NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Integrated Dermatology, LLC (the "Company") 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description, both of which are available from the plan administrator, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by the Company and was established in January 2010. Employees of the Company and other participating employers (which include the Company's parent and certain related entities under common ownership) are eligible to participate in the Plan provided they are at least 18 years of age and have at least three months of service with the Company or one of the participating employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions - Participants may contribute up to 90% of their pretax annual compensation, as defined in the plan document, without exceeding limitations prescribed by the Internal Revenue Code (the "Code"). Effective December 1, 2017, the Plan was amended to also allow participants to make Roth 401(k) deferrals to the Plan, subject to the same limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the plan document. Participants direct the investment of all contributions into various investment options offered by the Plan.

The Company may make discretionary non-elective contributions to the Plan on behalf of eligible participants. Discretionary non-elective contributions, if any, are allocated to each eligible participant in proportion to the participant's eligible compensation, as defined in the plan document, as compared to the total eligible compensation of all participants sharing in the contribution. Discretionary non-elective contributions made by the Company are invested in accordance with each participant's investment elections and are subject to limitations prescribed by the Code. The Company did not make any discretionary non-elective contributions to the Plan for the year ended December 31, 2017.

Participant investment account options - The Plan offers various mutual funds and common/collective trust funds as investment options for participants. Participants may change their investment options at their discretion.

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary non-elective contributions, if any, and (b) plan earnings, and is charged with certain of the Plan's administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of plan (continued)

Vesting - Participants are immediately vested in their own contributions plus actual earnings thereon. Participants also become fully vested in their account in the event of death, disability, or upon attaining the Plan's normal retirement age, all as defined in the plan document. Vesting in the Company's discretionary non-elective contributions, plus actual earnings thereon, is based upon years of service with the Company. A participant becomes 100% vested in the Company's contributions after six years of service.

Forfeitures - Forfeitures of terminated non-vested account balances may be used to reduce the Company's contributions, if any, or to pay the Plan's administrative expenses. There were no forfeitures during 2017 and no unapplied forfeitures at December 31, 2017 and 2016.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance on the date of the note. The notes are secured by the balance in the participant's account and bear interest at the prime rate as published in the Wall Street Journal on the 14th day of each month, plus two points. Principal and interest are paid ratably through payroll deductions. All notes have a definite repayment period not to exceed five years, unless used for the purchase of a primary residence in which case the repayment period may extend up to 30 years. Participants may not have more than one note outstanding at any time.

Payment of benefits - On termination of service due to death, disability, normal retirement, attainment of 59 ½ years of age, qualification under certain "hardship" rules as prescribed by the Internal Revenue Service ("IRS"), or other reasons, a participant may elect to receive distributions from the Plan. Distributions may be made in the form of a lump sum payment or as a rollover into another qualified plan.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussions of fair value measurements.

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains distributions from mutual funds are recorded as net appreciation in fair value of investments. Net appreciation in fair value of investments also includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make note repayments and the plan administrator deems the note to be in default, the remaining note balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included on the statement of changes in net assets available for benefits. Other miscellaneous expenses are paid for by the Plan and are included in administrative expenses on the statement of changes in net assets available for benefits. Certain investment related expenses are included in net appreciation in fair value of investments.

(3) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company ("Reliance"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

(3) Information prepared and certified by the trustee (continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

(4) Fair value measurements (continued)

Common/collective trust funds: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methodologies described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 583,066	$ -	$ -	$ 583,066
Total assets in the fair value hierarchy	$ 583,066	$ -	$ -	583,066
Investments measured at NAV *				212,531
				$ 795,597

	Investments at Fair Value as of December 31, 2016 (unaudited)			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 341,377	$ -	$ -	$ 341,377
Total assets in the fair value hierarchy	$ 341,377	$ -	$ -	341,377
Investments measured at NAV *				163,005
				$ 504,382

* In accordance with Subtopic 820-10, the common/collective trust funds, which are valued at NAV, have not been classified in the fair value hierarchy as of December 31, 2017 and 2016. The fair value amounts presented in the tables above are intended to permit a reconciliation of the fair value hierarchy to the line items presented on the statements of net assets available for benefits.

(5) Related party transactions and party-in-interest transactions

Reliance is the Plan's trustee; therefore, transactions with Reliance qualify as party-in-interest. Additionally, Automatic Data Processing, LLC ("ADP") serves as the Plan's recordkeeper; therefore, transactions with ADP also qualify as party-in-interest. Aggregate fees paid by the Plan to these parties-in-interest during 2017 were not significant. Certain other investment related fees incurred by the Plan are included in net appreciation in fair value of investments as they are paid through revenue sharing, rather than as a direct payment. All other Plan related fees are paid for by the Company.

(6) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in all Company contributions.

(7) Tax status

The IRS has determined that the prototype non-standardized profit sharing plan adopted by the Company and provided by ADP, is designed in accordance with applicable sections of the Code and informed ADP of such in a letter dated July 8, 2014. Although the Plan has been amended since the date of this letter, the Plan's management believes that the Plan has remained in compliance with all applicable sections of the Code.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

(8) Risks, uncertainties, and concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

(8) Risks, uncertainties, and concentrations (continued)

At December 31, 2017 and 2016, approximately 25% and 32% (unaudited), respectively, of the Plan's investments were invested in one common/collective trust fund.

(9) Reconciliations of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2017 and 2016 to Schedule H of Form 5500:

	December 31,	
	2017	(Unaudited) 2016
Net assets available for benefits per the financial statements	$ 842,235	$ 516,695
Less: participants contributions receivable	(43,636)	(8,000)
Net assets available for benefits per Schedule H of Form 5500	$ 798,599	$ 508,695

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2017 to Schedule H of Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 325,540
Less: participants contributions receivable at December 31, 2017	(43,636)
Add: participants contributions receivable at December 31, 2016	8,000
Net increase in net assets available for benefits per Schedule H of Form 5500	$ 289,904

Additionally, certain differences between the information reported in the financial statements and the information reported on Schedule H of Form 5500 arise due to classification differences regarding various line items reported on both documents. These classification differences have no effect on the Plan's net assets available for benefits at December 31, 2017 and 2016 or changes in net assets available for benefits for the year ended December 31, 2017.

(10) Delinquent participant contributions

Defined contribution plans are required to remit participant contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company has remitted all participant contributions to the Plan, contributions aggregating $43,223 and $8,000 (unaudited) were not remitted within the required time frame during the years ended December 31, 2017 and 2016, respectively. The Company is in the process of calculating lost earnings to be remitted to the Plan on behalf of affected participants.

(11) Subsequent events

The Plan has evaluated subsequent events through February 7, 2019, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
