GT Distributors, Inc. 401(k) Plan

Notes to the Financial Statements

1. Description of Plan

The following description of the GT Distributors, Inc. 401(k) Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan, which became effective May 1, 1974, is a defined contribution plan covering substantially all full-time employees of GT Distributors, Inc. (the Employer) having attained 20 ½ years of age and completed one year of service. Through March 1, 2015, the eligibility service requirement was 4 consecutive months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, active participants are eligible to make salary deferrals on a pre-tax and/or Roth basis up to the maximum allowed by law. Elective deferrals will be pre-tax contributions unless participants designate all or a portion as Roth contributions. Participants may make a separate deferral election up to 100% of any bonus. In addition, participants who are 50 years of age or older during the Plan year may make catch-up contributions which are not taken into account in applying any matching contribution under the Plan. Salary deferral elections may be modified on the first day of each month. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Roth contributions do not reduce current year taxable income or taxes. Because taxes are paid as Roth contributions are deferred, qualified Roth distributions, including contributions and earnings, are not taxed.

The Employer may make matching contributions equal to a discretionary percentage, to be determined by the Employer, of the participant’s elective deferrals up to 6% of a participant’s compensation. During 2018, there were no employer matching contributions.

The Plan also provides that the Employer may contribute each year a discretionary non-integrated profit-sharing amount, in the same ratio as each participant’s compensation bears to the total of such compensation of all participants, at the discretion of the Employer. Participants who complete more than 500 hours of service are considered eligible should the Employer make a discretionary profit-sharing contribution.

Participant and Employer contributions may not exceed Internal Revenue Code limitations.

Participant Accounts – Each participant's account is credited with the participant’s contributions and Employer contributions, as well as allocations of investment earnings (losses) and administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined by the

Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All amounts in participants' accounts are participant-directed.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in Employer contribution portion of their accounts is based on years of continuous service in accordance with the Plan's graduated vesting schedule as follows:

Years of Vesting Service	Vesting Percentages
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

A year of service for vesting purposes is a Plan year during which a participant has performed 1,000 or more hours of service. Notwithstanding the above, a participant is fully vested in his entire account upon the attainment of normal or early retirement age or upon his death or total and permanent disability prior to termination.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. Participants may have up to two loans outstanding at any one time.

Payment of Benefits – On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount as provided by the Plan. In-service distributions are available upon demonstration of financial hardship, disability, or after participants reach the age of 59 ½, as defined by the Plan. Participants shall not be permitted to make contributions to the Plan for a period of six months following the receipt of the hardship distribution.

Forfeited Accounts – At December 31, 2018 and 2017, forfeited nonvested accounts totaled $19,214 and $14,598, respectively. These accounts will be used to offset Plan expenses or used to reduce Employer contributions. During 2018, no forfeitures were used.

2. Summary of Significant Accounting Policies

Date of Management's Review - Subsequent events were evaluated through July 3, 2019, which is the date the financial statements were available to be issued.

Basis of Accounting – The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018, or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. These excess contributions were reimbursed after year-end.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted process in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification Topic 820, "Fair Value Measurements and Disclosures", are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled separate accounts – The net asset value (NAV) of the units held in pooled separate accounts are based on the market value of underlying investments. The NAV is not a publicly quoted price in an active market. All of the Plan's pooled separate accounts are redeemable at NAV as of the measurement date. The pooled separate accounts can be redeemed on a daily basis and there were no unfunded commitments for the years ended December 31, 2018 and 2017.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$0	$3,742,386	$0	$3,742,386

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$0	$3,776,967	$0	$3,776,967

4. Custodian Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2018 and 2017, and investment income for the year ended December 31, 2018, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian of the Plan.

5. Related Party and Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others.

John Hancock Life Insurance Company, the Plan’s custodian, provided recordkeeping services to the Plan. Access Retirement Services, LLC, the Plan’s third-party administrator, provided administration services to the Plan. These transactions qualify as party-in-interest transactions.

Fees paid directly from the Plan to service providers amounted to $15,691 for the year ended December 31, 2018.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provision of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

6. Plan Trustees

The trustees of the Plan are William J, Orr, Jr. and Deborah Orr.

7. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Tax Status

The Employer adopted a non-standardized volume submitter 401(k) profit sharing plan sponsored by Access Retirement Services, LLC. The volume submitter plan document has received an opinion letter from the Internal Revenue Service as to the plan document's qualified status. The volume submitter plan document opinion letter has been relied upon by the Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions on the Internal Revenue Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets per the Form 5500 for December 31, 2018, and 2017:

	2018	2017
Net assets available for benefits per financial statements	$3,792,635	$3,920,444
Employee contributions receivable	(8,537)	0
Excess contributions payable	6,000	1,738
Net assets per Form 5500	$3,790,098	$3,922,182

The following is a reconciliation of the increase in net assets available for benefits per the financial statements to net income per the Form 5500 for the year ended December 31, 2018:

Decrease in net assets available for benefits per financial statements	$127,809
Add: Excess contributions payable – current year	6,000
Less: Excess contributions payable – prior year	1,738
Less: Employee contributions receivable – current year	8,537
Net loss per Form 5500	$132,084

GT Distributors, Inc. 401(k) Plan

Notes to the Financial Statements

1. Description of Plan

The following description of the GT Distributors, Inc. 401(k) Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan, which became effective May 1, 1974, is a defined contribution plan covering substantially all full-time employees of GT Distributors, Inc. (the Employer) having attained 20 ½ years of age and completed one year of service. Through March 1, 2015, the eligibility service requirement was 4 consecutive months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, active participants are eligible to make salary deferrals on a pre-tax and/or Roth basis up to the maximum allowed by law. Elective deferrals will be pre-tax contributions unless participants designate all or a portion as Roth contributions. Participants may make a separate deferral election up to 100% of any bonus. In addition, participants who are 50 years of age or older during the Plan year may make catch-up contributions which are not taken into account in applying any matching contribution under the Plan. Salary deferral elections may be modified on the first day of each month. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Roth contributions do not reduce current year taxable income or taxes. Because taxes are paid as Roth contributions are deferred, qualified Roth distributions, including contributions and earnings, are not taxed.

The Employer may make matching contributions equal to a discretionary percentage, to be determined by the Employer, of the participant’s elective deferrals up to 6% of a participant’s compensation. During 2018, there were no employer matching contributions.

The Plan also provides that the Employer may contribute each year a discretionary non-integrated profit-sharing amount, in the same ratio as each participant’s compensation bears to the total of such compensation of all participants, at the discretion of the Employer. Participants who complete more than 500 hours of service are considered eligible should the Employer make a discretionary profit-sharing contribution.

Participant and Employer contributions may not exceed Internal Revenue Code limitations.

Participant Accounts – Each participant's account is credited with the participant’s contributions and Employer contributions, as well as allocations of investment earnings (losses) and administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined by the

Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All amounts in participants' accounts are participant-directed.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in Employer contribution portion of their accounts is based on years of continuous service in accordance with the Plan's graduated vesting schedule as follows:

Years of Vesting Service	Vesting Percentages
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

A year of service for vesting purposes is a Plan year during which a participant has performed 1,000 or more hours of service. Notwithstanding the above, a participant is fully vested in his entire account upon the attainment of normal or early retirement age or upon his death or total and permanent disability prior to termination.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. Participants may have up to two loans outstanding at any one time.

Payment of Benefits – On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount as provided by the Plan. In-service distributions are available upon demonstration of financial hardship, disability, or after participants reach the age of 59 ½, as defined by the Plan. Participants shall not be permitted to make contributions to the Plan for a period of six months following the receipt of the hardship distribution.

Forfeited Accounts – At December 31, 2018 and 2017, forfeited nonvested accounts totaled $19,214 and $14,598, respectively. These accounts will be used to offset Plan expenses or used to reduce Employer contributions. During 2018, no forfeitures were used.

2. Summary of Significant Accounting Policies

Date of Management's Review - Subsequent events were evaluated through July 3, 2019, which is the date the financial statements were available to be issued.

Basis of Accounting – The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018, or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. These excess contributions were reimbursed after year-end.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted process in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification Topic 820, "Fair Value Measurements and Disclosures", are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled separate accounts – The net asset value (NAV) of the units held in pooled separate accounts are based on the market value of underlying investments. The NAV is not a publicly quoted price in an active market. All of the Plan's pooled separate accounts are redeemable at NAV as of the measurement date. The pooled separate accounts can be redeemed on a daily basis and there were no unfunded commitments for the years ended December 31, 2018 and 2017.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$0	$3,742,386	$0	$3,742,386

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$0	$3,776,967	$0	$3,776,967

4. Custodian Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2018 and 2017, and investment income for the year ended December 31, 2018, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian of the Plan.

5. Related Party and Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others.

John Hancock Life Insurance Company, the Plan’s custodian, provided recordkeeping services to the Plan. Access Retirement Services, LLC, the Plan’s third-party administrator, provided administration services to the Plan. These transactions qualify as party-in-interest transactions.

Fees paid directly from the Plan to service providers amounted to $15,691 for the year ended December 31, 2018.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provision of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

6. Plan Trustees

The trustees of the Plan are William J, Orr, Jr. and Deborah Orr.

7. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Tax Status

The Employer adopted a non-standardized volume submitter 401(k) profit sharing plan sponsored by Access Retirement Services, LLC. The volume submitter plan document has received an opinion letter from the Internal Revenue Service as to the plan document's qualified status. The volume submitter plan document opinion letter has been relied upon by the Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions on the Internal Revenue Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets per the Form 5500 for December 31, 2018, and 2017:
