Note 1: Description of the Plan

The following description of the Lieberman Management Services, Inc. Retirement Savings Plan (Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, established January 1, 1995, is a defined contribution profit sharing and 401(k) plan covering substantially all employees of Lieberman Management Services, Inc.; Lieberman Financial Group, LLC and LMS Construction, Inc. (collectively, the Company) and is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Employees of the Company, except those covered by a collective bargaining agreement and nonresident aliens, are eligible to participate in the Plan on the first day of the next month after completing three months of service and attaining age 21.

Contributions

The Plan is funded by voluntary pre-tax and post-tax contributions of participants and discretionary matching and profit sharing contributions of the Company. Eligible employees can elect to contribute to the Plan pre-tax and Roth after-tax deferrals of their compensation, as defined by the Plan, through regular payroll deductions, subject to limitations imposed by the Internal Revenue Code. Employees who do not elect to contribute, and who do not elect to decline to contribute, after meeting the eligibility requirements are automatically enrolled in the Plan at a 3% pre-tax contribution rate.

Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Participants who have attained age 50 before the plan year are eligible to make additional pre-tax contributions, also known as "catch-up" contributions. The Company made discretionary matching contributions of $48,183 to the Plan and no discretionary profit sharing contributions for the year ended December 31, 2018.

Investment Options

Participants direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the plan administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary matching contributions and, if any, an allocation of profit sharing contributions and

an allocation of plan earnings. The Company's discretionary matching contributions are allocated based on a percentage of the participant's contribution. The Company's discretionary profit sharing contribution is allocated as of the last day of the plan year and is based on a ratio of each eligible participant's compensation to total compensation for all eligible participants. Plan earnings are allocated to participant's accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting and Forfeited Accounts

Participants are immediately fully vested in participant and rollover contributions, plus actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 25% vested after two years of service and continues to vest at the rate of 25% for each successive year until 100% vested after five years of service. In the event of death, disability or retirement at designated ages, participants become fully vested.

At both December 31, 2018 and 2017, there were no forfeited nonvested accounts. Any nonvested account balances are used to pay plan administrative expenses and then to offset future Company contributions. Forfeitures of $1,929 and $4,901 were used in the year ended December 31, 2018, to pay plan administrative expenses and offset Company contributions, respectively.

Notes Receivable From Participants

Participants are permitted to take loans from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are collateralized by the borrowers' respective vested account balances and bear interest at the prime interest rate plus 1%. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence for which there can be a longer payment period. Interest rates at December 31, 2018, range from 4.25% to 6.25%.

Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time or a direct rollover distribution.

Administrative Expenses

Certain administrative expenses of the Plan, such as custodian, recordkeeping, accounting and legal services are paid by the Company. Administrative expenses incurred by the Plan include investment management service fees and are charged directly to participant accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). The Plan's investments in mutual fund shares are valued at quoted market prices of shares held by the Plan at year-end. The common or collective trust funds are valued at net asset value (NAV) of units held as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by each fund less its liability. Fully benefit-responsive investment contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administration expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation in the fair value of investments includes the Plan's gains or losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Determination as to when participant loans are considered in default and reclassified as distributions is based on the terms of the plan document.

Benefit Payments

Benefit payments are recorded when paid.

Note 3: Certification of Plan by the Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodian of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017
- Investment income (loss) components and interest income from participant notes receivable, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018
- The investment information and participant loans included in the supplemental schedule of assets (held at end of year) as of December 31, 2018

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1 inputs).

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2018 and 2017.

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2018				
Mutual funds	$ 4,515,596	$ 4,515,596	$ -	$ -
Investments measured at net asset value (A)	59,082	-	-	-
	$ 4,574,678	$ 4,515,596	$ -	$ -
December 31, 2017				
Mutual funds	$ 4,529,146	$ 4,529,146	$ -	$ -
Investments measured at net asset value (A)	32,616	-	-	-
	$ 4,561,762	$ 4,529,146	$ -	$ -

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share practical expedient (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The plan administrator has evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2018				
Common or collective trust funds	$ 59,082	$ -	Daily	None
December 31, 2017				
Common or collective trust funds	$ 32,616	$ -	Daily	None

Note 5: Investment Contract With Insurance Company

The Plan holds an investment contract with Principal Life Insurance Company (Principal), the Principal Fixed Income Guaranteed Option, which is a fully benefit-responsive guaranteed investment contract. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Principal Fixed Income Guaranteed Option is a single group annuity contract held in the insurance company's general account with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets. The fixed rate of interest is contractually determined and guaranteed by Principal's general account. This general account consists of over six thousand different investments, none of which are specifically assigned to this Plan. There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

The crediting interest rate is based on a formula agreed upon with the issuer and will not be less than 1%. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If the plan sponsor were to withdraw or transfer funds within the Plan prior to their maturity, a discontinuation or withdrawal charge of 5% would be incurred on the contract value.

Note 6: Risks and Uncertainties

The Plan invests in various investment options. These investment options are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment options and the level of uncertainty related to changes in the value of the investment options, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 7: Party-in-Interest Transactions

Certain plan investments are managed by Principal Trust Company, the custodian, as defined by the Plan or affiliates of Principal Trust Company; therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for these investment management services are included in the net depreciation in the fair value of investments. The Plan also made direct payments to the custodian of $17,907 in 2018 for administrative expenses. The Company provides certain administrative services at no cost to the Plan.

The terms of the Plan permit loans to participants under certain conditions. These loans, which are party-in-interest transactions, are permitted under ERISA.

Note 8: Tax Status

The Plan has adopted a nonstandardized prototype plan sponsored by Principal Life Insurance Co. The Internal Revenue Service has informed the prototype plan sponsor by an opinion letter dated

March 31, 2014, that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter, however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 9: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 10: Subsequent Events

Effective February 1, 2019, the Plan changed their custodian and record keeper to Fidelity Management Trust Company and Fidelity Workplace Services, respectively.

Subsequent events have been evaluated through July 22, 2019, which is the date the financial statements were available to be issued.
