INDEPENDENT AUDITORS' REPORT

To the Employee Benefit Plans Committee of
The Boeing Company
Chicago, Illinois

We have audited the accompanying financial statements of The Boeing Company Employee Retirement Plan, Boeing North American Retirement Plan, BSS Retirement Plan, BSS Retirement Plan for Bargained Employees, Employee Retirement Income Plan—Hourly East, Employee Retirement Income Plan—Hourly West, Non-Contributory Retirement Plan, and The Pension Value Plan for Employees of The Boeing Company (collectively, the "Plans"), which comprise the statements of net assets available for benefits as of December 31, 2017, and the related statements of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plans' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plans as of December 31, 2017, and the changes in the net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Predecessor Auditors' Opinion on 2016 Financial Statements

The financial statements of the Plans as of December 31, 2016, were audited by other auditors whose report, dated July 24, 2017, expressed an unmodified opinion on these statements and included an emphasis-of-matter paragraph that described investments whose fair values have been estimated by management in the absence of readily determinable market values and that have restrictive redemption frequency and notice requirements.

Report on Supplemental Schedules

Our audits were conducted for the purpose of forming an opinion on the 2017 financial statements as a whole. The supplemental schedules listed in the table of contents are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plans' management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such schedules have been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such schedules directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedules are fairly stated in all material respects in relation to the financial statements as a whole.

THE BOEING COMPANY EMPLOYEE RETIREMENT PLANS

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

1. DESCRIPTION OF THE PLANS

The following is a brief description of the following plans (collectively, the “Plans”), and provides only general information:

The Boeing Company Employee Retirement Plan (“BCERP Plan”)
Boeing North American Retirement Plan (“BNA Plan”)
BSS Retirement Plan (“BSS Plan”)
BSS Retirement Plan for Bargained Employees (“BSSB Plan”)
Employee Retirement Income Plan – Hourly East (“Hourly East Plan”)
Employee Retirement Income Plan – Hourly West (“Hourly West Plan”)
Non-Contributory Retirement Plan (“NCRP Plan”)
The Pension Value Plan for Employees of The Boeing Company (“PVP Plan”)

Eligible participants as defined by the Plans (“Participants”) should refer to the plan documents for a more complete description of the Plans’ provisions.

Each of the Plans is sponsored by The Boeing Company (the “Company”).

General —

BCERP Plan:

The BCERP Plan is a noncontributory defined benefit pension plan covering certain bargained employees of the Company. The BCERP Plan is closed to various unions. These closure dates range from January 1, 2009 through December 31, 2016. Effective January 1, 1999, the assets and liabilities attributable to accrued benefits of active nonunion salaried Participants were transferred to the PVP Plan. Benefit accruals under the BCERP Plan are also frozen (or will be frozen) to various unions with freeze dates ranging from December 31, 2015 to December 31, 2018.

BNA Plan:

The BNA Plan is a noncontributory defined benefit pension plan covering certain employees formerly of Boeing North American, Inc. (formerly Rockwell International Corporation), a subsidiary merged into the Company effective December 1996. The BNA Plan is made up of various sub-plans with varying plan provisions. Since 2000, the only sub-plan still active is the BNA Sub-Plan R02/Aerospace Hourly Plan (“R02 Sub Plan”). Effective January 1, 2009, the R02 Sub Plan was closed to new entrants and all benefit accruals in the R02 Sub Plan were frozen effective December 31, 2016.

BSS Plan:

The BSS Plan is a contributory defined benefit pension plan covering certain nonbargained employees formerly of Boeing Satellite Systems, Inc. (“BSS”), a subsidiary merged into the Company effective October 2000. The BSS Plan was closed to new entrants for the contributory benefit structure effective January 1, 1991. Noncontributory benefits of the BSS Plan were transferred to the PVP Plan on April 1, 2003. All benefit accruals under the BSS Plan were frozen as of December 31, 2015.

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

1. DESCRIPTION OF THE PLANS (CONTINUED)

BSSB Plan:

The BSSB Plan is a defined benefit pension plan with both contributory and noncontributory benefit structures covering certain bargained employees formerly of BSS. Eligible active employees are located in Southern California represented by Cabinet Makers, Millmen and Industrial Carpenters, Local No. 721 (formerly Electronic and Space Technicians Local No. 1553). The contributory portion of the BSSB Plan has been closed to new Participants since 1992. Effective January 1, 2012, the noncontributory portion of the BSSB Plan was closed to new entrants. Benefit accruals under the BSSB Plan will be frozen effective December 31, 2018.

Hourly East and Hourly West Plans:

The Hourly East and Hourly West Plans are noncontributory defined benefit pension plans covering certain employees formerly of McDonnell Douglas Corporation (“MDC”), which merged with the Company effective August 1997. The Hourly East and Hourly West Plans are closed to all unions. These closure dates range from January 1, 2012 through January 1, 2014 for the Hourly East Plan and January 1, 2010 through February 1, 2014 for the Hourly West Plan. As of December 31, 2017, benefit accruals under the Hourly East and Hourly West Plans have been frozen except for the Hourly East Plan Participants represented by the International Association of Firefighters, Local No. I-66 and the Hourly West Plan Participants represented by the International Union, Security Police and Fire Professionals of America (“SPFPA”), Local No. 159.

NCRP Plan:

The NCRP Plan is a noncontributory defined benefit pension plan covering certain bargained employees of the Company, represented by United Automobile, Aerospace and Agricultural Implement Workers of America, Local 1069, in Ridley Park, Pennsylvania. Effective January 1, 2014, the NCRP Plan was closed to new entrants. All benefit accruals under the NCRP Plan were frozen effective December 31, 2016.

PVP Plan:

The PVP Plan is a noncontributory defined benefit pension plan covering certain nonunion salaried employees of the Company. Effective January 1, 2009, the PVP Plan was closed to new entrants. Benefit accruals under the PVP Plan were frozen, other than interest credits applied to Participants’ cash balance hypothetical accounts to the extent required by law, effective December 31, 2015.

See Note 8 for recent plan amendments, including plan freezes, and changes to plan benefits.

The assets of the Plans, along with another plan sponsored by a subsidiary of the Company and not included in the accompanying financial statements, are held in The Boeing Company Employee Retirement Plans Master Trust (the “Master Trust”). J.P. Morgan Chase, N.A. (“J.P. Morgan”) serves as the trustee for the Master Trust. The Employee Benefit Plans Committee has the overall responsibility for the operation and administration of the Plans. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The “Total (Memorandum Only)” columns in the accompanying Statements of Net Assets Available for Benefits and Statements of Changes in Net Assets Available for Benefits represent the total activity for the Plans and are provided for information purposes only.

THE BOEING COMPANY EMPLOYEE RETIREMENT PLANS

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

1. DESCRIPTION OF THE PLANS (CONTINUED)

Employee Contributions — For the BSSB Plan and prior to January 1, 2016, also the BSS Plan, a Participant's current rate of contribution is 3% of eligible compensation. Participants may suspend contributions, but they do not accrue benefit service for periods when they are not contributing; however, contribution suspension will not interrupt their continuous service or years of vesting service. If contributions are suspended, Participants must wait 12 calendar months before they can begin contributing again, provided they are still eligible. Participants are always vested in their own contributions to the respective BSS and BSSB Plans. Effective January 1, 2016, employee contributions were no longer allowed under the BSS Plan as all benefit accruals under the BSS Plan were frozen. Effective January 1, 2019, employee contributions will no longer be allowed under the BSSB Plan as all benefit accruals under the BSSB Plan will be frozen effective December 31, 2018.

