INDEPENDENT AUDITOR'S REPORT

To the Trustee
GT Distributors, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of GT Distributors, Inc. Employee Stock Ownership Plan, which comprise the statement of net assets available for benefits as of April 30, 2017, and the related statement of changes in net assets available for benefits for the year ended April 30, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of GT Distributors, Inc. Employee Stock Ownership Plan as of April 30, 2017, and the change in net assets available for benefits for the year then ended in accordance with GAAP.

Notes to the Financial Statements

1. Description of Plan

The following brief description of the GT Distributors, Inc. Employee Stock Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General - GT Distributors, Inc. (Company) established the Plan effective May 1, 2016. The Plan is a noncontributory defined contribution plan that operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Committee appointed by the Board of Directors. An independent individual is the Plan's trustee.

In accordance with a Stock Purchase Agreement, on January 26, 2018, the Plan purchased 550,000 shares of the Company's preferred stock with a loan of $12,500,000 (see Note 8).

Eligibility - All employees who were employed by the Company on May 1, 2016 and have attained the age of 18 automatically became participants effective May 1, 2016. Thereafter, employees of the Company are generally eligible to participate in the Plan after the attainment of age 18 and the completion of one year of service, providing they worked at least 1,000 hours during such computation period. Employees begin participating in the Plan on the next May 1st, or November 1st following the date eligibility requirements are met.

Contributions - The Company is obligated to make discretionary employer contributions in cash or in shares of Company stock, as determined by the Company, to the Plan which, when aggregated with the Plan's dividends income, are a sufficient amount so that the Trust does not default on the repayment by the Trust of indebtedness in accordance with the terms of such indebtedness which may be incurred from time to time for the purpose of the acquisition of Company stock. Employee contributions are not permitted.

Payment of Benefits - The distribution of benefits under the Plan may be made in cash, Company stock or both. The amount of such distribution is equal to the vested balance in the participant's account as of the valuation date coincident with or next following the date of termination. Generally, a participant's vested account balance will be paid in equal annual installments over a period not exceeding five years. A participant's vested account balance in their non-stock account may be paid in the form of a lump sum.

Administrative Expenses – As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company.

Voting Rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. Any allocated shares of Company stock with respect to which voting instructions

are not received from participants or beneficiaries and any shares of Company stock held by the Trust which are not then allocated to participant's, or beneficiary's accounts shall be voted in the manner determined by the Trustee on behalf of the collective interest of Plan participants and beneficiaries.

Participant Accounts –The Plan is a defined contribution plan under which a separate individual account is established for each participant. Individual participant accounts will be maintained in the name of each participant consisting of a separate Company Stock Account and Other Investments Account. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Employer contributions are allocated among accounts of eligible participants under a point system whereby 50% of such amount be allocated based on the ratio that the eligible compensation of each participant bears to the total eligible compensation of all such participants, and the remaining 50% shall be based on a point system whereby each eligible participant received 5 points per year of credited service with the allocation based on the ratio that the points of each such participant bears to the total points of all such participants. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting - If a participant's employment with the Company ends for any reason other than retirement, he or she will vest in the balances in his or her account based on the total years of service with the Company. A participant is 100 percent vested after 6 years of credited service.

Put Option - Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is not market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. The election to diversify is made subsequent to year end, based upon the shares of Company stock in the participant's account at year-end.

Forfeitures – Plan forfeitures are allocated to each participant's account based upon the same allocation as employer contributions. There were no forfeitures allocated to participants during the Plan year ended April 30, 2017. Forfeited non-vested accounts to be allocated to participant accounts in future years as of April 30, 2017, were $0.

2. Summary of Significant Accounting Policies

Date of Management's Review - Subsequent events were evaluated through June 20, 2019, which is the date the financial statements were available to be issued.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition - The Plan will hold an investment in the preferred stock of the Company (Note 8). Accordingly, the Plan will have a concentration of risk regarding the stock performance of the Company. The Plan's investment in preferred stock of the Company will be reported at estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The annual estimated fair value is determined by the Trustee based on valuations of the Company's preferred stock as of April 30 by an independent appraiser. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted process in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Accounting Standards Codification Topic 820, "Fair Value Measurements and Disclosures", are described as follows:
Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies that will be used for assets measured at fair value:

GT Distributors, Inc. Preferred Stock – Valued at estimated fair value based on an independent appraiser's methodology, which includes value of the business as it is currently positioned, with earnings and cash flows reflective of historical performance and reasonable prospects for the future.

The proceeding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Related Party and Party in Interest Transactions

The Plan will invest in Company preferred stock and incur indebtedness guaranteed by the Company. As described in Note 1, the Plan or Company pays all plan expenses. The plan has a number of service providers. Such providers are parties in interest under ERISA.

5. Risks and Uncertainties

The Plan investments will consist primarily of the Company's preferred stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the preferred stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the preferred stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

6. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed preferred stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a determination letter dated August 1, 2018 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan to recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Subsequent Events

In accordance with the Stock Purchase Agreement, see Note 1, the Plan purchased 550,000 of the Company's preferred stock on January 26, 2018. These shares represent the entire outstanding preferred stock of the Company. This preferred stock purchase will be financed by an ESOP loan in the amount of $12,500,000. The Stock Purchase Agreement is subject to, among other things, post-closing covenants and indemnification obligations on both the seller and buyer of the Company's preferred stock.

Concurrent with the Stock Purchase Agreement on January 26, 2018, the Plan's loan of $12,500,000, received from the shareholder to purchase the 550,000 shares of preferred stock, was assigned to the Company. The loan requires, among other things, equal quarterly payments of principal and interest at a rate of 5% beginning April 26, 2018 and maturing January 26, 2028.

Unallocated shares are collateral for the loan. Unallocated shares will be released for allocation to participant Company Stock Accounts only as payments on the loan are made by the Trustee. Shares shall be allocated in a manner determined by the Company as defined by the Plan document.
