Independent Auditors' Report

Plan Administrator
Johnson Matthey Inc. Amended and Restated Salaried Employees Pension Plan
Wayne, Pennsylvania

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Johnson Matthey Inc. Amended and Restated Salaried Employees Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of June 30, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of June 30, 2018 and 2017, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of June 30, 2018 and Schedule of Reportable Transactions for the year ended June 30, 2018 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Amended and Restated Salaried Employees Pension Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Johnson Matthey Inc. Amended and Restated Salaried Employees Pension Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering all salaried employees of Johnson Matthey Inc. (the Company), including certain employees of other companies who were acquired in prior years. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Bank of New York Mellon/BNY Mellon, N.A., is the trustee of the Plan. Overall responsibility for administering the Plan rests with the Benefits Investment Committee of the Company. The Plan's trustee is responsible for management and control of the Plan's assets and has certain discretionary authority and control over such assets.

Eligibility

Under the terms of the Plan, employees who have completed 1,000 hours of service are eligible to participate in the Plan. Effective August 31, 2013, the Plan was closed to new hires.

Contributions and Participant Accounts

Effective April 1, 2014, the Plan required employee contributions for participants who were employed by the Company and actively earning an accrued benefit under the Plan. Participants are required to contribute 1.5% of their payroll on an after tax-basis to the Plan each payroll period.

An Employee Contribution Account will be maintained for each participant and is credited with the participant's contributions and an annual credit of interest. Participants are always 100% vested in their Employee Contribution Account.

Pension Benefits

Employees with five years of credited service are entitled to pension benefits beginning at the normal retirement age of 65. Generally, the normal retirement benefit formula takes into account the years of credited service, the final average monthly earnings received for the highest 60 consecutive months and the social security breakpoint. Effective April 1, 2014, the normal retirement benefit formula will include an actuarial equivalent value of the Employee Contribution Account. For certain other participants' service, benefits and payments have been calculated under the provisions of the plans of the acquired companies, as defined.

The Plan also permits early retirement, which can be subject to a reduced benefit depending on the participant's age and years of service, as defined in the Plan Agreement. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contribution. The employee will be entitled to receive the value within their Employee Contribution Account. Benefits for unmarried participants are payable monthly with sixty months guaranteed; for married participants benefits are generally in the form of a qualified joint and survivor annuity.

Johnson Matthey Inc.
Amended and Restated Salaried Employees Pension Plan

Notes to Financial Statements

Death and Disability Benefits

If an active participant dies after completing a minimum of five years of credited service, the participant's surviving spouse shall be entitled to receive a survivor's annuity benefit beginning in the month the participant would have reached age 55 had the participant lived.

Participants who become disabled after completing a minimum of ten years of credited service are entitled to receive pension benefits commencing as of the participant's normal retirement date or, at the participant's election, the early retirement date. Such benefits are computed as if the participant had continued in employment and as if earnings had not changed from the date of disability to the normal retirement date if such election is made.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated benefits at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The investments in the common collective trusts are valued at net asset value (NAV) per unit, as determined by the trustee at year end. The NAV is used as the practical expedient to estimate fair value. There are no unfunded commitments or trading/redemption restrictions on the common collective trusts.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company pays some of the administrative costs of the Plan associated with professional services provided to the Plan, the balance being paid directly by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Administrative expenses recorded in the Plan may include professional fees, investment fees and the insurance premiums for the Pension Benefit Guaranty Corporation.

Johnson Matthey Inc.
Amended and Restated Salaried Employees Pension Plan

Notes to Financial Statements

3. Funding Policy for Company Contributions

The Company's policy is to make cash contributions to the Plan in amounts that will provide for employees' benefits by the time they retire.

Employer contributions to the Plan are made monthly on the basis of actuarial calculations of the normal cost and required amortization payments, and are sufficient to satisfy funding requirements under applicable federal income tax regulations and ERISA. The Plan has met or exceeded the minimum funding requirements of ERISA for both Plan years.

Subsequent to June 30, 2018, the Company contributed \$10,400,000 to the Plan. This contribution was recognized during the June 30, 2018 Plan year and is reflected as employer contribution receivables in the statements of net assets available for benefits.

4. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at June 30, 2018 and 2017 and net appreciation in common collective trusts for the years ended June 30, 2018 and 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee of the Plan.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The investments in common collective trusts, which are valued at NAV, have not been classified in the fair value hierarchy in accordance with applicable accounting standard updates.

For a description of the valuation methodologies used for assets measured at fair value, see Note 2. There have been no changes in the methodologies used at June 30, 2018 and 2017. The valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Amended and Restated Salaried Employees Pension Plan

Notes to Financial Statements

6. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on a benefit formula including the years of credited service, the final average monthly earnings and the social security breakpoint. Effective April 1, 2014, the benefit formula will include an actuarial equivalent value of the employee contribution account. The accumulated plan benefits for active employees are based on the benefit formula for normal retirement using the final average monthly earnings and years of credited service at the date of determination (valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

A summary of the actuarial present value of accumulated plan benefits as of July 1, 2017 and 2016, the dates of the latest actuarial valuations, is as follows:

July 1,	2017	2016
Actuarial Present Value of Accumulated Plan Benefits		
Vested benefits		
Participants currently receiving payments	\$ 248,166,836	\$ 245,726,201
Other participants	59,007,002	47,370,863
Total vested benefits	307,173,838	293,097,064
Nonvested benefits	4,984,749	7,592,174
Total Actuarial Present Value of Accumulated Plan Benefits	\$ 312,158,587	\$ 300,689,238

A summary of the change in the accumulated plan benefits from July 1, 2016 to July 1, 2017 is as follows:

	Amount
Actuarial present value of accumulated plan benefits at July 1, 2016	\$ 300,689,238
Increase (decrease) during the year attributable to:	
Benefits accumulated	16,774,044
Benefits paid	(18,479,945)
Increase from interest due to the decrease in the discount period	11,627,171
Change in actuarial assumptions	(48,073)
Change in plan provisions	1,596,152
Actuarial present value of accumulated plan benefits at July 1, 2017	\$ 312,158,587

The change in actuarial assumptions in the July 1, 2017 valuation relates to changes in a variety of rates including the discount rate, the rate of salary increases, the updated mortality improvement scale, the lump sum interest rates, and the interest rate on employee contributions while the change in plan provisions relate to definitions of actuarial equivalence for annuities starting on or after July 1, 2017.

Johnson Matthey Inc.

Amended and Restated Salaried Employees Pension Plan

Notes to Financial Statements

The actuarial present value of accumulated plan benefits is determined by Mercer Human Resource Consulting and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

As of July 1, 2017 and 2016, significant assumptions underlying the actuarial calculations are as follows:

Discount rate	-	4.10% per annum (2017)
Discount rate	-	4.00% per annum (2016)
Mortality - Healthy	-	RP2014 Generational no-collar, sex distinct mortality table adjusted back to 2006 and projected using the MP2016 projection scale (2017)
Mortality - Healthy	-	RP2014 Generational no-collar, sex distinct mortality table adjusted back to 2006 and projected using MP2015 projection scale (2016)
Mortality - Disabled	-	RP2014 Generational sex distinct mortality table using projection scale
Retirement age	-	Based on the probabilities below, applied to the remaining employees eligible for retirement at the age indicated.

Age	Retirement Rate	
	Less than 15 years service	15 or more years service
55-58	5.0%	2.0%
59-60	5.0%	7.0%
61	10.0%	10.0%
62	10.0%	25.0%
63	10.0%	5.0%
64	10.0%	30.0%
65-66	25.0%	30.0%
67-69	25.0%	60.0%
70	100.0%	100.0%

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Johnson Matthey Inc.
Amended and Restated Salaried Employees Pension Plan

Notes to Financial Statements

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- (b) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 23, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan was amended prior to receiving the determination letter, the Plan Administrator believes the Plan is designed and currently operating in compliance with the applicable provisions of the IRC.

Johnson Matthey Inc.
Amended and Restated Salaried Employees Pension Plan

Notes to Financial Statements

Prior to the letter dated August 23, 2016, the Plan had received a letter dated July 11, 2016, from the IRS stating that the Plan and related trust were designed in accordance to the applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Related-Party and Party In Interest Transactions

The Plan will be reimbursing the Johnson Matthey Inc. Amended and Restated Hourly Employees Pension Plan, for a benefit payment relating to a beneficiary. This amount was reflected as a due to related party in the statements of net assets available for benefits.

