Note 1 - Plan Description

The following is a description of the Coilmaster Corporation 401(k) Profit Sharing Plan and Trust (the "Plan") prior to the Plan being merged into the Marmon Employees' Retirement Plan on December 31, 2018. This description provides only general information and participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution savings plan covering all eligible full-time employees of Coilmaster Corporation (the "Company") who have completed one year of service and are age 21 and older. The Plan is a 401(k) plan under the Internal Revenue Code and subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan administrator is responsible for oversight of the Plan. The investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the plan administrator.

Contributions

The Plan provides for employee salary deferral or after-tax contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company is required to make 100 percent matching contributions up to 3 percent of compensation deferred by the participant, plus 50 percent of compensation deferred by the participant between 3 and 5 percent of a participant's compensation. The Company may, at the discretion of its board of directors, make profit-sharing contributions to be allocated to the accounts of eligible participants. There were no profit-sharing contributions for 2018.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation, deferrals, transactions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants are immediately 100 percent vested in employee contributions, rollover contributions, and company match contributions and any income or loss thereon. Vesting in the Company's profit-sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in profit-sharing contributions 20 percent after one year, then an additional 20 percent per year thereafter until they become fully vested after six years of service.

Benefit Payments

On termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, partial withdrawals, or equal installments. The Plan also allows for 59½ in-service withdrawals.

December 31, 2018 and 2017

Note 1 - Plan Description (Continued)

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. As of December 31, 2018 and 2017, no forfeited funds were available, and there were no forfeitures used to reduce employer contributions or pay administrative expenses of the Plan for the year ended December 31, 2018.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances. As stated in Note 7, effective December 31, 2018, the Plan merged into the Marmon Employees' Retirement Plan. Because the Plan merged into another active plan and was not terminated, participants did not become 100 percent vested in their account balances.

Party-in-interest Transactions

The unallocated contract is managed by Minnesota Life Insurance Company or its affiliates. Minnesota Life Insurance Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value, except for the Plan's unallocated contract. The fully benefit-responsive unallocated contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments as of December 31, 2017.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company. Administrative expenses of \$13,250 for the year ended December 31, 2018 were paid by the employer.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

December 31, 2018 and 2017

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including June 17, 2019, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Minnesota Life Insurance Company (the "Custodian") holds the Plan's investments and executes all related transactions. The investment balances and related investment income and losses included in the accompanying financial statements are based solely on information certified by the Custodian.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter dated March 31, 2014 from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has received a determination letter from the IRS.

Note 5 - Investment Contracts

The Plan has a benefit-responsive unallocated contract with Minnesota Life Insurance Company (Minnesota Life). Minnesota Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest rate is applied to all contributions made to the product, regardless of the timing of those contributions. Interest crediting rates are reviewed on a quarterly basis for resetting, but may not be less than 1.5 percent. When establishing interest crediting rates for this product, Minnesota Life considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is not probable. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

The contract value of the investment at December 31, 2017 was \$1,793,624.