Employer Contributions — The funding policy of the Company is to contribute an amount at least equal to the minimum required contribution under ERISA to each of the Plans. The Plans have met the minimum funding requirements of ERISA, and no contributions were required under ERISA for the years ended December 31, 2017 and 2016. Although no contributions were required under ERISA, the Company may make discretionary contributions to the Plans. During 2017, the Company elected to contribute \$500,000,000 in cash and \$3,499,999,810 of Company common stock to the Plans. An independent fiduciary was retained to manage and liquidate the Company common stock over time at its discretion. The liquidation of the Company common stock holdings was completed during the fourth quarter of 2017.

Pension Benefits — Except as noted for the specific plans below, Participants with five or more years of vesting service are entitled to benefits under the Plans. The Plans generally provide for normal retirement benefits upon reaching age 65 and have provisions for early retirement benefits. Benefits are payable in the form of a joint and survivor annuity, a single life annuity, or other payment forms, as specified in the applicable plan document. Monthly pension benefits beginning at normal retirement age are generally determined as follows:

Plan	Determination of Benefit Payment Amount
BCERP Plan	The greater of (1) a final average monthly earnings formula, or (2) a rate, based on union affiliation, multiplied by each year of credited service
BNA Plan	For the BNA R02 Sub Plan (the only sub-plan with Participants who were actively accruing benefits prior to the Plan freeze), benefits are based on a rate multiplied by each year of benefit service. Other benefits vary per applicable sub-plan.
BSS Plan	<p>The contributory benefit is funded by the Company, as well as employee contributions. The contributory benefit is the best of three formulas: 1) a career average formula, 2) a final average monthly compensation formula, and 3) a minimum benefit formula.</p> <p><i>Cost of Living Adjustment ("COLA")</i> — Monthly benefits under the contributory benefit may be adjusted annually to reflect changes in the cost of living. The adjustment is made every January 1 and is based on the change in the Consumer Price Index ("CPI") relative to the year before; however, if the BSS Plan is terminated, no COLA will be provided except to Participants who are already receiving retirement payments. To be eligible for a COLA, Participants must have retired on their early, normal, or late retirement date.</p>

Benefits are based on a formula, including final average monthly earnings, service, and covered compensation.• The contributory benefit is funded by the Company, as well as employee contributions. The contributory benefit is the best of three formulas: 1) a career average formula, 2) a final average monthly compensation formula, and 3) a minimum benefit formula. <p><i>COLA</i> — Monthly benefits under the contributory benefit may be adjusted annually to reflect changes in the cost of living. 1. DESCRIPTION OF THE PLANS (CONTINUED)

PVP Plan	<p>Participants with three or more years of vesting service and Participants who are at least age 62 at termination with one or more years of service are entitled to benefits under the PVP Plan.</p> <p>PVP Plan features that are relevant to the benefit include, but are not limited to:</p> <ul style="list-style-type: none">• Participants in the PVP Plan maintain a hypothetical separate account similar to a defined contribution plan, although the Company makes all contributions to the PVP Plan. Participants are not permitted to make contributions.• Interest credits applied to Participants' hypothetical accounts are based on the yield of the 30-year U.S. Treasury bond (but not less than an interest credit minimum rate of 5% (5.25% prior to January 1, 2016) or greater than an interest credit maximum rate of 10%). The crediting rate was 5% as of December 31, 2017 and 2016.• Benefits relating to prior service and transferred to the PVP Plan ("Heritage Benefits") were generally earned under the BCERP Plan, BNA Plan, BSS Plan, and the former McDonnell Douglas Corporation — Salaried Plan ("MDC-Salaried"); Heritage Benefits increased in relation to growth in base pay but not for service earned after these benefits were transferred into the PVP Plan. <p>Monthly pension benefits beginning at normal retirement age (65) equal the greater of the combined benefits described in (1) plus (2) or the benefit described in (3) below:</p> <ol style="list-style-type: none">1. The benefit credits, including a percentage of eligible pay based on the Participant's age for each year he or she works for the Company, plus interest credits divided by an annuity conversion factor, ranging from 11 to 15. This annual benefit is then divided by 12 to calculate a monthly benefit.2. Heritage Benefits transferred to the PVP Plan, plus growth due to increases in base pay after the transfer date.3. A rate multiplied by each year of benefit service. <p>Benefits for certain frozen plans have been merged into the PVP Plan. Those benefits remain frozen and are payable based on the provisions of the specific related plans merged into the PVP Plan.</p>
----------	--

Death and Disability Benefits — Death benefits are payable from the Plans under certain circumstances. See plan documents for specific provisions.

There are no provisions for disability benefits from the BSS and BSSB Plans. Since December 1, 2004, the PVP Plan has not provided for disability benefits. Disability benefits for the other Plans are payable from the other Plans under certain circumstances. See plan documents for specific provisions.

THE BOEING COMPANY EMPLOYEE RETIREMENT PLANS

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

1. DESCRIPTION OF THE PLANS (CONTINUED)

Purchase of Annuity Contracts – Net — During 2017, \$101,206,347 in plan assets were transferred from the BNA Plan and \$636,935,778 from the PVP Plan to Metropolitan Life Insurance Company (“MetLife”), as a result of the purchase of allocated annuity contracts with MetLife. All benefit obligations under these contracts were transferred from the BNA and PVP Plans to MetLife prior to December 31, 2017. MetLife assumed the responsibility of benefit payments effective January 1, 2018. On the December 31, 2017 Statement of Net Assets Available for Benefits, interest in Master Trust includes \$4,433,653 and \$1,889,222 of premium refund receivables related to the annuity contract purchase for BNA Plan and PVP Plan, respectively.

Termination — Although it has not expressed any intention to do so, the Company has the right under each of the individual plans, in certain circumstances, to discontinue its contributions at any time and to terminate any of the Plans subject to the provisions set forth in ERISA. In the event a plan terminates, the net assets of the specific plan will be allocated for payment of plan benefits to Participants in an order of priority determined in accordance with ERISA and the applicable plan document.

Certain benefits under the Plans are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plans terminate. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions; however, the PBGC does not guarantee all types of benefits under the Plans, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plans are guaranteed at the level in effect on the date of the Plans’ termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all Participants receive their benefits should a plan terminate at some future time will depend on the sufficiency, at that time, of the net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial Present Value of Accumulated Plan Benefits (“PVAB”) at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Master Trust utilizes various investment instruments. Investment instruments, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the values reported in the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Plan contributions are made and the actuarial PVAB is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Valuation of Investments — Investments in the Master Trust are generally stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. Investments at contract value are investment contracts valued at cost, plus accumulated earnings thereon, computed in accordance with contract formulas, less expenses. The Master Trust's investments stated at fair value are valued as follows:

- Corporate bonds, government bonds, mortgage-backed and asset-backed securities, and municipal bonds are primarily valued using a market approach using matrix pricing, which considers a security's relationship to other securities for which quoted prices in an active market may be available, or alternatively based on an income approach, which uses valuation techniques to convert future cash flows to a single present value amount. The valuation approach is designed to maximize the use of observable inputs, such as observable trade prices, multiple broker-dealer quotations, related yield curves, and other assumptions about the security (prepayment projections, cash flows, other security characteristics, etc.) and minimize unobservable inputs. The securities are valued as of the last trading day of the year. To-be-announced securities ("TBAs") and treasury forwards, which have a delayed future settlement, are valued similarly to securities in active markets. The unrealized market appreciation or depreciation is included in other receivables and other liabilities on the Master Trust's statements of net assets.
- Common and preferred stock and certain other investments, including real-estate investment trusts, American depository receipts, global depository receipts, rights, and warrants traded in active markets on national and international exchanges are primarily valued using a market approach based on the closing market prices of identical instruments on the last trading day of the year.
- Mutual funds, which are registered investment companies, are valued using quoted market prices to represent the net asset value ("NAV") at year-end.
- Short-term investments include treasury bills, commercial paper, certificates of deposits, and discounted notes with original maturities of up to one year. These investments are primarily valued using a market approach based on matrix pricing as referenced above. In the event that an instrument with an original maturity of less than three months does not have a market price, then those investments are valued at amortized cost, which approximates fair value.
- Other investments include over-the-counter ("OTC") derivatives, such as options and swap contracts. These derivatives are valued based upon the expected amount that the Master Trust would receive or pay to exit the derivative at the reporting date. The valuation methodology uses the income approach and relies on inputs, including, but not limited to, benchmark yields, swap curves, cash flow analysis, ratings updates, and interdealer broker rates. Credit risk of the derivative counterparties is offset by collateralizing the expected amount that the Master Trust would receive or pay to terminate the derivative.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Investments in funds that do not have a readily determinable fair value and meet the criteria of investment companies are valued using the NAV as the practical expedient. The NAV or its equivalent, such as member units or membership units in partners' capital to which a proportionate share of net assets is attributed, is based on the value of underlying investments. The NAV measurement may be adjusted to estimate net asset value per share for the investment in a manner consistent with measurement principles for investment companies. There were no adjustments in 2017 or 2016.
 - Investments in commingled funds, which include common/collective trusts/pooled funds ("CCTs") are valued based on the year-end unit values. Unit values are determined by the issuer, investment manager or third-party administrator by dividing the fair values of the total net assets at year-end by the outstanding units.
 - Investments in partnerships are recorded based upon year-end valuations at NAV, which represent the unit of account, and are determined by the general partner and reflected in the audited financial statements of the partnerships. Where necessary, adjustments may be made to general partner valuations to reflect fair value when such valuations are inconsistent with NAV practical expedient criteria.
 - Investments in hedge funds consist of fund-of-fund structures and direct hedge funds. The fund-of-fund structures are primarily valued using a market approach based on the NAV calculated by the fund and is not publicly available. Direct hedge fund NAV is based on valuation of the underlying holdings.
- Cash and cash equivalents include cash and cash collateral. Cash includes cash collateral received from counterparties on derivatives. Cash collateral is related to the collateral posted on derivatives.
- Forward and spot currency contracts are valued using a market value approach based on spot foreign currency rates if the contract tenor is two days or less and interpolated forward rates for any contracts with a tenor greater than two days. Forward and spot currency contracts are included in other receivables and other liabilities on the Master Trust's statements of net assets.
- Securities sold short (included in other liabilities on the Master Trust's statements of net assets) represent obligations of the Master Trust to deliver the specified security and thereby create a liability to purchase the security at prevailing prices. Securities sold short are valued based on the fair value of the securities sold as described above.

Investment Income — Net investment income or loss reflected in the statements of changes in net assets includes the Master Trust's net appreciation/depreciation in fair value of investments, interest income, and dividend income, less administrative expenses. Net appreciation/depreciation in fair value of investments includes both realized and unrealized gains and losses and is calculated as the difference between the fair value of the investments as of the beginning of the year or the purchase date in the current year and either the sales price or the end-of-year fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Valuation Controls — Management has controls that are designed to ensure that fair value measurements used by the Master Trust are appropriate and reliable, that they are based on observable inputs wherever possible, and that the valuation approaches are consistently applied and the assumptions used are reasonable. The controls consist of a framework that provides for oversight of the fair value methodologies and valuations, as well as validation procedures.

The Board of Directors of the Company has delegated the fiduciary oversight of plan assets over various retirement plans held within the Master Trust structures to the Employee Benefit Investment Committee (“EBIC”). The EBIC has sub-delegated this responsibility to the Chief Investment Officer (“CIO”), who manages Trust Investments and chairs the Valuation Committee. Trust Investments is responsible for the oversight of the Master Trust assets including selection and monitoring of investment managers, asset strategies, and risk management. The Valuation Committee is responsible for the oversight of the valuation practices of the Master Trust and is represented by members of Trust Investments, including risk management and trust operations, public markets, and investment strategy. The Valuation Committee meets at least quarterly with the purpose of fulfilling the following responsibilities and provides an annual review to the EBIC of its findings and actions:

- Review and approve annually the valuation practices, including those used by third parties
- Review and approve the year-end valuations, including the methods used to develop and substantiate the unobservable inputs used in the fair value measurement
- Review analysis and benchmarks used by the Company and the Master Trust to assess the reasonableness of the year-end valuations and changes in fair value measurements from period to period
- Review and approve annual financial statement disclosures of the investments held in the Master Trust

Investments in funds are generally valued using the NAV or its equivalent. This includes partnerships, hedge funds, and other commingled investments. Valuations provided by the funds are reviewed at least quarterly. The asset manager’s audited financial statements are used in the Master Trust’s annual financial reporting process, where applicable. Assessments of reasonableness include regular asset manager meetings and review of quarterly reports, third-party reviews and reconciliations, which includes escalation to Trust Investments for exceptions, quarterly CIO investment reviews, and reviews of manager valuation policies. Valuation policies are reviewed when a new mandate is entered into with an asset manager, on a rolling three-year basis for existing managers, or as changes to policies are provided by managers.

Corporate bonds, government bonds, mortgage-backed and asset-backed securities, municipal bonds, common and preferred stocks, mutual funds and derivative instruments are generally valued using valuations obtained from pricing vendors. Pricing vendor valuation methodologies and custodian pricing controls and related documentation are assessed for reasonableness on an annual basis. The pricing vendor due diligence process includes reviews of pricing controls and procedures, as well as discussions in order to maintain a current understanding of the valuation processes and related assumptions and inputs that may be used by the vendors to price instruments. The custodian due diligence process includes reviews of pricing controls and procedures that are carried out on the Master Trust’s behalf. This includes various levels of tolerance checks on price changes, review of stale or unchanged prices, multiprice source comparisons, and vendor price challenges.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Additionally, on a monthly basis, the custodian reconciles its valuations to valuations obtained from each investment manager and any exceptions are reported to Trust Investments for resolution, which may include escalation to the Valuation Committee.

Benefits — Benefits are recorded when paid.

Administrative Expenses — Necessary and proper expenses of the Plans are paid from plan assets, at both the Plan and Master Trust levels.

Subsequent Events — Subsequent events were evaluated through April 29, 2019, the date the financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plans' provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated vested employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The PVAB has been determined by an independent actuary and is the sum of accumulated benefits adjusted to reflect the probability of payment (by means of decrements, such as death, disability, termination, or retirement) and the time value of money (through discounts for interest) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the December 31, 2016 valuations, the latest valuations, were as follows:

Actuarial cost method: Unit Credit

Assumed rate of return: 6.75%

Mortality: RP-2000 separate annuitant and non-annuitant tables with 18-month age setback and generational projected improvements using Scale AA

Average retirement age range: 57 – 63

Cash balance interest indexing rate (applicable to the PVP Plan only): 5.15%

The foregoing actuarial assumptions are based on the presumption that the Plans will continue in operation. If a plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial PVAB.

