Retirement Plan for Certain Employees of Anheuser-Busch and InBev USA

Report on the Financial Statements

We have audited the accompanying financial statements of the Retirement Plan for Certain Employees of Anheuser-Busch and InBev USA (the Plan), which comprise the statements of net assets available for benefits as of September 14, 2018 and December 31, 2017 and the related statements of changes in net assets available for benefits for the period ended September 14, 2018 and the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of September 14, 2018 and December 31, 2017, and changes therein for the period ended September 14, 2018 and the year ended December 31, 2017, and its financial status as of December 31, 2017, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Anheuser-Busch, LLC
EIN/PN	43-0161000 / 061
Plan Name	Retirement Plan for Certain Employees of Anheuser-Busch and InBev USA
Valuation Date	January 1, 2018
Enrolled Actuary	James J. Holloman
Enrollment Number	17-06456

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

This schedule SB is for the short plan year beginning on January 1, 2018. A portion of the Retirement Plan for Certain Employees of Anheuser-Busch and InBev USA ("CABI") was spun-off and merged into the Pension Plan for Certain Newark Hourly Employees of Anheuser-Busch, Inc. (EIN / PN 43-0161000 / 035), which was subsequently renamed the Anheuser-Busch Defined Benefit Plan ("ABDB"), on September 13, 2018. The remaining portion of CABI initiated a plan termination as of September 14, 2018, thus creating a short plan year ending on September 14, 2018.

The minimum required contribution for the January 1, 2018 plan year has been calculated reflecting the spinoff and plan termination. Both the annual target normal cost and annual net shortfall amortization installment were allocated between the short plan year and the post-spinoff period. The post spin-off portion will be added to the ABDB's 2018 plan year contribution requirement.

Plan-related expenses

Expected 2018 expenses as provided by Anheuser-Busch (net of PBGC flat and variable rate premiums) plus the expected 2018 PBGC flat and variable rate premiums, rounded up to the nearest \$25,000. The amount included this year for plan-related expenses (prior to the spin-off and plan termination) is \$225,000 (prior year was \$650,000). The amount attributable to the short plan year in 2018 is \$225,000.

Future increases in Social Security

None.

Future increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit. These limitations do not affect the plan.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

Mortality

For non-disabled participants, separate rates for non-annuitants (based on RP-2000 “Employees” tables without collar or amount adjustments, projected to 2033 using Scale AA) and annuitants (based on RP-2000 “Healthy Annuitants” tables without collar or amount adjustments, projected to 2025 using Scale AA).

Disabled Mortality

For disabled participants: mortality in accordance with Revenue Ruling 96-7.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which active participants retire are shown below. Terminated vested employees are assumed to commence benefits at age 65, except for certain Busch Properties participants, who terminated after 11/18/2008 and were at least age 50 at their termination date, are assumed to commence benefits at age 55.

SCHEDULE SB ATTACHMENTS – PART V – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

ABI Supplemental Portability Benefit Assumption

- No decrements other than mortality and retirement
- Retirement at the average retirement age of the participant's original defined benefit plan
- For the determination of the monthly benefit that would have been payable from the original defined benefit plan had the participant not transferred, the accrued benefit amount and early retirement factor for participants who originally participated in the Western Conference of Teamsters Fund or the New England Teamsters and Trucking Industry Pension Fund are assumed to be equal to the benefit as if they had participated in the Pension Plan for Certain Newark Hourly Employees of Anheuser-Busch, Inc.
- Defined Contribution account balances converted to annuities using whichever following set of assumptions that produces the higher annuity factor:
 - the plan actuarial equivalence basis of 6.50% and UP-84 mortality, or
 - the funding valuation interest rate assumption and 2018 PPA unisex combined mortality
- For Normal Cost calculation, growth of the Defined Contribution account balances at 7.50% and the following contribution rates per hour during the year:

○ Cartersville	4.190
○ Ft. Collins	4.290
○ Williamsburg	4.449
○ Houston Teamsters	5.301

Form of payment

For employees covered by ABI and BPH, 25% of participants are assumed to elect the normal form (single life annuity), 25% of participants are assumed to elect the 75% joint and survivor, and 50% of participants are assumed to elect the 10-year certain (ABI supplemental portability participants are assumed to elect the normal form (single life annuity)).

For IUSA, value is less than \$50,000, 100% of participants are assumed to elect a lump sum. Otherwise, 50% of participants are assumed to elect the normal form (single life annuity) and 50% of participants are assumed to elect the 75% joint and survivor.