Certain Plan investments are managed by an affiliate of The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan. The Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are exempt party in interest transactions under ERISA.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, the employee contribution percentage rate and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

11. Subsequent Events

The Plan was amended and restated as of July 1, 2018 to incorporate all prior amendments adopted after July 1, 2015.

The Plan has evaluated subsequent events through April 15, 2019, the date the financial statements were available to be issued.

Mortality sponsor elections

- Healthy and disabled participants Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

Other economic assumptions

- Salary increases See Table of Sample Rates
- Social Security wage base 2.95% per year
- Inflation 2.20% per year
- Interest on employee contributions 120% of the Federal Mid-term Rate, 2.27% for 2017
- Expenses \$710,000 added to current year normal cost
- Lump sums
 - Interest Same as funding
 - Mortality 2017 417(e) unisex mortality

Rationale for Economic Assumptions

- Discount rate – Selected by Johnson Matthey Inc. from one of the allowable methods prescribed by The Pension Protection Act.
- Interest on employee contributions – This assumption is based on 120% of the Federal Mid-term rate as of the valuation date as prescribed by the IRS.
- Salary increases – This assumption is based on an experience study covering the period July 1, 2012 to June 30, 2016. Based on facts and circumstances discussed with the Company, the distribution of pay increases is not expected to change, but the average compensation increase is expected to be 3.00% overall.
- Social Security taxable wage base increases – This assumption reflects 0.75% real wage growth. This assumed level is based on a review of historical US average wage increases and annual average CPI-U over extended time periods, and consideration of more recent and potential future prospects for real wage increases.
- Inflation – This assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their Capital Markets Outlook.
- Expenses – The expense load is based on the prior plan year actual expenses, less PBGC premiums paid, increased by 5% and adjusted for expected PBGC premiums in the upcoming year and rounded up to the nearest \$10,000.
- Lump sums - Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

funding interest rates rather than 417(e) rates and the current year 417(e) unisex mortality. For 2017, the funding interest rates are the stabilized rates shown above.

70	0.00%	0.00%	0.00%	0.00%

Rationale for Demographic Assumptions

- Mortality – Prescribed by the IRS based on plan sponsor elections.
- Retirement rates – The retirement rates are based on an experience study undertaken in 2017 using data for the period July 1, 2012 to June 30, 2016 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- Withdrawal rates – The withdrawal rates are based on an experience study undertaken in 2017 using data for the period July 1, 2012 to June 30, 2016, adjusted to remove terminations resulting from the sales of the Salt Lake City Refinery and the Research Chemicals business, and the expectation that the future turnover patterns and circumstances of the employer will not differ significantly from the period studied.
- Disability incidence – the disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates because the plan population most closely resembles the Class 1 occupations.
- Forms of payment – As the lump sum option has only recently been introduced, this assumption is based on a blending of the actuary's experience with many plans and discussions with employer representatives and an experience study undertaken 2017 using data from July 1, 2012 to June 30, 2016. It is the plan sponsor's expectations that the results of the study can reasonably be expected to carry into the future.

Actuarial Methods for Funding**Asset Methods**

The asset valuation method is the fair market value.

*Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Participant Methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides postretirement death benefits that are not a function of a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the ratio of the participant's service at the beginning of the plan year to their service at each decrement age and is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Effective date and plan year	Original plan: July 1, 1950 Restated plan: July 1, 2015 Plan year: July 1 to June 30
Most recent amendment	Amendment 2017-2 effective July 1, 2017
Status of the plan	The plan has ongoing benefit accruals but is closed to any employee hired or rehired on or after September 1, 2013.
Significant events that occurred during the year	N/A
Definitions	
• Eligibility	Each employee of a participating location hired before September 1, 2013 will be eligible on the first day of the employment year in which he/she is paid for at least 1,000 hours. Employees hired on or after September 1, 2013, including rehired employees, will not be eligible to participate in this plan.
• Employee contributions	Contributions were required of all participants until April 1, 1974. Under the Choice Program, effective April 1, 2014, participants who elected to continue accruing benefits and service in the Pension Plan are required to contribute 1.5% of cash compensation (excluding bonuses and overtime) to do so.
• Vesting service	Vesting Service is based on plan years with 1,000 hours with no partial credit for less than 1,000 hours except as noted in the Credited service section below.