Assumption changes for the year ended December 31, 2016 include changes in the assumed rate of return for all Plans. See Note 8 for a description of various plan amendments that impacted the PVAB as of December 31, 2016.

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

For the BSS Plan, the accumulated contributions of active employees are presented as of the beginning of the plan year. As of December 31, 2016 and 2015, the accumulated contributions of active employees, including interest credited on those contributions, amounted to approximately \$64,000,000 and \$82,000,000, respectively. As of December 31, 2016 and 2015, the rates for which interest was credited on the contributions were 1.87% and 2.11%, respectively.

For the BSSB Plan, the accumulated contributions of active employees are presented as of the beginning of the plan year. As of December 31, 2016 and 2015, the accumulated contributions of active employees, including interest credited on those contributions, amounted to approximately \$11,300,000 and \$15,000,000, respectively. As of December 31, 2016 and 2015, the rates for which interest was credited on the contributions were 1.87% and 2.11%, respectively.

4. MASTER TRUST

The Master Trust facilitates the commingling of employee benefit plan assets for investment and administrative purposes.

Assets are invested in accordance with the Master Trust's investment policy. The Master Trust consists of the Investment Control Pool (the "IC Pool") and four plan-specific pools. The Plans can own a beneficial interest in one or more of the various investment pools. The IC Pool contains the majority of the assets of the participating plans and is diversified among various asset classes. These assets are invested in individual investment accounts, separately held assets, and investments held in various types of funds, all of which are managed in accordance with established investment guidelines. The IC Pool is valued at year end based on the fair value of underlying assets.

The plan-specific pools hold investment contracts established to benefit Participants in specific plans. The Aetna PVP Pool is composed of contracts issued by Aetna Life Insurance Company ("Aetna") for the benefit of Participants in the PVP Plan. The Aetna Hourly Pool is composed of a contract issued by Aetna for the benefit of Participants in the Hourly East Plan. The Aetna BNA Pool is composed of a contract issued by Aetna for the benefit of Participants in the BNA Plan. The Aetna BSS Pool is composed of contracts issued by Aetna for the benefit of Participants in the BSS and BSSB Plans.

The Hourly East Plan, Hourly West Plan, and PVP Plan have allocated annuity contracts for certain retirees who were covered under the Hourly East Plan, Hourly West Plan, and PVP Plan in prior years. These contracts remain intact. The activity related to the allocated annuity contracts for retirees receiving benefits from these allocated contracts is excluded from the financial statements as well as the related obligation. With limited exceptions, the Hourly East Plan, Hourly West Plan, and PVP Plan receive no income from these allocated annuity contracts.

As of December 31, 2017 and 2016, the assets of the Plans and the Aviall, Inc. Retirement Plan were combined in the Master Trust.

On a daily basis, the Plans may have contributions, withdrawals, asset transfers (in combination with a liability transfer), and/or expense charges. The trustee calculates a market value for each plan for each day of the month. At month-end, these "dollar days" are aggregated to determine a daily dollar-weighted-average market value for each participating plan in the IC Pool for the prior month. This average is then used to allocate to each participating plan its share of realized gains/losses, unrealized appreciation/depreciation, income, and share expenses in the IC Pool in order to arrive at each plan's ending beneficial interest in the IC Pool. All expenses that are plan specific are recorded on that basis. Similarly, the trustee calculates a participating factor in the investment contract pools, which are associated with specific plan(s). A plan's total participation in the Master Trust is the sum of the beneficial interests it owns in the various pools.

4. MASTER TRUST (CONTINUED)

Securities Purchased with an Agreement to Resell — Resale agreements are treated as financing arrangements in receivables and are carried at contract amounts reflective of the amounts at which the securities will be subsequently resold, as specified in the respective agreements. Resale agreements are collateralized by high-quality, fixed-income securities. The Master Trust's policy is to take physical possession or control of the securities purchased under agreements to resell and is permitted by contract to sell or repledge. The Master Trust monitors the market value of the underlying securities as compared to the related receivable, including accrued interest, and requires additional collateral where deemed appropriate. At December 31, 2017, there were no securities purchased with an agreement to resell. At December 31, 2016, the fair value of the securities received as collateral for resale agreements of \$109,400,000 was \$111,228,159.

5. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 for financial assets and financial liabilities are described below:

Basis of Fair Value Measurement:

Level 1 — Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical and unrestricted assets or liabilities. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 — Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 — Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant who owns an asset or owes a liability. Accordingly, when market observable data is not readily available, assumptions are set to reflect those that market participants would be presumed to use in pricing the asset or liability at the measurement date. Prices and inputs are used that are current as of the measurement date, including during periods of market disruption. In periods of market disruption, the ability to observe prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2, Level 1 to Level 3, or Level 2 to Level 3.

5. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

The following tables set forth by level within the fair value hierarchy a summary of the Master Trust investments by general types of assets and liabilities measured at fair value on a recurring basis as of December 31, 2017 and 2016. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

During 2017, \$9,876,694 of corporate bonds and \$1,574,038 of mortgage-backed and asset-backed securities were reclassified from Level 2 to Level 3, as these securities had stale prices. In addition, \$11,302,891 of corporate bonds, \$1,666,850 of government bonds and \$2,242,117 of mortgage-backed and asset-backed securities were transferred from Level 3 to Level 2, as valuations used observable inputs.

During 2016, \$4,449,760 of corporate bonds were reclassified from Level 2 to Level 3, as these securities had stale prices. Mortgage-backed and asset-backed securities in the amount of \$4,499,884 were reclassified from Level 2 to Level 3, as their valuations relied on unobservable inputs. In addition, \$6,895 of common and preferred stock were reclassified from Level 1 to Level 3 because these securities were delisted. \$7,528,887 of corporate bonds and \$23,719,544 of mortgage-backed and asset-backed securities were transferred from Level 3 to Level 2, as valuations used observable inputs. Lastly, common and preferred stock in the amount of \$12,631 were classified from Level 3 to Level 1, as the valuations were based on quoted prices in active markets.

Level 3 Quantitative Disclosure — A summary of quantitative data of the Master Trust's Level 3 investment assets for the years ended December 31, 2017 and 2016, is as follows:

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

5. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

Other Financial Instruments — The Aetna PVP Pool, Aetna Hourly Pool, Aetna BNA Pool, and Aetna BSS Pool identified in Note 4 are valued at contract value in the Master Trust's statements of net assets. The fair value of the investment contracts within these pools is \$61,062,805 and \$67,617,225 as of December 31, 2017 and 2016, respectively. Fair value for each investment contract is calculated by applying a factor determined by the corresponding insurance company to the contract value. Generally, the factor is an adjustment between contract value and market value, based upon predetermined parameters specific to each contract, including, but not limited to, current market yields, period to maturity, expenses, discounted cash flows, benefit payments, and any other applicable payments.

The Master Trust and the Plans also hold other assets and liabilities not measured at fair value on a recurring basis, including cash and cash equivalents, receivables and liabilities. The fair value of these assets and liabilities approximates the carrying amounts in the Master Trust's and the Plans' financial statements due to the short maturity of the instruments.

6. NAV PER SHARE

In accordance with ASC 820, the following is a summary of the Master Trust investments in which the NAV per share of the investment is used to estimate its fair value. The summaries below are categorized by general types of assets as disclosed in the Master Trust's statements of net assets. For each general type of assets utilizing the NAV, the fair value, redemption frequency, and redemption notice period as of December 31, 2017 and 2016 are disclosed.

