# RTS Packaging, LLC Consolidated Pension Plan

## Notes to Financial Statements

---

### 1. Description of Plan

The following description of the RTS Packaging, LLC Consolidated Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a complete description of the Plan’s provisions.

#### **General**

RTS Packaging, LLC (the “Company” or “Plan Sponsor”) sponsors the Plan. The Plan is a non-contributory defined benefit plan covering a substantial portion of employees of the Company that are specifically listed in the Plan document. The Plan was formed on January 1, 1998 from assets and liabilities spun off from certain Rock-Tenn Company pension plans and the Retirement Plan of Sonoco Products Company pursuant to the joint venture agreement between Rock-Tenn Company and Sonoco Products Company. Eligible participants must complete one year of vested service and be at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Plan Sponsor’s Retirement Plan Administrative Committee (the “Committee”). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investments and monitors investment performance.

#### **Pension Benefits and Vesting**

The Plan provides normal retirement benefits for its participants as of the first day of the month following the attainment of age 65. Early retirement benefits are provided to eligible participants as early as age 55 and extended retirement benefits are provided for those electing continued employment past normal retirement. Accrued benefits are fully vested upon completion of five years of service.

Effective January 1, 2016, the Plan froze pension benefit accruals and service, except to those participants under terms of a collective bargaining agreement incorporated into the Plan.

#### **Funding Policy**

Contributions to the Plan by the Company are based on what is needed to provide definitely determinable benefits to Plan participants. Actuarial assumptions and computations are required to determine such contributions. Employer contributions receivable represent those contributions remitted to the Plan after its September 30<sup>th</sup> year-end and typically consist of a) the Company’s quarterly contribution due each October following its year-end and b) the Company’s final contributions generally made May or June following its year-end and prior to the Company’s funding deadline to meet applicable funding targets. The Plan’s funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company’s contributions for 2018 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

### 2. Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

#### **Basis of Accounting**

### ***Accounting Pronouncement to be Adopted***

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2017-06, *Employee Benefit Plan Master Trust Reporting* ("ASU 2017-06"). It is effective for fiscal years beginning after December 15, 2018. The amendments require reporting entities to report a plan's interest in a master trust and the change in the value of that interest as separate line items on the statement of net assets available for benefits and the statement of changes in net assets available for benefits, respectively. Additionally, the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances, must be disclosed. Lastly, investments measured at fair value must be disaggregated by general type of investment. The Company is currently evaluating the impact of ASU 2017-06 on the financial statements and related disclosures.

### ***Use of Estimates***

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

### ***Investment Valuation and Income Recognition***

All of the Plan's assets are held in the WestRock Company Master Retirement Trust ("Master Trust"), which held assets on behalf of the WestRock Company Consolidated Pension Plan and the RTS Packaging, LLC Consolidated Pension Plan.

Investments held by the Plan are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Security transactions involving the purchase or sale of investments of the Master Trust are accounted for on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### ***Payment of Benefits***

Benefit payments are recorded upon distribution.

### ***Administrative Expenses***

Administrative expenses include investment manager fees, benefit payment service charges, actuarial, trustee, and audit fees as well as commissions and fees paid in connection with securities transactions and the Pension Benefit Guaranty Corporation (the "PBGC") premiums. These administrative expenses are paid from the assets of the Master Trust and allocated to each participating plan. Such expenses are allocated monthly either specifically to the plan they relate to or to each participating plan based on their relative beginning of year net asset balances.

## **3. Interest in WestRock Company Master Retirement Trust**

The Plan assets are held in the Master Trust under the terms of a trust agreement. The Northern Trust Company is the trustee of the Plan for the years ended September 30, 2018 and 2017. Each participating plan has an undivided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of the time the plan's assets were invested in the master

## 4. Fair Value Measurements

The FASB has established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below:

**Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

# RTS Packaging, LLC Consolidated Pension Plan

## Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the valuation methodologies used at September 30, 2018 and 2017.

The following tables summarize the Master Trust's assets carried at fair value as of September 30, 2018 and 2017:

### **Transfers between Levels**

The availability of observable market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. During the fiscal year ended September 30, 2018, the Plan had no transfers between levels.

### 6. Plan Termination

Should the Plan terminate at some future time, its net assets generally may not be available to provide full benefits to all participants. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. For further description regarding the priority of participants' claims to the assets of the Plan upon Plan termination and benefits guaranteed by the PBGC, reference is made to the information included in the Plan document available to all participants.

