A. DESCRIPTION OF PLAN

The following description of the Custom Leasing, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan documents for a complete description of the plan's provisions.

1. General

The Plan is a defined contribution plan covering substantially all employees of Custom Leasing, Inc. (the Company) who have one year of service and are age 21 or older. Plan entry date is the first day of the Plan year quarter coinciding with or next following the date eligibility is met. The original Plan was established effective January 1, 1994 by the Company for the benefit of its employees and the employees of any affiliated employer to qualify under Section 401(k) of the Internal Revenue Code (IRC). The Plan was amended and restated on January 1, 2015 and amended on November 30, 2018. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Company management is responsible for oversight of the Plan. The custodian and investment advisor determine the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's management.

2. Contributions

Each year, participants may contribute before tax deferrals to the Plan, up to 100% of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may elect to make discretionary matching and discretionary profit-sharing contributions each year. The Company did not make any discretionary contributions for the year ended December 31, 2018. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's discretionary matching and discretionary profit-sharing contributions, as well as allocations of the Plan's earnings and losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. DESCRIPTION OF PLAN (Continued)

4. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on continuous years of service. A year of service is defined as 1,000 hours of service during a plan year. Company discretionary matching and discretionary profit-sharing contributions are vested over a six year period pursuant to the following schedule:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years but less than 3 years	20%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years or more	100%

5. Notes Receivable from Participants

Participants may borrow from their fund accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate will be based on the Prime rate plus 1% at the date the loan is executed. Principal and interest is paid ratably through weekly payroll deductions.

6. Payment of Benefits

On termination of service, death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account or installment payments over a specified period of time (annually, quarterly or monthly), not exceeding the participants' life expectancy or joint life expectancy with their designated beneficiary, or as part lump sum and part installment payments.

7. Forfeited Accounts

At December 31, 2018 and 2017, there were no forfeited non-vested accounts. In the event of forfeitures, these accounts will be used to pay future Plan expenses. Any forfeitures left after paying Plan expenses will be used to reduce future employer contributions. During 2018, no forfeitures were used to reduce Plan expenses or employer contributions.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Application of New Accounting Standards

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefits Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures; and III. Measurement Date Practical Expedient (ASU 2015-12). This three-part ASU simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this ASU eliminate the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value (NAV) per share using the practical expedient in the FASB Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures (ASC 820). Part III of the ASU provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. The amendments in Parts I and II of this standard are effective retrospectively for fiscal years beginning after December 15, 2015. The amendments in Part III of this standard are effective prospectively for fiscal years beginning after December 15, 2015. The Company elected to adopt all parts of ASU 2015-12 for the year ended December 31, 2017.

Other than the elimination of the above noted disclosures and the elimination of the reconciliation of contract value to fair value, the adoption of the ASU did not have a material impact on the financial statements.

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2015-17), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016. The Plan adopted the guidance issued in ASU 2015-07 for the year ended December 31, 2017. The Plan adopted the guidance retrospectively, which removes investments measured using the NAV per share practical expedient from the fair value hierarchy in all periods presented. The adoption of this accounting guidance did not have a material impact on the Plan's financial statements.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Payments of Benefits

Benefits are recorded when paid.

7. Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative fees on the statement of changes in net assets available for benefits. Investment related expenses are included in net depreciation of fair value of investments on the statement of changes in net assets available for benefits.

C. CUSTODIAN CERTIFICATION AND ADMINISTRATIVE SERVICES

The Plan has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Nationwide Financial Services, Inc. (the Custodian) provide services which included executing participants' investment transactions and the payment of benefits. The Custodian provided the 2018 and 2017 fund summaries by investment type to the administrators, which was used to prepare the Plan's financial statements.

The following information, included in the accompanying financial statements, was obtained from data that has been prepared and certified to as complete and accurate by the Custodian as of and for the year ended December 31:

	2018	2017
Investments, at fair value	$ 2,305,553	$ 2,354,096
Notes receivable from participants	$ 85,272	$ 94,315
Net depreciation in fair value of investments	$ (136,159)	
Interest income on notes receivable from participants	$ 4,488	

The Company pays certain Plan accounting and administrative fees. The Company incurred $16,745 for accounting and administrative fees during the year ended December 31, 2018. These fees are not reflected in the accompanying financial statements.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, (ASC 820) defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not assumptions specific to the entity.

ASC 820 specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon the market data obtained from independent sources (observable inputs). In accordance with ASC 820, the following summarizes the fair value hierarchy:

Level 1 Inputs – Unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access.

Level 2 Inputs – Inputs other than the quoted market prices in active markets that are observable either directly or indirectly.

Level 3 Inputs – Inputs based on prices or valuation techniques that are unobservable and significant to the overall fair value measurements.

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

While the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methods or assumptions to estimate the fair value of certain financial statement items could result in a different estimate of fair value at the reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such items existed, or had such items been liquidated, and those differences could be material to the financial statements.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Assets Measured at Fair Value

The following are the major categories of assets measured at fair value on a recurring basis as of December 31, 2018:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,305,553	$ -	$ -	$ 2,305,553

The following are the major categories of assets measured at fair value on a recurring basis as of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,354,096	$ -	$ -	$ 2,354,096

Due to their short-term nature, the carrying value of short-term receivables approximate their fair value as of December 31, 2018 and 2017.

Transfers Between Levels

For the year ended December 31, 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

E. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

F. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

G. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the Custodian and therefore these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments on the statement of changes in net assets available for benefits, as they are paid through revenue sharing, rather than direct payment. The Company pays directly any other fees related to the Plan's operations. These party in interest transactions are exempt from the prohibited transactions rules of ERISA.

H. INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Sherman & Howard L.L.C. (S & H). S & H received an opinion letter from the IRS, dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

I. SUBSEQUENT EVENTS

The Plan's management has evaluated subsequent events through July 16, 2019, the date on which the financial statements were available to be issued.
