Note 1 - Plan Description

The following description of Kodiak BP 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established in January 2014, covering all eligible employees age 18 years or older who have completed six months of service. Employees may enter the Plan on the first day of the month following the date they satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Eligible employees are automatically enrolled at a deferral rate equal to 3 percent of eligible compensation. Employees automatically enrolled in the Plan receive automatic deferral increases annually of 1 percent up to 10 percent.

Kodiak BP, LLC (the "Company's) administers the Plan. American United Life Insurance Company (AUL) serves as the Plan's third-party administrator, serves as trustee and manages plan assets, and maintains the Plan's records. AUL offers plan participants a variety of investment options through various pooled separate accounts and an investment contract. Individual accounts are invested in the various investment options at the direction of the participants.

During 2018, the Plan was restated to allow the employees of American Builders Supply, Inc.; Specialty Appliances, Inc.; KBP Building Materials, LLC; FL Keys Acquisition, LLC; Multi-Family Products, Inc.; and KBP Northwest LLC to participate in the Plan. The American Builders Supply, Inc. 401(k) Plan was liquidated, and all assets were transferred into the Plan during 2018. Employees from the other newly participating entities have the option to roll their balances into the Plan at their discretion.

See Note 7 for the plan amendment entered into subsequent to year end.

Contributions

The Plan provides for employee salary deferral contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan allows participants to contribute a percentage of their compensation on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company may contribute a discretionary matching contribution. During the year ended December 31, 2018, the Company elected to contribute a discretionary matching contribution of 33 percent of elective deferrals up to 6 percent of eligible compensation for the 2018 plan year. The employee must be participating on the last day of the plan year in order to receive the discretionary matching contribution. The discretionary matching contribution is funded in a one-time payment following the plan year. For the year ended December 31, 2018, the Company approved discretionary employer contributions of $1,173,942. The Company has the right to designate all or a portion of the matching contribution as qualified. To the extent matching contributions are so designated, they are nonforfeitable and may not be withdrawn from the Plan prior to the separation from service or attainment of age 59½.

The Company may also contribute a nonelective discretionary profit-sharing contribution, which is allocated based on the same ratio of each participant's eligible compensation to the total of such eligible compensation for all participants. The Company did not make employer nonelective discretionary profit-sharing contributions for the year ended December 31, 2018.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. A participant is 100 percent vested in the employer discretionary match and discretionary nonelective portion of his or her account after three years of credited service.

Note 1 - Plan Description (Continued)

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. The participant may elect to receive a distribution in one of the following ways: single lump-sump payment, partial withdrawal payment, or installment payment.

Participants may request that all or a portion of their accounts be distributed in the case of financial hardship, as defined in the plan document. The plan administrator must approve any such hardship withdrawals.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. At December 31, 2018 and 2017, forfeited account balances totaled $69 and $0, respectively.

Forfeitures totaling approximately $7,907 were applied to Plan expenses during the year ended December 31, 2018.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.50 percent, which are commensurate with local prevailing rates, as determined quarterly by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Administration

The Company is the sponsor of the Plan. The administrative committee, as provided in the plan agreement, is the Plan administrator and has responsibility for the administration of the Plan. AUL functions as custodian and investment manager. Investment management fees are paid by the Plan in accordance with the plan agreement.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by AUL or its affiliates. AUL is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The pooled separate accounts are valued at net asset value (NAV) per share.

The fully benefit-responsive investment contract is valued at contract value. See Note 4 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Contributions Receivable and Contributions from Employers

Contributions receivable of the Plan include amounts to be collected from employers for hours worked prior to December 31, 2018 of each year.

Contributions from employers are recognized in the plan year in which members provide services, except where collection is doubtful, in which case they are recorded upon receipt of the contribution.

Administrative Expenses

Various administrative costs are paid by the Company.

Valuation of Investments and Income Recognition

Investments are recorded at fair value, as reported to the Plan by the custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefit and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Additionally, some investments held by AUL are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the years ended December 31, 2018 and 2017, four and three investments accounted for 59 percent and 35 percent of investment income, respectively. At December 31, 2018 and 2017, four and three investments accounted for 66 percent and 62 percent of total investments at fair value, respectively.

Reclassification and Restatement

In 2018, it was determined that the Stable Value Account is a benefit-responsive unallocated investment contract valued at contract value. Previously, the Stable Value Account was classified as a collective trust fund valued at fair value based on net asset value per share. Additionally, it was determined that the investments classified as mutual funds were pooled separate accounts, valued at fair value based on net asset value per share. As a result, the statement of net assets available for benefits as of December 31, 2017 has been restated to classify these investments correctly. The fair value disclosure (see Note 4) has also been restated to reflect the pooled separate accounts as valued at net asset value per share and to remove the stable value account, as it is valued at contract value. Lastly, Note 5 includes disclosures for the benefit-responsive investment contract held by the Plan.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including July 16, 2019, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

AUL holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by AUL.

Note 4 - Fair Value Measurements

Investments measured at net asset value at December 31, 2018 and 2017 were as follows:

	2018	2017
Equity investments (1)	$ 6,912,674	$ 5,220,973
Fixed-income investments (2)	371,855	291,948
Retirement year-based investments (3)	21,829,531	18,188,612
Real estate investments (4)	219,368	292,002
Total	$ 29,333,428	$ 23,993,535

(1) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities, which may include common stocks, options, and futures.

(2) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

Note 4 - Fair Value Measurements (Continued)

(4) This class represents investments in actively managed pooled separate accounts with investments in real estate. The investments may include real estate property or real estate investment trusts.

There were no unfunded commitments or redemption restrictions on the investments described above.

Note 5 - Investment Contracts

The Plan has a benefit-responsive investment contract with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest rate is applied to all contributions made to the product, regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting. When establishing interest crediting rates for this product, AUL considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer’s general account.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Note 6 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 7 - Subsequent Events

On January 1, 2019, the Plan was amended and restated in its entirety. This restated Plan allows for an equivalency method for vesting rather than using actual hours of service for commissioned employees working at least 190 hours per month. Employees who meet this requirement will fully vest in employer contributions after attaining three years of service under these terms.

Note 8 - Reconciliation to Form 5500

Contributions for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2017 due to the accrual of employer and participant contributions in the prior year.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
