A. Description of Plan

The following description of the Runde Chevrolet, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Adopting employers of the Plan includes Runde Chevrolet, Inc. and Runde Auto Group of Iowa, Inc. (the "Companies").

1. *General.* The Plan is a defined contribution salary deferral plan which provides an individual account for each participant and provides benefits upon retirement that are based on the amounts contributed by the employee and employer plus earnings on those contributions less any plan administrative expenses. The Plan was established on January 1, 1996. The Plan covers all employees of the adopting employers. The trustee and administrator are responsible for oversight of the Plan and determine the appropriateness of the Plan's investment offerings and monitors investment performance.

   For purposes of elective deferral contributions and employer match contributions, a participant becomes eligible to participate in the Plan following one year of service and attainment of age 21, as defined in the Plan Agreement. The Plan entry dates are the first day of each plan year and the first day of the seventh month of each plan year.

2. *Contributions.* Participant contributions consist of pre-tax elective deferrals and Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may contribute pre-tax elective deferrals and Roth contributions up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Employer contributions include matching contributions, discretionary contributions and discretionary matching contributions. Contributions are subject to certain limitations.

   The employer matching contribution is 50% of the first 6% of the employee deferral. Employer discretionary contributions are allocated to participants employed on the last day of the Plan year. In order to be eligible for the matching and discretionary contributions, employees must be employed on the last day of the plan year and have worked more than 1000 hours during the plan year.

   The Company has an automatic enrollment feature that provides that newly eligible employees that do not affirmatively elect to contribute or not to contribute to the Plan will be automatically enrolled in the plan at a deferral rate of 3%.

3. *Participant accounts.* Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of Plan (Continued)

4. *Vesting.* Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

5. *Notes receivable from participants.* Participant loans are not permitted by the Plan at this time.

6. *Payment of benefits.* On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or as an annuity. Distributions may be deferred until the participant reaches the age of 70 ½ if the value of the distribution is not less than $5,000.

   In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferrals and may not include any earnings thereon. Participants can elect to withdraw after-tax contributions at any time.

7. *Forfeiture accounts.* At December 31, 2018 and 2017, forfeited non-vested accounts totaled $1,166 and $102, respectively. These accounts will be used to reduce future employer matching contributions.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fidelity Personal Trust Company, FSB, the trustee of the Plan, determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

B. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are not permitted by the Plan at this time.

Payment of Benefits

Benefits are recorded when paid.

Expenses

The Plan pays HK Financial Services for Plan administrative services, such as recordkeeping, investment management and third party administration. The Plan also pays Fidelity Personal Trust Company, FSB for custodian and trading services. The Plan's expenses may also be offset by revenue sharing payments, employer payments or forfeitures. Fees are charged to the participant's account or billed to the plan for these administrative fees. Expenses paid by the Plan in 2018 and 2017 were $50,214 and $42,870, respectively.

Subsequent events

The Plan has evaluated subsequent events through June 24, 2019, the date the financial statements were available to be issued.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

C. Fair Value Measurements (Continued)

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be activity traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

C. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017.

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total

Corporate bonds	-	-	-	-
U.S. government securities	-	-	-	-
Investments at fair value	$ 6,896,011	$ -	$ -	$ 6,896,011

D. Related-Party Transactions and Party in Interest Transactions

The Plan's investments include shares of mutual funds managed by Fidelity Personal Trust Company, FSB, the trustee of the Plan, therefore, these transactions qualify as party-in-interest transactions.

E. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions

F. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

F. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. Reconciliation of Financial Statements to Form 5500

The Plan's financial statements are prepared on the accrual basis of accounting and the Form 5500 is prepared on the cash basis of accounting.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017, to Form 5500:

	2018	2017
Net assets available for benefits per the financial statements	$ 6,842,888	$ 7,044,447
Less contribution receivables	155,579	148,436
Net assets available for benefits per the Form 5500	$ 6,687,309	$ 6,896,011

The following is a reconciliation of contributions per the financial statement at December 31, 2018 to Form 5500:

	2018
Contributions per the financial statements	$ 475,745
Contribution receivables at December 31, 2018	(155,579)
Contribution receivables at December 31, 2017	148,436
Contributions per the Form 5500	$ 468,602

I. Information Certified by the Trustee

A. Description of Plan

The following description of the Runde Chevrolet, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Adopting employers of the Plan includes Runde Chevrolet, Inc. and Runde Auto Group of Iowa, Inc. (the "Companies").

1. *General.* The Plan is a defined contribution salary deferral plan which provides an individual account for each participant and provides benefits upon retirement that are based on the amounts contributed by the employee and employer plus earnings on those contributions less any plan administrative expenses. The Plan was established on January 1, 1996. The Plan covers all employees of the adopting employers. The trustee and administrator are responsible for oversight of the Plan and determine the appropriateness of the Plan's investment offerings and monitors investment performance.

   For purposes of elective deferral contributions and employer match contributions, a participant becomes eligible to participate in the Plan following one year of service and attainment of age 21, as defined in the Plan Agreement. The Plan entry dates are the first day of each plan year and the first day of the seventh month of each plan year.

2. *Contributions.* Participant contributions consist of pre-tax elective deferrals and Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may contribute pre-tax elective deferrals and Roth contributions up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Employer contributions include matching contributions, discretionary contributions and discretionary matching contributions. Contributions are subject to certain limitations.

   The employer matching contribution is 50% of the first 6% of the employee deferral. Employer discretionary contributions are allocated to participants employed on the last day of the Plan year. In order to be eligible for the matching and discretionary contributions, employees must be employed on the last day of the plan year and have worked more than 1000 hours during the plan year.

   The Company has an automatic enrollment feature that provides that newly eligible employees that do not affirmatively elect to contribute or not to contribute to the Plan will be automatically enrolled in the plan at a deferral rate of 3%.

3. *Participant accounts.* Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of Plan (Continued)

4. *Vesting.* Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

5. *Notes receivable from participants.* Participant loans are not permitted by the Plan at this time.

6. *Payment of benefits.* On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or as an annuity. Distributions may be deferred until the participant reaches the age of 70 ½ if the value of the distribution is not less than $5,000.

   In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferrals and may not include any earnings thereon. Participants can elect to withdraw after-tax contributions at any time.

7. *Forfeiture accounts.* At December 31, 2018 and 2017, forfeited non-vested accounts totaled $1,166 and $102, respectively. These accounts will be used to reduce future employer matching contributions.

B. Summary of Accounting Policies

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fidelity Personal Trust Company, FSB, the trustee of the Plan, determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

B. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are not permitted by the Plan at this time.

Payment of Benefits

Benefits are recorded when paid.

Expenses

The Plan pays HK Financial Services for Plan administrative services, such as recordkeeping, investment management and third party administration. The Plan also pays Fidelity Personal Trust Company, FSB for custodian and trading services. The Plan's expenses may also be offset by revenue sharing payments, employer payments or forfeitures. Fees are charged to the participant's account or billed to the plan for these administrative fees. Expenses paid by the Plan in 2018 and 2017 were $50,214 and $42,870, respectively.

Subsequent events

The Plan has evaluated subsequent events through June 24, 2019, the date the financial statements were available to be issued.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

C. Fair Value Measurements (Continued)

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be activity traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

C. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017.

D. Related-Party Transactions and Party in Interest Transactions

The Plan's investments include shares of mutual funds managed by Fidelity Personal Trust Company, FSB, the trustee of the Plan, therefore, these transactions qualify as party-in-interest transactions.

E. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions

F. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

F. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. Reconciliation of Financial Statements to Form 5500

The Plan's financial statements are prepared on the accrual basis of accounting and the Form 5500 is prepared on the cash basis of accounting.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017, to Form 5500:
