Independent Auditor's Report

To the Pension Plan Committee of
Retirement Income Plan for Salaried Employees of
Plymouth Tube Company
Warrenville, Illinois

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan), which comprises the statements of net assets available for benefits as of August 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of August 31, 2017, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation, and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified or provided by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of August 31, 2018 and 2017, and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year), and Schedule H, Line 4j, Schedule of Reportable Transactions as of August 31, 2018, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit pension plan which covered salaried employees of Plymouth Tube Company (Company) not participating in any other pension plan sponsored by the Company and non-exempt employees of the Hopkinsville location. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended effective December 31, 2003, such that benefit accruals for employees covered under the Plan ceased. Vested benefits for active employees on December 31, 2003, will be determined as if they had terminated employment on December 31, 2003. Employees not fully vested at December 31, 2003, who are active employees on their subsequent vesting date, will become fully vested in the benefit they earned as of December 31, 2003.

The Pension Protection Act of 2006 (PPA) as amended by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA) imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage (FTAP). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2018 AFTAP for the Plan is 95.84 percent using the unit credit cost method. Since the AFTAP is not less than 80 percent for 2018, the benefit restriction rules of PPA do not apply.

Pension benefits: Employees age 65 or older with five or more years of service are entitled to annual income equal to the sum of (a) 1-2/3 percent of final average compensation, as defined, multiplied by years of credited service (not to exceed 30) and (b) 1 percent of final average compensation multiplied by years of credited service in excess of 30 (not to exceed 10) less (c) 1-3/4 percent of the primary Social Security benefit to which the members are entitled multiplied by years of credited service (not to exceed 40).

The Plan permits early retirement at ages 60–64 with five years of vesting service. Early retirement payment is reduced by 6/10 of 1 percent for each month prior to normal retirement age.

Participants who terminate service prior to the earlier of age 65 or the completion of five years of service receive no benefits under the Plan.

Payment of benefits: Normal form of retirement benefit payment shall be made under a joint and 50 percent survivor annuity. Alternative optional forms of distribution available under specific circumstances, as outlined in the plan document, are (1) life annuity payable in equal installments that terminates upon participant's death, (2) life annuity with period certain payable in equal installments until participant's death or until 120 monthly payments are paid to the participant or his/her beneficiary, or (3) joint and 75 or 100 percent survivor annuity. If the lump-sum actuarial equivalent value of a participant's vested account retirement benefit does not exceed \$5,000 at the time benefits are paid, it may be distributed in a lump-sum payment form.

Pre-retirement death benefit: In the event of an active married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and 50 percent survivor benefit payable at their normal retirement or early retirement date and died the next day.

Notes to Financial Statements

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the present value of accumulated plan benefits reported in the accompanying financial statements. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

1. Retired or terminated employees or their beneficiaries.
2. Beneficiaries of employees who have died.
3. Present employees or their beneficiaries.

Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial valuation was done by using the beginning-of-the-year method. Therefore, the statement of accumulated plan benefits as of August 31, 2017 is presented from information provided by the actuary as of September 1, 2017. There has been no significant change in the Plan's provisions or coverage from August 31, 2017 to September 1, 2017, and had the valuation been performed as of August 31, 2017, there would be no material differences.

The actuarial present value of accumulated plan benefits is determined by an actuary from AON Consulting under the unit credit method and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of September 1, 2017 were:

1. Life expectancy of participants – RP-2006 for Employees and Healthy Annuitants Mortality Table with Blue Collar Adjustment Using Scale MP-2017.
2. Retirement age assumptions – normal retirement age (65) or age on valuation date, if greater.
3. Investment return – 6.75 percent compounded annually, net of investment expenses.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

The Plan's reporting valuation reflects an assumption change in the mortality projection scale from MP-2016 to MP-2017 and a change in the interest rate from 7.00% to 6.75% as of September 1, 2017.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: Administrative expenses incurred for trustee, custodial, and other services are paid by the Plan.