Schedule SB, Part V — Summary of Plan Provisions

-
- **Social Security Breakpoint** \$916.67 times the ratio of the Social Security Taxable Wage Base for the year of termination, divided by the Social Security Taxable Wage Base for 1982 (which is \$32,400).
The Social Security Taxable Wage for the year of termination is based on a weighted average of the current and preceding year's Social Security Taxable Wage Base.
For participants who elected to switch to the new DC Plus Plan effective April 1, 2014, Social Security Breakpoint is frozen as of March 31, 2014.
-

- **Accrued benefit** Amount earned to date of determination based on benefit formula for Normal Retirement (using Final Average Monthly Earnings and Years of Credited Service at date of determination). The Accrued Benefit is increased by the benefit attributable to the value of any employee contributions made prior to April 1, 1974.

For participants making employee contributions after March 31, 2014, the accrued benefit cannot be less than (a) + (b) + (c) below, where:

- a) Accrued benefit as of March 31, 2014;
 - b) Accumulated employee contributions with interest through termination date, converted to a life annuity with 60 months guaranteed; and
 - c) 50% of the benefit accrued after March 31, 2014
-

Normal retirement

-
- **Eligibility** Retirement on the first day of the month coincident with or following attainment of age 65 and completion of five years of Vesting Service.
-
- **Benefit** -1.4% x Years of Credited service (35-year maximum) x final average monthly earnings up to the Social Security Breakpoint; plus
-1.7% x Years of Credited service (35-year maximum) x final average monthly earnings in excess of the Social Security Breakpoint; plus
-1.7% x Years of Credited service over 35 (5-year maximum) x final average monthly earnings
For Syntex employees who were participants of the ICI Americas Pension Plan, the benefit for service prior to November 1, 2002 is determined under the terms of the ICI Americas Pension plan.

For non-highly compensated Syntex employees, the Johnson Matthey portion of the benefit cannot be less than the benefit accrued under the Johnson Matthey plan formula through October 31, 2006, but using the ICI Americas Pension Plan definition of pay.

For participants who elected to switch to the new DC Plus Plan effective April 1, 2014, Normal Retirement Benefit is frozen as of March 31, 2014.

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
• Eligibility	Retirement on the first day of any month coincident with or following attainment of age 55 and completion of five years of Vesting service.
• Benefit	<p>If the Participant has less than 15 years of Vesting service, Accrued benefit to date of termination is reduced 1/180 for each of the first 60 months and 1/360 for each of the next 60 months of early commencement. If a Participant has 15 or more years of Vesting service at the time of termination and is age 55 or older, unreduced benefits are payable at age 62. If a Participant has at least 15 years of Vesting service at the time of termination and is age 55 or older, the Accrued benefit is reduced by 1/240 for each of the first 60 months and 1/150 for each of the next 24 months of early commencement.</p> <p>For participants with less than 15 years of vesting service, the accrued benefit is reduced from age 65. For participants with 15 or more years of vesting service, the accrued benefit is reduced from age 62.</p> <p>For certain Synetix employees, the early retirement reduction under the ICI Americas Pension Plan provisions applies to benefits accrued prior to October 31, 2006, if more favorable than the Johnson Matthey plan provisions.</p>
Late retirement	
• Eligibility	Retirement after attainment of normal retirement age.
• Benefit	Accrued benefit as of late retirement date.
Deferred vested	
• Eligibility	Termination after completion of at least five years of Vesting service.
• Benefit	<p>Accrued benefit payable at Normal Retirement Date or reduced for early commencement after age 55.</p> <p>Participant may elect immediate payment within 120 days of termination as either a lump sum, annuity in the normal form, or as a 75% J&S. This last option is only available for married participants with their spouse as the beneficiary.</p> <p>Participants who elect to defer commencement beyond the 120-day period following termination of employment can commence anytime following the attainment of age 55 and all optional forms are available at that time.</p> <p>Benefits commencing prior to age 55 are reduced as follows:</p> <ul style="list-style-type: none"> • For annuity starting dates prior to July 1, 2017, on an actuarial equivalent basis from age 65 using UP84 mortality and an 8.0% interest rate. • For annuity starting dates on and after July 1, 2017, on an actuarial equivalent basis from age 65 using the applicable mortality table specified under section 417(e)(3)(B) of the code and the applicable interest rates specified under section 417(e)(3)(C) of the code for the March immediately preceding the plan year in which payments begin. Under no circumstance will the early retirement benefit be less than the benefit accrued through December 31, 2017 (or termination date, if earlier) reduced using the actuarial basis described immediately above.

Schedule SB, Part V — Summary of Plan Provisions

Disability	
• Eligibility	Retirement due to disability (as determined by the Committee on basis of independent medical evidence) after completion of at least 10 years of Vesting Service.
• Benefit	Continued benefit accruals until Normal Retirement Date. Employee may elect to commence a benefit after attainment of age 55 with applicable reduction for early retirement.
Pre-retirement death	
• Eligibility prior to early retirement	Participant vested in Accrued Benefit and married for at least one year.
• Benefit prior to early retirement	Annuity payable to participant's spouse equal to 50% of the benefit the employee would have received had the employee terminated the day before his/her death, retired when first eligible for early retirement, and elected the Joint & 50% Survivor option. If participant had employee contributions, they will be paid with interest to the beneficiary.
• Benefit after early but before normal retirement	Participant eligible for early retirement, not yet receiving a benefit; married for at least one year.
• Benefit after normal retirement	Annuity payable to participant's spouse equal to 100% of the benefit the employee would have received had the employee retired on the day before his/her death and elected the Joint & 100% Survivor option. If a participant had employee contributions, they will be paid with interest to the beneficiary.
Post-retirement death	
• Eligibility	If a participant dies after Normal, Early, Late, or Disability Retirement, the participant's beneficiary will be entitled to a lump-sum benefit in addition to any survivor benefits payable under the select form of annuity
• Benefit	10% of Final Average Monthly Earnings multiplied by 12, minus \$1,000 (the first \$1,000 is paid by Group Insurance Plan).
Form of benefits	
• Automatic form for unmarried participants	Life Annuity with 60 months guaranteed.
• Automatic form for married participants	Joint and 50% Survivor Annuity (actuarially reduced).
• Optional forms	Life annuity; Life annuity with 60 or 120 months guaranteed; Joint and 50%, 66 2/3%, 75%, or 100% Survivor annuity; Unlimited lump-sum payment. Synetix employees who were participants of the Unichema pension plan may elect a full lump-sum payment for benefits accrued prior to October 31, 2006.

Schedule SB, Part V — Summary of Plan Provisions

• Optional form conversion factors	For annuities with Annuity Start Dates prior to July 1, 2017 - UP84 mortality with three year setback for beneficiaries and 8.0% interest. For all lump sums and annuities with Annuity Start Dates on or after July 1, 2017– 417(e) interest rates for the month of March preceding the plan year in which the payment is made and the applicable 417(e) mortality table.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2017, the limit is \$270,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2017, the limit is \$215,000.
• Funding medium	Master trust fund with Mellon Capital Management Corporation.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated effective July 1, 2016 and further amended through July 1, 2017, are included in this valuation.

- **Most recent plan amendments included:** Amendment 2017-2.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70 ½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding***Additional Benefits Included or Excluded***

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

Schedule SB, Part V — Summary of Plan Provisions

- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** N/A
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2016 to 2017.
- Amendment 2017-2 changed the definition of actuarial equivalence for Annuity Starting Dates on or after July 1, 2017 to the interest rates and mortality table specified under 417(e)(3) of the Code for the March immediately preceding the first day of the Plan Year of determination. This definition is used to determine optional forms of benefit as well as early retirement reductions for benefits that commence prior to the participant's attainment of early retirement eligibility during the 120-day immediate election window.

Schedule SB, line 24 — Change in Actuarial Assumptions

- The mortality rates and interest rates were updated as prescribed by PPA.
- The expense component of normal cost decreased from \$920,000 to \$710,000 to reflect our expectations for the current plan year.
- The interest rate on employee contributions increased from 1.71% to 2.27%.
- The salary increase rates at each age were increased by 1 basis point to result in an average salary increase of 3.0%.
- Form of payment election percentage, retirement rates, withdrawal rates, and the spouse age difference assumption were updated based on the experience study completed in 2017 for the period July 1, 2012 to June 30, 2016.
