NOTE 1

DESCRIPTION OF THE PLAN

The following summary description of the MegaMex Foods, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General:

MegaMex Foods, LLC (the "Company" or the "Employer") established the Plan to provide employees with a systematic means of savings and investing for the future.The Plan is a type of qualified retirement plan commonly referred to as a 401(k) Plan covering all eligible employees of the Company. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was adopted on April 1, 1985, and reinstated December 1, 1997. The Company's Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investments, monitors investment offerings, performance and reports to the Plan's Administrative Committee.

Eligibility:

The employees of the Company who have three months of service and are the age of twenty-one or older are eligible to participate in the Plan.

Participant contributions:

A participant's total contribution for any one calendar year is limited to the maximum annual contribution allowable pursuant to the requirements of section 401(k) of the Internal Revenue Code. The maximum annual contribution limit is $18,500 and $18,000 for 2018 and 2017, respectively.

Catch-up contributions:

All employees who are eligible to make elective deferrals under this Plan and who have attained age 50 before the close of a Plan Year shall be eligible to make catch-up contributions of up to an additional $6,000 from that period forward in 2018 and 2017. Catch-up contributions can occur under three different circumstances as described in the Plan agreement.

Participant accounts:

Each participant's account is credited with the participant's contribution, and allocations of the Employer contributions and administrative expenses. In addition, each participant's account is valued as of each daily valuation date with earnings and losses allocated on the basis of the ratio that a participant's account balance as of the prior valuation date bears to the total account balances of all participants in the same investment, plus any adjustments for transactions since the last valuation date. Each participant is then credited with that percentage of earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. If a participant receives a distribution from the Plan as of any date other than a valuation date, the value of the participant's account will be the value as of the prior valuation date.

Company contributions:

The Company makes matching contributions equal to 100% of active participants elective deferral contributions up to 4% of the participant's compensation. Matching contributions are made for all employees who are active participants at any time during the payroll period.

As of and for the years ended December 31, 2018 and 2017

NOTE 1 - CONTINUED

DESCRIPTION OF THE PLAN

In addition, the Company may make a discretionary contribution each Plan year. The contribution is divided among participants eligible for a contribution on December 31. The participant is eligible if the participant is an active participant and has 1,000 or more hours of services in the Plan year.

Vesting:

Participants are immediately vested in their elective contributions, as adjusted for actual earnings or losses thereon. For Company's matching and discretionary contributions, each participant is immediately vested.

Notes receivable from participants:

Actively employed participants may borrow from their vested accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested account balance. The $50,000 maximum amount will be reduced by the participant's highest outstanding Plan loan balance in the prior twelve months, even if the amounts have been repaid. A participant may have no more than one loan outstanding at any one time. Loans are for a period not exceeding five years, except for loans used to acquire a principal residence of a participant. In such cases, the Plan administrator may permit a longer repayment term. All loans are secured by no more than 50% of the present value of a participant's vested interest in the Plan, with interest rates based on the rates available for similar loans from commercial lending institutions. At December 31, 2018, interest rates on participant loans ranged from 3.50% to 5.25%. At December 31, 2017, interest rates on participant loans ranged from 3.75% to 4.75%. The current value of loans to participants was $299,928 and $279,960, as of December 31, 2018 and 2017, respectively.

Benefit payments:

Vested benefits are payable to participants upon death, disability, severance from employment or reasons of proven financial hardship as defined in the Plan agreement. Benefits are recorded when paid. Benefit payments are made either (a) in the form of a lump-sum distribution or (b) an installment distribution.

For terminated participants whose account is less than $1,000, the entire balance may be distributed in the form of a lump sum payment at the election of the Trustee. Distributions are paid as soon as administratively practicable after the participant terminates. The Plan allows for in-service distributions.

Forfeitures:

Forfeitures occur when participants terminate from the Plan before becoming fully vested in their accounts and are used to reduce future employer matching contributions. As participants are immediately vested for employer's matching and discretionary contributions, there are no forfeited non-vested participant account balances at December 31, 2018 and 2017.

Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

As of and for the years ended December 31, 2018 and 2017

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

The Plan follows the provisions of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 960, *Plan Accounting – Define Benefit Pension Plans,* Topic 962 – *Plan Accounting – Defined Contribution Pension Plans* and Topic 965 – *Plan Accounting – Health and Welfare Benefit Plans* including any updates thereof.

The Plan prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

In preparing these financial statements, we evaluated the period from December 31, 2018 through June 20, 2019, the date the financial statements were available to be issued, for material subsequent events requiring recognition or disclosure in the accompanying financial statements.

Use of estimates:

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the related amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates and assumptions, and such differences may be material to the financial statements.