Subsequent events: The Plan Administrator has evaluated subsequent events through May 17, 2019, the date the financial statements were available to be issued.

Note 3. Funding Policy

The Plan is a non-contributing participation plan. The employees do not contribute, rather all contributions are made by the Company. It was recommended by the Plan's actuary that the Company make contributions of \$171,511 to \$17,494,530 and \$94,586 to \$17,610,261 for the plan years ended August 31, 2018 and 2017, respectively. These recommendations were determined by applying the full funding limitation, which limits the tax-deductible contribution to the excess of the normal cost over the Plan's surplus. Actual contributions were \$183,200 and \$100,000, for the plan years ended August 31, 2018 and 2017, respectively. See Note 9.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**Retirement Income Plan for Salaried Employees of
Plymouth Tube Company**

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to its fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2018 and 2017.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: The investments in the insurance company's pooled separate accounts is primarily valued at net asset value (NAV) per share based on quoted market prices of underlying investments. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 14,083,892	\$ -	\$ -	\$ 14,083,892
Total assets in fair value hierarchy	\$ 14,083,892	\$ -	\$ -	14,083,892

Note 4. Fair Value Measurements (Continued)

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investment	Fair Value 2018	Fair Value 2017	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts (a)	\$ 1,027,028	\$ 1,297,874	\$ -	Once every 30 days	None

- (a) This category invests the majority of assets in commercial real estate holdings seeking long-term growth. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Transfers between levels: The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended August 31, 2018 and 2017, there were no transfers between levels.

Note 5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- A. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- B. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations (discussed below).
- C. All other vested benefits (that is, vested benefits not insured by the PBGC).
- D. All nonvested benefits.

Notes to Financial Statements

Note 5. Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For 2018 plan terminations, that ceiling is \$5,420. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 6. Information Certified and Provided by Wells Fargo Bank N.A., the Trustee

Wells Fargo Bank, N.A. (Wells Fargo), the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedules related thereto. This information includes investments held at August 31, 2018 and 2017, and net appreciation/(depreciation) in fair value of investments, interest, and dividends for the years then ended. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The Plan Administrator, therefore, has instructed the independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 10, 2012, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Party-in-Interest Transactions

Wells Fargo manages certain funds for the Plan and is the trustee and custodian, as defined by the Plan. Therefore, these are party-in-interest transactions. Fees paid by the Plan for trustee, custodial, and other services amounted to \$13,442 and \$13,318 for the years ended August 31, 2018 and 2017, respectively.

Certain employees of the Company are performing services for the Plan and are not compensated by the Plan. Certain other expenses of the Plan are paid by the Company.

Plymouth Tube Company**

Notes to Financial Statements

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at August 31, 2018 and 2017:

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

We were engaged to audit the accompanying financial statements of Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan), which comprises the statements of net assets available for benefits as of August 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of August 31, 2017, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation, and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified or provided by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of August 31, 2018 and 2017, and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year), and Schedule H, Line 4j, Schedule of Reportable Transactions as of August 31, 2018, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit pension plan which covered salaried employees of Plymouth Tube Company (Company) not participating in any other pension plan sponsored by the Company and non-exempt employees of the Hopkinsville location. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended effective December 31, 2003, such that benefit accruals for employees covered under the Plan ceased. Vested benefits for active employees on December 31, 2003, will be determined as if they had terminated employment on December 31, 2003. Employees not fully vested at December 31, 2003, who are active employees on their subsequent vesting date, will become fully vested in the benefit they earned as of December 31, 2003.

The Pension Protection Act of 2006 (PPA) as amended by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA) imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage (FTAP). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2018 AFTAP for the Plan is 95.84 percent using the unit credit cost method. Since the AFTAP is not less than 80 percent for 2018, the benefit restriction rules of PPA do not apply.