Lump sums and 10-year certain are valued using the substitution of annuity form under Proposed IRC §1.430(d)-1(f)(4). The 2018 unisex PPA combined optional post-retirement mortality table is used for conversions.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 90% of eligible participants are assumed to be married (80% for IUSA) and male spouses are assumed to be 3 years older than female spouses.

New or rehired employees

It was assumed that there will be no new or rehired employees.

SCHEDULE SB ATTACHMENTS – PART V – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

At-Risk Calculations

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under their respective plan. For employees covered by ABI or BPH, this is usually the 10-year certain (except for supplemental portability benefit participants of ABI, this is usually the single life annuity). For employees covered by IUSA, this benefit is usually the single life annuity, but for those less than age 55, it is a Lump Sum if the present value is less than \$50,000.

Methods

Valuation date

First day of the plan year

Funding target

Present value of accrued benefits

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year

Asset method

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (3.80% in 2017 and 4.25% in 2016, with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not included in valuation

Actuarial increases for terminated vesteds who deferred commencement past their normal retirement date due to the small number of affected participants.

The benefits for participants that cannot be located and which have been deemed forfeited by the Plan Administrator after reasonable attempts to locate the beneficiary and/or estate are not valued.

Participants who transferred out of a covered location who are currently not vested in their benefits are assumed to immediately terminate employment and not be entitled to a benefit under the plan.

For ABI and BPH, small benefits (with a present value up to \$5,000) can be paid in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants' benefits are valued using the benefit choice assumptions described above.

For ABI, special early retirement incentives available under the plan to certain union employees in the controlled group are not valued due to the assumptions that the probability of the event would be less than 5%, the number who would receive the offer would be fewer than 10 employees, and the resulting liability impact would be de minimis.

For ABI, certain early retirement supplements available under the plan to Local 947 painters who terminate from the company after reaching early retirement are excluded due to the small number of eligible employees.

Sources of Data and Other Information

Employee data and data on persons receiving benefits was supplied electronically by Anheuser-Busch as of 1/1/2018. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, certain assumptions were made for missing or apparently inconsistent data elements and were documented in our memo dated June 25, 2018.

Minimum funding calculations and funded status calculations for the mid-year plan spin-offs and mergers reflect direction provided by Anheuser-Busch.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Conversion rate for 10-year certain and lump sum form of payment	As required by IRC §430, 10-year certain benefits and lump sums are valued using “annuity substitution” so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h). Note that the plan sponsor has decided, as allowed by regulation 1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h). The disabled mortality table used does not project mortality improvements beyond the valuation date.
Termination	<p>Termination rates were based on an experience study conducted in 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by age, gender, service and location because of observed differences in termination rates by these factors.</p> <p>Termination rates for at-risk funding calculations are as required by IRC 430.</p>
Disability	For employees covered by ABI, disability rates were based on a disability incidence developed by W. Alfred Hayes & Co. (former actuary). Given the lack of credible experience for disabled participants in this plan, and the lack of studies of incidence among comparable disabled participants (i.e., comparable demographics and disability definition comparable to plan’s definition), and the materiality of this assumption, there is not a different assumption that the plan actuary believes to be a better estimate.

Retirement

Retirement rates were based on an experience study conducted in 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement rates differ by age, service, and location because of the observed effects these factors have on retirement rates.

Also, retirement rates for at-risk funding calculations are as required by IRC 430.

Benefit commencement date for deferred vested benefits

All deferred vested participants (except for certain BPH participants who are assumed to begin benefits at earlier ages based on their age and date of termination to reflect subsidies available at earlier ages) are assumed to begin benefits at their normal retirement age (or current age if later) because the plan's experience is not considered to be credible and the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

Form of payment

Optional form of payment elections were based on the pension experience study performed in 2011.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described above, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Changes in assumptions since prior valuation

The rates of termination, retirement, and disability for vested transfer employees are assumed to be the same as active participants. The prior assumption was that all immediately terminate.

Changes in methods since prior valuation

Late Retirement

If retirement occurs after the normal retirement date, the late retirement income will be equal to the normal retirement benefit calculated using credited service as of the late retirement date, offset by the actuarial equivalent value of any retirement payments received.