### 7. Accumulated Plan Benefits Obligation

The accumulated plan benefits obligation represents estimated future periodic payments, including lump-sum distributions, to be made in accordance with the Plan's provisions with respect to service which employees have rendered to the valuation date. It includes benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits are based on the monthly benefit amount designated by the Plan and in effect at the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The effect of plan amendments on accumulated plan benefits is recognized in the year in which such amendments become effective.

The actuarial present value of the accumulated plan benefits obligation is determined by an independent actuary and represents the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits obligation to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of October 1, 2017 were as follows for the Westrock Company Consolidated Pension Plan:

Disability incidence, retirement age rates, withdrawal rates, vested deferred benefit commencement age, percent married, spousal age difference, or form of payment assumptions were updated based on experience study undertaken in 2015.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of October 1, 2017. Had the

## 8. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

## 9. Income Tax Status

The Plan received a determination letter from the Internal Revenue Service dated March 20, 2017, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the "Code").

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## RATIONALE FOR DEMOGRAPHIC ASSUMPTIONS

- Disabled Mortality – Post- commencement mortality assumed to follow Revenue Ruling 96-7 tables for participants who became disabled after 1994 since this is the most recently published study with useful and applicable underlying data.
- Withdrawal – The ultimate withdrawal rates are based on the Mercer Modified Society of Actuaries 2003 10-year select and ultimate turnover table for 10+ years of service, with modifications to smooth rates. The select and ultimate rates are based on the experience study undertaken in 2015 using data from October 1, 2009 through October 1, 2014.
- Disability incidence - The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates multiplied by 50% based on the experience study undertaken in 2015 using data from October 1, 2009 through October 1, 2014.
- Retirement rates – The retirement rates are based on the experience study undertaken in 2015 using data from October 1, 2009 through October 1, 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- Deferred vested benefit commencement age – The benefit commencement age is based on the experience study undertaken in 2015 using data from October 1, 2009 through October 1, 2014.

*Schedule SB, Part V — Statement of Actuarial Assumptions/Methods*

- Spousal age difference – The assumptions regarding spousal age difference at benefit commencement are based on the experience study undertaken in 2015 using data from October 1, 2009 through October 1, 2014.
- Percent married – The assumptions regarding percent married at benefit commencement are based on the actuary's experience with similar plans and discussions with employer representatives.
- Form of payment – The optional payment elections are based on the experience study undertaken in 2015 using data from October 1, 2009 through October 1, 2014, which showed that 100% of participants elect an annuity. 40% of annuitants are assumed to elect a single life annuity, 30% elect a 50% joint and survivor and 30% elect a 100% joint and survivor based on experience and noting that all forms of payment are based on the same definition of actuarial equivalence.

**ACTUARIAL METHODS FOR FUNDING****Asset Methods**

We used financial data submitted by the trustee as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

**Participant Methods**

Participants or former participants are included or excluded from the valuation as described below:

*Schedule SB, Part V — Statement of Actuarial Assumptions/Methods*

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

**Minimum Funding Methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

*Schedule SB, Part V — Summary of Plan Provisions*

Effective September 30, 2010, the RTS Packaging, LLC Pension Plan was merged into the RTS Packaging, LLC Pension Plan for Certain Wage Hour Employees and the name of the merged plan was changed to the RTS Packaging, LLC Consolidated Pension Plan.

After the plan merger, current and future plan participants will accrue benefits under the component plan in which they participated or would have participated prior to the merger. Shown below is a summary of the major plan provisions of each component plan.

Effective December 31, 2015, the Plan froze benefits for all salaried and non-union participants.

The Plan was amended to temporarily allow certain eligible terminated vested participants to receive their benefits from the Plan in the form of a lump sum payment on December 1, 2016. The window to elect this lump sum expired in November 2016. 23 participants elected the lump sum and were paid in December 2016.

One location (Merced) previously participating in the Pace Industry Union-Management Pension Fund ("PIUMPF") multi-employer pension plan withdrew from PIUMPF effective December 31, 2017 and began accruing benefits under the RTS Packaging, LLC Consolidated Pension Plan. As of December 31, 2017 an additional 50 active participants became participants in the RTS plan. All of the participants were also granted a past service benefit equal to \$3/month times service earned under PIUMPF through December 31, 2017.

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

**PLAN PROVISIONS SPECIFIC TO FUNDING****Additional Benefits Included or Excluded**

- **IRC Section 436 benefit restrictions:**
