Participants may also rollover amounts representing distributions from other qualified retirement or profit sharing plans. Also under the terms of the Plan, the Company may make a matching and/or discretionary contribution to each participant's account. The Company chose to make matching contributions for the year ended December 31, 2018, based on 25% of each participant's contribution up to the first 4% of their eligible compensation.

The Company may also make non-elective contributions which are not matching contributions. The non-elective contributions may be discretionary or may be utilized to satisfy certain administrative provisions relating to the Plan's operations.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Note 1. Plan Description and Summary of Significant Accounting Policies (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions, (b) the Company's discretionary contributions and (c) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations of Company discretionary contributions are allocated to participants who are active participants on the last day of the Plan year.

Vesting

Participants are 100% vested in their contributions, rollover contributions and earnings on their contributions. Participants shall become vested in their Company discretionary contribution, Company matching contributions and earnings on Company discretionary and matching contributions as follows:

Periods of Service for Vesting	Percent Vested
Less than one year	0%
One year but less than two years	33%
Two years but less than three years	66%
Three years or more	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Company matching contribution accounts and earnings on Company contributions may be used to reduce future Company contributions, pay Plan expenses or allocated to participant accounts. During the year ended December 31, 2018, no amounts were used to reduce Company contributions or to pay Plan expenses. As of December 31, 2018 and 2017, there was approximately $100 of forfeitures available for use.

Plan Benefits

Plan benefits are distributed in a lump sum or in the form of a deferred payout upon normal retirement age of 65, death or total disability prior to retirement. Upon termination of employment by reason other than retirement, death or total disability, a participant may request to receive a cash distribution of his or her account.

Active participants may withdraw any part of their account in a single sum in the event of undue financial hardship or attainment of age 59 ½. Withdrawals made under the provision of attaining age 59 ½ are limited to two such withdrawals in any twelve-month period.

Note 1. Plan Description and Summary of Significant Accounting Policies (continued)

Upon termination but prior to attaining the age of 62 or normal retirement age, a participant's total vested benefit of less than $1,000 (excluding participant rollovers) is subject to an involuntary cash-out distribution even if the participant does not consent to a distribution. Any distribution greater than $1,000 but less than $5,000 (including participant rollover) that is made with the participant's consent will be rolled over to an individual retirement plan with an affiliate of Principal Life Insurance Company.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal and management services without charge to the Plan. Fees related to the administration of notes receivable from participants and certain fees related to distributions are charged directly to participant's accounts and are included in administration expenses. Additionally, plan recordkeeping fees are paid by the Company. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Basis of Presentation

The accompanying financial statements for the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Except for unutilized forfeitures (Note 1), the net assets of the Plan are allocated entirely to participants' accounts.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan trustee to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Revenue Recognition

All investments are carried at fair value or an approximation of fair value except for fully benefit-responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Note 1. Plan Description and Summary of Significant Accounting Policies (continued)

Funding Policy

Contributions for participant deferrals and Company matching contributions are funded on a bi-weekly basis concurrent with each pay period.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Concentrations

As of December 31, 2018 and 2017, one investment accounted for approximately 22% and 21%, respectively, of Plan net assets.

Subsequent Events

The Company has evaluated all events subsequent to December 31, 2018, the date of the statement of net assets available for benefits, through the date of the Independent Auditor's Report, the date which the financial statements were available to be issued.

Note 2. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all amounts credited to their accounts.

Note 3. Tax Status

The Company has adopted a standardized prototype plan which obtained its latest opinion letter on April 29, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision was made for federal income taxes in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 4. Information Certified by the Trustee and Investment Contract Issuer

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Prudential Bank and Trust, F.S.B., the trustee of the Plan, and by Prudential Retirement Insurance and Annuity Company, an investment contract issuer, as complete and accurate, except for comparing such information certified by the trustee and investment contract issuer to information included in the Plan's financial statements and supplemental schedule:

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

Note 5. Fair Value Measurements (continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017:

Mutual funds: These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2018 and 2017:

	Fair Value Measurements Using Input Type			
December 31, 2018	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 4,035,526	$ ---	$ ---	$ 4,035,526
Total investments measured at fair value	$ 4,035,526	$ ---	$ ---	$ 4,035,526

Note 5. Fair Value Measurements (continued)

	Fair Value Measurements Using Input Type			
December 31, 2017	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 4,145,288	$ ---	$ ---	$ 4,145,288
Total investments measured at fair value	$ 4,145,288	$ ---	$ ---	$ 4,145,288

Note 6. Investment Contract with Insurance Company

The Plan participates in a contract with Prudential whereby the assets of the Plan are part of the general assets of Prudential. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account is a fully benefit-responsive investment contract that offers a guarantee on principal and interest by Prudential Retirement Insurance and Annuity Company ("the Issuer"), an affiliate of the trustee.

This investment is valued at contract value which represents the deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement), and upon discontinuation of the contract. There are no market value adjustments when funds are withdrawn.

The guaranteed interest account provides guaranteed interest rates for specified periods of time as determined or allowed by the contract. The rate credited is the rate in effect on the day when each deposit is directed to the funds. The interest crediting rate is determined semi-annually. The minimum crediting rate is 1.50%. The interest crediting rate is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

The guarantees made with regard to the guaranteed interest account are supported by Prudential's general account. There are no reserves against contract value for credit risk of contract issuer or otherwise.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8. Related Party and Party-In-Interest Transactions

The Plan has an investment in a guaranteed interest account which is part of the general assets of Prudential Retirement Insurance and Annuity Company, the Plan's investment contract issuer.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to Prudential Bank and Trust, F.S.B., other investment custodians and investment advisors.

Additionally as noted in Note 1, certain administrative expenses related to participant related activities are paid directly to an affiliate of Prudential Bank and Trust, F.S.B. In addition, certain plan recordkeeping fees may be paid by the Plan. All fees paid directly by the Plan to Prudential Bank and Trust, F.S.B. are included in administration expenses.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 9. Excess Contributions Payable

Contributions received from participants for the plan year ended December 31, 2017 include $17,256 of excess contributions (net of corresponding gains and losses) that were distributed in the subsequent year to certain active participants. The excess deferral contributions, originally contributed during the year ended December 31, 2017, were returned to comply with the participants' applicable maximum annual contributions permitted under the Internal Revenue Code. The amounts are included in the Plan's statements of net assets available for benefits as excess deferrals payable as of December 31, 2017. There were no excess deferrals payable as of December 31, 2018.

Note 10. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500

Net assets available for benefits per the financial statement	$ 5,322,300