Commingled Funds — This category includes investments in U.S. and non-U.S. securities held by a CCT, real estate and real asset investments via commingled funds and insurance company pooled separate accounts. Generally, redemptions may occur daily, weekly, semimonthly, monthly or quarterly depending upon the fund. For a majority of the funds, redemption notices may be given daily or up to ten business days in advance, or up to 120 days in advance for one of the commingled funds. If the fund determines that it would be detrimental to the interests of remaining fund investors to pay wholly or in part with cash based on availability of cash for distributions, distributions may also include securities in kind. Additionally, for large withdrawals, the portfolio manager of the fund may require additional time (up to several weeks) to liquidate assets to satisfy the withdrawal requests. Under extraordinary circumstances, some of the funds may temporarily delay distributions or make distributions of securities in kind. For the CCTs with a quarterly redemption frequency, the notice period ranges from 45 to 90 days in advance of quarter-end. These funds are restricted to a redemption queue. A redemption queue is a restriction on withdrawals from a fund due to liquidity restrictions. The fund manager restricts the percentage of the fund that is available for redemption during each redemption period. All investors in the queue receive an equal portion of the available liquidity. The queue continues until all investor redemption requests are satisfied or the queue is lifted in its entirety.

Partnerships — This category includes investments in private equities held by limited partnerships that may include buyout, venture, special situations, distressed debt, or fund-of-fund strategies. This category also includes investments in private real estate (such as office, retail, apartment, and industrial properties) and real assets (such as infrastructure, energy, farmland, and timber) made through limited partnerships. Generally, limited partnerships require investors to commit to contribute additional capital during an investment period and do not provide redemption rights. As such, the Master Trust may receive distributions from the proceeds as the underlying assets are sold or income is distributed. The Master Trust maintains an active portfolio of private equity and real estate/real asset limited partnership investments that are in various stages of investment. The current portfolio of investments is expected to liquidate over a period of up to ten years.

Hedge Funds — This category includes investments in hedge funds. Common hedge fund strategies include event-driven, relative value, long-short, and market neutral. Types of hedge fund investments may include direct investments in various hedge funds and investments through fund-of-fund vehicles. The fund-of-fund vehicles are used for the purpose of making investments in a diverse portfolio of hedge funds, while the direct investments allow for larger targeted investments without the additional fund-of-fund fee structure.

Each hedge fund has its own redemption rights and distribution process specified in the fund prospectus. Redemption is generally allowed subject to liquidity and certain restrictions. These restrictions generally include fund-level gates and lockup periods. A “gate” provision allows a hedge fund manager to limit the amount of withdrawals on any withdrawal date to not more than a stated percentage of a fund’s net assets — often 10% to 25%, depending on how frequently investors have a right to withdraw capital. A “lock-up” provision restricts an investor’s ability to withdraw capital from a hedge fund for some stated period of time. It is common for hedge funds to lock-up an investor’s

7. DERIVATIVE FINANCIAL INSTRUMENTS

ASC 815, *Derivatives and Hedging*, requires disclosures on how and why derivatives are used, accounted for, and affect the results of operations and financial position. Derivative instruments held by the Master Trust are not designated as hedging instruments under ASC 815. The Master Trust investments are exposed to the following financial instrument risks:

Interest Rate Risk — Interest rate risk is the risk of change in the market value of the assets due to a change in interest rates. Bond futures, interest rate swaps, and interest rate swaptions are generally used to manage interest rate risk or adjust portfolio duration. A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Interest rate swap agreements involve the exchange by the Master Trust, with a counterparty, of respective commitments to pay or receive interest, e.g., an exchange of floating rate payments for fixed rate payments, with respect to the notional amount of principal. Interest rate swaptions are options to enter into an interest rate swap based on predetermined conditions.

Credit Risk — Credit risk is the risk of change in the market value of assets due to the change in creditworthiness of the underlying issuer. Credit default swaps are used to manage the credit exposure of a security or basket of securities. Credit default swap agreements involve one party (referred to as the buyer of protection) making a stream of payments to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation, or index.

Foreign Currency Risk — Currency risk is the risk of a change in market value due to the change in foreign currency exchange rates. Generally, currency futures and forward contracts are used to achieve the desired currency exposure, or generate value-added performance. Foreign currency futures and forwards are agreements between two parties to buy and sell a set of currencies at a set exchange rate on a specified future date. A currency option gives the buyer the right, but not the obligation, to buy one currency or sell another currency at a set exchange rate on or before a given date.

Equity Risk — Equity risk is the risk of a change in market value of assets due to the change in equity or equity index prices. Equity futures and contracts for difference are generally used to manage the market exposure of a security or index, or rebalance the total portfolio to the target asset allocation.

7. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

An equity futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. A contract for difference is an agreement between two parties in which the seller will pay to the buyer the difference between the current value of an asset and its value at contract time (if the difference is negative, then the buyer will pay the seller).

Commodity Risk — Commodity risk is the risk of change in the market value of the underlying commodity due to a change in the price of the commodity. Commodity futures, swaps, and options are generally used to achieve the desired market exposure to commodities. A futures contract is an agreement between two parties to buy and sell a commodity at a set price on a future date. Commodity swaps are agreements involving the exchange by the Master Trust, with a counterparty, of respective commitments to pay or receive cash flows, e.g., an exchange of payments based on the price movement for the commodity, with respect to the notional amount of principal. Commodity options give the buyer the right, but not the obligation, to buy one commodity or sell another commodity at a set price on or before a given date.

Future Settlement Risk — Future settlement risk is the risk of counterparty nonperformance resulting in not receiving the asset or associated gains specified in the contract. Gains are derived from the change in market value of the contract due to a change in price of the underlying security. Mortgage TBAs are used to manage the market exposure of a security or asset class. A TBA is a contract for the purchase or sale of agency mortgage-backed securities to be delivered at a future agreed-upon date.

The following tables summarize the gross notional value of derivative contracts outstanding as of December 31, 2017 and 2016. The gross notional amounts give an indication of the volume of the Master Trust's derivative activities and significantly exceed the fair value of the derivative investments, which is more representative of the theoretical economic exposure associated with derivatives in the Master Trust.

Derivatives are generally used to manage the market exposure of a security, index or currency, or adjust the portfolio duration. Derivative contracts are instruments that derive their value from underlying assets, indices, reference interest rates, or a combination of these factors. Refer to Note 2 for further description of how derivative instruments are valued. Certain cash instruments, such as mortgage-backed TBAs, meet the definition of a derivative instrument under U.S. GAAP.

The nature of the counterparty and the settlement mechanism of the derivative affect the credit risk to which the Master Trust is exposed. For OTC derivatives such as swaps, forwards, options and TBAs, the Master Trust is exposed to the credit risk of the derivative counterparty.

For exchange-traded derivatives, such as futures and options, and "cleared" OTC swaps, the Master Trust is generally exposed to the credit risk of the relevant exchange or clearinghouse. Where possible, the Master Trust seeks to mitigate its credit risk exposures arising on derivatives transactions through the use of legally enforceable master netting arrangements and collateral agreements.

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

7. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

The Master Trust is also exposed to liquidity risk in the following situations:

- 1) When the derivative contracts require the Master Trust to post additional cash or securities collateral with counterparties as the fair value of the contracts moves in the counterparties' favor and the Master Trust's receivables under related contracts are unavailable for offset or insufficient in value to offset the payment obligation to the counterparty.
- 2) When certain derivative contracts have credit-related contingent features under the International Swaps and Derivatives Association Master Agreement (generally swaps) with counterparties for contracts in a net liability position.

The Master Trust has liquidity risk if its assets decline by various, pre-specified rates over predetermined time periods. If this occurs, the Master Trust is required to post more collateral or may be required to pay off the open liability contracts given the counterparty's right to terminate the contract. At December 31, 2017 and 2016, the Master Trust had a fair value of \$12,580,671 and \$20,037,040, respectively, in contracts in a net liability position with contingent features; \$40,149,821 and \$5,962,409, respectively, were posted in collateral against those positions. There were no additional collateral required to be posted in the event that a contingent event had occurred at December 31, 2017 and December 31, 2016. Certain derivatives contracts also provide for the right to terminate the contract if a contingent event occurs. At December 31, 2017 and 2016, these terminations would have required the Master Trust to settle trades with a fair value of \$11,322,019 and \$19,078,885, respectively.

8. PLAN AMENDMENTS

BCERP Plan:

The following amendments were reflected in the actuarial PVAB as of December 31, 2016:

- Effective January 28, 2016, the BCERP Plan was amended for Participants represented by International Association of Machinists and Aerospace Workers ("IAM&AW") 751, 70 and W24 under the voluntary layoff benefit program. A benefit rate increase and enhanced early retirement benefits were offered effective October 1, 2016.
- Effective December 1, 2016, the BCERP Plan was amended to change the benefits for eligible Participants represented by International Union of Operating Engineers ("IUOE"), Local 286W, including the following:
 - Increase the monthly pension benefit rate
 - Add two additional years of credited service
 - Provide enhanced early retirement reduction factors.
- Effective January 1, 2017, the BCERP Plan was amended to add an ongoing terminated vested lump sum distribution option to eligible Participants represented by IUOE, Local 286W or by Society of Professional Engineering Employees in Aerospace ("SPEEA").

8. PLAN AMENDMENTS (CONTINUED)

- Effective January 1, 2017, the BCERP Plan was amended to provide an ongoing terminated vested lump sum distribution option to Participants who last accrued credited service under the BCERP Plan while represented by either SPEEA Professional or Technical Bargaining Units or an inactive SPEEA bargaining unit.
- Effective January 1, 2017, the BCERP Plan was amended to increase the monthly pension benefit rate for eligible Participants represented by SPEEA.

The following amendments did not have an impact on the PVAB:

- The BCERP Plan was amended as a result of the collective bargaining agreement between the Company and the SPEEA Pilot/Instructor Unit (formerly known as the Airplane Manufacturing Pilots Association). Changes include the following:
 - State a specific monthly pension benefit rate for the BCERP Plan Participants and no longer determine the rate by reference to the PVP Plan, effective January 1, 2016
 - Include lump sum awards paid on or after February 10, 2017 (pursuant to Article 4.3(b) (4) of the bargaining agreement) in the calculation of final average monthly earnings
 - Provide an option to commence benefits at any time after the Participant's termination of employment in the form of a lump sum or annuity, effective January 1, 2018
 - Provide an automatic lump sum distribution of accrued benefits of \$5,000 or less after the Participant's termination of employment, effective January 1, 2018
 - Eliminate domestic partner benefits for benefit commencement dates occurring on or after January 1, 2018
 - Freeze all benefit accruals and provide full vesting on the freeze date for Participants on the active payroll or on an authorized leave of absence of 90 days or less, effective December 31, 2018
 - Eliminate the suspension of benefits rules for rehired Participants after December 31, 2018.
- Effective October 15, 2017, the BCERP Plan was amended to eliminate the suspension of benefits rules for rehired Participants represented by IAM&AW District Lodge No. 751.

The following amendments had no impact on the December 31, 2016 PVAB, but will have a future impact on the PVAB. The impact is determined not to be significant to the PVAB unless noted.

- The BCERP Plan was amended as a result of the collective bargaining agreement between the Company and SPFPA Local Nos. 2 and 5. Changes include the following:
 - Increase the monthly pension benefit rate for eligible Participants, effective April 1, 2017

BNA Plan:

The following amendment did not have an impact on the PVAB:

- Effective January 1, 2018, the BNA Plan was amended to pay interest on retroactive benefit payments made to eligible Participants whose benefits were previously forfeited as permitted under the BNA Plan and is later reinstated.

The following amendment had no impact on the December 31, 2016 PVAB, but will have a future impact on the PVAB. The impact is determined not to be significant to the PVAB unless noted.

- Effective September 7, 2017, the BNA Plan was amended to allow for the purchase of group annuity contracts for the benefit of the eligible Participants. It is estimated that the decrease in the actuarial PVAB as a result of the purchase of an allocated annuity contract during 2017 is no more than \$106,000,000.

Hourly East Plan:

The following amendment had no impact on the December 31, 2016 PVAB, but will have a future impact on the PVAB. The impact is determined not to be significant to the PVAB unless noted.

- The Hourly East Plan was amended as a result of the collective bargaining agreement between the Company and IBT, Local No. 6. Changes include the following:
 - Increase the monthly pension benefit rate for all years of benefit service for eligible Participants who are on the active payroll or on an authorized leave of absence on or after December 1, 2017
 - Freeze all benefit accruals and provide full vesting on the freeze date for Participants on the active payroll or on an authorized leave of absence for a period of 90 days or less, effective on December 31, 2017

Hourly West Plan:

The following amendment was reflected in the actuarial PVAB as of December 31, 2016:

- Effective September 1, 2016, the Hourly West Plan was amended to increase the monthly pension benefit rate for eligible Participants represented by International Association of Machinists, Local No. 725.

The following amendment did not have an impact on the PVAB:

- Effective October 15, 2017, the Hourly West Plan was amended to eliminate the suspension of benefits rules for rehired Participants represented by IUOE, Local No. 501W after January 1, 2017.

PVP Plan:

The following amendments were reflected in the actuarial PVAB as of December 31, 2016:

- Effective January 1, 2016, the PVP Plan was amended to increase the monthly pension benefit rate for eligible Participants represented by SPEEA.
- Effective March 4, 2016, the PVP Plan was amended to increase the Heritage Benefits for eligible Participants represented by SPEEA.

The following amendment had no impact on the December 31, 2016 PVAB, but will have a future impact on the PVAB. The impact is determined not to be significant to the PVAB unless noted.

- Effective September 7, 2017, The PVP Plan was amended to allow for the purchase of group annuity contracts for the benefit of the eligible Participants. It is estimated that the decrease in the actuarial PVAB as a result of the purchase of an allocated annuity contract during 2017 is no more than \$639,000,000.

9. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are managed by J.P. Morgan Asset Management. J.P. Morgan Asset Management is an affiliate of J.P. Morgan, the trustee for the Plans; therefore, these transactions qualify as party-in-interest transactions. The investment management fees to J.P. Morgan Asset Management for the Plans are paid at the Master Trust level.

The Plans earned \$18,255,253 of dividend income from Company common stock at the Master Trust level for the year ended December 31, 2017.

11. TAX STATUS

The Internal Revenue Service (“IRS”) determined and informed the Company by letters dated March 6, 2015 (for the BCERP, BNA, BSSB, Hourly East, and Hourly West Plans), May 7, 2015 (for the NCRP Plan), May 11, 2015 (for the PVP Plan) and June 9, 2015 (for the BSS Plan) that the Plans and related trust are designed in accordance with applicable sections of the IRC. The Plans have been amended since receiving their determination letters. The Plans’ administrator believes that the Plans are designed and are currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plans’ administrator believes the Plans’ tax-exempt status has not been affected, and no provision for income taxes has been included in the Plans’ financial statements.

