Tivoli Enterprises Inc. 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

The following description of the Tivoli Enterprises Inc. 401(k) Retirement Plan (Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees of Tivoli Enterprises, Inc. (Employer) who have attained the eligibility requirements as set forth by the Employer in its plan document including attaining the age of 21 and one year (minimum 1,000 hours) of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Contributions

The Plan is funded by voluntary pre-tax contributions of participants and nondiscretionary matching contributions of the Employer as set forth in the plan document. Eligible employees can elect to contribute to the plan pre-tax deferrals up to a maximum of 90% of their compensation, as defined by the Plan, through regular payroll deductions, subject to limitations imposed by the Internal Revenue Code. Employer-matching contributions will be made in an amount equal to 25% of the participant's elective deferral not to exceed 5% of the participant's eligible compensation.

Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Participants who have attained age 50 before the plan year are eligible to make additional pre-tax contributions, also known as "catch-up" contributions.

Investment Options

Participants in the Plan have the right to direct the investment of their account balances into a variety of investment funds made available and determined by the plan administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer's nondiscretionary matching contributions and an allocation of plan earnings. Plan earnings are allocated to participant's accounts in direct proportion to their respective account balances, based on the performance of participant's investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable From Participants

Participants are permitted to take loans from the Plan at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. These loans are secured by the balance in the participant's account and bear an interest rate (4.25% at December 31, 2018) as determined by the plan administrator based on prevailing interest rates. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence.

Vesting

Participants are immediately vested in their rollover contributions and 401(k) contributions, plus actual earnings thereon. Vesting in the Employer's nondiscretionary matching contributions is based on continuous years of service. A participant vests 20% beginning after the second year of service and an additional 20% after each additional year of service and is 100% vested after six years of credited service.

Forfeited Accounts

Forfeitures of nonvested account balances are used to pay plan administrative expenses or reduce Employer contributions. There were $848 and $459 of forfeitures available for future use at December 31, 2018 and 2017, respectively. During 2018, no amounts were used to offset Employer contributions or pay administrative expenses.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive payment equal to the value of his or her vested account balance through a lump sum payment or other distribution method provided by the Plan's provisions as elected by the participant. The participant may also elect to roll-over the balance to an IRA or other qualified account. Additionally, participants may elect to withdraw all or a portion of his/her elective contribution accounts in the case of severe financial hardship, as defined in the plan document.

Administrative Expenses

Administrative expenses may be paid by the Employer or the participants, as defined in the plan service agreement.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The Plan's investments in shares of registered investment companies are valued at quoted market prices and the money market account is carried at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation in fair value of investments includes Plan's gains or losses on investments bought and sold as well as held during the year.

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions. Determination as to when participant loans are considered in default and reclassified as distributions is based on the terms of the plan document.

Benefit Payments

Benefit payments are recorded when paid.

Note 3: Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017
- Investment income (loss) components and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018
- Investment information and participant loans included in the accompanying supplemental schedule of assets (held at year end) as of December 31, 2018

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2018 and 2017.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The money market account is carried at cost, which approximates fair value (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2018				
Registered investment companies	$ 3,497,827	$ 3,497,827	$ -	$ -
Money market account	285,220	285,220	-	-
Total	$ 3,783,047	$ 3,783,047	$ -	$ -
December 31, 2017				
Registered investment companies	$ 4,298,579	$ 4,298,579	$ -	$ -
Money market account	243,064	243,064	-	-
Total	$ 4,541,643	$ 4,541,643	$ -	$ -

Note 5: Party-in-Interest Transactions

Certain plan investments are managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for certain investment management services are included in the net depreciation in the fair value of the investments. During 2018, the Plan also made direct payments for administrative expenses of $350. The terms of the Plan permit loans to participants under certain conditions. These loans, which are party-in-interest transactions, are permitted under ERISA. The Employer provides certain administrative services at no cost to the Plan.