Early Retirement Benefit

Eligibility: Columbus and Merrimack: Age 55 and 10 years of vesting service.
Louisville: Age 55 and 10 years of vesting service, or at any age with 30 years of vesting service.
All Other Locations: Age 55 and 10 years of vesting service.

Monthly Benefit: Columbus: If at least age 62 with at least 10 years of vesting service, or age 60 with at least 20 years of vesting service (effective April 1, 1999), the accrued benefit as of the early retirement date is unreduced.
If at least age 55 with at least 10 years of vesting service, the accrued benefit as of early retirement date is reduced by 1/2 of 1% for each month that early retirement precedes the normal retirement date.
Louisville: Accrued benefit as of early retirement date reduced by 1/2 of 1% for each month that early retirement precedes the Normal Retirement Date.
Effective May 4, 2004 employees who retire with 30 or more years of vesting service receive their accrued benefit without reduction.
All Other Locations: Accrued benefit as of early retirement date reduced by 1/2 of 1% for each month that early retirement precedes the Normal Retirement Date.

Disability Benefit

Eligibility: Total and permanent disability of participant prior to normal retirement date, 10 years of vesting service (5 years for Columbus), and eligible to receive social security disability benefits.

Monthly Benefit: The accrued benefit without reduction for early commencement.

Death Benefits for Participants in Active Service

Eligibility:	Must be a vested participant
Monthly Benefit:	The participant's spouse of at least one year will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had terminated on his date of death (or actual termination date if earlier), survived to his earliest retirement date, elected to commence receiving benefits under the qualified joint-and-50% survivor option, and then immediately died.

Supplemental Portability Benefit

Eligibility:	The participant must be within a collective bargaining unit covered by an Anheuser-Busch –Teamsters National Brewery Conference Master Agreement, or a similar agreement, which includes special job security provisions. The participant must have transferred from a location covered by a defined benefit plan, pursuant to a transfer opportunity described in the agreement, to a new location that does not participate in such plan, and the combined retirement benefit from both the original plan and the new plan is less than the benefit the participant would have received from the original plan had he not transferred. The participant must have 5 years of vesting service and can commence benefits after attaining age 55.
Monthly Benefit:	The participant will receive a monthly benefit equal to the actuarial equivalent value of the benefit that would have been payable from the original defined benefit plan had the participant not transferred, less the actuarial equivalent values of the benefits actually payable to the participant from the original plan and new plan. The provisions for early retirement benefits under the original plan are used when determining the benefit that would have been payable had the participant not transferred.

Significant Events During Plan Year Not Reflected in Valuation

We are not aware of any significant events that occurred after the valuation date and are not reflected in the valuation.

Changes in Plan Provisions Valued Since Last Actuarial Valuation

Effective September 13, 2018, the plan was amended to spin-off a portion of assets and liabilities to the Pension Plan for Certain Newark Hourly Employees of Anheuser-Busch, Inc. The remaining portion of the plan was terminated effective September 14, 2018. Although this amendment was adopted after the valuation date, Anheuser-Busch made an election under IRC Section 412(d)(2) to reflect this amendment in the 2018 valuation. It is therefore reflected in the minimum funding calculations.

Vesting Service

All participants were vested as a result of the plan freeze.

Average Compensation

The participant's average compensation over the five consecutive full calendar years of his covered employment which produces the highest average. Compensation was frozen as of December 31, 2009.

Final Earnings

For former Sundor Plan participants, participant's highest average rate of earnings on any five consecutive January 1 during the last ten years of employment.

Average Social Security Base

The average (without indexing) of the taxable wage bases in effect for each calendar year during the 35 year period ending with the year in which the participant attains Social Security age.

Normal Retirement Benefit

1. Normal Retirement Date: The first of the month coincident with or next following age 65.

2. Monthly Benefit:

1.35% of Average Compensation up to the average Social Security base plus 1.70% of Average Compensation in excess of the average Social Security base multiplied by years of benefit service (not in excess of 35 years).

For Latrobe Brewing Company employees covered under the prior Sundor Plan, a minimum of 2.0% of Final Earnings multiplied by years of benefit service is applied. This minimum cannot be greater than \$50,000.

For former John InBev Inc. Pension Plan participants as of May 1, 1993, accrued benefits under that plan were frozen as of March 31, 1995 and future benefits are earned under InBev USA L.L.C. Pension Plan for Salaried Employees for service after March 31, 1995.

