Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2018

1. Description of the Plan

The following brief description of the Austin Foam Plastics, Inc. 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

The Plan is a defined contribution 401(k) plan covering substantially all employees of Austin Foam Plastics, Inc. (the “Company”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and qualifies under Section 401(a) of the Internal Revenue Code (the “IRC”). The custodian and recordkeeper of the Plan are Great-West Life & Annuity Insurance Company (“Great-West”) and Empower Retirement (“Empower”), respectively.

Eligibility

Employees become eligible to participate in the plan on the first day of the calendar quarter after one month of service and the attainment of age eighteen. Newly eligible employees are automatically enrolled in the Plan with a deferral percentage of 3% as soon as administratively feasible, unless the employee completes an enrollment form with specific instructions or elects to opt out of the Plan. The Plan will automatically increase this percentage annually by 1% of the participant’s compensation up to a maximum of 10%.

Contributions

Participants may contribute up to 100% of their eligible compensation on both a pre-tax basis and an after-tax (“Roth”) basis, not to exceed the annual limit established by the IRC. A participant’s pre-tax and Roth deferrals will be separately accounted for, as will gains and losses attributable to each. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Safe harbor employer matching contributions are made at 100% of participant contributions up to 1% of compensation plus 50% of participant contributions in excess of 1% up to 6% of compensation.

Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The Company may also elect to make additional discretionary profit sharing contributions. To be eligible for the discretionary profit sharing contributions an employee must be actively employed on the last day of the plan year. The Company did not make any discretionary profit sharing contributions during the year ended December 31, 2018.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings and may be charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions and employer matching and profit sharing contributions plus actual earnings thereon. Participants become 100% vested in Qualified Automatic Contribution Arrangement employer contributions after 2 years of service.

Payment of Benefits

Vested benefits are paid to participants upon death, disability, retirement or termination of employment by either arranging for a rollover to another plan or lump sum payment. Hardship withdrawals are available and will result in a six month suspension during which no contributions may be made to the participant's account. For terminated participants' account balances that are less than \$5,000, the plan administrator may distribute the entire amount in a lump sum without the participant's consent. If the participant's vested portion is greater than \$5,000, the participant may elect to maintain the vested portion in the Plan.

Forfeitures

Forfeitures by participants of unvested Company contributions are used to pay administrative expenses and to reduce future employer contributions. No forfeitures were used during 2018. At December 31, 2018 and 2017, forfeited unvested account balances totaled \$16,045 and \$3,393, respectively.

1. Description of the Plan (continued)

Administrative Expenses

The Company pays certain administrative costs of the Plan associated with the Custodian's annual fee, auditor's fees and the cost of communications to the participants. The Plan pays all other administrative expenses, including recordkeeping fees.

Notes Receivable From Participants

Participants are permitted to borrow the lesser of \$50,000 or 50% of their vested account balance. The minimum that can be borrowed is \$1,000 and only one loan can be outstanding at a time. Notes receivable from participants are secured by the balance in the participant's account and bear interest at a reasonable interest rate as determined by Empower. Loan repayments are automatically deducted through after-tax payroll deductions over a period generally not to exceed five years.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and distributions will be made as soon as administratively practicable after the Plan terminates.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are reported on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. Benefits are recorded when paid to participants.

Risks and Uncertainties

Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of securities in which the Plan invests. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near-term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and the accompanying notes and schedule. Accordingly, actual results could differ from these estimates.

Valuation of Investments and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Subsequent Events

The Plan has evaluated subsequent events through July 2, 2019, the date the financial statements were available to be issued.

Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements (continued)

3. Investments

All investment information disclosed in the accompanying financial statements, notes and schedule, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net depreciation in fair value of investments, interest income and interest income from notes receivable from participants for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West, the custodian of the Plan.

4. Fair Value Measurements

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2—Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

The Plan's investments in shares of mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Annuity account funds with underlying investments in fixed interest accounts are valued at fair value of the underlying investments. Common collective investment trusts are valued at the NAV of units of a bank collective trust. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. These securities are redeemable at fair value on a daily basis. There are no unfunded commitments as of December 31, 2018.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table represents the Plan's fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 11,122,896	\$ –	\$ –	\$ 11,122,896
Fixed interest account	–	3,371,877	–	3,371,877
Investments measured at net asset value*	–	–	–	2,283,643
Total assets at fair value	\$ 11,122,896	\$ 3,371,877	\$ –	\$ 16,778,416

Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 11,701,688	\$ —	\$ —	\$ 11,701,688
Fixed interest account	—	2,327,026	—	2,327,026
Investments measured at net asset value*	—	—	—	2,659,965
Total assets at fair value	<u>\$ 11,701,688</u>	<u>\$ 2,327,026</u>	<u>\$ —</u>	<u>\$ 16,688,679</u>

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the Statements of Net Assets Available for Benefits.

5. Party-in-Interest Transactions

Plan investments are managed by Great-West. Transactions such as these qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.

6. Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (“IRS”) dated March 31, 2014, stating that the form of the plan is qualified under Section 401(a) of the IRC, and therefore, the related trust is tax exempt. The plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Subsequent to receiving the IRS opinion letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.
