined by the plan administrator.

Funding Policy

The Plan is funded by employee contributions, voluntary discretionary contributions from the Company, and by investment income. The Company's contributions can be made either in the form of cash or its common stock to the Plan's trust. The Plan may invest employer cash contributions in the Company's common stock.

NOTES TO FINANCIAL STATEMENTS

As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018

1. Description of Plan (continued)

Diversification of Company Shares

A Diversification Election right is offered to participants near retirement so that they may have the opportunity to diversify a portion of their investment in Company stock into other investments. Participants who are 55 years of age with 10 years of participation in the Plan may elect to diversify a portion of their ESOP account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number allocated shares to his or her account, less any shares previously diversified. In the sixth and final year, the percentage changes to 50%.

Participants who elect to diversify receive a cash distribution and may then either (a) reinvest the cash in one of the funds selected by the Plan Committee for investment of the participants' 401(k) accounts or (b) receive a cash distribution equal to the value of the shares the participants sold to the Plan.

Distributions

Upon termination of service due to death, disability, or retirement, a participant becomes 100% vested in their account and is entitled to receive the vested account balance in a lump-sum distribution. Cash distributions are made to participants following the end of the Plan year in which they terminate or are entitled to receive a distribution of benefits.

Forfeitures

Forfeitures (the nonvested portion of a participant's account) are created when a participant's employment terminates before becoming fully vested under the Plan. Forfeitures will be used for the benefit of other participants of the Plan or be used to reduce employer contributions. The balance of forfeited non-vested accounts was \$77,040 and \$24,430, as of June 30, 2018, and 2017, respectively. During the Plan year ended June 30, 2018, and 2017, participants forfeited \$61,938 and \$33,813 in non-vested accounts, respectively. During the Plan year ended June 30, 2018 and 2017, forfeitures utilized were \$33,343 and \$22,797, respectively.

Risks and Uncertainties

The Plan provides for various investment options of registered investment companies. The underlying investments held by the registered investment companies may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The board of directors determines the Plan's valuation policies utilizing information provided by the investment advisors and the trustee. Refer to Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent loans and are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recognized on the accrual basis. No allowance for credit losses has been recorded as of June 30, 2018 and 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Valuation of AirBorn, Inc. Stock

The Company's common stock is not traded on an open market. The Company's common stock is valued by an independent appraiser on an annual basis. Distributions to eligible participants are based on the latest available stock valuation. The carrying value of the Plan's investment in common stock is also adjusted to reflect fair value, as determined by the annual appraisal.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company pays certain administrative expenses incurred by the Plan. Certain investment and administration fees are deducted directly from participant's investment returns. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

NOTES TO FINANCIAL STATEMENTS
As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

Subsequent events have been evaluated through the date of the report of independent auditors, which is the date the financial statements were available to be issued. Other than the matter described in Note 6 regarding the corrective contribution, there were no items that would require recognition in the financial statements or disclosure in the notes to the financial statements.

3. Fair Value Measurements

Fair value is determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. The fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements) is described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Cash: Cash includes all cash balances and highly liquid investments with an initial maturity of three months or less and are stated at cost which approximates market value.

3. Fair Value Measurements (continued)

Mutual funds: Quoted market prices are used to value investments in mutual funds, which are publicly traded funds of registered investment companies, and common stock.

Collective investment trust: Valued at the net asset value of units of a common collective trust. The net asset value as provided by the Custodian is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

AirBorn, Inc. common stock: The Company's common stock is not traded on an open market. Annually, the Company's common stock is valued by an independent appraiser using both the market and income (discounted net cash flow) approach.

The market approach is a valuation technique in which the value is estimated based on market prices of actual transactions and on asking prices for currently available assets. The process is essentially that of comparison and correlation between the Company and other similar companies. The value of the Company's common stock is expressed as a function of its earnings or cash-generating capacity, which is then multiplied or capitalized at an appropriate risk-adjusted rate. A ratio, or multiple, is developed by dividing the market price of the stock by an earnings figure, such as net income. Any number of ratios can be calculated. The reciprocal of a multiple or ratio is known as a capitalization rate. These ratios are then adjusted to suit the Company's specific circumstances in arriving at a value for the Company. A marketability discount is applied as part of the valuation due to the closely-held nature of the Company stock.

The income approach is a valuation technique in which the value is derived by forecasting net cash flow in the future and discounting to present value the annual cash flows. Net cash flow is the cash amount that could be paid to owners without impairing the Company's operations: it is the dividend paying capacity. It is defined as net income plus depreciation (a non-cash expense) less capital expenditures less changes in net working capital plus changes in financing. Changes in working capital are usually a use of cash but can be a source of cash. The "debt-free" version of the income approach excludes changes in cash flow due to financing. The resulting value is for total capital. The annual net cash flows are discounted to present value and summed, resulting in an indication of value. Usually the forecast covers a limited number of years, but the business is expected to continue operating after the last year in the projection. The value of the operations after the last year in the projection is determined by capitalizing into a terminal value the last year's cash flow or some other earnings measure. The appropriate discount rate reflects the general level of interest rates and a premium for the perceived degree of risk. Risk can be segregated into financial and business risk. Financial risk refers to the possibility of bankruptcy and the variability of the returns to equity investors due to the amount of debt. Business risk refers to the variability of earnings from the Company's operations. The discounted debt-free net cash flow approach was used in appraising the Company's common stock.

3. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2018:

	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 28,811,203	\$ -	\$ -	\$ 28,811,203

4. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by Charles Schwab Trust Company, therefore, these transactions qualify as party-in-interest transactions. The Plan holds shares of Company stock and makes non-cash loan repayments to the Company, which qualify as related party transactions. The Plan made direct payments to the third party administrator and record keeper totaling \$159,506. These costs incurred by the Plan are included in administrative expenses on the statement of changes in net assets available for benefits. The Plan Sponsor pays directly any other fees related to the Plan's operations.

5. Investments in Collective Investment Trust Fund

The Morley Stable Value Fund (the “Fund”) is a collective investment trust designed for retirement trusts exempt from federal income tax under Section 501(a) of the Internal Revenue Code of 1986, as amended, and governmental deferred compensation plans. The objective of the Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The Fund seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts (the performance of which may be predicated on underlying fixed income securities), as well as cash and cash equivalents. It is intended that the Fund’s stable value investment contracts will maintain a minimum weighted average credit quality rating of A or better. The underlying fixed income securities must be rated investment grade and meet issuer diversification guidelines. The duration of the Fund will not exceed four years. The Fund is typically appropriate for investors who desire low volatility, stable principal value, and returns commensurate with a capital preservation objective for a component of their retirement savings. The Fund is designed for long term retirement investing. The Fund provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund’s net asset value per unit.

6. Nonexempt Transactions

During 2013 through 2018, Airborn, Inc. redeemed 10,253 shares from the Plan for less than adequate consideration, resulting in an underpayment totaling \$1,335,059 to the Plan, which is considered to be a prohibited nonexempt transaction. Subsequent to the year ended June 30, 2018, the Company submitted an application for correction with the U.S. Department of Labor through the Employee Benefits Security Administration’s Voluntary Fiduciary Correction Program. The application was accepted and the Company made a corrective contribution to reimburse the Plan for the underpayment amount plus lost earnings, which totaled \$1,488,939. The Company also filed Form 5330 with the IRS and paid the required excise tax on the prohibited transactions.

7. Plan Termination

The Company has the right, under the plan agreement and the provisions of ERISA, to terminate the Plan, although the Company has no intention to do so. In the event of plan termination, participants’ accounts will become fully vested and nonforfeitable. Upon termination of the Plan, the interest of each participant will be distributed to such participant, or designated beneficiary, at the time prescribed by the Plan agreement.

NOTES TO FINANCIAL STATEMENTS*As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018*

8. Investment in AirBorn, Inc. Common Stock

The Plan held 67,187 and 50,964 shares of the Company common stock as of June 30, 2018 and 2017, respectively. An independent appraiser valued each share at approximately \$792 and \$427 on June 30, 2018 and 2017 respectively.

The Plan's investment in shares of Company common stock was as follows for the plan year ended June 30:

	2018			
	Number of shares	Cost (\$)	Unrealized appreciation since inception (\$)	Fair market value (\$)
Earned – allocated to participants' accounts and available for withdrawal from the Plan	54,214	16,051,705	26,879,514	42,931,219
Leveraged and unallocated to participant's accounts	12,973	9,080,933	1,191,937	10,272,870

	2017			
	Number of shares	Cost (\$)	Unrealized depreciation since inception (\$)	Fair market value (\$)
Earned – allocated to participants' accounts and available for withdrawal from the Plan	50,964	13,601,026	8,166,914	21,767,940

9. Tax Status

A favorable determination letter was obtained from the Internal Revenue Service, dated December 20, 2016, stating that the Plan, and related trust, as amended, is qualified under Sections 401(k) and 501(a) of the IRC and is exempt from federal income taxes. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTES TO FINANCIAL STATEMENTS*As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018*

9. Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

10. Non-Participant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the non-participant directed investments is as follows:

11. Note Payable

In 2003, the Plan entered into a \$9,850,880 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid in thirty years. The loan was paid off during the year ended June 30, 2017.

In April, 2018 the Plan entered into a \$10,592,229 term loan agreement with the Company, in accordance with the contribution agreement. The proceeds of the loan were used to purchase 15,132 recycled shares of the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid in twenty-four years, at a rate of 2.88% compounded annually. Principal repayments on the loan can be accelerated at the discretion of the Company.

NOTES TO FINANCIAL STATEMENTS

As of June 30, 2018 and 2017 and for the Year Ended June 30, 2018

12. Contribution Agreement and Recycled Shares

In accordance with the Agreement, the Board of Directors (“Board”) may approve and contribute to the Plan Airborn, Inc. common stock previously repurchased from participant distributions and diversification. Contributed recycled shares are allocated to ESOP participants based on their percentage of eligible earnings. The Company held 0 and 16,223 shares of the Company ESOP common stock available for recycling, including the shares approved for contribution subsequent to year-end, as of December 31, 2018 and 2017, respectively.
