Union Pension Plan

Notes to the Financial Statements

1. Plan Description

The following description of the Ohio Education Association (the Employer) Union Pension Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan covering all members of the Ohio Education Association Professional Staff Union hired prior to September 1, 2000, and all members of the Ohio Association Staff Union/NSO hired prior to April 17, 1993. Employees hired after these respective dates are covered by a separate defined contribution retirement plan. On August 31, 2013, all Professional Staff Union Member participants not yet retired were credited with benefits through their Normal Retirement Date (NRD) and benefits were then frozen for this group effective September 1, 2013. If the Professional Staff Union member had already reached NRD, no additional benefits accrued. The Association Staff Union/NSO participants are unaffected by this Plan amendment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Employer contributions are made in amounts sufficient, on an actuarial basis, to fund at a minimum, the Plan's normal cost on a current basis and to fund the actuarial liability for past service costs in accordance with Department of Treasury Regulations. There were no required minimum funding contributions for the years ended August 31, 2018 or 2017.

Eligibility

An eligible employee is a member of the Ohio Education Association Professional Staff Union hired prior to September 1, 2000 and all members of the Ohio Association Staff Union/NSO hired prior to April 17, 1993. Employees are eligible to participate in the Plan when they have attained the age of 21 and completed a year of eligible service or have completed three years of eligible service, regardless of age. Participants enter the Plan on the first day of the Plan year nearest the date when the eligibility requirements are met.

Vesting

Participants are 100% vested in their accrued benefit after five years of eligible service with the Employer. In some circumstances, participants in the Professional Staff Union may elect to purchase additional years of vested service in accordance with the provisions of the Plan.

Payments of benefits

Upon termination of a participant's employment for any reason prior to attaining normal retirement age, participants are entitled to receive their vested accrued benefit as of the date of termination at either their normal retirement date or an elected optional payment date as allowed within the provisions of the Plan. After attaining normal retirement age or the requirements necessary to elect an optional payment date as allowed within the provisions of the Plan, participants may elect to commence payment of their account within the provisions of the Plan. Lump-sum distributions are made, as soon as administratively possible, to participants when the present value of the qualified joint and survivor annuity or other death benefit is equal to or less than \$1,000.

Certain participants are eligible to receive a 3% cost of living adjustment (adjusted biennially) in accordance with the provisions of the Plan.

Administrative expenses

Administrative fees of the Plan may be paid from the assets of the Plan to the extent permitted under ERISA. Expenses not paid by the Plan are paid by the Employer.

2. Summary of Significant Accounting Policies

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting and income recognition

The financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts and disclosures. As such, actual results could differ from these estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan invests in various investments that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates or assumptions in the near term would be material to the financial statements.

Payment of benefits

Benefits are recorded when paid.

Plan termination

Although the Employer has not indicated any intention to do so, it has the right to terminate the Plan at any time subject to the provisions set forth in the Employee Retirement Income Security Act of 1974. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations and the Plan document. Upon termination, it is possible that the net assets will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, at the time. Some benefits may not be provided for at all. Information concerning payment of benefits if the Plan terminates is available in the Plan's Summary Plan Description.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through February 7, 2019, the date on which the financial statements were available to be issued.

3. Information Certified by the Trustee

The following information included in the accompanying financial statements and supplemental schedules as of and for the years ended August 31, 2018 and 2017 was obtained from data that has been prepared and certified to as complete and accurate by Matrix Trust Company, the trustee of the plan, and furnished to the Plan administrator:

Investments
Net appreciation in fair value of investments
Interest and dividend income
Assets held at end of year

4. Fair Value Measurements

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a fair value hierarchy that prioritizes the inputs to valuation. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy under generally accepted accounting principles are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurements level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets at fair value:

- *Interest-bearing cash:* Valued at observable market quotations for identical assets and priced on a daily basis.
- *Common/Collective Trusts:* Valued at the net asset value (NAV), which is based on the fair value of the underlying securities held by the fund less its liabilities. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The fund manager's objective is to seek total return consisting of long-term growth of capital and current income based on various expected retirement dates.
- *Registered investment companies:* Valued at NAV of shares held by the Plan at year end, which is based on observable market quotations for identical assets and priced on a daily basis.
- *Fixed income:* U.S. government securities are valued using pricing models maximizing the use of observable inputs for similar securities. Corporate debt securities are valued using quoted prices in markets that are not very active, broker / dealer quotations, or alternative pricing sources with reasonable levels of price transparency and maximize the use of observable inputs for similar securities.
- *Real estate investment funds:* Funds hold various real estate and mortgage assets and are valued using quoted prices in markets that are not very active, or broker / dealer quotations.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2018 and 2017:

Assumption changes in 2017 primarily relate to the change in expected return from 5.60% to 5.88% and to the change in the mortality improvement scale from MP-2016 to MP-2017.

Accumulated plan benefits are those future periodic payments, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plan are paid based on employees' five highest years of compensation during years of credited service. The accumulated plan benefits information above is computed based on the employees' average compensation during the five years ending on the benefit information date. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were as follows:

- *Life expectancy of participants* – RP-2014 Mortality Study with Blue Collar Adjustments projected generationally from 2006 with Scale MP-2018 for the year ended August 31, 2018. RP-2014 Mortality Study with Blue Collar Adjustments projected generationally from 2006 with Scale MP-2017 for the year ended August 31, 2017.
- *Salary increases* - 3% assumed for the years ended August 31, 2018 and 2017.
- *Retirement age assumptions* – Participants are assumed to retire according to a graded schedule beginning at age 55 and increasing until full retirement is assumed at the earlier of 32 years of service or the attainment of age 62 with 5 years of service. For Associate participants who are eligible to retire upon completion of 27 years of service under Option B, 70% are assumed to retire upon completion of 27 years of service.
- *Interest rate for funding* – The interest rate used was 5.73% and 5.88% for the years ended August 31, 2018 and 2017, respectively.
- *Form of benefit payment* – Assumed participants will elect the life annuity payment option.
- *Cost of living increase* – Assumed 3% for the years ended August 31, 2018 and 2017 for all eligible participants.

The valuation method used is the standard unit credit cost method. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. Income Tax Status

The Plan obtained its latest determination letter on October 22, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Related Party Transactions

Certain Plan investments are managed by Wilmington Trust, an affiliate of Matrix Trust Company, the trustee of the Plan. Therefore, transactions involving these investments qualify as party-in-interest transactions.

Schedule SB, Part V—Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

Original Effective Date: July 1, 1960

Effective Date of Last Amendment: September 1, 2013

Plan Year: September 1 to August 31

Employer Fiscal Year: September 1 to August 31

Employer ID Number: 31-4269414

Plan Number: 001

Eligibility

Certain collectively-bargained employees are eligible to participate in the Plan on the nearest September 1 following the attainment of age 21 and the completion of one year of service, or the completion of three years of service, whichever is earlier. Associate staff employees hired after April 17, 1993 and professional staff employees hired after September 1, 2000 are not eligible.

Service

Service is equal to the nearest years, completed months, and days of employment. Service for benefit accrual purposes for PSU participants is frozen as of August 31, 2013.

Service will not be interrupted by:

- (1) A leave of absence granted by the Employer, including maternity or paternity leave.
- (2) A period of service in the Armed Forces of the United States under which employment rights are granted.
- (3) A period of disability.
- (4) A lay-off for lack of work or other cause continuing for a period of not more than one year.

An employee will be given credit for his pre-break service if either of the following occurs:

- (1) The employee had a vested interest in his accrued benefit at the time of his break in service, or
- (2) The employee's period of absence was less than his pre-break service or less than five years

Normal Retirement Date

Normal Retirement Date is the first day of the month coinciding with or next following attainment of age 62 and the completion of five years of service, or the completion of 32 years of service, whichever is earlier.

Normal Retirement Benefit

For associate staff employees, the amount of annual benefit to be paid in monthly installments for the individual's lifetime is 2.0% of Average Compensation multiplied by service, not greater than 32 years.

For professional staff employees, the amount of annual benefit to be paid in monthly installments for the individual's lifetime based on service to Normal Retirement Date is 2.2% of Average Compensation multiplied by service, subject to a maximum of 32 years. For employees hired prior to May 16, 1992, and who retired under Option B, their benefit was based on 2.0% of Average Compensation. Professional staff benefits were frozen as of August 31, 2013, at which time an additional benefit was determined, which is considered an Accrued Benefit.

Cost-of-Living Adjustment

Associate staff employees retiring on or after May 15, 1992 and before September 1, 2000 shall receive a Cost of Living Adjustment to their retirement benefits. The monthly benefit will be adjusted upward 3% of the retiree's monthly benefit and increased by the initial 3% increase every other September 1st thereafter.

Professional staff employees with between 15 and 20 years of service as of August 31, 1997 who retire during their 20th year of service will receive a cost-of-living adjustment to their retirement benefits. The monthly benefit will be adjusted upward 3% of the retiree's monthly benefit on the September 1st following the 5th anniversary of their retirement and will increase by the initial 3% every other September 1st thereafter.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event, he will receive at actual retirement or death the greater of (1) his Accrued Benefit as of his delayed retirement date, based on his service and Average Compensation at that date or (2) his Accrued Benefit as of his Normal Retirement Date increased actuarially from his Normal Retirement Date to his commencement date.

Average Compensation

Average Compensation is equal to the highest average for 60 consecutive months of the participant's employment. Average Compensation was frozen for professional staff employees as of August 31, 2013.

Accrued Benefit

The Accrued Benefit at any time prior to a participant's Normal Retirement Date shall be the benefit as calculated in Normal Retirement Benefit above, using Average Compensation as of the date of determination and service projected to Normal Retirement Date.

As noted previously, professional staff employees had their Accrued Benefits frozen, after an increased benefit was provided, as of August 31, 2013.

EIN: 31-4269414 PN: 001

Early Retirement Benefits

Option A - Upon the attainment of age 55 and ten years of service, a participant may elect to retire. A participant may elect to retire and receive a portion of their accrued benefit upon attainment of age 52 and six years of service. He may receive a monthly benefit for life beginning at his Normal Retirement Date equal to the benefit accrued at the early retirement date. Payments may begin immediately, with the benefit being reduced 1/180th for each of the first 60 months and 1/360th for each of the next 60 months by which the early retirement date precedes the Normal Retirement Date.

Option B - Upon the attainment of age 60 and five years of service or the completion of 27 years of service for associate staff or completion of 20 years of service for professional staff, a participant may elect to retire. A benefit equal to the Accrued Benefit plus an additional amount, which, when added to the Accrued Benefit equals the benefit he would have accrued if he had continued service until his Normal Retirement Date, is payable immediately.

Professional Staff - Separate early retirement provisions apply to the Accrued Benefit earned as of August 31, 2013 and the additional accrued granted through the plan amendment.

Disability Retirement Benefit

An associate staff participant who is determined to be disabled before his Normal Retirement Date will continue to accrue benefits based on the last rate of pay until the earlier of the Early Retirement Option B Date and the Normal Retirement Date.

Death Benefit

In the case of a participant who dies on or before his early retirement date, the survivor benefit shall be the actuarial equivalent of the vested Accrued Benefit to the date of death.

In the case of a participant who dies after his early retirement date, such survivor benefit shall be an amount computed as if such participant had begun receiving a joint and survivor annuity on the day before his death.

Severance Benefit

Upon the termination of employment after five or more years of service, a participant is fully vested in his Accrued Benefit.

Optional Methods of Settlement

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the Optional Methods of Settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

- (1) An adjusted benefit to be paid during the participant's lifetime with a percentage of the benefit to be continued to a designated beneficiary after the participant's death for the joint annuitant's lifetime.
- (2) An adjusted benefit to be paid for a minimum number of months certain and thereafter for life.

Schedule SB Attachment (Form 5500)—2017 Plan Year
Ohio Education Association Union Pension Plan
EIN: 31-4269414 PN: 001

(3) A lump sum benefit, if less than \$5,000.

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity. For lump sum benefits, assumptions are based on the applicable table and the applicable interest rate as of the July preceding the beginning of the Plan Year. Other optional forms for ASU are based on the UP-1984 Mortality Table set back one year and the PBGC interest rate as of the beginning of the Plan Year, or 5%, whichever produces the greater IRS 415 maximum benefit. Other optional forms for PSU are based on the GAM 83 Male Mortality Table set back two years and the PBGC interest rate at the beginning of the Plan Year, or 5%, whichever produces the greater IRS 415 maximum benefit.