¹ Includes participants who are currently accruing benefit service (count = 48,892), laid-off participants and participants with a termination pending status who are no longer accruing benefit service or pay increases (count = 117), participants on leave of absence (count = 837), and suspended participants (5,898).

² Includes benefit attributable to the cash balance, projected to normal retirement age using the valuation assumption for interest crediting rate. The plan is "hard frozen" and the average accrued benefits are in lieu of compensation.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month September 2016
- Interest curve basis 3-Segment Rates

Interest rates:

	Reflecting Corridors	Not Reflecting Corridors
■ First segment rate	4.16%	1.52%
■ Second segment rate	5.72%	3.80%
■ Third segment rate	6.48%	4.79%
■ Effective interest rate	5.87%	4.08%

Annual rates of increase

- Compensation: Not Applicable
- Cash balance interest indexing 5.15%
- Statutory limits on benefits N/A

Assumed earning rate on investments 6.65%¹

¹ Used to develop the expected return in 2016 for the development of the actuarial value of assets. Represents the lesser of the long-term expected asset return and third segment rate used for the 2016 valuation.

Demographic Assumptions

Mortality

- **Healthy** For all participants: The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants (Exhibit A)
- **Disabled** Alternative disabled life mortality table after 1994, as defined under IRS Revenue Ruling 96-7 (Exhibit B)

Termination

16	2.7%
17-18	2.5%
19-20	2.0%
21-23	1.5%
24 or more	1.0%

Rates are 0% at ages 60 and older if eligible to retire.

Disability

None.

Retirement

Rates varying by age

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Age	Rate
50-58	7%
59-60	10%
61	14%
62-64	20%
65-69	30%
70	100%

Rates are 0% for ages 50-54 if not eligible to retire.

Included in the termination rate above is the bridge eligible layoff decrement rate. For participants not yet retirement eligible, but meeting the age and service requirements to bridge into early retirement after layoff, 50% are assumed to be offered a bridge eligible layoff.

Benefit commencement date:

- Preretirement death benefit The later of the participant's death or early retirement eligibility. If the participant's death is after age 55 then immediate
- Deferred vested benefit The later of age 60 or termination of employment, or at earliest retirement eligibility age for bridge layoffs
- Retirement benefit Upon termination of employment

Benefit commencement for terminated vested employees Terminated vested participants are assumed to commence benefits at age 60, or immediately if between age 60 and 65, or at earliest retirement eligibility age for bridge layoffs. Terminated vested participants over age 65 are assumed to commence benefits immediately and collect a retroactive annuity starting date payment equal to the sum of their missed payments plus interest.

Missing participants Terminated vested participants who have been identified by the Plan Administrator as Missing Participants are deemed to have forfeited their benefits. It is assumed that no claim for these benefits will be made. Missing participants are excluded from the liabilities, participant counts, and demographic information.

Form of payment	<p>35% of actives are assumed to elect an immediate voluntary single lump sum payment at decrement.</p> <p>The other 65% of actives are assumed to elect the following forms if retiring from active status:</p> <ul style="list-style-type: none"> - Single participants: single life annuity; - Male married participants: single life annuity 12.5% of the time, a joint and 50% survivor annuity with “pop-up” feature 43.75% of the time, and a joint and 100% survivor annuity with “pop-up” feature 43.75% of the time; and - Female married participants: single life annuity 33.4% of the time, a joint and 50% survivor annuity with “pop-up” feature 33.3% of the time, and a joint and 100% survivor annuity with “pop-up” feature 33.3% of the time. <p>65% for participants who are vested terminated as of the valuation date are assumed to take a lump sum. Other terminated vested participants are assumed to elect a single life annuity. Terminated vested participants over age 65 are assumed to commence benefits immediately and collect a retroactive annuity starting date payment equal to the sum of their missed payments plus interest.</p>
Percent married	80% of males and 60% of females
Spouse age	Actual age is used if available. Spouse three years younger than male employees, spouse two years older than female employees
Covered pay	Pensionable pay for prior years and base pay rate at the beginning of the current year were provided by Boeing’s third-party administrator.
Administrative expenses	Plan-related expenses are assumed to be the actual prior year administrative expenses, adjusted for the expected change in PBGC premium, rounded up to two significant digits. The assumed administrative expense is \$120,000,000 for 2017 and \$120,000,000 for 2016.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the preceding two valuation dates, adjusted for contributions, benefits, administrative expenses and expected return (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value on the valuation date, including contributions receivable (discounted using the effective interest rate for the prior plan year).

Funding policy

The funding policy of the Plan is to contribute an amount each year that is at least equal to the minimum required contribution under federal law and that is tax-deductible under the Internal Revenue Code.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Boeing regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Boeing and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Willis Towers Watson used asset data supplied by Boeing. Boeing, through its third-party administrator, furnished participant data as of January 1, 2017. Boeing furnished the dates and amounts of the plan contributions. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by Boeing and Willis Towers Watson when data were not available. Data estimates and assumptions are documented in a data assumptions memo sent to Boeing on September 14, 2017. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount Rate	The basis chosen by the plan sponsor is among the choices prescribed by law, all of which are based on observed market data over certain periods of time
Pension Plan Administrative Expenses	Administrative expenses are based on the prior year's actual administrative expenses and expected changes in PBGC premiums rounded to two significant figures.
Cash Balance Interest Crediting Rate	The plan credits interest to accounts using the 30-year Treasury rate for the November before the plan year, limited to a minimum of 5.00% after January 1, 2016 and a maximum of 10%. Our long term estimate of the plan rate is 5.15%, based on a combination of current conditions, past history, and future economic expectations, adjusted to reflect the plan's minimum and maximum rates.
Assumed Earnings Rate on Investments for Asset Smoothing	The assumed return of 6.65% used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, the expected return on assets assumption chosen by Boeing with the help of their investment advisers under U.S. GAAP for 2016 is 7.00%. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are among the choices prescribed by IRC §430(h).
Disabled Mortality	IRC §430(h)(3)(D) provides for the use of separate mortality tables with respect to certain individuals who are entitled to benefits on account of disability. Disabled mortality tables from IRS Revenue Ruling 96-7 have been selected. These separate mortality tables are permitted to be used with respect to disabled individuals in lieu of the generally applicable mortality tables provided pursuant to IRC §430(h)(3)(A) or the substitute mortality tables under IRC §430(h)(3)(C). Disabled mortality improvement is not assumed beyond the valuation date because the degree of improvement, if any, is unknown and the assumption is considered to be immaterial.
Termination	The assumed termination rates are based on actual termination experience by the plan over the period 2011 – 2015, with consideration for future conditions that might be expected to produce different results in the future. The analysis of historical termination rates was presented in the experience study delivered to Boeing on November 1, 2016.
Bridge Eligible Layoff Assumption	Bridge eligible layoff rates are based on recent historical experience and the plan sponsor's best estimate for future occurrence of bridge eligible layoffs.
Retirement	The assumed rates of retirement from active employment are based on actual retirement experience by the plan over the period 2011 – 2015, with considerations for future conditions that might be expected to produce different results in the future. The analysis of historical rates of retirement from active employment was presented in the experience study delivered to Boeing on November 1, 2016.
Benefit commencement date for deferred benefits	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement, based on plan experience. The analysis of historical ages of benefit commencement for deferred vested participants was presented in the experience study delivered to Boeing on November 1, 2016.
Lump Sum Election Rate From Active Status	The ongoing lump sum option is assumed to be elected by 35% of participants terminating from active status and the other 65% are assumed to elect annuities. The 35% lump sum election assumption is based on the plan's recent lump sum experience for this population and reflects expected future experience.