For former BNA participants as of December 31, 2004, accrued benefits under their prior plan were frozen as of December 31, 2004. Effective December 31, 2004, the total accrued benefit for former BNA participants is equal to the greater of the InBev USA benefit on all service or the frozen BNA accrued benefit.

4. Optional Forms of Payment:

Straight life annuity.

75% or 100% joint and survivor annuity.

50%, 75%, or 100% contingent annuitant.

Lump sum if the present value is less than \$50,000.

For former BNA participants, the frozen benefit as of December 31, 2004 is available as a lump sum.

Actuarial equivalence is based on a discount rate of 8.0% and mortality assumption of the UP84 mortality table for all forms other than the lump sum. This option is based on the discount rates and Applicable Mortality Table in IRS 417(e).

Early Retirement Benefit

1. Eligibility: Age 55 and 10 years of vesting service. Completion of seven years of service for any employee of the Latrobe Brewing Company on October 7, 1987. The minimum accrued benefit on May 1, 1989 is available to prior Sundor Plan participants upon the earlier of attainment of age 55 or the date on which combined age plus years of service equals 80.
2. Monthly Benefit: The accrued benefit determined at date of early retirement, reduced 3% per year for each year early retirement date precedes age 62. For Latrobe Brewing Company employees covered under the prior Sundor Plan, the portion of the accrued benefit equal to the minimum accrued benefit on May 1, 1989, is payable unreduced beginning at the eligibility age described above. The accrued benefit in excess of the minimum accrued on May 1, 1989 is reduced as described above. For former BNA participants, the frozen December 31, 2004 benefit is reduced using the prior plan's actuarial equivalent basis.

Service for determining eligibility and early retirement reductions continues to grow for participants who are employed with other divisions of Anheuser-Busch InBev.

Significant Events During Plan Year Not Reflected in Valuation

We are not aware of any significant events that occurred after the valuation date and are not reflected in the valuation.

Changes in Plan Provisions Valued Since Last Actuarial Valuation

Effective September 13, 2018, the plan was amended to spin-off a portion of assets and liabilities to the Pension Plan for Certain Newark Hourly Employees of Anheuser-Busch, Inc. The remaining portion of the plan was terminated effective September 14, 2018. Although this amendment was adopted after the valuation date, Anheuser-Busch made an election under IRC Section 412(d)(2) to reflect this amendment in the 2018 valuation. It is therefore reflected in the minimum funding calculations.

Independent Auditors' Report

Participants and Administrator

Retirement Plan for Certain Employees of Anheuser-Busch and InBev USA

Report on the Financial Statements

We have audited the accompanying financial statements of the Retirement Plan for Certain Employees of Anheuser-Busch and InBev USA (the Plan), which comprise the statements of net assets available for benefits as of September 14, 2018 and December 31, 2017 and the related statements of changes in net assets available for benefits for the period ended September 14, 2018 and the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of September 14, 2018 and December 31, 2017, and changes therein for the period ended September 14, 2018 and the year ended December 31, 2017, and its financial status as of December 31, 2017, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

1. Plan Description

The following description of the Retirement Plan for Certain Employees of Anheuser-Busch and InBev USA (the Plan) provides only general information. Participants should refer to the Plan Document for a complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides normal retirement, early retirement, disability and death benefits to eligible hourly-paid employees at covered operations of the participating employers who have completed one year of service and who are not covered by a collective bargaining agreement under which the participating employers are required to make contributions to another retirement Plan. Employees do not contribute to the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

In September 2018, the Plan spun off and transferred the assets and benefit obligations for certain participants to the Anheuser-Busch Defined Benefit Plan (the A-B Defined Benefit Plan), formerly known as the Pension Plan for Certain Newark Hourly Employees of Anheuser-Busch.

In September 2018, the Plan also transferred monthly benefit payments for the remaining retired participants to an insurance carrier in the amount of \$948 which is included in benefit payments in the statement of changes in net assets available for benefits for the period ended September 14, 2018. Upon completing the transfers of obligations and monthly benefit payments, the Plan was terminated effective September 14, 2018.

Plan Administration

The Plan Administrator was Anheuser-Busch, LLC (the Employer or Company). The Plan's custodian and trustee was The Bank of New York Mellon (Mellon). Mellon held all Plan assets and was responsible for benefit payments from the Anheuser-Busch Companies, LLC Master Defined Benefit Trust (Master Trust) according to information submitted by the Plan Administrator.

