NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2018**

1. Description of the Plan

General

The following description of the Tetra Tech, Inc. and Subsidiaries Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions. The Plan is intended to qualify as a profit sharing plan under Section 401(a) and as a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan covers the employees of Tetra Tech, Inc. and some of its subsidiaries (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). At September 30, 2018, there were 10,746 participants in the Plan.

Administration of Plan assets

The Plan is administered by a committee appointed by the Company's Board of Directors. This committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Participant salary deferrals

Participants may make elective salary deferrals up to 100% of their compensation, not to exceed the maximum allowed under appropriate provisions of the IRC. Each employee who has completed at least 30 days of service shall be eligible to participate in the salary deferral.

Company contributions

The Company makes matching contributions to eligible participants employed on the last day of each calendar quarter of \$.50 on each dollar of participant salary deferrals during that quarter subject to a maximum contribution of 3% of eligible compensation during that quarter. The Company also makes discretionary contributions as determined annually by each participating Company's Board of Directors. Employees are eligible to participate in these Company contributions upon completing at least 1,000 hours during the Plan year and being employed on the last day of the Plan year. Certain divisions of the Company do not participate in these matching and discretionary contributions.

Participant accounts

Each participant's account is credited with their salary deferral and rollover contributions and allocations of (a) the Company's matching contribution, (b) the Company's discretionary contribution and (c) Plan earnings (losses) and expenses. Allocations of Company contributions are based on participant's compensation, as defined in the Plan document. The benefit to which a participant is entitled is dependent on the balance of the participant's vested account.

1. Description of the Plan (continued)

Vesting

Participants are immediately 100% vested in their salary deferrals plus actual earnings thereon. Participants generally become vested in their portion of the Company contributions and the allocated portion of income, gains and losses as follows:

<u>Years of Service Completed</u>	<u>Vesting Percentage</u>
1	0%
2	20%
3	40%
4	60%
5	100%

The Company contributions also become 100% vested upon reaching the normal retirement age of 65, death or termination of employment because of a disability while employed by the Company.

Payment of benefits

Upon termination, death, disability or retirement the participant's vested portion of the Company contribution accounts, salary deferral account and rollover account are paid to the participant or beneficiaries as soon as administratively feasible in the form of a lump-sum distribution. The forfeited portion of the participant's account balance, if any, is used to reduce future Company contributions. During the year ended September 30, 2018, participants forfeited \$716,579.

In addition, a participant may request a financial hardship withdrawal under certain conditions as provided by the Plan. Also a participant may elect to receive in-service withdrawals of the participant's salary deferral and rollover contributions and vested Company matching contribution account balance upon the attainment of age 59½.

Investment options

All investments are held in trust and were invested in cash and cash equivalents, common stocks, mutual funds and other investments at the direction of the participants. The Plan allows the participants very broad investment options ranging from very low volatility to very high volatility. Wells Fargo Bank, N.A., Trustee of the Plan (the "Trustee") (deemed to be a party-in-interest), held the Plan's investment assets and executed investment transactions as of and during the year ended September 30, 2018 under a nondiscretionary trust agreement. Investment income, gains and losses are allocated to each participant's account each business day.

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan (continued)

Notes receivable from participants

Participants may borrow from their vested account balances up to \$50,000 or 50%, whichever is less. The loans are secured by the balance in the participants' accounts and bear interest at market rates in effect at the time of the loan ranging from 3.25% to 9.25%. Loan terms range from one to five years or up to ten years for the purchase of a principal residence. Principal and interest is paid through payroll deductions.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the participants' Company contribution accounts will become 100% vested and the net assets of the Plan will be distributed as prescribed by ERISA.

2. Summary of significant accounting policies

Basis of accounting

The Plan financial statements are prepared under the accrual method of accounting.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities and disclosures at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan valuation policies utilizing information provided by the Trustee and its investment advisors (See Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

2. Summary of significant accounting policies (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of September 30, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan, at the participant's direction, invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. Accordingly, such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits as of September 30, 2018.

Administrative expenses

Trustee record-keeping and trustee services are charged \$55 per year to all participants with an account balance. Other administrative expenses, such as legal, testing, auditing and investment consulting, vary quarterly and are charged to participant accounts as third party fees based on their account balances.

Subsequent events

The Plan's management has evaluated subsequent events through July 9, 2019, the date the financial statements were available to be issued.

3. Fair value measurements

FASB Accounting Standards Codification establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2018 and 2017 and no level 3 inputs were used.

Level 1 fair value measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 fair value measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

5. Certification

The following is a summary of the unaudited information included in the Plan's financial statements and supplemental schedule that was provided by the Trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that the following information is complete and accurate:

- (a) The fair value and cost of investments as of September 30, 2018 and 2017.
- (b) Net appreciation (depreciation) in fair value of investments, interest on notes receivable from participants and other income for the year ended September 30, 2018.
- (c) Supplemental schedule of assets (held at end of year) as of September 30, 2018.

6. Rollover contributions

During the fiscal year ended September 30, 2018, the Plan received rollover contributions of \$4,762,759 from the retirement plans of various former employers of numerous plan participants. These amounts have been credited to the accounts of these participants. All rollover contributions are 100% vested.

7. Tax status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated February 22, 2016, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving this determination letter, the Plan administrator and the tax counsel believe that the Plan is designed and was operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.
