DIVAL SAFETY EQUIPMENT, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. Plan description

The following description of the DiVal Safety Equipment, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all the employees of DiVal Safety Equipment, Inc. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The custodian of the Plan's assets is Nationwide Life Insurance Company.

Contributions

An employee of the Company becomes eligible to participate after such employee has completed three months of service and has reached their "Entry Date". Their Entry Date will be the first day of the month following the date they satisfy their service requirements. A participating employee is eligible to receive a contribution under the Plan if they are actively employed on the last day of the Plan Year, regardless of the number of Hours of Service credited during the Plan Year.

In addition, employees who are eligible to participate may elect to contribute any amount up to the annual dollar limit set by the Internal Revenue Service regulations. In accordance with Internal Revenue Service regulations, the maximum employee contribution was $18,500 for 2018 and $18,000 for 2017; participants age 50 years and older were also eligible to defer a "catch-up contribution" of up to $6,000 for 2018 and 2017.

The Company may make a matching contribution equal to a uniform percentage of the employees' salary deferrals. However, any salary deferrals that are "catch-up contributions" will not be matched. The Company made discretionary matches totaling $80,026 and $50,000 for the years ended September 30, 2018 and 2017, respectively.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting of employer contributions under the Plan is calculated based on an employee's length of service, as follows:

Years of Service	Nonforfeitable Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants are immediately 100% vested for the amount in their 401(k) account, which represents amounts attributable to their deferral contributions and related earnings.

Notes receivable from participants

Participants may borrow from their fund accounts up to the lesser of (a) $50,000 reduced by their highest outstanding loan balance during the one year period ending on the day before the date of such loan or (b) 50% of their vested account balance. The notes are secured by the participants' accounts and bear interest at the prime rate plus 2%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

Participants undergoing certain types of financial hardship, as defined by the Plan, may request the Plan administrator to distribute all or a portion of the vested portion of their account. Additionally, participants, at their election, may receive accumulated vested benefits held by the Plan's trustee upon termination of employment. Distributions to participants are available upon the attainment of age 59 ½. Such events are more fully outlined in the Plan document.

Net assets available for benefits included benefits of $1,611,815 and $404,258 due to participants who have terminated employment with the plan sponsor as of September 30, 2018 and 2017, respectively.

Forfeited accounts

Forfeited non-vested accounts are used to reduce any employer contributions for the Plan year. The employer contributions were adjusted by forfeitures of $513 and $3,468 for the years ended September 30, 2018 and 2017, respectively.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expense when incurred. As of September 30, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment on the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Date of management's review of subsequent events

Subsequent events were evaluated through May 14, 2019, which is the date the financial statements were available to be issued.

3. Fair value measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used when Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 or 3 inputs for the periods presented.

Level 1 - The fair value of mutual funds is based on quoted net asset values of the shares reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended September 30, 2018 and 2017 are reported in net appreciation in fair value of investments.

4. Investment Information Certified by Custodian (Unaudited)

Information regarding investments, including notes receivable from participants, as of September 30, 2018 and 2017 and investment income for the years ending September 30, 2018 and 2017 was obtained from and certified by the custodian as complete and accurate.

5. Related party transactions and party in interest transactions

Certain Plan investments are shares of mutual funds managed by Nationwide Life Insurance Company. Nationwide Life Insurance Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for the investment management services amounted to $36,784 and $31,114 for the years ended September 30, 2018 and 2017, respectively.

6. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated August 7, 2001, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expense when incurred. As of September 30, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment on the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Date of management's review of subsequent events

Subsequent events were evaluated through May 14, 2019, which is the date the financial statements were available to be issued.

3. Fair value measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used when Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 or 3 inputs for the periods presented.

Level 1 - The fair value of mutual funds is based on quoted net asset values of the shares reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended September 30, 2018 and 2017 are reported in net appreciation in fair value of investments.

4. Investment Information Certified by Custodian (Unaudited)

Information regarding investments, including notes receivable from participants, as of September 30, 2018 and 2017 and investment income for the years ending September 30, 2018 and 2017 was obtained from and certified by the custodian as complete and accurate.

5. Related party transactions and party in interest transactions

Certain Plan investments are shares of mutual funds managed by Nationwide Life Insurance Company. Nationwide Life Insurance Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for the investment management services amounted to $36,784 and $31,114 for the years ended September 30, 2018 and 2017, respectively.

6. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated August 7, 2001, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
