Note 1. Plan Description

The following brief description of the Amb Tran Group Limited 401(k) Plan, (the Plan), provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution 401(k) plan that covers all employees of ATG Management Services Inc. and related entities (collectively, the Company) who have attained 21 years of age and have completed one year of service, as defined. Eligible employees may become participants in the Plan on the first day of each month, following the completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants are able to contribute up to 100% of annual compensation. These deferrals can be designated as pre-tax contributions or as Roth after-tax deferral contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Company may make a discretionary matching contribution determined each year by the Company. For 2018, the Company match contribution was an amount equal to 25 percent of each participant's contribution not to exceed six percent of the participant's eligible compensation. The Company may also make a discretionary profit-sharing contribution on behalf of the eligible participants. For 2018, there were no discretionary profit-sharing contributions. Contributions are subject to certain IRS limitations.

Investment options: Upon enrollment in the Plan, a participant may direct the contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching and/or profit-sharing contributions, if any, Plan earnings/losses, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contribution portions of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Upon reaching normal retirement age, as defined by the plan or if the participants terminate employment due to death or disability, they are 100 percent vested in their account balances.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loan repayment period is not to exceed five years except for the purchase of a principal residence. The loans are secured by the balance in the participant's account. The loan interest rate is set at one percent above the prime rate, as defined (6.50 at December 31, 2018). Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service, death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account in the form of a lump-sum distribution, as descripted in the Plan agreement. In addition, in-service and hardship withdrawals are permitted in certain situations as described in the plan agreement.

Note 1. Plan Description (Continued)

Forfeited accounts: At December 31, 2018 and 2017, forfeited non-vested accounts totaled $779 and $761, respectively. Forfeited non-vested accounts may be used to pay for Plan expenses. Forfeitures of contributions that are not used to pay plan expenses are to be used to reduce Company contributions. No forfeitures were used to pay plan expenses or offset the Company contributions in 2018.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through June 5, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Matrix Trust Company

Matrix Trust Company, the custodian, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedule related thereto. This information includes investments held at years ended December 31, 2018 and 2017 and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2018. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the custodian. The Plan Administrator, therefore has instructed the independent public accountant to exclude the information certified by the custodian from their scope of their audit.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 2,764,688	$ -	$ -	$ 2,764,688
Investments measured at net asset value (a)				5,912
				$ 2,770,600

	2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 2,960,638	$ -	$ -	$ 2,960,638
Investments measured at net asset value (a)				3,575
				$ 2,964,213

(a) In accordance with Subtopic 820-10, as amended by ASU 2015-07, certain investments that are measured at net asset value per share (or its equivalent) as practical expedient are not classified in the fair value hierarchy.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018, and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	2018	2017	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	5,912	3,575	-	30 days	12 Months

Note 5. Related Party Transactions

Correll Co. and Matrix Trust Company are the recordkeeper and custodian, respectively, of the Plan, as defined by the Plan, and therefore, transactions with Correll Co. and Matrix Trust Company qualify as party-in-interest. Fees paid by the Plan for these services amounted to $14,360 for the year ended December 31, 2018.

Rothschild Consulting Group provides financial advisor services for the Plan. Fees paid by the Plan for these services amounted to $23,032 for the year ended December 31, 2018.

Note 5. Related Part Transactions (Continued)

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a standardized form of a prototype plan sponsored by Correll Co. The prototype plan has received an opinion letter from the Internal Revenue Service, as to the prototype plan's qualified status. The prototype opinion letter has been relied upon by the Company. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2018 and 2017:

	2018	2017
Net assets available for benefits per the financial statements	$ 3,114,778	$ 3,257,027
Notes receivable from participants	-	(4,423)
Net assets available for benefits per the Form 5500	$ 3,114,778	$ 3,252,604

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500 at December 31, 2018:

	2018
Change in net assets available for benefits per the financial statements	$ (142,249)
Benefits paid directly to participants	4,423
Change in net assets available for benefits per the Form 5500	$ (137,826)

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
