BASCO MANUFACTURING COMPANY, INC. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017

1. Plan description

The following description of the Basco Manufacturing Company, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Basco Manufacturing Company, Inc., Basco Glass, LLC, and Winston Shower Door, LLC (collectively, the "Company"), who have attained the age of 20½ and have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Each year participants may contribute a percentage of their annual compensation to the Plan, as defined in the plan document. Participants may also roll over amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty-seven pooled separate accounts and one fully benefit-responsive investment contract as investment options for participants. The Company makes matching contributions to the Plan each year. For the plan year ended December 31, 2018, the Company elected to match contributions equal to 100% of the employee's first 3% deferred and 50% of the next 2% deferred subject to IRS limitations. The Company contribution is allocated amongst investment options based on the participant's selected allocation percentages. The Plan qualifies for the safe harbor matching contribution under the requirements of the Internal Revenue Service. The Company matching contribution for 2018 was \$346,121.

The Company may also make a discretionary profit sharing contribution to the Plan. The profit sharing contribution is allocated in the proportion that the compensation of each participant bears to the compensation of all participants for the plan year. There was no employer discretionary profit sharing contribution made for 2018.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching and discretionary profit sharing contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan, and (b) decreases in investment value. Allocations of matching contributions are based on participant contributions, allocations of discretionary profit sharing contributions are based on participant's compensation, and allocations of plan earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the employer matching contribution, plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service, vesting 20% per year after two years of service.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 6.25%, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Company also pays certain administrative expenses and provides other administrative services at no cost to the Plan, which are excluded from these financial statements. Investment loss is stated net of investment fees.

Forfeited accounts

Participant forfeitures of Company profit sharing contributions are first used to offset Company contributions. The remaining balance may be applied to expenses of the Plan. At December 31, 2018 and 2017, forfeited non-vested accounts totaled approximately \$1,435 and \$1,262, respectively. During 2018, no forfeited non-vested accounts were used for any purpose.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive monthly or annual installment payments or a partial distribution with the remainder paid in installments. The participant may also elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2018 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan utilizes various investment instruments, including pooled separate accounts and a fully benefit-responsive investment contract. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Benefits

Benefit payments are recorded when paid.

3. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, a portion of the administrative expenses of the Plan are paid by the Company. Expenses related to specific participant transactions (i.e., loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Certain plan investments are managed by Transamerica Life Insurance Company ("Transamerica"). Transamerica is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees are paid by the Plan for investment management services by reducing the return earned on each fund.

4. Tax status

On March 31, 2014, the IRS stated that the volume submitter adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- Pooled separate accounts:* Valued using the practical expedient of net asset value ("NAV"). These accounts invest primarily in mutual funds and fixed maturity securities measured based on outside pricing data. Transfers out of a pooled separate account are allowed at any time, with no advance notice.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Investments at fair value	\$ -	\$ -	\$ -	\$ -
Total assets in the fair value hierarchy	-	-	-	-
Investments measured at NAV (a)	-	-	-	10,483,640
Total investments at fair value	\$ -	\$ -	\$ -	\$ 10,483,640

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Investments at fair value	\$ -	\$ -	\$ -	\$ -
Total assets in the fair value hierarchy	-	-	-	-
Investments measured at NAV (a)	-	-	-	10,838,702
Total investments at fair value	\$ -	\$ -	\$ -	\$ 10,838,702

a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

For years ended December 31, 2018 and 2017, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

6. Fully benefit-responsive investment contract

The Plan holds a traditional investment contract, the Transamerica Stable Value Core Option. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for the fully benefit-responsive investment contract because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a semi-annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contract
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

7. Reportable transactions

No reportable transactions were noted in 2018 and 2017.

8. Information certified by the Plan's trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica, the trustee of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, the fully benefit-responsive investment contract, and notes receivable from participants as shown in the Statement of Net Assets Available for Benefits as of December 31, 2018 and 2017
- Net investment income and interest income on notes receivable from participants as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018
- Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2018

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

9. Fidelity bonding requirements

The Plan was covered by a \$500,000 bond in 2018 and 2017.

10. Subsequent events

The plan administrator has evaluated subsequent events through July 10, 2019, the date the financial statements were available to be issued. The plan administrator is not aware of any subsequent events that would require recognition or disclosure in the Plan's financial statements.