Plan Benefits

Plan benefits are determined in accordance with the provisions of each supplement to the Plan Document.

Vesting service is used in determining eligibility for early retirement and disability benefits, as defined in each supplement to the Plan Document.

Notes to Financial Statements (*Continued*)

Expenses of the Plan

Under the Master Trust Agreement with the Trustee, the Company may pay all expenses incurred in the administration of the Plan, including trustee fees, but is not obligated to do so. Trustee expenses not paid by the Company are paid by the Master Trust and proportionately allocated to participating plans. All other direct expenses are paid by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments are reported at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities held by the Master Trust are recorded on a trade-date basis. Investment income from the Master Trust includes rental income from real estate properties and net appreciation in fair value of investments. Rental income is recorded on the accrual basis. Net appreciation in fair value of investments includes the gains and losses on investments bought and sold as well as held during the year.

Allocation of Assets in Master Trust

The Master Trust was established for the investment of the Plan's assets and certain other Company sponsored retirement plans.

RETIREMENT PLAN FOR CERTAIN EMPLOYEES OF ANHEUSER-BUSCH AND INBEV USA

Notes to Financial Statements (*Continued*)

The interest of each participating plan is represented in units. Each unit represents an undivided interest in the Master Trust. The value of each plan's interest in the Master Trust is based on the beginning of year value of the plan's interest in the trust plus actual contributions and allocated investment income, net of investment expenses, less actual distributions, transfer of assets and allocated administrative expenses. The allocation of investment income and administrative expenses is based on each plan's ownership of Master Trust units at the end of each month.

Payment of Benefits

Benefit payments are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through July 12, 2019, the date which the financial statements were available to be issued.

3. Funding Policy

Pension contributions are funded by the Company. Annually, an independent actuary performs a valuation of the Plan and related trust fund to determine the status of the fund and the normal cost and contribution limits prescribed by ERISA. The methods of valuation employed by the actuary were the Traditional Unit Credit Method for liabilities and a smoothed value for assets. The Plan met the minimum funding requirements of ERISA, as determined by the independent actuary for the Plan period ended September 14, 2018 and year ended December 31, 2017.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and credited service. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered up to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary using the Traditional Unit Credit Method and applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

Notes to Financial Statements *(Continued)*

Significant actuarial assumptions used in the valuation as of January 1, 2018 and 2017 are as follows:

Mortality:

2018 RP-2014 Mortality Tables for males and females, with blue-collar adjustment, projected generationally from 2006 with scale MP-2017 adjusted to reflect a long-term mortality improvement trend of 0.75% reached in 2033 were used.

2017 RP-2014 Mortality Tables for males and females, with blue-collar adjustment, projected generationally from 2006 with scale MP-2016 adjusted to reflect long term mortality improvement trend of 0.75% reached in 2032.

Discount Rate:

2018 4.95%

2017 3.80%

Retirement:

2018 According to a graded retirement schedule based on years of service and age
Years of service – less than 20 years or 20 years or more
Age – ranges from age 55 to age 68

2017 According to a graded retirement schedule based on years of service and age
Years of service – less than 20 years or 20 years or more
Age – ranges from age 55 to age 68

Set forth below is the actuarial present value of accumulated plan benefits as of January 1, 2018:

Actuarial Present Value of Accumulated Plan Benefits

Total Actuarial Present Value of Accumulated Plan Benefits	\$ <u><u>47,653</u></u>

RETIREMENT PLAN FOR CERTAIN EMPLOYEES OF ANHEUSER-BUSCH AND INBEV USA

Notes to Financial Statements *(Continued)*

Set forth below is the changes in accumulated plan benefits for the year ended January 1, 2018:

Actuarial Present Value of Accumulated Plan Benefits at January 1, 2017	\$ 55,672
Increase (decrease) during the year attributable to:	
Benefits accumulated	143
Actuarial losses	(400)
Decrease in the discount period	2,057
Benefits paid	(3,359)
Change in actuarial assumptions	<u>(6,460)</u>
Net decrease	<u>(8,019)</u>
Actuarial Present Value of Accumulated Plan Benefits at January 1, 2018	\$ <u>47,653</u>

As noted in Note 1, during 2018 the Plan transferred monthly benefit payments for certain retired participants to an insurance carrier in September 2018. Additionally, in September 2018, the Plan spun off and transferred the assets and benefit obligations for certain participants to the A-B Defined Benefit Plan. The actuarial present value of accumulated plan benefits as of January 1, 2018 does not reflect the effect of these amendments.