Note 7: Income Tax Status

The Plan operates under an adoption agreement in connection with a volume submitter profit sharing plan sponsored by Fidelity Management & Research Co. This volume submitter profit sharing plan has been filed with the appropriate agency and has obtained an opinion letter dated March 31, 2014, from the Internal Revenue Service stating that the volume submitter profit sharing plan constitutes a qualified plan under Section 401 of the Internal Revenue Code (IRC). Tivoli Enterprises Inc. 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

The following description of the Tivoli Enterprises Inc. 401(k) Retirement Plan (Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees of Tivoli Enterprises, Inc. (Employer) who have attained the eligibility requirements as set forth by the Employer in its plan document including attaining the age of 21 and one year (minimum 1,000 hours) of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Contributions

The Plan is funded by voluntary pre-tax contributions of participants and nondiscretionary matching contributions of the Employer as set forth in the plan document. Eligible employees can elect to contribute to the plan pre-tax deferrals up to a maximum of 90% of their compensation, as defined by the Plan, through regular payroll deductions, subject to limitations imposed by the Internal Revenue Code. Employer-matching contributions will be made in an amount equal to 25% of the participant's elective deferral not to exceed 5% of the participant's eligible compensation.

Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Participants who have attained age 50 before the plan year are eligible to make additional pre-tax contributions, also known as "catch-up" contributions.

Investment Options

Participants in the Plan have the right to direct the investment of their account balances into a variety of investment funds made available and determined by the plan administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer's nondiscretionary matching contributions and an allocation of plan earnings. Plan earnings are allocated to participant's accounts in direct proportion to their respective account balances, based on the performance of participant's investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable From Participants

Participants are permitted to take loans from the Plan at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. These loans are secured by the balance in the participant's account and bear an interest rate (4.25% at December 31, 2018) as determined by the plan administrator based on prevailing interest rates. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence.

Vesting

Participants are immediately vested in their rollover contributions and 401(k) contributions, plus actual earnings thereon. Vesting in the Employer's nondiscretionary matching contributions is based on continuous years of service. A participant vests 20% beginning after the second year of service and an additional 20% after each additional year of service and is 100% vested after six years of credited service.

Forfeited Accounts

Forfeitures of nonvested account balances are used to pay plan administrative expenses or reduce Employer contributions. There were $848 and $459 of forfeitures available for future use at December 31, 2018 and 2017, respectively. During 2018, no amounts were used to offset Employer contributions or pay administrative expenses.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive payment equal to the value of his or her vested account balance through a lump sum payment or other distribution method provided by the Plan's provisions as elected by the participant. The participant may also elect to roll-over the balance to an IRA or other qualified account. Additionally, participants may elect to withdraw all or a portion of his/her elective contribution accounts in the case of severe financial hardship, as defined in the plan document.

Administrative Expenses

Administrative expenses may be paid by the Employer or the participants, as defined in the plan service agreement.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The Plan's investments in shares of registered investment companies are valued at quoted market prices and the money market account is carried at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation in fair value of investments includes Plan's gains or losses on investments bought and sold as well as held during the year.

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions. Determination as to when participant loans are considered in default and reclassified as distributions is based on the terms of the plan document.

Benefit Payments

Benefit payments are recorded when paid.

Note 3: Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017
- Investment income (loss) components and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018
- Investment information and participant loans included in the accompanying supplemental schedule of assets (held at year end) as of December 31, 2018

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2018 and 2017.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The money market account is carried at cost, which approximates fair value (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2018				
Registered investment companies	$ 3,497,827	$ 3,497,827	$ -	$ -
Money market account	285,220	285,220	-	-
Total	$ 3,783,047	$ 3,783,047	$ -	$ -
December 31, 2017				
Registered investment companies	$ 4,298,579	$ 4,298,579	$ -	$ -
Money market account	243,064	243,064	-	-
Total	$ 4,541,643	$ 4,541,643	$ -	$ -

Note 5: Party-in-Interest Transactions

Certain plan investments are managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for certain investment management services are included in the net depreciation in the fair value of the investments. During 2018, the Plan also made direct payments for administrative expenses of $350. The terms of the Plan permit loans to participants under certain conditions. These loans, which are party-in-interest transactions, are permitted under ERISA. The Employer provides certain administrative services at no cost to the Plan.

Note 6: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2017:

Note 7: Income Tax Status

This volume submitter profit sharing plan has been filed with the appropriate agency and has obtained an opinion letter dated March 31, 2014, from the Internal Revenue Service stating that the volume submitter profit sharing plan constitutes a qualified plan under Section 401 of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt as of the financial statement date.
