DYNOMAX, INC. 401(k) SAVINGS RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 1 – Description of the Plan

The following description of the Dynomax, Inc. (Company) 401(k) Savings Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General.
The Plan is a trusteed 401(k) profit sharing plan (defined contribution plan) covering employees of the Company who have attained the age of 21 years and have one year of entry service. Entry service is defined as twelve consecutive months of employment that include at least 1,000 hours of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions and Investment Elections.
Contributions are subject to certain Internal Revenue Code (IRC) limitations. Each year, participants may contribute a portion of pretax or after tax (Roth) annual compensation, as defined in the Plan. In accordance with the IRC, participant contributions were limited to $18,500 in the 2018 Plan year and remain subject to periodic adjustment by the Internal Revenue Service (IRS). Participants 50 years of age by December 31, 2018 were eligible to make catch-up contributions of up to $6,000 for the 2018 Plan year. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or contribution plans.

Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers eighteen mutual funds and one common collective trust account as investment options for participants. The Company may make a matching contribution equal to a uniform percentage of the participant's salary deferrals. In 2018, the Company contributed an amount equal to 100 percent of the first 3% of the participant's salary deferrals and 50% of the participant's deferral over 3% and up to 5%.

C. Participant Accounts.
Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution and, (b) plan earnings. Each participant's account is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting.
Participants are immediately vested in their contributions, safe harbor matching contributions, and actual earnings thereon.

E. Notes Receivable from Participants.
Participants may borrow from their account in amounts from a minimum of $1,000 up to a maximum of the lesser of 50% of their vested account balance or $50,000. Participants may not have more than one loan outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with rates available for similar loans from commercial lending institutions as determined periodically by the plan administrator. Principal and interest payments are due at least quarterly, and are paid ratably through payroll deductions. Outstanding loan balances at December 31, 2018 are being paid bi-weekly through payroll deductions. A loan is considered to be in default on the last day of a calendar year quarter following a quarter which loan payments were not made in accordance with the terms of the promissory note. Related interest income totaled $7,604 for the year ended December 31, 2018.

F. Hardship Withdrawals.
If a Plan participant has a financial hardship, he or she may withdraw an amount up to the elective deferral contributions thereon.

G. Payment of Benefits.
A participant may withdraw the total vested amount in their account as a result of either: (i) termination of employment, (ii) reaching age 59 ½, (iii) disability or (iv) death. The full value of the participant's account may be distributed to the participant upon retirement or permanent disability if elected by the participant and is subject to income taxation upon distribution. If death occurs before retirement, the full value of the participant's account is distributed to designated beneficiary(ies). On termination of service, a participant with a vested account balance may only elect to receive a lump-sum amount equal to the value of the participant's vested interest in his account. If the participant account balance (excluding any rollover contribution account) is greater than $5,000 as of the valuation date coincident with or immediately following the termination of employment, the participant may choose to receive a lump-sum distribution or defer receiving payments until the participant reaches age 70 ½ and is subject to required minimum distributions.

H. Forfeited Accounts.
These accounts are used to reduce future employer contributions after the forfeiture is determined. In 2018 employer contributions were reduced by $0 from forfeited accounts.

I. Administrative Expenses.
The employer bears most of the costs of administrating the Plan.

Note 2 – Summary of Significant Accounting Policies

A. Basis of Accounting.
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

B. Estimates.
The preparation of financial statements in conformity with the accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

C. Operating Expenses.
The Plan incurs fees from the third party administrator for administrating the Plan. The total fees paid were $40,892 for the year ended December 31, 2018.

D. Investment Valuation and Income Recognition.
The fair value of assets is determined using various methods, which are impacted by a number of factors, including the availability of observable market data over the contractual term of the underlying assets. For some of the Plan's assets, fair value is determined based on directly observable market data or data available for similar assets in similar markets. For other assets, the fair value may be determined based on these inputs as well as other assumptions related to estimates of these assets, such as the creditworthiness of the issuer. Changes in net unrealized appreciation or depreciation are captured in the carrying value of the underlying investments in the Statements of Net Assets Available for Benefits in accordance with accounting principles generally accepted in the United States.

Plan investments in mutual funds are stated at fair value based upon quoted market price. Shares of common/collective trust funds are valued at net asset value.

Purchases and sales of investments are recorded on a trade-date basis. Dividends and interest are recorded when earned. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

E. Payment of Benefits.
Benefits are recorded when paid.

F. Notes Receivable from Participants
Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Note 3 – Fair Value Measurements

Accounting Standard Codification Topic 820 (formerly SFAS No. 157, *Fair Value Measurements*), defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Standard requires disclosure of the extent to which fair value is used to measure financial and non-financial assets and liabilities, the inputs utilized in calculating valuation measurements, and the effect of the measurement of significant unobservable inputs on earnings, or changes in net assets, as of the measurement date. The Standard establishes a three-level valuation hierarchy based upon the transparency of inputs utilized in the measurement and valuation of financial assets or liabilities as of the measurement date as follows:

Level 1 - unadjusted, quoted prices for identical assets or liabilities in active markets;

Level 2 - quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted market prices that are observable or that can be corroborated by observable market data by correlation;

Level 3 - unobservable inputs based upon the reporting entity's internally developed assumptions that market participants would use in pricing the asset or liability.

The Company's evaluation of Plan financial assets and liabilities that meet the criteria of the aforementioned disclosure requirements and that fall within the fair value framework of the Standard are discussed below.

		Fair Value Measurements Using:		
	Fair Value	Level 1	Level 2	Level 3
December 31, 2018				
Mutual Funds	$ 7,184,849	$ 7,184,849	$ -	$ -
Common Collective Trusts	404,785	-	404,785	-
Total Investments	$7,589,634	$ 7,184,849	$ 404,785	$ -

		Fair Value Measurements Using:		
	Fair Value	Level 1	Level 2	Level 3
December 31, 2017				
Mutual Funds	$ 7,102,520	$ 7,102,520	$ -	$ -
Common Collective Trusts	341,290	-	341,290	-
Total Investments	$ 7,443,810	$ 7,102,520	$ 341,290	$ -

Level 1 - Mutual Funds
Plan investments include mutual funds. The Company determined that valuation measurement inputs of these equity securities required no adjustment from the quoted market prices. As such, the Plan's investment in mutual funds reflect unadjusted quoted prices from active markets. Accordingly, the Company classified these Plan investments within Level 1 of the Standard's hierarchy framework.

Level 2 - Common / Collective Trust Funds
The Plan has investments in a common / collective trust fund. The Company determined the valuation measurement inputs of all common / collective trust fund investments reflect prices based upon quoted market prices utilizing public information and required no independent third-party valuation or pricing services. Accordingly, the Company concluded that the valuation measurement inputs of these securities reflect, at the lowest level, quoted market prices for identical or similar assets in markets where there are few transactions for the assets and categorized such investments within Level 2 of the Standard's hierarchy framework.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2018 and 2017, respectively.

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 6 – Tax Status

The Internal Revenue Service has determined and informed the custodian in a letter dated March 31, 2014 that the Volume Submitter Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan administrator and the Plan's trustee believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan administrators to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, concentration and credit risks. Although the Plan attempts to offer a diversified selection of investments, due to the level of risk associated with certain investment securities and certain investment markets, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 10 – Subsequent Events

The Company's management has performed an analysis of the activities and transactions subsequent to December 31, 2018 to determine the need for any adjustments to and/or disclosures within the audited financial statements for the year ended December 31, 2018. Management has performed their analysis through July 24, 2019, the date that the financial statements were available to be issued.
