Independent Auditors' Report

To the Administrator and Participants of the
Cubic Corporation Pension Plan
San Diego, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of **Cubic Corporation Pension Plan** ("Plan"), which comprise the statements of net assets available for benefits and statements of accumulated plan benefits as of September 30, 2018 and 2017, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Prudential Insurance Company of America ("Custodian") and The Prudential Trust Company ("Trustee") of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the Custodian and Trustee hold the Plan's investment assets and execute investment transactions. The Plan Administrator has obtained certifications from the Custodian and Trustee as of September 30, 2018 and 2017, and for the years then ended, that the information provided to the Plan Administrator by the Custodian and Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, line 4i - Schedule of Assets (Held at End of Year) and Schedule H, line 4j - Schedule of Reportable Transactions as of September 30, 2018, are required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Custodian and Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CUBIC CORPORATION PENSION PLAN

Notes to Financial Statements

September 30, 2018 and 2017

(1) Plan Description

The following description of the Cubic Corporation Pension Plan (the “Plan”) provides only general information. Participants of the Plan should refer to the Plan agreement for a more complete description of the Plan’s provisions.

(a) General

The Plan is a non-contributory defined benefit pension plan, which provides pension benefits covering eligible non-union employees of Cubic Corporation, Cubic Defense Applications, Inc., Cubic Worldwide Technical Services – Administrative Division only and Cubic Transportation Systems, Inc., (collectively, the “Company”). The Plan was established on February 1, 1974 and has been amended from time to time thereafter. The Plan is a successor to a number of other plans. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

In November 2006, the Board of Directors of the Company approved an amendment to freeze the Plan effective January 1, 2007. As a result of the Plan freeze, all eligible employees retain any benefits accumulated to the effective date, but are no longer eligible to increase their benefits. Eligible employees will continue to earn vesting credit toward the Plan vesting requirements. For employees who would be eligible to retire under the early pension, disability pension or a surviving spouse’s pension, years of service will continue to be taken into account after December 31, 2006.

(b) Pension Benefits and Vesting

A participant who has completed five years of service is fully vested and is entitled to receive benefits upon retirement based upon the length of employment and earnings as provided by the Plan. Benefits do not vest prior to completion of five years of service. Prior to the Plan freeze, participants earned monthly pension benefits equal to one-twelfth of three-fourths of 1% of the participant’s earnings for each year of service as an employee.

The normal retirement benefit is payable in a monthly straight life annuity. Optional forms of retirement benefits may be elected in advance of retirement and include the following: single life annuities with certain guaranteed periods of up to five years, survivorship life annuities, and a level income option. The benefit payable on any optional annuity form is the actuarial equivalent of the benefit that would otherwise be payable on the normal retirement benefit. A cash benefit payment is allowed if the present value of the benefit is less than \$1,000.

Notes to Financial Statements

September 30, 2018 and 2017

(1) Plan Description, Continued

(b) Pension Benefits and Vesting, continued

In June 2016, the Board of Directors of the Company approved an amendment to provide for a special 2016 lump sum benefit distribution program for terminated vested participants and deferred beneficiaries in the Plan. The total amount of benefits under this program was approximately \$10,426,176.

A participating employee may retire any time after age 55, if he or she has completed five years of service, and receive a reduced early retirement benefit to commence on their early retirement date.

(c) Death and Disability Benefits

If an active employee dies on or after his or her normal retirement date and is vested, a death benefit is paid to the employee's beneficiary. The Plan also provides for disability benefits if the disability occurs on or after the participant has attained age 55 and has completed five years of service. The monthly disability payments equal 100% of the employee's earned benefit. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(2) Summary of Significant Accounting Policies, Continued***(c) Investment Valuation and Income Recognition***

The value of each pooled separate account are reflected at fair value based on the net asset value of units held at each respective year-end, as determined by Prudential Insurance Company of America, as a practical expedient to estimate fair value. Certain pooled separate accounts are valued at the closing price from the applicable U.S. exchange, NYSE or NASDAQ, or the applicable foreign exchange for international stocks. Pooled separate accounts that are comprised of short term securities are valued initially at cost and thereafter adjusted for amortization of any discount or premium. Other pooled separate accounts are valued using a discounted cash flow model, which utilizes a discount rate based upon the average of spread surveys collected from private-market intermediaries who are active in both primary and secondary transactions, and takes into account, among other factors, the credit quality and industry sector of the issuer and the reduced liquidity associated with private placements. Certain other pooled separate accounts with underlying investments in real estate are valued using a periodic appropriate independent appraisal approach and fair value is based on the conventional approaches to value, including current cost of reproducing the real estate less deterioration and functional and economic obsolescence, discounting a series of income streams and reversion at a specific yield or by directly capitalizing a single year income estimate by an appropriate factor, and value indicated by recent sales of comparable real estate in the market. While these approaches require the exercise of subjective judgment, the approach most heavily relied upon is the one then recognized as the most appropriate by the independent appraiser for the type of real estate in the market.

The value of each common collective trust is reflected at fair value based on the net asset value of units held at each respective year-end, as determined by Prudential Trust Company, as a practical expedient to estimate fair value. Certain common collective trusts are valued using the closing price from the applicable U.S. exchange, NYSE or NASDAQ, or the applicable foreign exchange for international stocks. Other common collective trusts are valued using widely acceptable methods for pricing fixed income securities such as benchmark yields, reported trades and broker/dealer quotes, and issuer spreads.

Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investments and unrealized appreciation or depreciation is recognized at period end when carrying values of the related investments are adjusted to their estimated fair value. Purchases and sales of securities are reflected on a trade-date basis.

(d) Net Change in Fair Value of Investments

The Plan presents in the statements of changes in net assets available for benefits the net change in the fair value of its investments, which consists of the realized gains or losses and the net unrealized increase (decrease) on those investments.

The following table summarizes investments measured at fair value based on net asset value ("NAV") per share as of September 30, 2018, and 2017, respectively.

(2) Summary of Significant Accounting Policies, Continued

(f) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change.

Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(g) Concentration of Credit Risk

All of the Plan's investments are financial instruments which potentially subject the Plan to concentrations of credit risk. Management believes that the Custodian and Trustee maintain the Plan's investments with high credit quality institutions and attempt to limit the credit exposure to any particular investment.

(h) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are the estimated future periodic pension payments, including lump-sum distributions, under the Plan's provisions attributable to the services employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present participating employees or their beneficiaries. The accumulated plan benefits are based on the sum of their annuity accrued as of December 31, 1974 under the original plan plus three-fourths of 1% of earnings from the later of January 1, 1975 or the date of participation to the date of termination.

Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided by annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

Notes to Financial Statements

September 30, 2018 and 2017

(2) Summary of Significant Accounting Policies, Continued***(h) Actuarial Present Value of Accumulated Plan Benefits, continued***

An actuary from Willis Towers Watson estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the determination of accumulated plan benefits as of October 1, 2017 and 2016 were as follows:

- Mortality basis:

October 1, 2017: RP-2014 Combined Healthy No Collar adjustments with MP-2017 projection scale applied from 2006 forward and adjusted to reflect a long-term improvement rate of 1.00% through age 85, grading to 0% at age 95

October 1, 2016: RP-2014 Combined Healthy No Collar adjustments with MP-2016 projection scale applied from 2006 forward and adjusted to reflect a long-term improvement rate of 1.00% through age 85, grading to 0% at age 95
- Interest assumptions:

6.70% per annum compounded annually
- Employee turnover:

Annual rate of employee termination from all causes within one year – a sliding scale decreasing from 7.00% at age 25 to 4.50% at age 50
- Retirement:

A sliding scale increasing from 5% at age 55 to 100% at age 67
- Compensation increase:

Not applicable since the Plan is frozen
- Administrative expenses:

\$438,000 is the average expense, excluding investment management fees, for the prior three plan years plus the estimated PBGC premium for the October 1, 2017 plan year.

(2) Summary of Significant Accounting Policies, Continued

(h) Actuarial Present Value of Accumulated Plan Benefits, continued

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(i) Payment of Benefits

Prior to May 1, 1995, when an employee became eligible for Plan benefits, an annuity contract was purchased from Prudential Insurance Company of America (“Prudential”). Annuity contracts related to participants currently receiving benefits, which were purchased prior to May 1, 1995, and the related liabilities are excluded from the statements of net assets available for benefits. All current and future liabilities were satisfied when annuities were purchased from Prudential.

Since May 1, 1995, annuities have not been purchased when an employee has become eligible for Plan benefits. Plan benefit payments are now made on a monthly basis directly from the Plan assets and the Plan is liable for future payments to such retirees. The Plan remains liable for all future Plan benefit payments.

(j) Administrative Expenses

The Company provides certain administrative and accounting services to the Plan at no cost. Certain administrative expenses are paid directly by the Company and include legal fees and certain consulting fees. Other expenses which are paid to the Custodian, the Pension Benefit Guaranty Corporation (“PBGC”), the Trustee, the Plan’s actuary, and the Plan’s auditors are charged to the Plan. Investment management fees are deducted out of the Plan and are reflected as an administrative expense in the accompanying statements of changes in net assets available for benefits.

(3) Information Certified by the Custodian and Trustee (Unaudited)

The Plan’s investments in pooled separate accounts are held and managed by the Custodian and the Custodian executes transactions therein. The investments in the common collective trust accounts are held and managed by the Trustee and the Trustee executes transactions therein.