Pension benefits: Employees age 65 or older with five or more years of service are entitled to annual income equal to the sum of (a) 1-2/3 percent of final average compensation, as defined, multiplied by years of credited service (not to exceed 30) and (b) 1 percent of final average compensation multiplied by years of credited service in excess of 30 (not to exceed 10) less (c) 1-3/4 percent of the primary Social Security benefit to which the members are entitled multiplied by years of credited service (not to exceed 40).

The Plan permits early retirement at ages 60–64 with five years of vesting service. Early retirement payment is reduced by 6/10 of 1 percent for each month prior to normal retirement age.

Participants who terminate service prior to the earlier of age 65 or the completion of five years of service receive no benefits under the Plan.

Payment of benefits: Normal form of retirement benefit payment shall be made under a joint and 50 percent survivor annuity. Alternative optional forms of distribution available under specific circumstances, as outlined in the plan document, are (1) life annuity payable in equal installments that terminates upon participant's death, (2) life annuity with period certain payable in equal installments until participant's death or until 120 monthly payments are paid to the participant or his/her beneficiary, or (3) joint and 75 or 100 percent survivor annuity. If the lump-sum actuarial equivalent value of a participant's vested account retirement benefit does not exceed \$5,000 at the time benefits are paid, it may be distributed in a lump-sum payment form.

Pre-retirement death benefit: In the event of an active married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and 50 percent survivor benefit payable at their normal retirement or early retirement date and died the next day.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the present value of accumulated plan benefits reported in the accompanying financial statements. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

1. Retired or terminated employees or their beneficiaries.
2. Beneficiaries of employees who have died.
3. Present employees or their beneficiaries.

Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial valuation was done by using the beginning-of-the-year method. Therefore, the statement of accumulated plan benefits as of August 31, 2017 is presented from information provided by the actuary as of September 1, 2017. There has been no significant change in the Plan's provisions or coverage from August 31, 2017 to September 1, 2017, and had the valuation been performed as of August 31, 2017, there would be no material differences.

The actuarial present value of accumulated plan benefits is determined by an actuary from AON Consulting under the unit credit method and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of September 1, 2017 were:

1. Life expectancy of participants – RP-2006 for Employees and Healthy Annuitants Mortality Table with Blue Collar Adjustment Using Scale MP-2017.
2. Retirement age assumptions – normal retirement age (65) or age on valuation date, if greater.
3. Investment return – 6.75 percent compounded annually, net of investment expenses.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

The Plan's reporting valuation reflects an assumption change in the mortality projection scale from MP-2016 to MP-2017 and a change in the interest rate from 7.00% to 6.75% as of September 1, 2017.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: Administrative expenses incurred for trustee, custodial, and other services are paid by the Plan.

Subsequent events: The Plan Administrator has evaluated subsequent events through May 17, 2019, the date the financial statements were available to be issued.

Note 3. Funding Policy

The Plan is a non-contributing participation plan. The employees do not contribute, rather all contributions are made by the Company. It was recommended by the Plan's actuary that the Company make contributions of \$171,511 to \$17,494,530 and \$94,586 to \$17,610,261 for the plan years ended August 31, 2018 and 2017, respectively. These recommendations were determined by applying the full funding limitation, which limits the tax-deductible contribution to the excess of the normal cost over the Plan's surplus. Actual contributions were \$183,200 and \$100,000, for the plan years ended August 31, 2018 and 2017, respectively. See Note 9.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**Retirement Income Plan for Salaried Employees of
Plymouth Tube Company**

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to its fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2018 and 2017.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: The investments in the insurance company's pooled separate accounts is primarily valued at net asset value (NAV) per share based on quoted market prices of underlying investments. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 14,083,892	\$ -	\$ -	\$ 14,083,892
Total assets in fair value hierarchy	\$ 14,083,892	\$ -	\$ -	14,083,892
Investment measured at NAV as a practical expedient (a)				1,027,028
Investments at fair value				\$ 15,110,920

