The ERM Group Salary Deferral Plan
Notes to the Financial Statements
December 31, 2018 and 2017

Note 1 - Description of the plan

The following description of The ERM Group (“the Company”) Salary Deferral Plan (“the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who are age twenty-one or older. Part-time employees of the Company may participate if they are age twenty-one or older and have completed at least 1,000 hours of service. The Company, as defined in these financial statements and notes, consists of The ERM Group, Inc. and all subsidiaries and affiliated companies. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year, participants may contribute up to fifty percent (50%) of pretax annual compensation, as defined in the Plan, subject to a maximum dollar limit which is set by law. The maximum contribution amount was \$18,500 and \$18,000 for 2018 and 2017, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contribution percentages may be changed by participants at any time throughout the year. The company match is a discretionary contribution. The Company matched forty percent (40%) of participants’ contributions up to fifteen percent (15%) of their compensation for the years ended December 31, 2018 and 2017.

Participant accounts

Each participant’s account is credited with the participant’s contribution, the Company’s matching contribution, and Plan earnings. Allocations are based on participant compensation or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. The Plan’s allocation requirement is employment by the Company on the last day of the Plan year for the Company’s matching contribution.

Vesting

Participants are immediately vested in employee-elected salary deferral contributions plus actual earnings thereon. Vesting in the Company’s matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of continuous service.

Investment options

Note 1 - Description of the plan (continued)

Participant notes

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or fifty percent (50%) of their vested account balance. Loan transactions are treated as a transfer to (from) the investment funds from (to) the Participant Notes Funds. Loan terms range from one to five years. Loans taken by the participants that are used to acquire a principal residence may provide for a repayment period exceeding five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. The interest rate applied is the prime rate plus 2.00%. Interest rates range from 4.63% to 7.25%. Principal and interest are repaid ratably by the participant through payroll deductions.

Payment of benefits

On termination of service for any reason, a participant or beneficiary may receive a lump-sum payment equal to the vested account balance, receive a partial payment, or elect installment payments.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's fund investments are stated at fair value, as based on quoted market prices and other observable inputs of the underlying assets, in accordance with the "*Fair Value Measurements and Disclosures*" Topic of the FASB Accounting Standards Codification. Participant notes are valued at amortized cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Derivative instruments

Derivative instruments, which are held in certain investments, are primarily investments in futures contracts comprising agreements to purchase or sell a commodity for delivery in the future at a price determined at initiation of the contract. The risk of any given transaction may result in a futures trading loss.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

The Plan's administrative expenses are paid by the Company.

Note 3 - Fair value measurements

The Plan fair values its investments utilizing a hierarchy that prioritizes inputs to the valuation techniques that are used to measure fair value, in accordance with authoritative guidance on fair value measurements and disclosures. Where inputs for an asset fall in more than one level in the fair value hierarchy, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Assets measured at fair value on a recurring basis are comprised of funds held as available-for-sale securities. The three levels of the fair value hierarchy are described below:

- Level 1 - unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 - inputs are unobservable and cannot be corroborated by observable market data.

Fair value of the Plan's fund investments is determined to be Level 1, based on quoted prices in active markets. The underlying investments within each fund may be invested in Level 2 or Level 3.

Realized and unrealized gains (losses) are included in total investment income (loss) on the statements of changes in net assets available for benefits. Realized gains were \$311,244 and \$2,427,358 for the years ended December 31, 2018 and 2017, respectively. Unrealized gains (losses) were \$(45,315,339) and \$48,421,167 for the years ended December 31, 2018 and 2017, respectively.

The following table summarizes the inputs used in valuing the Plan's investments:
