Independent Auditors' Report

To the Participants and Plan Administrator of
Pension Plan for Hourly Employees
of Special Metals Corporation at Princeton, Kentucky

Report on the 2018 Financial Statements

We were engaged to audit the accompanying financial statements of Pension Plan for Hourly Employees of Special Metals Corporation at Princeton, Kentucky (the "Plan"), which comprise the statement of net assets available for benefits as of September 30, 2018, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these 2018 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2018 financial statements.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 9, which was certified by Huntington Bank ("Huntington") and The Bank of New York Mellon/BNY Mellon, N.A., ("BNYM"), the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that BNYM held the Plan's investment assets and executed investment transactions from December 15, 2017 through September 30, 2018 and that Huntington held the Plan's investment assets and executed investment transactions from October 1, 2017 through December 14, 2017. The plan administrator has obtained certifications from BNYM and Huntington as of September 30, 2018 and for the year then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2018 financial statements. Accordingly, we do not express an opinion on the 2018 financial statements.

Report on Compiled 2017 Financial Statement

Management is responsible for the accompanying 2017 financial statements of the Plan, which comprises the statement of net assets available for benefits as of September 30, 2017, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements in accordance with accounting principles generally accepted in the United States of America. We have performed the compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the 2017 financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on the 2017 financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2018 financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Pension Plan for Hourly Employees of Special Metals Corporation at Princeton, Kentucky

Notes to Financial Statements
September 30, 2018 and 2017

1. Description of the Plan

The following description of the Pension Plan for Hourly Employees of Special Metals Corporation at Princeton, Kentucky (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan sponsored by Special Metals Corporation (the "Company"), a wholly-owned subsidiary of Precision Castparts Corp. The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 ("ERISA").

The Company's Administrative Committee has overall responsibility for the operation and administration of the Plan. The Master Trust Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Administrative Committee.

Effective October 20, 2003, the Plan was amended and restated to freeze benefit accruals and close participation to new participants.

In December 2017, the Plan adopted a resolution for the assets to be invested in the Precision Castparts Corp. Master Trust Defined Benefit Plans ("Master Trust") with the Bank of New York Mellon ("BNYM"). Assets were transferred on December 14, 2017 from Huntington Bank ("Huntington") to BNYM.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2018 and 2017.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

The Plan was established to provide hourly employee of Special Metals Corporation at Princeton, KY represented by Local Lodge 2507, District 154 of the International Association of Machinists and Aerospace Workers with benefits for normal retirement at age 65 or with 5 years of vested service if employed with the Company after age 60.

Participants that have completed 30 or more years of vesting service and elect to retire early between the ages of 62 and 65, will be entitled to receive an immediate unreduced early retirement pension.

Participants that terminate employment prior to age 65, do not qualify for the unreduced early retirement benefit, and have five or more years of vesting service (ten or more years prior to October 1, 1989), will be entitled to receive a deferred monthly pension beginning at age 65. This pension will be computed in the same way as a normal retirement benefit.

Participants that have attained the age of 55, but not the age of 65, and have completed at least five years of vesting service shall be eligible to retire at the participant's option on an early retirement date. The monthly pension benefit will be reduced by 5% for each year the commencement date precedes the normal retirement date of age 65.

Pension Plan for Hourly Employees of Special Metals Corporation at Princeton, Kentucky

Notes to Financial Statements
September 30, 2018 and 2017

Monthly benefits paid to participants at normal retirement (65 years of age) are based upon an escalating scale of benefit rates.

Participants may elect to receive their benefits as a joint and survivor annuity or a life annuity payable upon retirement. If the actuarially equivalent present value of any retirement benefit is \$1,000 or less, it will be paid in a single sum payment.