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 19,212,118	\$ -	\$ -	\$ 19,212,118
Total assets in fair value hierarchy	\$ 19,212,118	\$ -	\$ -	19,212,118

Investments at fair value				\$ 20,509,992

**Retirement Income Plan for Salaried Employees of
Plymouth Tube Company**

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investment	Fair Value 2018	Fair Value 2017	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts (a)	\$ 1,027,028	\$ 1,297,874	\$ -	Once every 30 days	None

- (a) This category invests the majority of assets in commercial real estate holdings seeking long-term growth. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Transfers between levels: The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended August 31, 2018 and 2017, there were no transfers between levels.

Note 5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- A. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- B. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations (discussed below).
- C. All other vested benefits (that is, vested benefits not insured by the PBGC).
- D. All nonvested benefits.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 5. Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For 2018 plan terminations, that ceiling is \$5,420. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 6. Information Certified and Provided by Wells Fargo Bank N.A., the Trustee

Wells Fargo Bank, N.A. (Wells Fargo), the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedules related thereto. This information includes investments held at August 31, 2018 and 2017, and net appreciation/(depreciation) in fair value of investments, interest, and dividends for the years then ended. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The Plan Administrator, therefore, has instructed the independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 10, 2012, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Party-in-Interest Transactions

Wells Fargo manages certain funds for the Plan and is the trustee and custodian, as defined by the Plan. Therefore, these are party-in-interest transactions. Fees paid by the Plan for trustee, custodial, and other services amounted to \$13,442 and \$13,318 for the years ended August 31, 2018 and 2017, respectively.

Certain employees of the Company are performing services for the Plan and are not compensated by the Plan. Certain other expenses of the Plan are paid by the Company.

**Retirement Income Plan for Salaried Employees of
Plymouth Tube Company**

Notes to Financial Statements

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at August 31, 2018 and 2017:

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date	January 1, 1974
Effective Date of Last Amendment	September 1, 2011
Plan Year	September 1 to August 31
Employer Fiscal Year	January 1 to December 31
Employer ID Number	38-0933700
Plan Number	005
Plan Administrator	Plan Administrative Committee

Eligibility

All employees of the employer compensated on a salaried basis and not participating in any other defined benefit or defined contribution plan (other than a 401(k) plan) sponsored by the employer, are eligible to participate in this plan upon the first day of the month following completion of one year of service. Participants of the Hopkinsville Plan on January 1, 1991, began participation in this plan on the same date.

Prior to February 6, 1993, employees were eligible to participate in the plan upon the first day of the month following the completion of one month of service.

Service

Periods of service for determining benefit accruals, vesting and benefit qualification are determined using the continuous service of a participant (including authorized leaves of absence and periods of total and permanent disability). For the purpose of determining benefit accruals, continuous service shall be all continuous service after the first day of the year of service which qualifies the employee to be an eligible participant. For other purposes, continuous service shall be all continuous service commencing with date of employment. Periods of employment in a classification excluded from participation shall count for vesting and participant purposes but not for benefit accrual.

Schedule SB Attachment (Form 5500)—2017 Plan Year
Retirement Income Plan for Salaried Employees of Plymouth Tube
Company
EIN: 380933700 PN: 005