Direct Financing Lease

The Company has contributed real estate properties to the Master Trust, which are leased back to the Company through a direct financing lease. Revenue from the direct financing lease is recognized over the lease term on the interest method, which results in a level rate of return on the net investment in the lease.

The components of the Master Trust's direct financing lease at September 14, 2018 and December 31, 2017 are as follows:

	<u>2018</u>	<u>2017</u>

Fair Value Measurements

The Master Trust follows current accounting guidance, which provide a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability; and• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements (*Continued*)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for investments measured at fair value:

Collective Trust Funds

Valued at the net asset value (NAV) of units in the collective trust funds. The NAV, as provided by the collective trust funds, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Real Estate Properties

The fair value of the real estate properties held is valued on the basis of its market value based upon independent appraisals of each property conducted by an independent, MAI-certified appraiser. The appraisals were based upon a combination of the sales comparison and income capitalization approaches, consistent with prior year. The appraiser takes into account historical and projected cash flow, the terms of the lease on the property and comparable sales, and as a result, the investment is classified as a Level 3 asset in the fair value hierarchy.

The valuation process involves the Plan's independent fiduciary's selection of an independent, MAI-certified appraiser. The independent fiduciary and representatives of the tenants accumulate the data concerning the properties for the appraiser. The appraiser prepares draft reports for each property which the Plan's independent fiduciary reviews in detail and discusses with the appraiser. The final report for each property is approved by the independent fiduciary and delivered to the Plan's Trustee. Management reviews the results of the certified appraisals and believes the results are fairly stated.

Short-Term Investments

Short-term investments are considered to be cash equivalents due to their short maturities and are valued at cost, which approximates fair value.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, investments measured at fair value on a recurring basis of the Master Trust at September 14, 2018 and December 31, 2017:

September 14, 2018 (Dollars in thousands)				
	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)	Total
Investments in the fair value hierarchy				
Short-term investments	\$ -	37,590	-	37,590
Real estate properties	-	-	189,930	189,930
Investments measured at NAV (a)	-	-	-	1,159,957
Total investments at fair value	\$ -	37,590	189,930	1,387,477
December 31, 2017 (Dollars in thousands)				
	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)	Total
Investments in the fair value hierarchy				
Short-term investments	\$ -	31,993	-	31,993
Real estate properties	-	-	189,930	189,930
Investments measured at NAV (a)	-	-	-	1,197,863
Total investments at fair value	\$ -	31,993	189,930	1,419,786

- (a) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table sets forth the basic valuation methodologies used in arriving at fair value for unobservable inputs as of September 14, 2018 and December 31, 2017:

<u>Description</u>	<u>Fair Value</u>	<u>Principal Valuation Techniques</u>	<u>Unobservable Inputs</u>	<u>Rate or Criterion Applied</u>
Distribution warehouses and offices	\$ 189,930	Sales Comparison Approach	Comparable property sales	Similar geographic market, similar use, size, condition, recently sold
			Adjustments for property rights, conditions of sale, market conditions, location, access/exposure, size, parking, age/condition/quality, ceiling height, building/land ratio, utility and economic conditions	Range of overall adjustments: -56% to 45%
			Range of unadjusted/adjusted values per rentable square foot	Unadjusted/SF: \$54-\$226 Adjusted/SF: \$54-\$220
		Income Capitalization Approach	Comparable rental rates	Similar geographic market, similar use, size, condition
			Adjustments for property rights, market conditions, location, access/exposure, size, ceiling height, age/condition/quality, and building/land ratio	Range of overall adjustments: various
			Range of unadjusted/adjusted values per rentable square foot	Adjusted/SF: \$1.00-\$15.00
			Comparable capitalization rates	4.75%-8.00%

There have been no changes in the valuation methodologies used at September 14, 2018 and December 31, 2017.

6. Transactions with Parties-In-Interest

The Master Trust holds investments in collective trust funds managed by the Trustee. Therefore, these transactions are allowable party-in-interest transactions under ERISA.

The Master Trust also holds operating properties that are leased to the Company. The fair value of the properties at September 14, 2018 and December 31, 2017 was \$189,930. The Master Trust received rental payments for the period ended September 30, 2018 and the year ended December 31, 2017 of \$8,234 and \$12,073, respectively. These transactions are allowable party-in-interest transactions under ERISA.