Death and Disability Benefits

If an active participant, who was married for at least one year preceding his or her death, dies prior to the participant's benefit commencement date, the surviving spouse will be eligible for a death benefit based on the participant's vested accrued benefit. Any participant who suffers a permanent and total disability for at least six consecutive months while actively employed and has at least five years of vesting service will be paid a disability retirement benefit equal to his or her accrued plan benefit. Payment commences upon the last day of the month that the disability occurred and continues until the participant dies or recovers.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in the Plan's interest in net investment income of the Master Trust presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value including the Plan's interest in the Master Trust which is reported at fair value based on the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Notes to Financial Statements
September 30, 2018 and 2017

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the value of investments is allocated by the Master Trust to the Plan based upon the Plan's daily weighted average percentage of net assets for a given month. Net appreciation in all other investments included the gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of October 1, 2017 and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of October 1, 2017 (compiled) is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 1,888,593
Other participants	<u>701,162</u>
Total vested benefits	2,589,755
Nonvested benefits	<u>31,780</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 2,621,535</u>

The changes in the actuarial present value of the accumulated plan benefits for the year ended September 30, 2017 (compiled) are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 2,629,901
Increase (decrease) during the year attributable to:	
Benefits accumulated plus actuarial (gain)/loss	(8,305)
Increase for interest due to decrease in discount period	183,869
Benefits paid	(190,900)
Change in actuarial assumption	<u>6,970</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 2,621,535</u>

Pension Plan for Hourly Employees of Special Metals Corporation at Princeton, Kentucky

Notes to Financial Statements
September 30, 2018 and 2017

Significant assumptions underlying the actuarial computations are as follows:

- a) Mortality – RP-2014 Annuitant and Non-Annuitant Mortality Tables with Blue Collar adjustment projected scale BB to 2026
- b) Retirement age - Age 65 for terminated vested participants
- c) Discount rate - 7.25 percent

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The interest rates and statutory mortality tables were updated as prescribed by law. These changes resulted in an increase of \$6,970 in the actuarial present value of accumulated benefits in 2017.

Recent Accounting Standards

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in *Topic 820, Fair Value Measurement*. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*, which the Board finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan's financial statements.

In February 2017, the FASB issued ASU No. 2017-06, *Plan Accounting: Defined Benefit Pensions Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965); Employee Master Trust Reporting*. The amendments in ASU No. 2017-06 clarify presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU No. 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retroactively to each period for which financial statements are presented. Management is currently assessing the impact that ASU No. 2017-06 will have on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through July 11, 2019, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Notes to Financial Statements
September 30, 2018 and 2017

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2018.

Assets held in the Master Trust are measured at fair value. The Plan is able to purchase or sell units of the Master Trust on a daily basis. The Master Trust asset allocation strategy is designed with the objective of achieving the asset return assumption consistently over the long-term in order to fund future payment obligations, while minimizing contributions and plan sponsor economic risk. The asset categories are described below, along with the valuation methodologies and investment level classifications.

Public Equity Securities (Long/Hedged) - Long equity investments consist of publicly traded equity securities, while hedged equity investments typically add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Public equity investments made directly through managed (separate) account structures and valued based upon closing prices reported in active trading markets are classified as Level 1. Other fund investments are valued using the most recent net asset value ("NAV") of the fund.

Private Equity - Private equity investments consist of investments in non-public companies made directly or through limited partnerships or commingled vehicles with managers who purchase interests in non-public companies. Sub-categories of private equity may include venture capital, early stage, special situations or restructuring funds. Private equity typically has low liquidity, a 10 year or longer investment commitment, and valuation methodologies that require the use of significant unobservable inputs. Direct private equity investments are classified as Level 3, while investments made through funds are typically valued at the most recent NAV of the fund. As of September 30, 2018, unfunded capital commitments to private equity investments were approximately \$6 million.

Absolute Return - Absolute return strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Absolute return managers typically invest in futures, forwards or options on a variety of asset classes. Investments are typically made in limited partnerships with values stated at fund NAVs. As of September 30, 2018, unfunded capital commitments to absolute return investments were approximately \$0.

Notes to Financial Statements
September 30, 2018 and 2017

Royalty Investments - Royalty investments are made through limited partnerships which purchase income-producing royalties derived from sales of pharmaceutical products. Valuations are determined from an independent appraisal process whereby significant observable inputs are used in determining the fund's NAV. Liquidity is typically arranged in the secondary market with trades occurring at the most recent NAV.

Fixed Income (Non-Investment Grade) - Fixed income investments consist of public and private fixed income securities of U.S. and non-U.S. government and corporate issuers, fixed income mutual funds and interest rate derivatives intended to hedge a portion of the pension plan's sensitivity to interest changes. Direct private debt investments are classified as Level 3. Other investments are valued using the most recent fund NAV. As of September 30, 2018, unfunded capital commitments to fixed income investments were approximately \$0.

Cash/Other - Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as Level 1.