Normal Retirement Date	For participants who entered the plan before January 1, 1988, the normal retirement date is the participant's sixty-fifth birthday. For participants who entered the plan on or after January 1, 1988, the normal retirement date is the later of the sixty-fifth birthday or the first day of the plan year which includes the fifth anniversary of the date the participant comes into the plan.
Annual Compensation	Annual compensation is compensation paid during each calendar year which is subject to withholding.
Final Average Compensation	Final average compensation is the highest average compensation for any consecutive three calendar years in the previous 10 years of service.
Normal Retirement Benefit	<p>The annual benefit at normal retirement age to be paid in monthly installments equals:</p> <ol style="list-style-type: none">(1) $1\frac{1}{3}\%$ of final average compensation multiplied by years of credited service (not to exceed 30 years); plus(2) 1% of final average compensation multiplied by years of credited service in excess of 30 years (not to exceed 10 years); minus(3) $1\frac{1}{4}\%$ of primary Social Security benefit multiplied by years of credited service (not to exceed 40 years). <p>The benefit for employees who were covered under the prior Hopkinsville Plan is the sum of the Hopkinsville Plan benefit for service to January 1, 1991 (\$5 per month per year of service) and this plan's benefit for service after January 1, 1991.</p> <p>The plan was frozen as of December 31, 2003. No benefits shall accrue after this date.</p>
Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement the greater of the actuarial equivalent of his normal retirement benefit or the benefit based on service and compensation as of actual retirement date.

Retirement Income Plan for Salaried Employees of Plymouth Tube
Company
EIN: 380933700 PN: 005

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the normal retirement benefit based on credited service and final average compensation on the date of determination. The primary Social Security benefit is calculated using the current law and assuming the employee earns level Social Security taxable compensation after the date of the determination.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 60, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced by 0.6 of 1% for each month by which the payment date precedes the normal retirement date.

Death Benefit

In the event of a married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and one half survivor benefit payable at his normal retirement or early retirement date and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of service a participant shall have a vested interest in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Less than 5	0%
5 or more	100%

In the event that a participant has met the service requirements for early retirement at the date of termination, he may elect to receive his vested interest at age 60. Such benefit will be reduced as described under Early Retirement Benefit.

Prior to February 6, 1993, employees were eligible to participate in the plan upon the first day of the month following the completion of one month of service.

Service

Periods of service for determining benefit accruals, vesting and benefit qualification are determined using the continuous service of a participant (including authorized leaves of absence and periods of total and permanent disability). For the purpose of determining benefit accruals, continuous service shall be all continuous service after the first day of the year of service which qualifies the employee to be an eligible participant. For other purposes, continuous service shall be all continuous service commencing with date of employment. Periods of employment in a classification excluded from participation shall count for vesting and participant purposes but not for benefit accrual.

Normal Retirement Date

For participants who entered the plan before January 1, 1988, the normal retirement date is the participant's sixty-fifth birthday. For participants who entered the plan on or after January 1, 1988, the normal retirement date is the later of the sixty-fifth birthday or the first day of the plan year which includes the fifth anniversary of the date the participant comes into the plan.

Annual Compensation

Annual compensation is compensation paid during each calendar year which is subject to withholding.

Final Average Compensation

Final average compensation is the highest average compensation for any consecutive three calendar years in the previous 10 years of service.

Normal Retirement Benefit

The annual benefit at normal retirement age to be paid in monthly installments equals:

- (1) $1\frac{2}{3}\%$ of final average compensation multiplied by years of credited service (not to exceed 30 years); plus
- (2) 1% of final average compensation multiplied by years of credited service in excess of 30 years (not to exceed 10 years); minus
- (3) $1\frac{3}{4}\%$ of primary Social Security benefit multiplied by years of credited service (not to exceed 40 years).

The benefit for employees who were covered under the prior Hopkinsville Plan is the sum of the Hopkinsville Plan benefit for service to January 1, 1991 (\$5 per month per year of service) and this plan's benefit for service after January 1, 1991.

The plan was frozen as of December 31, 2003. No benefits shall accrue after this date.

Delayed Retirement

A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement the greater of the actuarial equivalent of his normal retirement benefit or the benefit based on service and compensation as of actual retirement date.

Schedule SB Attachment (Form 5500)—2017 Plan Year
Retirement Income Plan for Salaried Employees of Plymouth Tube
Company
EIN: 380933700 PN: 005

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the normal retirement benefit based on credited service and final average compensation on the date of determination. The primary Social Security benefit is calculated using the current law and assuming the employee earns level Social Security taxable compensation after the date of the determination.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 60, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced by 0.6 of 1% for each month by which the payment date precedes the normal retirement date.

Death Benefit

In the event of a married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and one half survivor benefit payable at his normal retirement or early retirement date and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of service a participant shall have a vested interest in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Less than 5	0%
5 or more	100%

In the event that a participant has met the service requirements for early retirement at the date of termination, he may elect to receive his vested interest at age 60. Such benefit will be reduced as described under Early Retirement Benefit.

Independent Auditor's Report

To the Pension Plan Committee of
Retirement Income Plan for Salaried Employees of
Plymouth Tube Company
Warrenville, Illinois

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan), which comprises the statements of net assets available for benefits as of August 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of August 31, 2017, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation, and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified or provided by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of August 31, 2018 and 2017, and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year), and Schedule H, Line 4j, Schedule of Reportable Transactions as of August 31, 2018, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit pension plan which covered salaried employees of Plymouth Tube Company (Company) not participating in any other pension plan sponsored by the Company and non-exempt employees of the Hopkinsville location. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended effective December 31, 2003, such that benefit accruals for employees covered under the Plan ceased. Vested benefits for active employees on December 31, 2003, will be determined as if they had terminated employment on December 31, 2003. Employees not fully vested at December 31, 2003, who are active employees on their subsequent vesting date, will become fully vested in the benefit they earned as of December 31, 2003.

The Pension Protection Act of 2006 (PPA) as amended by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA) imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage (FTAP). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2018 AFTAP for the Plan is 95.84 percent using the unit credit cost method. Since the AFTAP is not less than 80 percent for 2018, the benefit restriction rules of PPA do not apply.

Pension benefits: Employees age 65 or older with five or more years of service are entitled to annual income equal to the sum of (a) 1-2/3 percent of final average compensation, as defined, multiplied by years of credited service (not to exceed 30) and (b) 1 percent of final average compensation multiplied by years of credited service in excess of 30 (not to exceed 10) less (c) 1-3/4 percent of the primary Social Security benefit to which the members are entitled multiplied by years of credited service (not to exceed 40).

The Plan permits early retirement at ages 60–64 with five years of vesting service. Early retirement payment is reduced by 6/10 of 1 percent for each month prior to normal retirement age.

Participants who terminate service prior to the earlier of age 65 or the completion of five years of service receive no benefits under the Plan.

Payment of benefits: Normal form of retirement benefit payment shall be made under a joint and 50 percent survivor annuity. Alternative optional forms of distribution available under specific circumstances, as outlined in the plan document, are (1) life annuity payable in equal installments that terminates upon participant's death, (2) life annuity with period certain payable in equal installments until participant's death or until 120 monthly payments are paid to the participant or his/her beneficiary, or (3) joint and 75 or 100 percent survivor annuity. If the lump-sum actuarial equivalent value of a participant's vested account retirement benefit does not exceed \$5,000 at the time benefits are paid, it may be distributed in a lump-sum payment form.

Pre-retirement death benefit: In the event of an active married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and 50 percent survivor benefit payable at their normal retirement or early retirement date and died the next day.

Notes to Financial Statements

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the present value of accumulated plan benefits reported in the accompanying financial statements. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

1. Retired or terminated employees or their beneficiaries.
2. Beneficiaries of employees who have died.
3. Present employees or their beneficiaries.

Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial valuation was done by using the beginning-of-the-year method. Therefore, the statement of accumulated plan benefits as of August 31, 2017 is presented from information provided by the actuary as of September 1, 2017. There has been no significant change in the Plan's provisions or coverage from August 31, 2017 to September 1, 2017, and had the valuation been performed as of August 31, 2017, there would be no material differences.