Vested Terminated Lump Sum Election Rate

The ongoing lump sum option is assumed to be elected by 65% of vested terminated participants and the other 35% are assumed to elect annuities. The 65% assumption is based on the plan's recent lump sum experience for this population and reflects expected future experience.

Source of Prescribed Methods

Funding Methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions. In combination, offer my best estimate of anticipated experience under the plan.

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and The Boeing Company. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and The Boeing Company.

Schedule SB, Part V — Summary of Plan Provisions

Plan Provisions

Effective date	<p>Effective January 1, 1999, Heritage Boeing employees were spun off from the Boeing Company Retirement Plan (BCERP). Effective July 1, 1999, most salaried, non-represented employees in the Boeing North America Retirement Plan (BNARP) were spun off and merged into the Boeing Pension Value Plan (Boeing PVP). Effective October 5, 2000, additional salaried nonrepresented employees (subsidiaries and “low-cost” groups) in the BNARP were spun off and merged into the Boeing PVP. Effective October 5, 2001, Jeppesen Sanderson employees were merged into the Boeing PVP.</p> <p>On January 1, 1999, Heritage MDC employees were spun off from the MDC Salaried Employee Retirement Income Plan (MDC Salaried ERIP). Effective October 1, 2002, the Boeing PVP and PVP for Heritage MDC employees were merged.</p> <p>Effective February 20, 2003, all MDC Salaried ERIP employees were transferred into the Boeing PVP as a result of the decertification of SCPEA.</p> <p>Effective April 1, 2003, certain Boeing Satellite Systems employees were spun off and merged into the Boeing PVP.</p> <p>Effective December 31, 2007, the MDC Salaried ERIP was merged into the Boeing PVP.</p> <p>Effective January 1, 2009, the eligibility rules were amended to exclude new hires and rehires.</p> <p>Effective December 1, 2011, the Boeing Subsidiary Plans (Retirement Plan for BAO Florida IAM Hourly Employees, Boeing Information Services, Inc. Retirement Plan, Boeing – Oak Ridge Retirement Plan, and Boeing – Corinth Retirement Plan) were merged into the Boeing PVP.</p> <p>The most recent plan amendments included in these provisions are Amendment No. 40, adopted and effective during the 2016 plan year to provide a lump sum payment option; Amendment No. 41, which provided that PVP benefits would be increased as described below for participants represented by SPEEA Professional or Technical units; and Amendment No. 42, which allows the automatic cashout of small benefits.</p>
Covered employees	Most salaried non-represented employees hired prior to January 1, 2009
Participation date	Later of one year after hire date and becoming an eligible employee in the plan

Definitions

2014-2015 Benefit	Amount of benefit accrued on and after January 1, 2014 and before January 1, 2016.														
Accumulated benefit service	Heritage MDC aggregate benefit service as of the transition date, plus vesting service after the transition date.														
Actuarial equivalence for form of payment conversions	<p>For the accelerated income annuities and lump sums, the applicable 417(e)(3) interest rate using quarterly stability periods and 4 month lookbacks, and the applicable 417(e)(3) mortality table.</p> <p>For the joint and survivor and 10 year certain payment forms, the monthly benefit is actuarially adjusted based on an interest rate of 6% and the RP 2000 mortality table, mixed collar, projected to 2015 using Scale AA, with a 50/50 male/female blend. In no event will the adjustment using the above factors be less than that using the simplified factors in effect prior to January 1, 2008.</p>

Other Plan Provisions

Forms of payment

Monthly preretirement death benefits payable as a single life annuity. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option with “pop-up” (where annuity will “pop-up” to the benefit amount before the joint and survivor option election if the spouse predeceases the retired participants) or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms are a certain and life annuity a 75% or 100% joint and survivor annuity with “pop-up”, accelerated income (except for disabled retirement), 10 year certain and continuous or a life annuity (for married participants). Some participants have additional forms of benefit based on heritage benefits earned, but these forms are rarely used.

For the purpose of optional forms of payment, a same-sex spouse or a designated same-sex domestic partner is eligible for the optional forms available to a spouse.

Effective April 1, 2016, a voluntary single lump sum payment option is available to all non-SPEEA active participants upon termination, layoff, or retirement equal to the greater of (a) or the sum of (b) and (c):

- a) The Actuarial Equivalent present value of the participant’s minimum benefit, including early retirement subsidies as applicable,
- b) The Actuarial Equivalent present value of the participant’s heritage benefit, including early retirement subsidies as applicable, and
- c) The cash balance account value.
- d) Effective January 1, 2017, the voluntary single lump sum payment option is available to all active and terminated vested participants.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective prior to commencement, but does not allow changes once the benefit has commenced.

Changes in Benefits Valued Since Prior Year

These plan provisions reflect all amendments adopted before January 1, 2017 and effective during the 2017 plan year. Changes in Plan provisions since the prior valuation are as follows:

- Amendment No. 38 clarified language related to the previous reduction in the interest crediting rate from 5.25% to 5.00%, effective January 1, 2016. This has no impact on the valuation.
- Amendment No. 39 removed redundant and duplicative forms of benefit and death benefits with respect to designated domestic partners, effective January 1, 2017. This has no impact on the valuation.
- Amendment No. 40 added a voluntary single lump sum payment option for the entire PVP accrued benefit. The option is available effective April 1, 2016, to participants not represented by SPEEA Professional or Technical units who leave employment on or after April 1, 2016. Effective January 1, 2017, the option is available to all active and terminated vested participants.
- Amendment No. 41 increased benefits for participants represented by SPEEA Professional or Technical units as follows:
 - The minimum monthly benefit was increased to \$95 times years of service, effective January 1, 2016; and
 - The monthly pension benefit associated with any transition benefit or transferred benefit was increased by 1% for participants who were active employees or on leave of absence on March 4, 2016 and who were represented by SPEEA on March 4, 2016.
- Amendment No. 42 allows for small benefits to be paid automatically as a lump sum, effective January 1, 2016. This change is deemed to have an insignificant effect on plan liabilities.

The pay and dollar limits were adjusted in accordance with legislative changes effective for 2017 as follows:

- The IRC Section 401(a)(17) pay limit increased from \$265,000 for the 2016 plan year to \$270,000 for the 2017 plan year.
- The IRC Section 415 dollar limit increased from \$210,000 for the 2016 plan year to \$215,000 for the 2017 plan year.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- The assumed lump sum election rate for active participants was updated from 40% to 35%. This change was made to reflect actual election experience.
- A vested terminated lump sum election rate of 65% was added.
- Retirement rates for active employees between ages 50-55 were decreased, while retirement rates for employees between ages 61-69 were increased, based on an analysis of historical retirement experience delivered to Boeing on November 1, 2016.
- Missing participants are assumed to be identified by the plan administrator for the January 1, 2017 valuation. It was assumed for the January 1, 2016 valuation that, in addition to missing participants identified by the plan administrator, 100% of vested terminated participants over age 72 would not be found and would not collect their benefits.
- 50% of terminations are assumed to be bridge eligible layoffs for participants who meet the age and service eligibility requirements to bridge into early retirement.
