A. Description of Plan

The following description of the Bettenhausen Motor Sales Inc. dba Bettenhausen Dodge (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution salary deferral plan covering all full time employees of the Company who are age 21 or older. The Plan is subject to the provisions of ERISA. The Plan provides an individual account for each participant and provides benefits upon retirement that are based on the amounts contributed by the employee and employer plus earnings on those contributions less any plan administrative expenses. The Plan was established on February 1, 2007 and restated January 1, 2015. The plan administrator is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

2. *Contributions.* Each year, participants may contribute a percentage of their eligible compensation subject to statutory limits, as defined in the Plan. Participant contributions consist of pre-tax elective deferrals and Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may contribute between 0% and 100% of their compensation in increments of 1%. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may match a percentage of employee contributions at a rate to be determined annually. The Company did not make a matching contribution for 2018 or 2017. The Company may make discretionary contributions at the end of the Plan year for employees who are participants as of the last day of the Plan year.

3. *Participant accounts.* Each participant's account is credited with the participant's contributions and Company contributions, as well as an allocation of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The participants can direct their investments to any of the available funds in the Plan. Participants may change their investment option specification with respect to contributions to be made in the future and with respect to amounts already in their account by calling an interactive voice-response system or accessing the account on the Internet with the use of a personal identification number. Certain participant and loan fees, if applicable, are also charged to participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Participants are vested immediately in their employee and matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. One year of service is 1,000 hours within a consecutive twelve-month period. A participant is 100 percent vested in the profit sharing after 6 years of credited service. Participant accounts become fully vested upon attainment of the normal retirement age of 62, or in the event of death or total disability.

A. Description of Plan (Continued)

5. *Notes receivable from participants.* Participants may borrow from their fund accounts and are only permitted to have one loan outstanding at any time. The maximum loan amount is $50,000 or one-half of the vested balance, whichever is less. The interest rate for the loan is computed using the prime rate plus 1%. Principal and interest is paid ratably through monthly payroll deductions.

6. *Payment of benefits.* On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or in installments. The distributions will be a lump sum if the vested balance is $1,000 or less. A participant who has attained age 62 may withdraw any part of his vested account balance.

   In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their vested account balances while actively employed, but such withdrawals are limited to the amount of hardship and the related taxes resulting from the distribution. The participant must provide documents to verify that the hardship event qualifies for a Plan distribution.

7. *Forfeited accounts.* At December 31, 2018 and 2017, forfeited nonvested accounts totaled $0 and $0, respectively. These accounts will be used to pay administrative expenses for the plan year in which the forfeitures are generated. Any remaining funds are used to reduce future employer contributions. In 2018, there were no forfeited nonvested accounts to pay administrative expenses and employer contributions.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Ascensus Trust Company, the trustee of the Plan, determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

B. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Employer. Loan origination and loan and distribution processing fees are charged directly to those participants with outstanding loans. Expenses paid by the Plan in 2018 and 2017 were $1,500 and $2,355, respectively.

Subsequent events

The Plan has evaluated subsequent events through June 19, 2019, the date the financial statements were available to be issued.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

C. Fair Value Measurements (Continued)

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be activity traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

C. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017.

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total

U.S. government securities	-	-	-	-
Investments at fair value	$ 2,193,710	$ -	$ -	$ 2,193,710

D. Related Party Transactions and Party in Interest Transactions

Certain Plan investments are managed by Ascensus Trust Company. Ascensus Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party in interest transactions.

E. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

F. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

F. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. Information Certified by the Trustee