The actuarial present value of accumulated plan benefits is determined by an actuary from AON Consulting under the unit credit method and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of September 1, 2017 were:

1. Life expectancy of participants – RP-2006 for Employees and Healthy Annuitants Mortality Table with Blue Collar Adjustment Using Scale MP-2017.
2. Retirement age assumptions – normal retirement age (65) or age on valuation date, if greater.
3. Investment return – 6.75 percent compounded annually, net of investment expenses.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

The Plan's reporting valuation reflects an assumption change in the mortality projection scale from MP-2016 to MP-2017 and a change in the interest rate from 7.00% to 6.75% as of September 1, 2017.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: Administrative expenses incurred for trustee, custodial, and other services are paid by the Plan.

Subsequent events: The Plan Administrator has evaluated subsequent events through May 17, 2019, the date the financial statements were available to be issued.

Note 3. Funding Policy

The Plan is a non-contributing participation plan. The employees do not contribute, rather all contributions are made by the Company. It was recommended by the Plan's actuary that the Company make contributions of \$171,511 to \$17,494,530 and \$94,586 to \$17,610,261 for the plan years ended August 31, 2018 and 2017, respectively. These recommendations were determined by applying the full funding limitation, which limits the tax-deductible contribution to the excess of the normal cost over the Plan's surplus. Actual contributions were \$183,200 and \$100,000, for the plan years ended August 31, 2018 and 2017, respectively. See Note 9.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**Retirement Income Plan for Salaried Employees of
Plymouth Tube Company**

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to its fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2018 and 2017.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: The investments in the insurance company's pooled separate accounts is primarily valued at net asset value (NAV) per share based on quoted market prices of underlying investments. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 14,083,892	\$ -	\$ -	\$ 14,083,892
Total assets in fair value hierarchy	\$ 14,083,892	\$ -	\$ -	14,083,892
Investment measured at NAV as a practical expedient (a)				1,027,028
Investments at fair value				\$ 15,110,920

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 19,212,118	\$ -	\$ -	\$ 19,212,118
Total assets in fair value hierarchy	\$ 19,212,118	\$ -	\$ -	19,212,118
Investment measured at NAV as a practical expedient (a)				1,297,874
Investments at fair value				\$ 20,509,992

**Retirement Income Plan for Salaried Employees of
Plymouth Tube Company**

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investment	Fair Value 2018	Fair Value 2017	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts (a)	\$ 1,027,028	\$ 1,297,874	\$ -	Once every 30 days	None

- (a) This category invests the majority of assets in commercial real estate holdings seeking long-term growth. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Transfers between levels: The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended August 31, 2018 and 2017, there were no transfers between levels.

Note 5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- A. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- B. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations (discussed below).
- C. All other vested benefits (that is, vested benefits not insured by the PBGC).
- D. All nonvested benefits.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 5. Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For 2018 plan terminations, that ceiling is \$5,420. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 6. Information Certified and Provided by Wells Fargo Bank N.A., the Trustee

Wells Fargo Bank, N.A. (Wells Fargo), the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedules related thereto. This information includes investments held at August 31, 2018 and 2017, and net appreciation/(depreciation) in fair value of investments, interest, and dividends for the years then ended. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The Plan Administrator, therefore, has instructed the independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 10, 2012, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Party-in-Interest Transactions

Wells Fargo manages certain funds for the Plan and is the trustee and custodian, as defined by the Plan. Therefore, these are party-in-interest transactions. Fees paid by the Plan for trustee, custodial, and other services amounted to \$13,442 and \$13,318 for the years ended August 31, 2018 and 2017, respectively.

Certain employees of the Company are performing services for the Plan and are not compensated by the Plan. Certain other expenses of the Plan are paid by the Company.

**Retirement Income Plan for Salaried Employees of
Plymouth Tube Company**

Notes to Financial Statements

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at August 31, 2018 and 2017:

	2018	2017
Net assets available for benefits per the financial statements	\$ 15,213,634	\$ 20,540,325