Amendment or Termination of Plan

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards, or is unable to pay benefits when due.

If the Plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the Employer shall be liable for any unfunded vested benefits to the extent required by law.

The above description is a summary only; for additional details, reference should be made to the formal plan document.

Plan Changes Since the Prior Year

The funding, financial accounting, and plan reporting valuations do not reflect any plan changes.

Normal Retirement Date

Normal Retirement Date is the first day of the month coinciding with or next following attainment of age 62 and the completion of five years of service, or the completion of 32 years of service, whichever is earlier.

Normal Retirement Benefit

For associate staff employees, the amount of annual benefit to be paid in monthly installments for the individual's lifetime is 2.0% of Average Compensation multiplied by service, not greater than 32 years.

For professional staff employees, the amount of annual benefit to be paid in monthly installments for the individual's lifetime based on service to Normal Retirement Date is 2.2% of Average Compensation multiplied by service, subject to a maximum of 32 years. For employees hired prior to May 16, 1992, and who retired under Option B, their benefit was based on 2.0% of Average Compensation. Cost-of-Living Adjustment

Associate staff employees retiring on or after May 15, 1992 and before September 1, 2000 shall receive a Cost of Living Adjustment to their retirement benefits. The monthly benefit will be adjusted upward 3% of the retiree's monthly benefit and increased by the initial 3% increase every other September 1st thereafter.

Professional staff employees with between 15 and 20 years of service as of August 31, 1997 who retire during their 20th year of service will receive a cost-of-living adjustment to their retirement benefits. The monthly benefit will be adjusted upward 3% of the retiree's monthly benefit on the September 1st following the 5th anniversary of their retirement and will increase by the initial 3% every other September 1st thereafter.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event, he will receive at actual retirement or death the greater of (1) his Accrued Benefit as of his delayed retirement date, based on his service and Average Compensation at that date or (2) his Accrued Benefit as of his Normal Retirement Date increased actuarially from his Normal Retirement Date to his commencement date.

Average Compensation

Average Compensation is equal to the highest average for 60 consecutive months of the participant's employment. Average Compensation was frozen for professional staff employees as of August 31, 2013.

Early Retirement Benefits

Option A - Upon the attainment of age 55 and ten years of service, a participant may elect to retire. A participant may elect to retire and receive a portion of their accrued benefit upon attainment of age 52 and six years of service. He may receive a monthly benefit for life beginning at his Normal Retirement Date equal to the benefit accrued at the early retirement date. Payments may begin immediately, with the benefit being reduced 1/180th for each of the first 60 months and 1/360th for each of the next 60 months by which the early retirement date precedes the Normal Retirement Date.

Option B - Upon the attainment of age 60 and five years of service or the completion of 27 years of service for associate staff or completion of 20 years of service for professional staff, a participant may elect to retire. A benefit equal to the Accrued Benefit plus an additional amount, which, when added to the Accrued Benefit equals the benefit he would have accrued if he had continued service until his Normal Retirement Date, is payable immediately.

Professional Staff - Separate early retirement provisions apply to the Accrued Benefit earned as of August 31, 2013 and the additional accrued granted through the plan amendment.

Disability Retirement Benefit

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity. For lump sum benefits, assumptions are based on the applicable table and the applicable interest rate as of the July preceding the beginning of the Plan Year. Other optional forms for ASU are based on the UP-1984 Mortality Table set back one year and the PBGC interest rate as of the beginning of the Plan Year, or 5%, whichever produces the greater IRS 415 maximum benefit. Other optional forms for PSU are based on the GAM 83 Male Mortality Table set back two years and the PBGC interest rate at the beginning of the Plan Year, or 5%, whichever produces the greater IRS 415 maximum benefit.

Amendment or Termination of Plan

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards, or is unable to pay benefits when due.

If the Plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the Employer shall be liable for any unfunded vested benefits to the extent required by law.

The above description is a summary only; for additional details, reference should be made to the formal plan document.

Plan Changes Since the Prior Year

The funding, financial accounting, and plan reporting valuations do not reflect any plan changes.