In 2017, assets held outside the Master Trust were measured at fair value. The valuation methodologies are described below.

U.S. government agency securities were valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate obligations were valued using pricing models maximizing the use of observable inputs for similar securities. This included basing values on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices were not available for identical or similar bonds, the bond was valued under a discounted cash flows approach that maximized observable inputs, such as current yields of similar instruments, but included adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the U.S. Securities and Exchange Commission. These funds were required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Short term investments were valued at the quoted net NAV of shares held by the Plan at year end.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2017:

	Assets at Fair Value as of September 30, 2017 (Compiled)

4. Interest in Precision Castparts Corp. Master Trust Defined Benefit Plans

As of December 15, 2017, all of the Plan's investments are in the Master Trust. The Plan's interest is calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period.

At September 30, 2018, the Plan's undivided interest in the net assets of the Master Trust was approximately .22 percent. Net investment income relating to the Master Trust is allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

The following table presents the net assets of the Master Trust as of September 30, 2018:

(a) Investments measured at NAV have not been classified in the fair value hierarchy but are presented in this table to permit reconciliation of the amounts in the fair value hierarchy to the total investments held by the Master Trust.

For the year ended September 30, 2018, there were no significant transfers in or out of Levels 1, 2, or 3.

The table below presents the changes in fair value of the Master Trust's Level 3 assets in 2018:

	Private Equity	Fixed Income Non-Investment Grade	Total
Beginning of year	\$ 77,278,381	\$ 29,899,357	\$ 107,177,738

End of year	<u>\$ 76,174,364</u>	<u>\$ 33,597,577</u>	<u>\$ 109,771,941</u>

Gains and losses (realized and unrealized) included in the change in net assets for the periods above are reported in plan interest in net investment income of Master Trust in the Statements of Changes in Net Assets Available for Benefits.

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. In 2018, there were no transfers between levels.

5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

6. Related Party and Party In Interest Transactions

The Plan's investments were administered under a contract with Huntington, the trustee until December 14, 2017 and then BNYM became trustee of the Plan. Contributions are held and managed by the trustees, who invest cash received, interest, and dividend income and make distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 17, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Pension Plan for Hourly Employees of Special Metals Corporation at Princeton, Kentucky

Notes to Financial Statements
September 30, 2018 and 2017

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Information Certified by Trustees

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2018. Accordingly, Huntington, the trustee of the Plan from October 1, 2017 to December 14, 2017 and BNYM, the trustee from December 15, 2017 to September 30, 2018, have certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of September 30, 2018, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year then ended.

SUMMARY OF THE PLAN

Effective Date

Effective December 29, 1983. Most recently restated as of October 1, 2012 and amended as of October 23, 2014. Participation and benefit accruals were frozen effective October 20, 2003.

Eligibility for Participation

Hourly employees who were members of the bargaining unit at the Princeton, Kentucky location prior to October 20, 2003 are eligible for participation in the Plan.

Continuous Service

Continuous Service (for vesting and early retirement eligibility) is the employee's period of unbroken service computed in years and fractions thereof to the nearest month.

Credited Service

Credited Service (for determining the amount of benefits) is the employee's period of Continuous Service computed in years and fractions thereof to the nearest month. No Credited Service is granted after October 20, 2003.

Normal Retirement Benefits

Each member is eligible to retire at his Normal Retirement Age, which is his 65th birthday.

For retirement or termination on or after August 15, 1999, the monthly accrued Normal Retirement Benefit is the sum of:

- (a) \$21.00 for each year of Credited Service prior to August 15, 2000,
- (b) \$27.00 for Credited Service between August 15, 2000 and August 14, 2001,
- (c) \$33.00 for Credited Service between August 15, 2001 and August 14, 2002, and
- (d) \$39.00 for Credited Service between August 15, 2002 and October 20, 2003.

Different rates apply for earlier retirements and terminations.

Early Retirement

Each member may retire on the last day of any month following attainment of age 55 and completion of five years of Continuous Service. The benefit commencing on his Early Retirement Date is equal to the member's accrued Normal Retirement Benefit, using his Credited Service and the multiplier in effect on his Early Retirement Date, and reduced 5% for each year the commencement date precedes his Normal Retirement Date. However, if the member has attained age 62 and 30 years of Continuous Service on his Early Retirement Date, the 5% reduction will not apply.

Late Retirement

An employee may continue working beyond his Normal Retirement Date. His postponed retirement income will be his accrued benefit as of his Late Retirement Date.

Attachment to 2017 Schedule SB

Schedule SB, Part V – Summary of Plan Provisions

Pension Plan for Hourly Employees of Special Metals Corporation at Princeton, Kentucky

EIN/PN: 25-1445468/009

Termination of Employment

A member who terminates prior to completion of five years of Continuous Service is not entitled to any benefit under the Plan. A member who terminates after completion of five years of Continuous Service is fully vested in his accrued Normal Retirement Benefit.

Normal Form of Benefit

A single life annuity is the normal form for unmarried participants; a joint and 100% survivor annuity for married participants. All participants may elect a 50% or 100% co-pensioner option with a non-spouse beneficiary. A married participant may also elect a 50% joint and survivor annuity or a single life annuity. Factors in the document are used to convert a single life annuity to the other optional forms. Sample factors are shown below:

50% Survivor / Co-Pensioner Option			
Participant Age	Spouse / Beneficiary Age Difference		
	-3 years	0 years	+3 years
55	92%	93%	94%
60	91	92	93
62	89	91	92
65	88	90	91

100% Survivor / Co-Pensioner Option			
Participant Age	Spouse / Beneficiary Age Difference		
	-3 years	0 years	+3 years
55	85%	86%	88%
60	83	85	86
62	81	83	86
65	79	81	83

Qualified Preretirement Survivor Annuity

If a vested Participant dies before payment of benefits begins, the surviving Spouse (if any) shall be entitled to a survivor annuity beginning on the date that would have been the Participant's Earliest Retirement Date (or immediately if death occurs after Earliest Retirement Date) in an amount equal to one hundred percent (100%) of the benefit to which the Participant would have been entitled if he or she had terminated employment on the day before his or her death, survived to his or her Earliest Retirement Date (unless death occurs after Earliest Retirement Date), begun to receive payments in the form of a Qualified Joint and Survivor Annuity, and then died on the following day.

Plan Changes Since Last Valuation

We are not aware of any Plan changes since the prior valuation that would affect the liabilities of the Plan.

ACTUARIAL ASSUMPTIONS AND METHODS

Discount Rates

As selected by the Plan Sponsor, the rates for calculating the PPA Funding Target are the October 2017 segment rates. As prescribed by segment rate stabilization, in 2017 these rates must be between 90% and 110% of the 25-year average rates published by the IRS.

- PPA Funding Target
 - Segment 1 payments under 5 years 4.16%
 - Segment 2 payments between 5 and 20 years 5.72%
 - Segment 3 payments after 20 years 6.48%

Mortality

For calculating the Funding Target, mortality follows the RP-2000 annuitant and non-annuitant mortality tables for 2017 as prescribed by the IRS.

Withdrawal

The Actuary's Pension Handbook Table T-9. Illustrative rates are as follows:

Age	Number of Terminations Per 1,000 Lives
25	172
30	158
35	137
40	113
45	85
50	51
55	17
60	2

Vested terminated participants are assumed to retire at age 65.

Disability

For valuation purposes, no disabilities were assumed.

Retirement

Eligible employees were assumed to retire according to the following table:

Age	Number Retiring Per 1,000 Eligible at Beginning of Year
62-69	500
70	1,000

Future Participation and Service

It was assumed that each active participant would earn one year of participation and one year of service in each future plan year prior to the year of retirement, death, disability or withdrawal.

Probability of Marriage

It was assumed that 75% of participants would have an eligible spouse at the time of death. Husbands were assumed to be 3 years older than wives.

Expenses

Previous plan year's actual, plan-paid administrative expenses (for example, actuarial, audit, and PBGC premiums), rounded up to next \$1,000.

Actuarial Value of Assets

For funding requirements, the Plan uses the 24-month average value of assets per IRS Notice 2009-22 (adopted October 1, 2009).

Actuarial Cost Method

For purposes of calculating the Funding Target, we calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method.

Changes in Actuarial Assumptions

- The segment rates used to calculate the Funding Target were updated to reflect current market conditions.
- The mortality assumption used to calculate the Funding Target was updated to the RP-2000 annuitant and non-annuitant mortality tables for 2017 as prescribed by the IRS.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
