1. DESCRIPTION OF PLAN:

The following description of the LJB Inc. Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of LJB Inc. (referred to as the Company or Employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employees of the Company to begin elected salary deferrals at the beginning of the month following their date of hire up to a certain percentage of annual compensation, as determined by the Company. Contributions may be subject to certain limitations under the Internal Revenue Code. Eligible employees may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Starting in January 2018, on a semi-monthly basis, the Company matches 50% of the first 4% of eligible compensation that a participant contributes to the Plan. The Company also makes an annual contribution of 50% of eligible contributions between 4% and 6% provided that the participant is an employee on the last day of the year. The Plan document also allows for non-elective discretionary profit sharing contributions for eligible employees who have one year of service and are actively employed on the last day of the Plan year. No employer non-elective profit-sharing contributions were made for the year ended December 31, 2018.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs both separately, and distinctly, into which investment(s) the participant's contributions and Company contributions are to be invested.

Vesting

Participant are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contributions portion of their accounts is based on years of service. Participants are immediately 50% vested in Company contributions and become 100% vested after three years of service.

Notes receivable from participants

Participants may borrow from their vested account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans bear interest at an agreed-upon percentage based on prevailing market rates. Loan terms are for a period not exceeding five years unless such a loan is used to acquire a dwelling unit within a reasonable time frame (determined at the time the loan is made), which will be used as the participant's principal residence. Each loan is collateralized by the remaining balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon termination of service due to death, permanent disability, retirement, or otherwise, participants or designated beneficiaries may elect to receive their vested balance either in a lump-sum amount or payments over a period of time in cash installments or in a form agreeable to the Plan. If the participant's account balance is \$1,000 or less, the Plan may elect to automatically distribute the balance to the participant in a single-sum payment. For participant account balances between \$1,000 and \$5,000, the Plan may elect to automatically rollover the account. Upon reaching normal retirement age, participants are also permitted to make in-service withdrawals.

Investment options

Upon enrollment in the Plan, a participant may currently direct contributions in any investment options with PNC Bank, National Association in increments of one percent that are approved by the Plan. In addition, a participant may direct contributions to individual brokerage accounts at Charles Schwab & Co., Inc. Contributions may also be used to purchase LJB Inc. stock. Participants may change their investment options at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and recognition

The Plan's investments are held in mutual funds, a common/collective trust fund, a custodial account through Charles Schwab & Co. Inc., or LJB Inc. stock. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the basis of the terms of the Plan agreement.

Payment of benefits

Benefits payments to participants are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Concentrations

The Plan has permitted the purchase of LJB Inc. stock as part of the participant directed investment options. At December 31, 2018 and 2017, the Plan's investment in LJB Inc. stock represented approximately 21% and 15% of the Plan's investment holdings, respectively. The Plan does not believe that it is exposed to any significant credit risk related to funds invested in LJB Inc. stock.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

Plan management has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, PNC Bank, National Association, the trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, the supplemental schedule of assets (held at end of year) as of December 31, 2018, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

4. EMPLOYER STOCK:

The Plan offers shares of common stock of LJB Inc. (the "Company") as an investment option. Each year, the Board of Directors (the "Board") of the Company determine how many, if any, shares of Company stock will be offered for sale during the trading window, which is normally in May of each year. Shares of Company stock may also be sold back to the Company during the same trading window, so long as the shareholder provides at least 60 days' notice to the Board. During the trading window, all eligible plan participants and other shareholders may choose to purchase shares of Company stock which have been offered for sale by the Board. During the trading window, purchases and sales of Company stock will be made at the share price as of December 31 of the previous year. The share price at December 31 of each year is determined by a valuation firm and approved by a majority of the Board of Directors and a majority of the Eligible Class A Shareholders. Purchases of Company stock with a value of \$100,000 or less to any one Shareholder will be made in a lump sum. However, the Company reserves the right, in the event that its economic condition requires it to, to propose a deferred purchase of the Shares over time, not to exceed five years.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies: Valued at the daily closing price as reported by the fund.

Registered investment companies held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Stable value collective trust fund: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Self-directed brokerage accounts: Accounts primarily consist of registered investment companies and common stocks that are valued on the basis of readily determinable market prices.

Employer stock: Valued at fair value based upon an independent third-party valuation. Rusk O'Brien Gido and Partners, LLC established the value of the employer stock at \$5,857 and \$5,552 at December 31, 2018 and 2017, respectively.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

(1) The PNC Stable Value Fund Z is a Direct Filing Entity.

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

Certain plan assets are invested with PNC Bank, National Association. Thus, PNC Bank, National Association, as a trustee defined by the Plan, qualifies as a party-in-interest. Trustee fees paid to PNC Bank, National Association totaled \$20,714 for the year ended December 31, 2018. Certain plan assets are invested in individual brokerage accounts with Charles Schwab & Co., Inc. Thus, Charles Schwab & Co., Inc., as a custodian defined by the Plan, qualifies as a party-in-interest. In addition, the Plan holds stock of the plan sponsor, LJB Inc.; therefore, LJB Inc. is a related party to the Plan.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the net assets will be distributed to the participants and beneficiaries in proportion to their account balances.

8. TAX STATUS:

The Plan adopted a standardized form of a prototype plan sponsored by PNC Bank, National Association. The prototype plan has received a favorable opinion letter from the Internal Revenue Service dated September 21, 2017 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this plan. The plan administrator believes the Plan is designed and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefit.
