NOTE A - DESCRIPTION OF THE PLAN

The following description of the Associated Material Handling Industries 401(k) Plan (the Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

1. General

   The Plan was a defined contribution 401(k) plan covering eligible employees of Associated Material Handling Industries, Inc. (the Company). Employees were eligible to participate upon completion of 30 days of service and attaining age 21. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

   The Plan was funded by voluntary contributions of the participants and discretionary matching contributions of the Company. Participants were able to contribute to the Plan, through regular payroll deductions, an amount subject to limitations imposed by the Internal Revenue Code. Participants were also able to roll over amounts representing distributions from other qualified employee benefit plans. The Company made discretionary matching contributions of $709,104 to the Plan for the period January 1, 2018 through September 28, 2018.

3. Investment Options

   Participants were permitted to direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants were allowed to change their investment options at any time.

4. Participant Accounts

   Each participant's account was credited with the participant's contribution, an allocation of the Company's discretionary matching contributions, and an allocation of plan earnings. The Company's discretionary matching contribution was allocated based on a percentage of the participant's contribution. Plan earnings were allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant was entitled is the benefit that can be provided from the participant's vested account balance.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

5. Vesting

Participants were immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions became 20% vested after two years of service and continues to vest at the rate of 20% for each successive year until 100% vested after six years of service. In the event of death, disability, or retirement at designated ages, participants became fully vested.

6. Payment of Benefits

On termination of service, a participant may have elected to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time, or a direct rollover distribution. Hardship withdrawals and in-service withdrawals (for those participants aged 59.5 or older) were also permitted by the Plan.

7. Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Participants were permitted to take loans from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans were collateralized by the borrowers' respective vested account balances and bear interest at 4.25% to 6.00%. Principal and interest were paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income totaled $21,970 for the period January 1, 2018 through September 28, 2018.

8. Administrative Expenses

Certain expenses incurred maintaining the Plan were paid directly by the Company and are excluded from these financial statements. Investment-related expenses were included in net appreciation in value of investments.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

9. Forfeitures

There were no unallocated plan assets resulting from forfeited nonvested accounts at September 28, 2018. At December 31, 2017, unallocated plan assets resulting from forfeited nonvested accounts totaled $26,744. These accounts were used to pay plan expenses and to reduce future discretionary matching contributions of the Company. Forfeitures of $58,413 were used to reduce discretionary matching contributions during the period January 1, 2018 through September 28, 2018.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan were prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

2. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include the following:
* Quoted prices for similar assets or liabilities in active markets;
* Quoted prices for identical or similar assets or liabilities in inactive markets;
* Inputs other than quoted prices that are observable for the asset or liability;
* Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the Plan's investments measured at fair value at December 31, 2017. As further discussed in Note F and I, the Plan did not have any investments at September 28, 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Plan Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 24,407,524	$ -	$ -	$ 24,407,524

3. Investment Valuation and Income Recognition

Investments were reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the custodian. See Note B-2 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments purchased and sold as well as held during the reporting period.

4. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

5. Payment of Benefits

Benefits were recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

NOTE C - INVESTMENTS CERTIFIED BY STATE STREET BANK AND TRUST COMPANY AND TRANSAMERICA FINANCIAL LIFE INSURANCE COMPANY INC.

The following is a summary of the Plan's asset information as of September 28, 2018 and December 31, 2017, and for the period January 1, 2018 through September 28, 2018, included throughout the Plan's financial statements that was prepared by or derived from information provided by the trustee and custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that information provided to the Plan Administrator by the trustee and custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements related to the following assets:

	September 28, 2018	December 31, 2017
Investments, at fair value		
Mutual funds	$ -	$ 24,407,524
Investment, at contract value		
Fully benefit-responsive investment contract with insurance company	-	1,403,051
Notes receivable from participants	-	671,444
	$ -	$ 26,482,019

The trustee and custodian also certified the completeness and accuracy of $1,107,645 of net appreciation in value of investments and $182,786 of interest and dividend income related to the aforementioned assets for the period January 1, 2018 through September 28, 2018.

NOTE D - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan held a fully benefit-responsive investment contract with Transamerica Financial Life Insurance Company Inc. ("TFLIC") through the Stable Fund which was reported at contract value. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses.

TFLIC maintains the contributions in its general account and guarantees the Plan a return of principal and interest under the terms of the contract. The interest crediting rating is updated annually based upon contract provisions, and it may not be less than 0.25%. TFLIC's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

The contract does not provide for any conditions or circumstances under which distributions from the contract would be payable at amounts below contract value. Upon discontinuance of the contract, the contract value was paid out with the remaining plan assets upon the plan merger (Note I).

NOTE E - INCOME TAX STATUS

Effective April 1, 2016, the Plan adopted a standardized form of a prototype plan sponsored by Transamerica Retirement Solutions, LLC. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE F - PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. As described in Note I, in September 2018, the Plan merged into another qualified plan and all Plan assets were transferred at this time.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by State Street Bank and Trust Company and Transamerica Financial Life Insurance Company Inc.. State Street Bank and Trust Company is the trustee and Transamerica Financial Life Insurance Company Inc. is the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment.

NOTE I - PLAN MERGER

During May 2018, the Plan Sponsor was acquired and Plan Management made the determination to merge the Plan into a qualified plan sponsored by the acquiring entity. Effective September 28, 2018, the Plan merged into the qualified plan sponsored by the acquiring entity, the new Parent of the Plan Sponsor, at which time all assets were transferred out of the Plan.

NOTE J - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through June 27, 2019, the date that these financial statements were available to be issued. Plan management has determined that no events or transactions, have occurred subsequent to the statement of net assets available for benefits date that require disclosure in the financial statements.