CUBIC CORPORATION PENSION PLAN

Notes to Financial Statements

September 30, 2018 and 2017

(3) Information Certified by the Custodian and Trustee (Unaudited), Continued

The Plan Administrator has received certification of the financial information and data from the Custodian and the Trustee in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The data certified by the Custodian and the Trustee includes the following financial information reflected in the accompanying financial statements as of and for the year ended September 30:

	<u>2018</u>	<u>2017</u>
Investments, at NAV:		
Pooled separate accounts	\$ 56,312,587	\$ 54,807,109
Common collective trust accounts	43,203,378	44,358,373
Total investments	<u>\$ 99,515,965</u>	<u>\$ 99,165,482</u>
	<u>2018</u>	<u>2017</u>
Investment income:		
Interest and dividends	\$ 2,719,650	\$ 2,657,697
Net change in investments	3,988,962	6,167,419
Total additions	<u>\$ 6,708,612</u>	<u>\$ 8,825,116</u>

(4) Funding and Investment Policies

The Company's funding policy is to contribute not less than the minimum required contribution under ERISA, and not more than the maximum deductible for tax purposes under Internal Revenue Service ("IRS") regulations. The Plan has met the ERISA minimum funding requirements for 2018 and 2017. Investment decisions are made with the goal of preserving the actuarial soundness of the Plan in order to meet benefit obligations. The asset allocation of the Plan is examined quarterly and allocation adjustments are considered and implemented as may be appropriate given the Plan's long-term nature and objectives.

Notes to Financial Statements

September 30, 2018 and 2017

(5) Tax Status

The Plan received a favorable determination letter from the Internal Revenue Service dated June 13, 2017, which states that the Plan qualifies under the applicable provisions of the Internal Revenue Code (“IRC”) and that it is therefore exempt from federal income taxes. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2016.

(6) Plan Termination and Amendment

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. To provide benefits to the extent guaranteed by the PBGC (a U.S. government agency) for participants and beneficiaries who have been receiving pension payments at least three years prior to the date of termination.
2. To provide benefits to the extent guaranteed by the PBGC for participants and beneficiaries who would have been receiving pension payments for at least three years as of the date of termination if they had elected to retire.
3. To provide benefits to the extent guaranteed by the PBGC for participants and beneficiaries not included above who have benefits guaranteed under this Plan by the PBGC.
4. To provide benefits to the extent vested and not provided for above for all participants and beneficiaries who have met the vesting requirements.
5. To provide all other accrued benefits under the Plan that have not been provided for above.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual’s monthly benefit that the PBGC guarantees. For plan terminations occurring during 2018 that ceiling is \$5,420 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later).

Notes to Financial Statements

September 30, 2018 and 2017

(6) Plan Termination and Amendment, Continued

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

(7) Party-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. The Plan's investments in pooled separate accounts are held and managed by The Prudential Insurance Company of America. The Plan's investments in the common collective trust accounts are held and managed by The Prudential Trust Company. The Prudential Insurance Company of America is the Custodian and The Prudential Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Two members of the Plan's Benefits Committee ("Committee") are currently participants in the Plan and the Benefits Committee serves as the Trustee and Plan Administrator of the Plan; therefore, these transactions also qualify as party-in-interest transactions.

(8) Form 5500

There were no differences between the accompanying financial statements as of September 30, 2018 and 2017 and the financial information reported on the Form 5500.

(9) Subsequent Events

Effective December 18, 2018, Cubic signed an agreement with Mercer Trust Company ("Mercer") and U.S. Bank National Association ("U.S. Bank") to transition the Plan's investment management services to Mercer and name U.S. Bank as the new Trustee. Prudential was retained to continue processing the participants' benefit payments. The Company has evaluated subsequent events through July 11, 2019, which is the date the financial statements were issued.

Plan-related expenses included in the target normal cost	The plan-related expenses included in the target normal cost are the average of the actual administrative expenses, excluding investment management fees, for the prior three plan years, plus the estimated PBGC premium for the current plan year, rounded to the nearest \$1,000. The assumed plan-related expenses included in the 2017 and 2016 target normal costs are \$438,000, and \$474,000, respectively.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.
Amount and timing of contributions	Contributions are made to meet quarterly and minimum funding requirements.
Funding Policy	Cubic's funding policy is to contribute an amount equal to the minimum required contribution. Cubic considers each year whether to contribute an additional amount (e.g., to reach certain funded status, thresholds to avoid benefit restrictions, at risk status, ERISA 4010 filings or other requirements).

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets [for determining minimum required contributions] Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits with a present value up to \$1,000 in a single lump sum payment. Such lump sums are not explicitly valued; rather, such participants' benefits are valued using the benefit choice assumptions described above.

2017 SCHEDULE SB ATTACHMENTS

Sources of Data and Other Information

The plan sponsor furnished participant data as of 10/01/2017. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Beginning with the October 1, 2016 valuation, the plan-related expenses are the average of the actual administrative expenses for the preceding 3 years, plus the estimated PBGC premium for the current plan year, rounded to the nearest \$1,000.
Rate of increase in assumed return for asset smoothing	The assumed return of 6.70% used for asset smoothing is the expected return on assets assumption chosen by the client for the 2017 plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2015, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Disability

Disability rates are from a table assumed to be reasonable for the plan's population based on an experience study conducted in 2015, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement

Retirement rates were based on an experience study conducted in 2015, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

The assumed plan-related expenses added to the target normal cost were changed from \$474,000 for the prior valuation to \$438,000 for the current valuation.

Change in methods since prior valuation

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