Notes receivable from participants:

The Plan reports loans to participants in accordance with the FASB ASC 962, *Plan Accounting – Defined Contribution Pension Plans.* ASC 962 requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Fully benefit-responsive investment contracts:

As described by the FASB's guidance on fair value measurements, investment contracts held by a defined-contribution plan are required to be reported at fair value, excluding full benefit-responsive investment contracts which are to be measured at contract value. Contract value is the relevant measurement for the portion of the assets available for benefits for a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The fully benefit-responsive investment contracts in the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017 are $1,442,607 and $1,559,229, respectively.

As of and for the years ended December 31, 2018 and 2017

NOTE 2 - CONTINUED

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment valuation and income recognition:

The Plan's investments are stated at fair value based upon quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan. Any net appreciation or depreciation for the year is reflected in the statements of changes in net assets available for benefits. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Costs and expenses:

Costs and expenses of the Plan that are paid directly by the Plan are included in the statement of changes in net assets available for benefits. Expenses incurred maintaining the Plan that are paid directly by the Employer are excluded from these financial statements. Investment-related expenses are included in the net change in the fair value of investments.

NOTE 3

INCOME TAX STATUS

The Plan has adopted a prototype plan approved by the Internal Revenue Service in its latest determination letter dated March 31, 2014. The prototype plan document was determined to be designed in accordance with the applicable section of the Internal Revenue Code ("IRC"). The Plan has since been amended; however, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has adopted guidance on accounting for uncertainty in income taxes issued by the Financial Accounting Standards Board. Management believes that the Plan has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE 4

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 5

INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN

In accordance with CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), all investment information, including investment income in the accompanying financial statements and supplemental schedule have been certified as complete and accurate by Principal Financial Group, the custodian of the Plan.

As of and for the years ended December 31, 2018 and 2017

INVESTMENTS

Valuation of investments:

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC 820 provides a consistent definition of fair value which focuses on an exit price between market participants in an orderly transaction. ASC 820 also prioritizes, within the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the transparency of information used in the valuation of an asset or liability as of the measurement date. Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level I – Quoted prices are available in active markets for identical investments as of the reporting date. The mutual funds held by the Plan are considered to be actively traded.

Level II – Pricing inputs, including broker quotes, are generally those other than exchange quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies.

Level III – Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include privately held investments and partnership interests.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2018, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

FASB ASC 820 requires disclosure requirements for Levels I and II, and separate disclosures of purchases, sales, issuances, and settlements relating to Level III measurements and clarification of existing fair value disclosures.

As of and for the years ended December 31, 2018 and 2017

NOTE 6 - CONTINUED

INVESTMENTS

Valuation of investments:

The following tables summarize the valuation of the Plan's investments by the ASC 820 fair value hierarchy levels as of December 31, 2018 and 2017:

As of December 31, 2018

	Level I	Level II	Level III	Total
Mutual funds	$ 2,735,575	$ -	$ -	$ 2,735,575
Total investments	$ 2,735,575	$ -	$ -	$ 2,735,575

As of December 31, 2017

	Level I	Level II	Level III	Total
Mutual funds	$ 2,745,857	$ -	$ -	$ 2,745,857
Total investments	$ 2,745,857	$ -	$ -	$ 2,745,857

Investments measured at net assets value:

Pooled Separate Accounts: The fair value of the mutual fund is a publicly quoted pricing input used in determining the net assets value ("NAV") of the pooled separate account ("PSA") which is not public traded. This PSA met the requirement of ASC 820 that allows the NAV per share to serve as a practical expedient to estimate fair value of a PSA. PSA can be redeemed at NAV as of the measurement date.

PSA are credited with income, gains, or losses resulting from the assets allocated to that specific account only.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the funds will sell the investment for an amount different than the reported NAV. Participants transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Fully benefit-responsive investment: The Plan has a benefit-responsive investment contract with Principal Financial Group ("Principal"). Principal maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative fees charged by Principal. The contract is included in the statement of net assets available for benefits at contract value as reported to the Plan by Principal. Contract value is deemed to be fair value. Contract value represents contributions made under the contract plus earnings at the contract rate, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at the contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The net rate, crediting rate and average yield earned are the same on the contract. The crediting interest rate is based on agreed upon formula with the issuer but cannot be less than zero. Such interest rates are reviewed on a quarterly basis for resetting. At December 31, 2018, the average yield and crediting interest rates on the contract were 3.06% and 2.35%, respectively.

The average yield and crediting interest rates on the contract were 2.34% and 1.99%, respectively, at December 31, 2017.

As of and for the years ended December 31, 2018 and 2017

NOTE 6 - CONTINUED

INVESTMENTS

Investments measured at net assets value:

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations; (4) the failure of the Plan to qualify under sections 401(a) and 401(k) of the Internal Revenue Service Code ("IRC") or the failure of the trust to be tax exempt under Section 401(a) of the IRC; or (5) premature termination of the contract. The Plan administrator believes that no events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer, and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer
