Employee Savings Plan of Continental Graphics Corporation

Notes to Financial Statements

Note 1 – Description of the Plan

The following description of the Employee Savings Plan of Continental Graphics Corporation (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a non-standardized prototype defined contribution 401(k) plan covering certain employees of Continental Graphics Corporation and its subsidiary Inmedius, Inc. (collectively, the Company). An employee becomes eligible to participate in the Plan on the first day of the month following or coincident with the date they attain age 21 and complete 30 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration – Charles Schwab Bank (Schwab) is the trustee of the Plan.

Contributions – Contributions to the Plan are in the form of salary reductions which participants have elected to defer in lieu of current compensation. Participants may elect to contribute, subject to statutory limitations, up to 100% of their eligible compensation. Participants age 50 or older are allowed to make catch-up contributions. The Plan allows active employees to contribute to the Plan from pre-tax compensation, after tax compensation or a combination of both. Participants may elect to change contribution percentages to be effective the next pay period after the request is received or as soon as administratively possible. The allocation of both participant and employer contributions to the funds may be changed at any time and become effective on the day of the change or the next business day based on the day and time the request for a change is made in relation to the stock market close of business. The Plan also accepts certain rollover contributions.

Full-time employees are eligible for the employer matching contribution. Part time employees are eligible for the employer matching contribution in any year they complete 1,000 or more hours of service in a consecutive 12-month period. The Company does not match catch-up contributions. The Company matches 75% of each eligible employee's contributions up to 8% of the employee's eligible compensation.

As a result of the freezing of employee pension contributions and pay-based benefit accruals for participants in the Continental Graphics Employee Pension Plan (Pension Plan) effective January 1, 2016, beginning January 1, 2015, the Company is making Company contributions to the Plan for employees hired on or after January 1, 2006 as follows:

- 3% of eligible compensation for those under age 40
- 4% of eligible compensation for those age 40–49
- 5% of eligible compensation for those age 50 and over

Employee Savings Plan of Continental Graphics Corporation

Notes to Financial Statements

Note 1 – Description of the Plan (continued)

Also as a result of the freezing of the employee pension contributions and pay-based benefit accruals for participants in the Pension Plan, effective January 1, 2016, the Company is making additional Company contributions to the Plan for all eligible Company employees who are participants in the Pension Plan as follows:

- 9% of eligible compensation in 2016
- 8% of eligible compensation in 2017
- 7% of eligible compensation in 2018

Participant accounts – Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, any employer contributions, and allocations of Plan earnings (losses) from the funds in which the account is invested, and charged with an allocation of expenses and participant-specific charges, if applicable. Allocations are based on participant earnings (losses), account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their rollover and elective contributions including accumulated earnings. A participant is 100% vested in employer contributions after one year of credited service and also upon death, disability, or reaching early or normal retirement age. Generally, a participant must work at least 1,000 hours during a consecutive 12-month period to earn a year of service for vesting purposes.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and may be used to pay administrative expenses or reduce future employer contributions. At December 31, 2018 and 2017, forfeited amounts held under the Plan totaled \$8,910 and \$4,655, respectively. During the year ended December 31, 2018, \$4,753 in forfeitures were used to reduce employer contributions.

Withdrawals – Participants may elect to withdraw all or a portion of their pre-tax and after tax contribution accounts and rollover accounts at any time on or after the day the participant attains age 59-1/2. If a participant is under age 59-1/2, withdrawals from pre-tax and after tax contribution accounts are subject to certain hardship rules as provided by the Plan. If a participant takes a hardship withdrawal, the participant's salary deferrals are suspended for six months from the date of the hardship withdrawal.

Notes receivable from participants – Participants are permitted to borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their total vested account balance at the time of the loan issuance and may have only one loan outstanding at any time. Loans receivable from participants must be repaid within five years or within ten years if the loan is for the purchase of a primary residence. The interest rate for the loan is established at the time the loan is originated based on prevailing commercial rates. Interest rates on outstanding loans ranged from 4.25% to 7.50% at December 31, 2018, with loans maturing at various dates through January 2028.

Notes to Financial Statements

Note 1 – Description of the Plan (continued)

Benefit payments – On termination of service, if the participant's vested balance (excluding rollover contributions) is \$5,000 or less, the balance will be distributed to the participant in a lump sum as soon as administratively feasible. Upon a participant's death or retirement due to total and permanent disability, a participant's account balance becomes fully vested and non-forfeitable and will be distributed in a lump sum as soon as administratively feasible. If a participant makes no distribution election, annual distributions of the required minimum amount will begin after age 70-1/2.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates – The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties – The Plan's investments are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Valuation of investments and income recognition – The Plan's investments are stated at fair value. Fair value of the financial instrument is the price that would be received to sell an asset or paid to transfer a liability ("exit price") in an orderly transaction between market participants at the measurement date. The Plan's investments are valued as follows:

Mutual funds and money market fund – The Plan's investments in mutual funds, which are registered investment companies, and the money market fund are valued at the net asset value of shares held by the Plan at year end as quoted in an active market.

Self-directed brokerage accounts – The Plan's investments in self-directed brokerage accounts may include stocks, mutual funds, exchange-traded funds, and fixed income investments such as corporate and government bonds and are valued using quoted market prices of the investments.

Purchases and sales of securities are recorded on a trade-date basis, and dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis of accounting. Net appreciation or depreciation in fair value of investments consists of gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of benefits – Benefits are recorded when paid.

Expenses – Necessary and proper expenses of the Plan are paid from the Plan's assets, except for those expenses the Company is required by law or chooses to pay.

Subsequent events – The Plan has evaluated subsequent events through July 24, 2019, the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

Accounting Standards Codification (ASC) 820 established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in non-active markets, or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 – Fair Value of Measurements (continued)

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments by general types of assets measured at fair value on a recurring basis at December 31, 2018 and 2017. As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's policy is to recognize significant transfers between levels, if any, at the beginning of the reporting period.

There were no transfers to or from Level 3 during the year ended December 31, 2018.

Note 4 – Information Certified by the Trustee

The following summary of unaudited information included in the Plan's financial statements and supplemental schedule of assets (held at end of year) was certified by Schwab as of December 31, 2018 and 2017, and for the year ended December 31, 2018. The information was furnished to the Plan administrator, and the Plan administrator has obtained certifications from Schwab that the following information is complete and accurate:

- Investments at fair value as of December 31, 2018 and 2017
- Noninterest-bearing cash as of December 31, 2017
- Notes receivable from participants as of December 31, 2018 and 2017

Notes to Financial Statements

Note 5 – Tax Status

The Plan is based on a prototype non-standardized defined contribution plan that received an advisory letter dated June 19, 2014, in which the Internal Revenue Service stated the prototype plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the date of the advisory letter, however, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan's tax-exempt status has not been affected, and no provision for income taxes has been included in the Plan's financial statements.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, any employer contributions and earnings thereon would become fully vested, and both participant and employer contributions (including any income earned) would be distributed to the participants.

Note 7 – Related-Party Transactions

The Plan invested in a money market fund sponsored by an affiliate of Schwab. Therefore, these transactions qualify as exempt party-in-interest transactions.
